Policy on Use of University Buildings and Grounds

PURPOSE:

Policy on Use of University Buildings and Grounds

Text:
The University permits individuals and groups to use campus buildings and grounds for activities other than scheduled instruction. While this is so, it is recognized that the facilitation of scheduled instruction is the institution’s highest scheduling priority. The second priority is the scheduling of activities and events that directly support the instructional mission such as: scholarly and creative activities organized by faculty and students; visual and performing arts; co-curricular programs; intercollegiate or recreational meets and activities; public programs offered by Extended University; administrative activities; camps and conferences; grant and contract activities; and student recruitment and yield-enhancing events and programs. The third scheduling priority is hosting activities and events that may not support the institutional mission. Events that fall under this category can include, but are not limited to, sporting events, special occasions and meetings.

The President has established a Conferences & Events office (C&E) for the purpose of approving and establishing time, place, and manner directives for all activities or events other than scheduled instruction. Decisions rendered by the C&E may be appealed to the Vice President for Business and Financial Affairs.

Additionally:
The President may delegate to specific organizations authority to schedule University facilities, including the grounds. Where use of specific facilities is covered by separate agreements approved by the President, the procedures adopted by the separate agencies shall be followed for the lease of those facilities. This provision includes:

- Foundation
- Extended University
- Associated Students, Inc.
- University Glen Corporation, Inc.
- Site Authority

The right to use University facilities does not confer the right to use the University name or to imply University sponsorship or endorsement of an event. The University name and/or logo may be used if it is in the best interest of the University as determined by the Director of Communications and Marketing.
