

Deadlines

from the Grants Resource Center

October 09, 2009

This publication includes deadline dates for the month of January 2010 and late announcements for the months of December 2009 and November 2009. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk () are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.**

Program: MBRS Research Initiative for Scientific Enhancement (RISE)

Agency: National Institutes of Health

Next Deadline: Jan 16, 2010

Provides institutional support (R25) for minority serving institutions (usually more than 50 % minority student enrollment; institutions with lower than 50% may apply if it can demonstrate long-standing commitment to minority faculty & students). Supports full-time faculty & student development activities, as well as institutional research & education capability. Allowable costs include salary, consultant fees, equipment, travel, renovations, and publication costs & supplies. Limited submission: one application per institution. Expires 9/19/10. See <http://grants1.nih.gov/grants/guide/pa-files/PA-06-548.html> E-mail: zlotnikh@nigms.nih.gov

Program: MBRS Support of Continuous Research Excellence (SCORE)

Agency: National Institutes of Health

Next Deadline: Jan 25, 2010

Supports several mechanisms (SC1-Research Enhancement; SC2-Pilot Projects; SC3-Research Continuance Award) for the development of research faculty at minority-serving institutions that are committed to improving competitive research programs & increasing number of underrepresented minorities professionally engaged in biomedical research. Appropriate disciplines include all areas of biomedical & behavioral research. Research must be faculty-initiated, & may include pilot projects. PARs expire 9/8/11. See <http://www.nigms.nih.gov/Research/Mechanisms/MBRSAwards.htm> for details. E-mail: zlotnikh@nigms.nih.gov

Program: Postbaccalaureate Research Education Program (PREP)

Agency: National Institutes of Health

Next Deadline: Jan 22, 2010

Supports research training & education (R25) of recent baccalaureate graduates from groups underrepresented in biomedical & behavioral research areas, who plan to pursue Ph.D. degrees. This research apprenticeship serves as an educational transition for recent baccalaureate graduates who need to acquire essential academic credentials and research skills to make them more competitive for PhD programs. Direct costs are limited to \$350,000 annually. Limited submission: one application per institution. PA expires 1/23/10. See <http://grants.nih.gov/grants/guide/pa-files/PA-07-432.html> for details. Program: Dissemination, Implementation, & Operational Research for HIV Prevention

Agency: National Institutes of Health

Next Deadline: Jan 07, 2010

NIMH, NICHD & NINR support research (R01; R03; R21; R34) to enhance the science of technology transfer, dissemination, implementation, & operational research for evidence-based HIV-prevention interventions. Studies are particularly encouraged to capitalize on intervention dissemination services, trainings, & evaluation conducted by the CDC. It is a good idea to contact NIMH because, when appropriate, NIH program staff will liaise with CDC program staff. Expires 5/8/11. Program: Collaborative Neurological Sciences (CNS) Award

Agency: National Institutes of Health

Next Deadline: Jan 25, 2010

NINDS & NIAAA support expanding neuroscience research opportunities (S11) for faculty, students, & fellows at minority institutions. Encourages collaborative research investigations between scientists at minority institutions & scientists from external research laboratories that currently have NIH or equivalent external grant support to conduct neuroscience research. Applicants may request a project period of up to five years & a budget of up to \$200,000 per year, which may include up to \$75,000 for the collaborator. PA expires 5/8/10. Program: Integrating Biobehavioral & Sociocultural Research to Prevent HIV Transmission

Agency: National Institutes of Health

Next Deadline: Jan 07, 2010

NINR, NIDA, NIMH, NIAID & NICHD support theoretically grounded approaches (R01; R21) to prevention of HIV infection & transmission that incorporate biobehavioral studies that are culturally appropriate. Biobehavioral approaches may be biomedical, or they may consist of behavioral interventions using biological markers of efficacy. Sociocultural appropriateness involves, at minimum, application of knowledge of the norms, beliefs & values of potential research subjects in varied contexts. Expires 5/8/11. Program: Research & Education Program Grants & Awards

Agency: Radiological Society of North America

Next Deadline: Jan 10, 2010

Supports 18 different research, training, and education programs (predoc. & postdoc.) to ensure that radiology stays at the cutting edge of imaging, diagnosis and treatment. Emphasis of current programs is to stimulate promising young researchers to pursue careers in radiologic research. Awards are grouped into three major categories: Research Grants (1/15); Education Grants (1/10); and Research Medical Student Grants (2/1). All grant applicants must be RSNA members. Agency: National Science Foundation

Next Deadline: Jan 09, 2010 (*target date*)

Supports research in taxonomy & systematics that contributes to 1) using phylogenetic methods to understand the evolution of life in time & space, 2) discovery, description, & cataloguing global species diversity, & 3) organizing that information in efficiently retrievable forms that best meet the needs of science & society. Program accepts proposals for Opportunities for Promoting Understanding through Synthesis (OPUS) and other opportunities. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12825 for details. E-mail: mkearney@nsf.gov

CFDA Number: N/A

Contact: Maureen Kearney, Program Director
Division of Environmental Biology
4201 Wilson Boulevard
Arlington, VA 22230
703/292-7187

Program: Behavioral Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports research on development, function, mechanisms, & evolutionary history of behavior, with emphasis on a vertically integrated understanding of the behavioral phenotype in nature. Specifically encourages projects that seek to understand how combinations of neural, hormonal, physiological, & developmental mechanisms act synergistically as a system from which behavior emerges. Lab work or the study of animals in captivity is encouraged when necessary. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501086 for details. E-mail: dwiemann@nsf.gov

Arlington, VA 22230
703/292/8423

Program: Developmental Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports research aimed at understanding how interacting developmental processes give rise to the emergent properties of organisms. A systems level approach using molecular, genetic, biochemical, & physiological techniques, as well as techniques from outside biology, is needed. 3 program areas: Plant, Fungal, & Microbial Developmental Systems; Animal Developmental Systems; & Evolution of Developmental Systems. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501087 for details. E-mail: sklein@nsf.gov

CFDA Number: 47.051

Contact: Steven Klein, Program Director

4201 Wilson Boulevard
Arlington, VA 22230
703/292-8417

Program: Neural Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports research on how complex functions emerge from the interactions of the cellular elements of the nervous system & the interactions of the nervous system with other physiological systems. Development & use of new theoretical approaches & computational models to guide & instruct experimental design are particularly encouraged. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501089 for details. E-mail: dwitt@nsf.gov

703/292-8421

Program: Physiological and Structural Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports research aimed at furthering the understanding of organisms as integrated units of biological organization. Projects that use systems approaches to understand why particular patterns of architecture & regulatory control have emerged as general organismal properties are particularly encouraged. 3 program areas: Symbiosis, Defense, & Self-recognition; Processes, Structures, & Integrity; & Organism-Environment Interactions. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501090 for details. E-mail: mmishkin@nsf.gov

703/292-8413

Program: Biomolecular Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports fundamental research in the areas of molecular biophysics, molecular biochemistry, & metabolic biochemistry. Emphasizes the relationships among structure, function, & dynamics in studies of individual macromolecules, macromolecular complexes, & metabolic pathways. Research of interest includes novel & creative projects addressing protein folding and dynamics, natively unfolded proteins, protein design, molecular recognition, & metabolic pathways. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12771 for details. E-mail: kshukla@nsf.gov

Program: Genes and Genomes Systems

Agency: National Science Foundation

Next Deadline: Jan 12, 2010 (*target date*)

Supports studies on genomes & genetic mechanisms in all organisms. Research can focus on the structure, maintenance, expression, transfer, & stability of genetic info in DNA, RNA, & proteins & on how those processes are regulated. Areas of interest include genome organization, molecular & cellular evolution, replication, recombination, repair, vertical & lateral transmission of heritable information, & the processes that mediate & regulate gene expression. Program: Discovery Research K-12 (DR-K12)

Agency: National Science Foundation

Next Deadline: Jan 07, 2010

Enables significant advances in preK-12 student and teacher learning of the STEM disciplines through the development, implementation, & study of resources, models, & technologies for use by students, teachers, & policymakers. Funded activities begin with a research question about effective preK-12 STEM learning and teaching; develop, adapt, or study innovative resources, models, or technologies; and demonstrate if, how, for whom, and why their implementation affects learning. Deadline refers to full proposals. Optional preliminary proposals were due 10/5/09. See

Program: Community Food Projects
Competitive Grants Program

Agency: U.S. Department of Agriculture

Next Deadline: Nov 19, 2009

Supports development of community food projects designed to accomplish the following: meet food needs of low-income people; increase self-reliance of communities in providing for their own food needs; & promote comprehensive responses to local food, farm, & nutrition issues. Projects should take broad-based approach & develop long-term solutions for food security in communities. Only private nonprofits can apply, but IHEs can partner. See <http://www.csrees.usda.gov/fo/fundview.cfm?fonum=1080> for details. Email: etuckermanty@csrees.usda.gov

Program: SPECA Grants Program

Agency: U.S. Department of Agriculture

Next Deadline: Jan 15, 2010

Promotes and strengthens teaching programs in agriscience and agribusiness at secondary and two-year postsecondary institutions by enhancing curricula, increasing faculty teaching competencies, and promoting higher education to prepare students for incorporating agriscience or agribusiness subject matter into other instructional programs. Two year institutions as well as institutions with two- year programs are eligible.. See http://www.csrees.usda.gov/funding/rfas/sec_challenge.html for details. Email: SPEC@csrees.usda.gov.

Program: Graduate Sciences Program (GSP)

Agency: U.S. Department of Commerce

Next Deadline: Jan 22, 2010

Goal is to increase opportunities for students in NOAA-related fields to pursue research educational training in atmospheric, environmental, remote sensing oceanic sciences at minority serving institutions (MSI). Objective is to provide college graduates with educational training in math, science, economics, law, social science, & engineering entry-level employment and hands-on research and work experience at NOAA. See http://www.epp.noaa.gov/ssp_grad_sciences_page.html for details. Email: [priti.brahma@noaa.gov](mailto:pritti.brahma@noaa.gov)

Program: Sea Grant Programs

Agency: U.S. Department of Commerce

Next Deadline: Jan 15, 2010

Sea Grant is a nationwide network of 32 university-based programs that work with coastal communities. Currently offers: Sea Grant/Regional Team Climate Engagement (9/1); Joint Graduate Fellowship Program in Population Dynamics and Marine Resource Economics (1/15); and John A. Knauss Marine Policy Fellowship (2/10) Other programs available with varying deadlines. See <http://www.seagrant.noaa.gov/funding/rfp.html> for details.

Program: NOAA Climate and Global Change Postdoctoral Fellowship

Agency: U.S. Department of Commerce

Next Deadline: Jan 15, 2010

Program pairs recently graduated postdocs with host scientists at U.S. institutions to observe, understand, model, & predict the climate system on seasonal-to-centennial time scales & assessing the regionally specific socioeconomic consequences of climate variability. Applications are solicited from qualified postdoctoral candidates. Preference is given to those who have held a Ph.D. for no more than five years. See <http://www.vsp.ucar.edu/> for details. Program: Coastal Management Fellowship Program

Agency: U.S. Department of Commerce

Next Deadline: Jan 29, 2010

Any student completing a master's, doctoral, or professional degree program in natural resource management or environmental-related studies at a U.S. university is eligible. Students from a broad range of environmental programs are encouraged to apply. Program matches students with state coastal zone programs to work on projects proposed by the state & selected by the fellowship sponsor. See <http://www.csc.noaa.gov/cms/fellows.html> for more details. Email: csc.fellowships@noaa.gov

Program: IC Postdoctoral Research Fellowship Program

Agency: U.S. Department of Defense

Next Deadline: Jan 29, 2010 (*tentative*)

Program seeks to establish long term relationships and mentoring of postdoc researchers and to provide research institutes with an understanding of the Intelligence Community's research requirements. Fellowships are two-year awards at about \$120,000 per year with an optional third year. Ten to 20 fellowships are awarded annually. See <http://www.dcipostdoc.org/> for details. Program: ONR Summer Faculty Research Program & Sabbatical Leave Program

Agency: U.S. Department of Defense

Next Deadline: Dec 04, 2009

Summer Faculty Research Program (ddl 12/4/09) supports science & engineering faculty for 10-weeks, beginning in May. Consists of three levels: Summer Faculty Fellow, Senior Summer Faculty Fellow, and Distinguished Summer Faculty Fellow. Sabbatical Leave Program (apps due 6 months prior to start) provides appointments for a minimum of one semester to a maximum of one year. Participants receive monthly stipend making up the difference between salary & sabbatical leave pay from home institution. Both programs are residential, on site at sponsoring U.S. Navy Laboratory. See <http://www.asee.org/summer/> for details. E-mail: a.hicks@asee.org

Program: Small Business Innovation Research (SBIR) Program

Agency: U.S. Department of Energy

Next Deadline: Nov 20, 2009

DOE supports high-quality research or R&D in topic areas concerning important mission-related scientific or engineering problems & opportunities that are likely to lead to significant public benefit if the research is successful. Partnership opportunities are available. Deadline refers to Phase I applications-- up to \$100,000 each. See <http://sbir.er.doe.gov/sbir/> for details. E-mail: sbir_sttr@science.doe.gov

Program: Small Business Technology Transfer (STTR) Program

Agency: U.S. Department of Energy

Next Deadline: Nov 20, 2009

STTR grants must involve substantial cooperative research collaboration between the Small business & a single research institution to perform the R&D required to meet the DOE objectives stated in the Phase I program solicitation. Supports small businesses (67% of work) with strong collaboration from university researchers. Deadline refers to Phase I applications-- up to \$100,000 each See <http://sbir.er.doe.gov/sbir/> for details. E-mail: sbir_sttr@science.doe.gov

Program: Global Change Education Program (GCEP)

Agency: U.S. Department of Energy

Next Deadline: Dec 31, 2009

Supports undergraduate and graduate training in support of OBER's global change research activities, which encompass a wide variety of study areas, including atmospheric sciences, ecology, global carbon cycles, climatology, & terrestrial processes. The two components of GCEP are: the Summer Undergraduate Research Experience (SURE) and Graduate Research Environmental Fellowships (GREF). U.S. citizenship is required for application to any of the GCEP projects. See <http://www.atmos.anl.gov/GCEP/Applications/index.html> for details. E-mail: rick.petty@science.doe.gov

Program: Environmental Studies Program (ESP)

Agency: U.S. Department of the Interior

Next Deadline: Dec 02, 2009

Supports research to predict, assess, and manage impacts from offshore gas, oil and marine mineral exploration, development, and production activities on human, marine, and coastal environments. Of interest are studies to characterize living resources in the marine environment and effects of disturbances related to Outer Continental Shelf gas and oil activities, such as noise, routine drilling discharges, accidental spills, fuel combustion emissions and habitat alteration. Announcements appear in the FedBizOpps. See <http://www.mms.gov/eppd/sciences/esp/index.htm> for details. E-mail: James.Cimato@mms.gov

Program: P3 Award: A Student Design Competition for Sustainability

Agency: U.S. Environmental Protection Agency

Next Deadline: Jan 05, 2010

Supports undergrad and grad teams at IHEs to create partnerships with public/private sectors. Grants awarded to research, develop & design sustainable solutions to environmental challenges. Interdisciplinary teams from multiple engineering departments &/or departments of chemistry, architecture, industrial design, business, economics, policy, social science, and others are encouraged. In FY 10, up to \$850,000 is available to support approximately 40 awards. See http://epa.gov/ncer/rfa/2010/2010_p3.html E-mail: stelz.william@epa.gov

Program: UNCF/Gates Millennium Scholars
Program

Agency: United Negro College Fund (UNCF)

Next Deadline: Jan 11, 2010

Provides financial assistance to 1,000 new minority (African American, American Indian/Alaska Native, Asian Pacific Islander American, or Hispanic American) college students per year in mathematics, science, engineering, education, or library science. Goal is to expand access to higher education and to encourage students to complete college and continue into master and doctoral programs. Students must have a 3.3 GPA, be enrolled full-time in an accredited college or university, and have significant financial need. See <http://www.uncf.org/forstudents/gatesscholarship.asp> for details.
