

California Promise Program

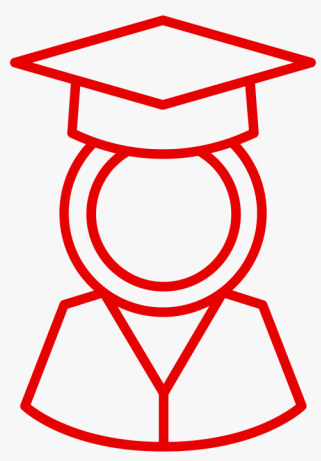

Roadmap to Success

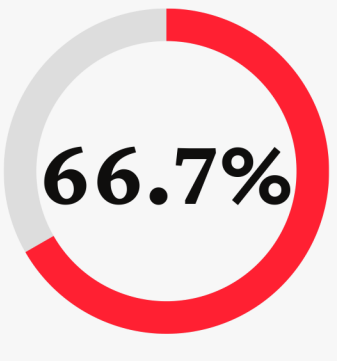

Save time and graduate within 2-years or less

"The California Promise Program has helped me plan out my classes in the most efficient manner as I decided to add a Spanish minor and the Spanish translation certification, on top of my psychology major. The advisors were extremely helpful and always happy to assist you in any way possible. Thanks to them, I was able to have an easy and smooth transition during my first year at CSUCI as a transfer student."
