Dear Students,

Welcome to the 2006/2007 academic year at California State University Channel Islands.

You don’t need to look far to see that you have enrolled in a thriving, exciting, growing University. What may first strike you, when you arrive on campus, is the impressive growth of the physical campus itself. In one direction, work is well underway on the John Spoor Broome Library. At the other end of campus, ground has been broken for the second phase of student housing. And we are continually working on projects such as the renovation of additional classroom space.

While we are extremely grateful that we have been able to embark on all of these striking architectural ventures, it is the rapid growth in our offering of academic programs, coupled with the steadily increasing numbers of enrolled students that mean the most to us.

Thanks to tireless work on the part of our faculty, staff, and administrators, we are continuing our focus to provide and encourage interdisciplinary learning while planning to add vital programs such as nursing, communication, and Chicano/a Studies.

As more and more students are learning about all that is now available here, CSUCI is quickly becoming a destination college for the men and women of this region and beyond.

At Cal State University Channel Islands we are committed to providing you with the tools, environment, and learning experiences that truly will Open Doors to the World for your future.

Sincerely yours,

Richard R. Rush
President
Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information, which pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office. Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

University Catalog
The California State University Channel Islands catalog is published to help prospective and continuing students make informed decisions to fulfill their academic goals. This catalog is available at the University Library for reference, at the Student Bookstore for purchase, and can also be viewed online at the CSU Channel Islands web site at: www.csuci.edu

California State University Channel Islands
One University Drive
Camarillo, CA 93012

CSUCI Home Page: http://www.csuci.edu
CSUCI Web Service Portal: http://my.csuci.edu/

Five Ways to Find Information about CSU Channel Islands

1. Use the Table of Contents in this catalog
2. Check the Index at the end of this catalog for an alphabetical list of virtually everything you might need to know about CSU Channel Islands. Page numbers will direct you to the appropriate information.
3. Check the Schedule of Classes. Every semester, important information is published in a separate Schedule of Classes which is available at the Student Bookstore, the Enrollment Center in the Sage Hall, and throughout the Bell Tower Building. The Schedule of Classes is also available online at www.csuci.edu. The Schedule of Classes contains information about current course offerings, new and revised curriculum and policy changes, and academic calendars. It also provides updates on fees and costs, and other important information (such as the time and location of individual classes).
5. Telephone numbers are listed throughout this catalog. If you need more information about a topic and cannot find a telephone number, dial the CSU Channel Islands general information line at (805) 437-8400.

We hope you find this catalog convenient and easy to use. If you have ideas about how we could improve this catalog, please e-mail your suggestions to Stephen Lefevre at stephen.lefevre@csuci.edu. Thank you!

About the California State University System (CSU)
THE CALIFORNIA STATE UNIVERSITY

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became the California State University and Colleges, and in 1982 the system became the California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest--CSU Channel Islands--opened in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All the campuses require for graduation a basic program of “General Education Requirements” regardless of the type of bachelor’s degree or major field selected by the student.

The CSU offers more than 1,800 bachelor’s and master’s degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 2005 totaled 405,000 students, who were taught by some 22,000 faculty. The system awards about half of the bachelor’s degrees and a third of the master’s degrees granted in California. Nearly 2 million persons have been graduated from CSU campuses since 1960.

THE CALIFORNIA STATE UNIVERSITY
INTERNATIONAL PROGRAMS

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 18 countries, the International Programs also offers a wide selection of study locales and learning environments.

- The Hebrew University of Jerusalem
- University of Haifa

About the California State University System (CSU)
International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Additional information and application materials may be obtained on campus, or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us on the World Wide Web at www.gateway.calstate.edu/csuinternet/.
Introduction to CSU Channel Islands
CALIFORNIA STATE UNIVERSITY CHANNEL ISLANDS HISTORY

Located only minutes from the Pacific Ocean at the northern end of the Santa Monica Mountains, California Statue University Channel Islands is truly breathtaking. The entrance to the campus winds alongside lush agricultural fields, orchards, and picturesque foothills. Equally compelling is the campus architecture. Built in the early part of the twentieth century, the sprawling 1930’s Spanish revival buildings house a state-of-the-art, 21st century university.

Planning for a public, four-year university began in 1965 when then Governor Pat Brown signed a bill authorizing a study for a state college for Ventura County. In 1974, Dr. Joyce Kennedy established the UC/CSU Ventura Learning Center. She went on to serve as director of the CSUN Ventura Campus for more than 15 years.

In 1996, J. Handel Evans began as Planning President charged with beginning development of a public, four-year university in the region. In September 1997, on the recommendation of the chancellor and a community task force appointed by the Governor, the CSU Board of Trustees voted unanimously to accept the former Camarillo State Hospital site for the purpose of transforming it into the CSU’s 23rd campus. In July 1996, the CSU Board of Trustees formally adopted the name California State University Channel Islands for the new University. In September 1997, Governor Wilson signed into law S.B. 623 (O’Connell) providing for the financing and support of the transition of the site for use as a university campus. Shortly thereafter, the state legislature and the CSU Board of Trustees, provided funds to begin the conversion of the facility from a state hospital into a college campus.

The CSU Board of Trustees appointed Richard R. Rush president of California State University Channel Islands and Dr. Rush’s formal inauguration was held on April 2002. During the course of establishing the initial structures of the University, Dr. Rush has overseen and been directly involved in the hiring of faculty and the University’s senior staff. In addition, he has directed the development of the University’s strategic, academic and physical master plans.

THE MARTIN V. SMITH SCHOOL OF BUSINESS AND ECONOMICS

The University’s first school has been named after the late Martin V. (“Bud”) Smith, one of Ventura County’s most well-known builders and philanthropists. Established in 2006 from an $8 million gift from the Smith family and foundation, the Martin V. Smith School of Business and Economics seeks to promote excellence in faculty teaching and research and provide scholarships for outstanding students. The funds also support an endowed professorship, entitled the Martin V. Smith Professorship in Land Use Studies, and the construction of the Martin V. Smith Center for Integrative Decision-Making, which will provide business students with high-level, real-life business learning opportunities.

A special recognition of the new Martin V. Smith School of Business and Economics was presented in February, 2006 to members of the Smith Family. From left are President Richard Rush, sisters Lucinda Daley, Toni Gardiner, Vicki Pozzi, and Marjorie Tegland, and daughters Kelly McWilliams, Tiffany Tegland, and Stacy Gardiner, and William Cordeiro, professor of management and Director, Martin V. Smith School of Business and Economics.

Chief of Staff, 1999-2003
Director and Chair of the School of Music and Dance, San José State University, 1989-1999

Mario de los Cobos
Vice President for University Advancement 2004-Present
Director of Community, Government and Alumni Relations 2002-2004
Vice President of Public Affairs and Development 2001-2002
Ventura County Community Foundation

Joanne M. Coville
Vice President for Finance and Administration, 2001-Present
Executive Vice President, Oregon Graduate Institute of Sciences and Technology, 1995-2001
Controller, Stanford University, 1991-1995

Therese Eyermann
Special Assistant to the President, 2004-Present
Executive Asst. to the Executive Vice Chancellor, UCLA, 2000-2004
Coordinator, Program Evaluation and Research, UCLA, 1995-2000

Wm. Gregory Sawyer
Vice President for Student Affairs, 2002-Present
Founding Dean of Student Services, Florida Gulf Coast University, 1995-2002
Dean of Students, University of North Texas, 1990-1995

Maureen McQuestion
Chief Information Officer, 2005-Present
Director, Academic Development and Services Cleveland State University, 2002-2005
Director, Technology and Education Operations, Maxine Goodman Levin College of Urban Affairs, Cleveland State University, 2000-2003

Richard R. Rush
President, 2001-Present
President of Minnesota State University, Mankato, 1992-2001
Executive Vice President, California State University, San Marcos 1989-1992

The formal opening of CSU Channel Islands was held on August 16, 2002. The public ceremony included participation by Governor Gray Davis, as well as educational and community leaders from throughout the state. Classes began on August 24 with approximately 1,320 full-time transfer students enrolled for the first year. The first freshmen class arrived in fall 2003. At full capacity, CSU Channel Islands will serve more than 15,000 full-time equivalent students.

To accommodate the rapidly growing numbers of students, in 2004 the University completed the first phase of student housing, Anacapa Village, which provides on campus housing for 350 students. Phase two housing, named Santa Cruz Village, is currently under construction and will provide space for an additional 464 students. It will be ready for occupancy when students arrive in fall 2007.

The physical campus continues to grow at a steady pace as well as to keep up with student and academic needs. The first major construction project on the campus was the Science Building completed in 2003. This structure provides much needed lab and auditorium space for students. Currently under construction is the prestigious John Spoor Broome Library which will provide a striking digital teaching and learning library for students, faculty, and the community.

CSU Channel Islands is a student-centered University, committed to academic excellence, civic engagement, environmental responsibility, and leadership for the 21st century.
Carpinteria. Santa Cruz Island all the way to the tall mountains near high rainbow, which stretched from the tallest peak on a bridge out of a rainbow. She made a very long, very the mainland? Finally, Hutash had the idea of making how were the people going to get across the water to finally, she decided that some of the Chumash made was starting to annoy Hutash. It kept her awake at night. So, finally, she decided that some of the Chumash village. He wanted to find out what it was. So he flew very low over the fire to get a better look. But he flew too close; he got his feathers scorched and they turned black. So now the Condor is a black bird, with just a little white left under the wings where they didn't get burned.

After Sky Snake gave them fire, the Chumash people lived more comfortably. More people were born each year, and their villages got bigger and bigger. Santa Cruz Island was getting crowded. And the noise the people made was starting to annoy Hutash. It kept her awake at night. So, finally, she decided that some of the Chumash would have to move off the island. They would have to go to the mainland, which was less populated. But how were the people going to get across the water to the mainland? Finally, Hutash had the idea of making a bridge out of a rainbow. She made a very long, very high rainbow, which stretched from the tallest peak on Santa Cruz Island all the way to the tall mountains near Carpinteria.
Purpose: SAFE On Campus provides an avenue through which all members of the campus community can actively show their support of lesbian, gay, bisexual and transgender people. SAFE On Campus members identify themselves by displaying the SAFE On Campus sign at their office. Members attend an orientation session, following which they receive the SAFE On Campus logo. By displaying the logo, members signal to students and employees that they can be "out" or reveal their sexual orientation or gender identity. In addition, members can serve as a valuable source to help locate resources on campus, or help report harassment or discrimination.

Definition of an Ally: Someone who, regardless of their gender identity and/or sexual orientation, is supportive of LGBT people and who wants to foster a campus climate that is safe for everyone.

POLICE DEPARTMENT
CSU Channel Islands enjoys the benefits associated with living in a rural area outside of heavily populated areas. The campus is located within one of the safest areas in the western United States.

The CSU Channel Islands Police Department is responsible for providing law enforcement services for the campus. Police officers are the only campus officials designated to receive crime reports. The Police Department is located on University Drive, one block from the campus entrance, adjacent to Lot A1. The Police Department is open 24 hours a day, 7 days a week. The department encourages prompt reporting of all crimes, potential criminal actions, and other emergencies on campus, either in person or by calling 911 or from any telephone. For non-emergencies please call (805) 437-8444.

CSU Channel Islands police officers are commissioned, sworn peace officers with full enforcement authority throughout the state. Officers are responsible for reporting and investigating crimes and traffic accidents, responding to medical emergencies, enforcing laws and local ordinances, and all other incidents requiring police assistance. Criminal cases are forwarded to the Ventura County District Attorney’s Office for prosecution. Police officers provide 24-hour patrol of the campus and surrounding neighborhood on foot, in vehicles, and on bicycles. Most police officers are also certified emergency medical technicians (EMT-1) and are the first responders to all medical emergencies.

Safe Campus Management
The CSU Channel Islands Police Department strives to support the mission of the University by creating an atmosphere that encourages learning and safety.

The Police Department takes a proactive approach to safety that includes four interactive elements: prevention, intervention, education, and enforcement. All of these elements require collaboration with the key components of our campus community: students, faculty, staff, and visitors. While the Police Department takes pride in its leadership role, safety is everyone’s concern.

The department takes steps to notify the campus community of potential criminal activity through a variety of methods. These include crime alert bulletins, the department’s Web page, e-mail, voicemail, the campus newspaper, and local television and radio stations. The department encourages faculty, staff, students, and visitors to take responsibility for their own safety by taking proactive steps to reduce the likelihood of crime on campus. Crime prevention literature is available in the University Police Department lobby and via the department’s Web page (www.csuci.edu/campserv/police/index.htm). The department’s crime prevention program offers numerous programs and workshops that are open to students, faculty, and staff. Some of the programs available include:

- Rape Aggression Defense (RAD)
- Sexual Assault Awareness and Prevention
- Alcohol/Drug Awareness/Anti-Drunk Driving Workshops
- Personal Safety Awareness

Department members work closely with other departments on campus such as Housing and Residential Education, Student Health Services, and Personal Counseling Services in a teamwork approach to educating the campus community on such issues as alcohol and drug abuse, drinking and driving, sexual assault, and domestic violence.

Individual Responsibility
Every student, faculty, or staff member must bear an appropriate amount of individual responsibility for their own safety and security as well as that of their fellow students, faculty, or staff. To this end, please observe the following guidelines.

- Report all crimes immediately. Prompt reporting may assist in apprehension and the prevention of future crimes. Call 911.
- Report all suspicious persons and circumstances. This may prevent a crime from occurring. Call 911.
- Please keep all wallets, checkbooks, credit cards, and cash on your person and out of sight. Ideally, backpacks should be within your view at all times.
- Do not leave items such as a laptop computer, cell phone, or wallet/purse visible in a car.
- Don’t prop open or try to defeat the security features of any exterior door. If you find such a door propped open, please close it. If it won’t lock, please notify any staff member or call the Police Department at ext. 8444.
- Adequately secure any property left outside, such as bicycles.
- If you must walk across campus late at night, consider going with a friend or two. The campus is very safe, but that doesn’t mean crimes will never occur here. Don’t be lulled into a false sense of security because of the peaceful surroundings.

Identifying Yourself to Campus Officials
When requested, you are required to properly identify yourself to any campus official, including police officers. Failure or refusal to do so may result in disciplinary action.
Crime Reporting
Immediately call the Police Department at 911 to report a crime on campus. Special crime alerts are prepared and distributed campuswide via e-mail in circumstances involving violence and/or the safety of others. The Police Department maintains a daily activity dispatch log, which can be viewed at the Police Department dispatch center. The Police Department also prepares an annual security report for distribution. This information is available to students, parents, and employees through the Division of Student Affairs. This information is also available on the Police Department Web site at www.csuci.edu/campserv/police/index.htm.

Important Telephone Numbers
Public Safety
   On Campus – ext. 8444
   Off Campus – (805) 437-8444

Emergency
   On Campus – 911
   Off Campus – 911

Evening Escort Service – (805) 437-8444 or ext. 8444

Rape and Sexual Violence
As a proactive approach to preventing rape and sexual violence, the CSU Channel Islands Police Department offers educational and informational programs throughout the year to decrease the likelihood of assault occurring on campus or to our students.

The CSU Channel Islands Police Department takes every reported case of rape, attempted rape, or other forms of sexual violence very seriously. If you are a victim of sexual violence, call the Police Department immediately. If the assault occurred off campus, the Police Department will assist you in contacting the appropriate police department and the victim's services unit, which provides resources for counseling and medical assistance. The CSU Channel Islands Police Department shall consider the victim's position and preferences throughout these investigations.

In the occurrence of an assault, the Dean of Student Life will be contacted. Assistance will be provided with contacting professionals, family, or friends. The Dean will also make or assist in making any changes in the victim's academic and living situations after an alleged sex offense, if available. The Dean of Student Life will also coordinate any campus disciplinary process.

Harassment
The University takes any type of harassment complaint very seriously. Harassment is conduct that is reasonably perceived as:
- creating an intimidating, hostile, or offensive environment;
- interfering with an individual’s work performance, educational activities, or programs; and
- adversely affecting an individual’s employment opportunity, educational activities, or programs.

Fire Safety
Call Public Safety at 911 to report a fire. Public Safety will contact the Ventura County Fire Department.

The University is subject to and obeys all state fire regulations. Please acquaint yourself with fire evacuation routes for your building as well as the location of all fire extinguishers. Fire alarm systems, smoke detectors, and other fire equipment are placed throughout all campus facilities for your protection. Fire drills are conducted periodically. During fire alarms, all students, visitors, and employees must evacuate the building and report to designated evacuation sites. Failure to respond is subject to disciplinary action.

Note: Misuse of fire equipment is punishable by law and subject to a fine of $500.

Emergency Disaster Procedures
When an emergency is declared and evacuation ordered or when it becomes obvious that evacuation is necessary, all students should report to the appropriate evacuation sites. Staff will assist students as needed, take attendance, and keep students in their assigned areas until all persons are accounted for. Students are asked to remain at the evacuation site until otherwise instructed. Do not attempt to re-enter any building until you are advised that it is safe to do so.

Injured persons should go, or be taken to, the Student Health Center, Police Department, or designated First Aid Station. Health Center personnel and other trained personnel will be available to assist injured persons.

Code Blue Telephones/Emergency Telephones
Distinctive “code blue” phones are located in many areas on campus, and dial directly to the Police Department.

Lost and Found
If you believe that you have lost an item, check with the Police Dispatch Center, which is located in the Public Safety Building or call ext. 8880. Property that has been turned in will be recorded and held for six months. After six months, if the owner does not claim the item, it may be disposed of in accordance with CSU regulations.

If you believe an item has been stolen, a police employee will file a report or assist you in filing a report with the appropriate jurisdiction.

Substance Abuse
The legal drinking age in California is 21. California state law deals strongly with underage drinking and makes it a crime to furnish alcohol to underage individuals. Any person found responsible for illegal possession, distribution, or consumption of any controlled substance, including alcohol, will be subject to disciplinary action by the University and may be subject to action by civil authorities. The Police Department works closely with Personal Counseling Services to provide education and information programs to prevent substance abuse.
Weapons
To prevent personal injury, CSU Channel Islands prohibits the possession or use of any potentially dangerous weapon or explosives on University property. Firearms, ammunition, a knife with more than a two-inch blade, paint-ball guns, air guns, CO2 powered BB or pellet guns, spring-type weapons and slingshots, and firecrackers are among prohibited items. All prohibited weapons needed for employment must be checked in with the Police Department and stored there.

Pets/Animals
With the exception of certified service animals, pets or animals are not allowed on campus. This restriction does not apply to University Glen. Limited exceptions for educational purposes are allowed with prior approval of the Dean of Faculty.

Access to Campus Buildings
Laboratories and classrooms are typically open from 8 a.m. to 10 p.m. daily. After hours, a member of the faculty and/or department chairs must authorize access to classrooms. Please protect yourself and others by helping us keep the campus secure. Do not prop open doors and be sure to secure locked areas.

There are still large portions of the campus facilities that are not in use and have not been renovated. Entering these areas could create a safety hazard. Entering these areas is trespassing and is strictly prohibited. Students violating this rule will be subject to discipline. If you have questions about a particular area, please contact the Police Department.

Off-Campus Safety
The University’s concern for its students does not end at the edge of campus. Although CSU Channel Islands police officers do not respond to off-campus locations for calls, they will assist you in any way possible concerning criminal or safety matters in the Ventura County area. If you are concerned for your immediate safety, dial 911. Students living off campus should follow these precautions:
1. Install and use a deadbolt and a peephole on your door and effective locking devices on your windows.
2. Be sure to request identification or call a visitor’s business before admitting an unknown visitor into your home. Police officers, sales people, or repair people on legitimate business will display credentials whenever asked.
3. Do not open your door to strangers in need; instead, offer to call for assistance.
4. If you live alone, don’t advertise it. Use only your first initial and last name on your mailbox or in the telephone book.
5. When moving into a house or apartment, it’s wise to have the door locks changed. Previous owners, tenants, or past employees may still have keys.
6. If you receive a wrong number telephone call, do not give the caller your name, number, address, or any information to indicate you are alone. Don’t prolong the conversation. If you receive an obscene call, hang up immediately and notify the local Police Department.
7. Window shades and drapes should be drawn after dark. Leave lights on in two or more rooms to indicate the presence of other persons.
8. Apartment laundry rooms, parking garages, and elevators are environments for trouble. Be alert and cautious. If your suspicions are aroused, avoid the area.
9. Get to know your neighbors so you can watch out for each other and provide mutual protection.

TRANSPORTATION AND PARKING SERVICES
Transportation and Parking Services (TPS) provides a variety of services to the campus community. Information about these services is available on the TPS Web page at www.csuci.edu/parking/index.htm or by calling (805) 437-8430 or ext. 8430.

Parking permits are required for all vehicles on campus, 24 hours a day, 7 days a week. This includes holidays and periods when classes are not in session. Vehicles without proper permits or that are in violation of parking regulations according to the California Vehicle Code are subject to citation. Citation appeals may be filed through TPS. Parking Regulations are also available on the TPS Web page.

Shuttle Bus Service
As an alternative to parking on campus, a shuttle service is offered at a reduced cost of $25 per semester, with no cost during summer session. For your convenience, the shuttle operates from three (3) sites:
Oxnard
“C” Street Transfer Point
“C” Street and Channel Islands Blvd.
Near Oxnard College
Southwest corner of Bard Road and Simpson Drive

Camarillo
Camarillo Metrolink Station
Lewis Road and Ventura Boulevard

The shuttle service is available Monday through Friday, 7 a.m. to 10:20 p.m., and Saturday, 7:30 a.m. to 5:20 p.m. Parking at the sites is free. To utilize this service and purchase your photo transit card, stop by TPS to complete an application and have your photo taken. Please allow 10 minutes to process your card.

Bicycles
Bicycles and bicyclists shall comply with the California Vehicle Code while riding on campus. Riding is restricted to roadways and main pedestrian pathways. Riding inside buildings, on stairs, and other facilities is strictly prohibited.

Skateboards, Scooters, and Rollerblades
For safety reasons, the use of skateboards, scooters (both motorized and non-motorized), and rollerblades is prohibited on campus, except in the University Glen area.

Escort/On-Campus Shuttle Service
Escorts and on-campus shuttles are available Monday through Thursday, 5 p.m. to 10 p.m. These shuttles transport students from the Bell Tower to the parking lots. If a student is uncomfortable or feels unsafe about walking to a vehicle after these hours or has any other special needs, a police officer will be dispatched for escort services. Please call ext. 8888 or 8444 to request this service.

INFORMATION TECHNOLOGY SERVICES
The CSU Channel Islands Technology Center houses four computer labs. Additional computer labs are located in the library and in various locations on campus. Help desk staff are available to assist students with technical support. The Technology Center hours are Monday through Thursday: 8 a.m. – 10 p.m.; Friday: 8 a.m. – 5 p.m.; Saturday and Sunday: 8:30 a.m. – 1:30 p.m.

Public Computing Lab
Located in Room TC 1958, this is a public drop-in computer lab for students (pick up a schedule at the IT Help Desk). This lab provides commonly used software including the latest word processing, spreadsheet, data analysis, and networking/Internet connectivity tools.

Instructional Computing Labs
Rooms TC 1952 and TC 1972 consist of Windows based computers and are utilized for instructional use. Room TC 1964 consists of Mac OS X based computers and is utilized for instructional use.

Blackboard
Blackboard is a Web-based course management system that delivers many courses. Blackboard based courses can be accessed 24/7 on the internet at http://csuci.blackboard.com (note there is no www). To login, enter your user name and password. Your user name is your PeopleSoft user name. Example: pat.jones999. Your password is your PeopleSoft Student ID number (on your student ID card).

For additional assistance with any of our services, please visit the Technology Center, call us at (805) 437-8552, or send an e-mail to: helpdesk@csuci.edu.

Dolphin Email
Dolphin Email accounts are automatically given to all registered students. Dolphin Email is web-based and accessible from anywhere over the internet. To access your email, complete the following steps:
• Go to: http://mail.dolphin.csuci.edu
• Enter your user name. Your user name is your PeopleSoft user name. Example: pat.jones999
• Password: your default email password is your PeopleSoft Student ID number (on your student ID card).

THE COVE BOOKSTORE
The Cove Bookstore is dedicated to serving the academic mission of California State University Channel Islands. We take great pride in serving our customers with their textbook, trade book, and general merchandise needs either in our store or through our virtual bookstore on efollett.com. In addition to serving the faculty and students with their academic needs, we also invite the community to visit the store, browse our extensive book selection, and relax and read in our comfortable reading area. The bookstore is presently located in the Bell Tower building, and will soon be moving to the newly constructed Town Center. The bookstore is open Monday – Thursday 7:30 a.m. – 7:30 p.m., Friday 7:30 a.m. – 4:30 p.m. and Saturday 10:30 a.m. – 2:30 p.m. For additional information about our products and services please contact us at bookstore@csuci.edu or 805-437-8833.

CAMPUS DINING SERVICES
Cal State Channel Islands’ main dining services area “Islands Café” is located on the East side of the South Quad on University Drive next to the Art Department Complex.

Presented by Sodexho, our dining room is a gathering area offering a variety of contemporary menu formats for all of our campus community members (students, visitors, faculty, staff) and, University Glen residents) to choose from throughout the week.

Area 155º features grilled items such as cheeseburgers, chicken tenders, grilled chicken breast sandwiches and special promotional sandwiches offered on a rotating basis. With combo meals prominently featured, it’s easy to order a great value.
The Market focuses on a menu based on traditional American classics, including roasted, herb-encrusted chicken, and popular side dishes like macaroni and cheese, garlic mashed potatoes, and fresh vegetables prepared with both Vegetarian and Vegan customers in mind. Try a bowl of our freshly made soup of the day!

La Cucina is for lovers of Italian cuisine. Pizza by the slice remains the staple and is featured daily. Daily pasta specials include favorites like Fettuccine Alfredo, Penne in a Marinara Sauce, and Cheese-Stuffed Tortellini with choice of sauce. Don’t miss the one-of-a-kind Tuscany Wrap: delicious pizza dough stuffed and baked with vegetables in a zesty marinara sauce.

Students “on-the-go” may also grab a quick bite at Café à la Cart. Assorted teas and coffee, bottled or fountain beverages, fresh-baked cookies, brownies, muffins and bagels, a collection of grab and go sandwiches, wraps and sushi rolls are the delicious menu items you’ll find waiting for you at Café à la Cart. Start your day with fresh fruit, yogurt and a cinnamon roll. Café à la Cart – it’s on the way to where you’re going.

Our fresh Salad Bar invites guests to build a side salad to compliment a grilled order or to create a full meal. Staple offerings include a variety of lettuce types, fresh vegetables like tomatoes, carrots and cucumbers along side rotating featured toppings of artichoke hearts, mushrooms and tofu with cheeses, dressings, nuts and raisins for you to combine to create a healthy meal.

Found also at CSUCI in the Bell Tower building are Java Hut, a coffee shop serving a variety of hot beverages and baked goods and The Cove, which offers convenience-store-style food and drinks. The Town Center complex is currently under construction on the East side of campus in University Glen and will include a community market and restaurants.

Student Meal Plan – “Dolphin Dollars”
An optional declining balance meal plan has been designed to meet the needs of CSUCI students living off campus. The meal plan is a convenient means to prepay for meals. Debit cards are issued for use to purchase snacks and meals at Islands Café. Bonus dollars are awarded on an increasing scale for prepayments of amounts over $101.00. The larger the prepayment, the greater the bonus! Funds can easily be added to the meal card through out the academic year. With “Dolphin Dollars” students can even treat family and friends to a meal. When compared to other meal plans at various campuses, our plan will provide students with maximum benefit and greater flexibility for their lifestyle.

Availability of Institutional and/or Financial Assistance Information
The following information concerning student financial assistance may be obtained from the Financial Aid Office, Sage Hall, Room 144. (805) 437-8530.
1. A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at CSUCI;
2. For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student’s award;
3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
6. The terms of any loan received as part of the student’s financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
7. The general conditions and terms applicable to any employment provided as part of the student’s financial aid package;
8. The responsibility of CSUCI for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and
9. The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.
10. Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation.

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.
Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.

Information concerning the cost of attending CSUCI is available from Cashier's Office, (805) 437-8533. Information includes fees and tuition (where applicable); the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of CSUCI for the return of unearned tuition and fees or other refundable portions of institutional charges is available from Cashier's Office, Sage Hall.

Information regarding special facilities and services available to students with disabilities may be obtained from Disability Accommodation Services, Bell Tower Building, East Wing. (805) 437-8510.

Information concerning CSUCI policies, procedures, and facilities for students and other to report criminal actions or other emergencies occurring on campus may be obtained from the Public Safety Office, (805) 437-8444.

Information concerning CSUCI annual campus security report may be obtained from the Public Safety Office, (805) 437-8444.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from the Office of Student Life, Bell Tower Building. (805) 437-8510.

Information regarding student retention and graduation rates at CSUCI and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from the Office of Institutional Research, Sage Hall. (805) 437-8979.

Information concerning student retention and graduation rates at CSUCI and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from the Office of Institutional Research, Sage Hall. (805) 437-8979.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSUCI dedicates to its men's and women's teams may be obtained from the Office of the Vice President for Student Affairs, Bell Tower Building. (805) 437-8536.

Information concerning teacher preparation programs at CSUCI, including the pass rate on teacher certification examinations, may be obtained from the Credential Office, Bell Tower Building. (805) 437-8553.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Dean of Student Life, (805) 437-8510.

Introduction to CSU Channel Islands
Requirements for admission to CSUCI are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. If you are not sure of these requirements, you should consult a high school or community college counselor or CSU campus admission office.

Electronic versions of the CSU undergraduate and graduate applications are accessible on the World Wide Web at www.csumentor.edu. The CSU Mentor system allows students to browse through general information about CSU’s twenty-three campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

Applications may be obtained online or at any California high school or community college or from the Office of Admission at any of the campuses of the California State University. Applying online via www.csumentor.edu is encouraged, and many CSU campuses will facilitate use of online applications for admission.

IMPORTANCE OF FILING COMPLETE, ACCURATE, AND AUTHENTIC APPLICATION DOCUMENTS

CSU Channel Islands advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

UNDERGRADUATE APPLICATION PROCEDURES

Prospective students applying for part-time or full-time undergraduate programs of study in day or evening classes must file a complete undergraduate application. The $55 nonrefundable application fee should be in the form of a check or money order payable to “The California State University” or by credit card if submitting the online application, and may not be transferred or used to apply to another term. An alternate campus and major may be indicated on the application, but applicants should list as an alternate campus only a CSU campus that also offers the major. Generally, an alternate major will be considered at the first choice campus before an application is redirected to an alternate choice campus. The applications of persons denied admission to an impacted and/or closed campus may be re-routed to another campus at no cost, but only if the applicant is CSU eligible.

IMPACTED PROGRAMS

The CSU designates programs as impacted when more applications are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at some campuses. Candidates for admission must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce during the fall filing period those programs that are impacted and the supplementary criteria campuses will use. That announcement will be published in the CSU Review, distributed to high school and college counselors, and made available online at www.calstate.edu/ar/csureview. Information about the supplementary criteria also is sent to program applicants. Detailed impaction information is also available at www.calstate.edu/ar/impactioninfo.shtml.

Applicants must file your applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered in impacted programs at more than one campus, you they must file an application to each.

Supplementary Admission Criteria

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants are required to submit scores on either the SAT I or the ACT and are applying for fall admission, you should take the test as early as possible and no later than October of the preceding year if applying for fall admission.

The supplementary admission criteria used by the individual campuses to screen applicants appear periodically in the CSU Review and are made available by the campuses to all applicants seeking admission to who seek admission to an impacted program.

Unlike unaccommodated applicants to locally impacted programs who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major but may choose an alternate major either at the first choice campus or another campus.
GRADUATE AND POSTBACCALAUREATE APPLICATION PROCEDURES

All graduate and post-baccalaureate applicants (e.g., joint PhD and EdD applicants, master’s degree applicants, those seeking credentials, and those interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and post-baccalaureate admission booklet materials at www.csumentor.edu. Applicants seeking a second bachelor’s degree should submit the undergraduate application for admission. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternate campuses or later changes of campus choice will be minimal. To be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the Graduate Studies Office or the Admissions Office of any California State University campus. An electronic version of the CSU graduate application is available on the World Wide Web at www.csumentor.edu. Applications submitted by way of www.csumentor.edu are preferable.

Application Acknowledgment
On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that you submit additional records be submitted necessary for the campus to evaluate your academic qualifications. Applicants may be assured of admission if the evaluation of your relevant qualifications indicates that applicants meet CSU admission requirements and campus requirements for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

HARDSHIP PETITIONS
The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the campus Admission Offices regarding specific policies governing hardship admission.

UNDERGRADUATE ADMISSION REQUIREMENTS
Freshman Requirements
Generally, first-time freshman applicants will qualify for regular admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination; and
2. Have a qualifiable minimum eligibility index (see section on Eligibility Index); and
3. Have completed with grades of C or better each of the courses in the comprehensive pattern of college preparatory subject requirements (see “Subject Requirements”).

Eligibility Index – The eligibility index is the combination of your high school grade point average and your score on either the ACT or the SAT. Beginning with admission for Fall 2004, your grade point average is based on grades earned in courses taken during your the final three years of high school that all college preparatory “a-g” subject requirements, and bonus points for approved honors courses.

Up to eight semesters of honors courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU Eligibility Index (EI) can be calculated by multiplying a grade point average by 800 and adding your total score on the SAT I the mathematics and critical reading scores of the SAT. Students who took the ACT, multiply your the grade point average by 200 and add ten times the ACT composite score. If you are a California high school graduates (or a residents of California for tuition purposes), you need a minimum index of 2900 using the SAT I or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages.
Persons who neither graduated from a California high school or are a resident of California for tuition purposes, you need a minimum index of 3502 (SAT I) or 842 (ACT). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

When the grade point average is 3.00 or above (3.61 for nonresidents), applicants are not required to submit test scores. However, all applicants for admission are urged to take the SAT I or ACT because campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses usually require SAT or ACT scores of all applicants for freshman admission.

Applicants will qualify for regular admission when the university verifies that they have graduated and received a diploma from high school, have a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects, and, if applying to an impacted program, have met all supplementary criteria.

**Provisional Admission**

CSU Channel Islands may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the senior year of study to ensure that those so admitted complete their senior year of studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all course work has been satisfactorily completed. Official high school transcripts must be received prior to the university deadline. In no case may documentation of high school be received at any later than the census date for a student’s first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, and cancel any university registration for students, who are found not to be eligible after the final transcript has been evaluated.

Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

When the grade point average is 3.00 or above (3.61 for nonresidents), applicants are not required to submit test scores. However, all applicants for admission are urged to take the SAT I or ACT because campuses use these test results for suggesting and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses usually require SAT or ACT scores of all applicants for freshman admission.

**SUBJECT REQUIREMENTS**

The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government
- 4 years of English
- 3 years of math (algebra, geometry and intermediate algebra)
- 2 years of laboratory science (1 biological and 1 physical, both with labs)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year of visual and performing arts: art, dance, drama/theater, or music
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, and visual and performing arts

The CSU uses only the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing score is not currently used by CSU campuses.
Admissions, Recruitment, Records, Registration

High School Students
Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute the right to continued enrollment.

Transfer Requirements
Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower division transfer students. Students who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper division transfer students. Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

Lower Division Transfer Requirements
Generally, applicants will qualify for admission as a lower division transfer student if they have a grade point average of at least 2.0 (C or better) in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:
1. Will meet the freshman admission requirements (grade point average and subject requirements) in effect for the term to which they are applying (see “Freshman Requirements” section); or
2. Were eligible as a freshman at the time of high school graduation except for the subject requirements, and have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Admission Office to inquire about alternative admission programs.

Making Up Missing College Preparatory Subject Requirements
Lower division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:
1. Complete appropriate courses with a C or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations.

Please consult with any CSU Admission Office for further information about alternative ways to satisfy the subject requirements.

Due to enrollment pressures, many CSU campuses do not admit or enroll lower division transfer students.

Upper Division Transfer Requirements
Generally, applicants will qualify for admission as an upper division transfer student if they meet the following requirements:
1. They have a grade point average of at least 2.0 (C or better) in all transferable units attempted; and
2. They are in good standing at the last college or university attended; and have completed at least 60 semester units of college coursework with a grade of C or better in each course to be selected from courses in English, arts and humanities, social science, science and mathematics at a level at least equivalent to courses that meet general education requirements. The 60 units must include all of the general education requirements in communication in the English language (both oral and written) and critical thinking (at least 9 semester units) and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Provisional Admission
CSU Channel Islands may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses will rescind admission for all students who are found not to be eligible after the final transcript has been evaluated. In no case may such documents be received and validated by the university at any later than a student’s registration for their second term of CSU enrollment.

Test Requirements
Freshman and transfer applicants who have fewer that 60 semester or 90 quarter units of transferable college credit must submit scores, unless exempt (see “Eligibility Index” on page 31), from either the ACT or the SAT of the College Board. If you are applying to an impacted program on campus and are required to submit test scores, you should take the test no later than October or November. Test scores also are used for advising and placement purposes. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Or students may write to or call:

TOEFL REQUIREMENT
All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 500 or above on the Test of English as a Foreign Language. Some majors may require a score higher than 500. Applicants taking the Computer Based Test of English as a Foreign Language must present a score of 173 or above. Some majors and some campuses may require a higher score. Some campuses may also use alternative methods of assessing English fluency.

SYSTEMWIDE PLACEMENT TEST REQUIREMENTS
The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms.

Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to Student Life, Bell Tower Building, First Floor, (805) 437-8510.

English Placement Test (EPT)
The CSU English Placement Test (EPT) is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- a score of “Exempt” on the augmented English CST, i.e. the CSU Early Assessment Program (EAP), taken in grade 11;
- a score of 550 or above on the verbal section of the College Board SAT Reasoning Test taken April 1995 or later;
- a score of 24 or above on the enhanced ACT English Test taken October 1989 or later;
- a score of 680 or above on the re-centered and adjusted College Board SAT II: Writing Test taken May 1998 or later;
- a score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Scholastic Advanced Placement program; or
- completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) written communication requirement, provided such course was completed with a grade of C or better.

Directed Self Placement (DSP)
Directed Self Placement will be the only method used on the Channel Islands campus to place students into freshman composition courses. EPT scores will not be used. Students will be given guidance in Directed Self Placement during Orientation, and will select either English 105, Composition and Rhetoric, or the English 102, 103 Stretch Composition sequence. Completion of either English 105 or English 102 plus English 103 satisfies the freshman writing requirement.

Entry Level Mathematics (ELM) Placement Examination
The Entry Level Mathematics (ELM) Placement Examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates with the exception of those who present proof of one of the following:

- a score of “Exempt” on the augmented mathematics CST, i.e., the CSU Early Assessment Program (EAP), taken in grade 11;
- a score of “conditionally exempt” on the augmented CST, i.e. the CSU Early Assessment Program (EAP) plus successful completion of a Senior-Year Mathematics Experience (SYME); or
- a score of 550 or above on the mathematics section of the College Board SAT Reasoning Test or on the College Board SAT II Mathematics Tests Level I, IC (Calculator), II, or IIC (Calculator).
• A score of 23 or above on the American College Testing Mathematics Test.
• A score of 3 or above on the College Board Advanced Placement Mathematics examination (AB or BC) or Statistics examination.
• Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement provided such course was completed with a grade of C or better.

ADULT STUDENTS
As an alternative to regular admission criteria, an applicant who is twenty-five years of age or older may be considered for admission as an adult student if he or she meets all of the following conditions:
1. Possesses a high school diploma (or has established equivalence through either the Tests of General Educational Development or the California High School Proficiency Examination).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years.
3. If there has been any college attendance in the last five years, has earned a C average or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

GRADUATE AND POSTBACCALAUREATE ADMISSION REQUIREMENTS
Admission Requirements
Graduate and post baccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:
1. General Requirements – The minimum requirements for admission to graduate and post baccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. Specifically, a student shall at the time of enrollment: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; (3) have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and (4) satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria. Students who meet the minimum requirements for graduate and post baccalaureate studies, you will be considered for admission in one of the following four categories:
• Postbaccalaureate Unclassified – To enroll in graduate courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the general requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments may restrict enrollment of unclassified students because of heavy enrollment pressure. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program; or
• Postbaccalaureate Classified – If you wish to enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or
• Graduate Conditionally Classified – You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation; or
• Graduate Classified – To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.
Graduate-Postbaccalaureate TOEFL Requirement
All graduate and post baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of (campus minimum score) on the Test of English as a Foreign Language (TOEFL). Some programs require a higher score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Some programs may require a higher score.

Some CSU campuses may use alternative methods for assessing fluency in English.

INTERNATIONAL (FOREIGN) STUDENT ADMISSION REQUIREMENTS
The CSU must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on TOEFL Requirement for undergraduate applicants), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least for the first term and, if not in English, must be accompanied by certified English translations.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those majors or programs with limited openings.

OTHER APPLICANTS
Intrasystem and Intersystem Enrollment Programs
Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Enrollment Center.

CSU CONCURRENT ENROLLMENT
Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is automatically reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

CSU VISITOR ENROLLMENT
Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported automatically at the student’s request to the home campus to be included on the student’s transcript at the home campus.

INTERSYSTEM CROSS ENROLLMENT
Matriculated CSU, UC, or community college students may enroll for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

HEALTH SCREENING
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

Measles and Rubella
All new and readmitted students born after January 1, 1957 must provide proof of full immunization against measles and rubella prior to enrollment.

Hepatitis B
All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period. If you need further details or have special circumstances, please consult the Student Health Center at (805) 437-8828. Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease and whether or not he or she has chosen to receive the vaccination. These are not admission requirements, but shall be required of students as conditions of enrollment in CSU.

RESERVATION
The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.
PRIVACY RIGHTS OF STUDENTS IN EDUCATION RECORDS

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted there under (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained from Enrollment Services. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release “directory information” concerning students. “Directory information” may include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The above-designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to Enrollment Services.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’ academic, administrative or service functions and have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

CANCELLATION OF REGISTRATION OR WITHDRAWAL FROM THE INSTITUTION

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from Enrollment Services.

Students who receive financial aid funds must consult with Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

ENROLLMENT SERVICES

Location
Enrollment Center, Room 144
Sage Hall, 1st Floor
(805) 437-8500
Fax: (805) 437-8509

Enrollment Services can answer your questions about admissions, records, registration, recruitment and financial aid.
ADMISSIONS AND RECRUITMENT

ADMISSIONS
Location
Enrollment Center, Room 144
Sage Hall, 1st Floor
(805) 437-8500
Fax: (805) 437-8509

The Admissions office accepts and processes admission applications for both undergraduate and post-baccalaureate programs. Eligibility for admission to CSUCI is governed by Title 5 of the California Code of Regulations and is addressed previously in this catalog.

RECRUITMENT
Location
Recruitment Center, Room 158
Sage Hall, 1st Floor
(805) 437-8520 / (805) 437-CSCI (2724)
Fax: (805) 437-8519
Email: prospective.student@csuci.edu

The Recruitment office develops and maintains positive relationships to recruit, enroll, and retain a qualified and diversified undergraduate and graduate student body. Admission counselors are available to assist prospective students in understanding the requirements necessary to obtain admission to CSU Channel Islands. We offer the following services:

• pre-admissions counseling appointments for students who have yet to apply to the University. These are individual meetings at which one of our admission counselors will guide prospective students through general education questions and specific major requirements;
• campus tours are offered Monday through Friday at 11 am and 2 pm. Weekend tours are available at noon on the first Saturday of the month, excluding holiday weekends. A visit to our campus provides an opportunity for prospective students to view our grounds and familiarize themselves with the various resources the University has to offer. Each tour is led by a Cal State Channel Islands student; and
• a group campus visit is designed to provide high school and college students the opportunity to tour the campus and view a presentation given by an admission counselor. Group campus visits are available by appointment to a maximum of 60 students.

If you would like additional information regarding any of these services or would like to speak to an admission counselor, please contact the University at (805) 437-CSCI (2724) or via email at prospective.student@csuci.edu.

RECORDS AND REGISTRATION

Location
Enrollment Center, Room 144
Sage Hall, 1st Floor,
(805) 437-8500
Fax: (805) 437-8509

The Records and Registration office maintains timely and accurate records on enrollment, and the academic progress and accomplishments of its students, while maintaining the privacy and security of those records.

Registration
Registration activities for new and continuing students, including eligibility for registration and assignment of registration appointments, is managed by the office of Records and Registration. Students enroll on the web through myCSUCI.

Graduation
Verification of completion of degree requirements is a function of the Records and Registration office. Students must file for graduation for the term in which they will have completed all requirements. Application for graduation must be made by the published deadline.

Veterans Affairs
Students who are eligible for benefits as a veteran, dependent, or reservist should contact our V.A. Specialist in the Enrollment Center. Services available include assistance in applying for educational benefits and education certification. Students planning to attend CSU Channel Islands should contact their local Veterans Services office or the regional Veterans Affairs office at www.gibill.va.gov. Once approved by the local or regional V.A. office, students who are registered in classes at CSU Channel Islands must make an appointment to complete their certification paperwork. This paperwork must be completed each semester. For additional information, please contact the Enrollment Center.
Schedule of Fees
Legal residents of California are not charged tuition. The following reflects applicable systemwide fees and nonresident tuition for both the quarter and the semester. (Fees are subject to change without notice.)

ALL STUDENTS
Application Fee (nonrefundable), payable by check or money order at time application is made: $55

All campuses except California State University, Stanislaus:

Fee rates for the 2006-07 academic year are based on fee rates proposed in the Governor’s Budget. The governor bought out fee increases approved by the CSU Board of Trustees at their October meeting and maintained CSU fee rates at 2005-06 levels. The cost of this fee buy-out is $54.4 million. The fee rates included in the governor’s budget proposal must be approved by the legislature; consequently it is possible that fee rates ultimately required for the 2006-07 academic year may be more than the rates billed at this time. If rates are increased in the budget that is enacted for the 2006 fiscal year, student will receive a supplemental billing in the amount of the difference. The Board of Trustees have approved fee increases for 2006-07 that are 8 percent above fee rates charged undergraduate students in 2005-06 and 10 percent above fee rates that were charged students enrolled in teacher credential programs and graduate/postbaccalaureate programs in 2005-06.

Nonresident Students (U.S. and Foreign)
Nonresident tuition (in addition to other fees charged all students) for all campuses:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Charge Per Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$339</td>
</tr>
</tbody>
</table>

The total nonresident tuition paid per term will be determined by the number of units taken. The maximum nonresident tuition per academic year (as of 2005-06) is $10,170.

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).
For state-supported semesters, quarters, and non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the university’s established procedures and deadlines.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and mandatory fees were assessed or collected in error;
- The course for which the tuition and mandatory fees were assessed or collected was cancelled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the University Cashier.

FEES AND DEBTS OWED TO THE INSTITUTION

Should a student or former student fail to pay a fee or a debt owed to the institution, the institution may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. If a person believes he or she does not owe all or part of an asserted unpaid obligation that person may contact the business office. The business office, or another office on campus to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

FEE WAIVER

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows:

**Section 68120** – Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships);

**Section 66025.3** – Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war period veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet age and income restrictions; and

**Section 68121** – Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

DETERMINATION OF RESIDENCE FOR NONRESIDENT TUITION PURPOSES

The law governing residence for tuition purposes at the California State University is California Education Code sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University’s website at www.calstate.edu/GC/resources.shtml.
Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence, which will be considered along with physical presence and intent in determining reclassification.

Residence determination dates are set each term. They are:
- Fall October 20
- Spring January 25

The residence determination dates for the four stages of CalStateTEACH are as follows:
- Stage 1 September 20
- Stage 2 January 5
- Stage 3 June 1
- Stage 4 September 20

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residence classification appeal must be in writing and submitted to:
The California State University
Office of General Counsel
401 Golden Shore, 4th Floor
Long Beach, CA 90802-4210

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.
AVERAGE SUPPORT COST PER FULL-TIME EQUIVALENT STUDENT AND SOURCES OF FUNDS

The total support cost per full-time equivalent student includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of full-time equivalent students (FTES).

The total CSU 2005/06 final budget amounts were $2,615,120,000 from state General Fund appropriations (not including capital outlay funding), $1,003,659,000 from State University Fee Revenue, $393,418 from other fee revenues, and reimbursements for a total of $4,012,095,000. The number of projected 2005/06 full-time equivalent students (FTES) is 332,223. The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student’s academic load).

The 2005/06 average support cost per full-time equivalent student based on General Fund appropriation and State University Fee revenue only is $10,884 and when including all sources as indicated below is $12,077. Of this amount, the average student fee support per FTE is $3,021, which includes all fee revenue in the state higher education fund (e.g. State University Fee, nonresident tuition, application fees, miscellaneous course fees).

1Student fee support represents fee revenue deposited in the State Treasury/state higher education fund. The average CSU 2005/06 academic year, resident, undergraduate student fees required to apply to, enroll in, or attend the university is $3,164. However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or nonresident.

PROCEDURE FOR THE ESTABLISHMENT OR ABOLISHMENT OF A STUDENT BODY FEE

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). The student body fee was established at CSU Channel Islands by student referendum in 2003. The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code, sections 90012, 90027, and 90068. Student body association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may also request the Chancellor to establish the mandatory fee.
The mission of the Financial Aid office is to assist students in obtaining financial aid resources to meet their educational costs. Students must complete a Free Application for Federal Student Aid (FAFSA), which can be obtained at the Enrollment Center. The FAFSA can also be completed online at www.fafsa.ed.gov. A variety of financial aid resources are available to students, including grants, loans, and scholarships. After students have completed and submitted the FAFSA, they may be considered for the following:

**Grants**
Federal or state funds that do not have to be repaid.
- Federal Pell Grants are awarded to eligible students with financial need, who have not already earned a bachelor's degree or are working toward a teaching credential.
- Cal Grants are awarded to California residents with financial need and who meet the California Student Aid Commission scholastic requirements. A separate G.P.A. verification form is required to be considered for a Cal Grant. The deadline for application submission is March 2 for the following aid year.
- State University Grants are awarded to California residents based on financial need.

**Loans**
Federally guaranteed student loans with low interest rates.

Federal Stafford Loans include the subsidized and unsubsidized loan programs which provide low interest, long-term loans to eligible students through selected lenders. Federal Subsidized Stafford loans are available to students based on financial need. Interest is paid by the federal government (subsidized) while students are enrolled at least half-time and during their six-month grace period after leaving school. Unsubsidized Federal Stafford Loans are available to all students regardless of financial need. Interest is paid by the student or added to the loan amount that will be repaid later.

**Scholarships**
The University, in participation with the community, has an endowment that provides scholarships, which are based on academic excellence, financial need and community service.

---

**SCHOLARSHIPS**

**President’s Scholars Program**
Established by a generous gift from the Pierre Claeysens family, this program provides scholarships to entering freshmen students who demonstrate outstanding academic achievement. Applicants must be residents of California and have a 3.75 high school GPA and a minimum score of 1200 on the SAT exam. This scholarship is renewable for up to four years.

**Bernard and Barbara Bobitch Scholarships in the Health Sciences**
Awarded to students in biology, chemistry, or related fields that enable them to prepare for careers in a health profession. Students must be legal citizens of the U.S. with a minimum GPA of 3.0 from high school or community college. The scholarship may be used for purposes other than fees, such as books, computers, childcare, or living expenses. It is renewable for up to four years for a freshman, or two years for a community college transferee.

**Bostwick Endowed Scholarship**
Awarded to students with a 3.0 minimum GPA, demonstrated leadership and community service. Financial need may be considered.

**Citizens for Youth in Ventura County Endowed Scholarship Fund**
Awarded to a Ventura County high school graduate with a minimum GPA of 2.0 from high school or community college. Voluntary school or community service and financial need will be considered. It is renewable up to four years for a freshman, two years for a community college transferee, or two years for a graduate student.

**California Strawberry Festival Endowed Scholarship**
Awarded to students who are Ventura County residents and whose parent(s) have been employed by the local strawberry industry for at least one season. Students must have a 3.0 minimum GPA and demonstrate financial need. It is renewable for up to four years for freshmen, or two years for transfer or graduate students.

**Hammer Family Trust Endowed Scholarship**
Awarded to students preparing for careers in engineering, mathematics, or teaching. Students must have a 3.0 minimum GPA and demonstrate leadership and community involvement.
GENERAL SCHOLARSHIPS

The CSUCI Foundation provides funds for general scholarships for qualified students. The minimum GPA is 3.0.

Please contact the Financial Aid Office for further information on the above scholarships. Scholarship information is also available on the CSUCI website. Visit www.csuci.edu and see the scholarships page under Financial Aid.

Additional scholarships are available through the Ventura County Community Foundation. Please visit www.vccf.org for a list of Ventura County scholarships or contact them directly at (805) 988-0196.
MISSION
Placing students at the center of their educational experience, the Division of Student Affairs supports and enhances learning and the University community through quality activities, facilities, programs, and services.

VICE PRESIDENT FOR STUDENT AFFAIRS
Location
Bell Tower Building,
2nd Floor, Room 2560
(805) 437-8536
Fax: (805) 437-8549

The mission of the Office of the Vice President is to recommend policies and procedures that will ensure a coordinated delivery and assessment system of student services through all departments within the Division of Student Affairs (DSA). This includes tracking and reporting expenditures, implementing selected special events or projects, and producing and distributing internal and external student communication to pertinent constituencies throughout the University and surrounding communities. The Office of the Vice President also coordinates all personnel, budget, training, development, special projects, and student communication for the Division of Student Affairs.

ENROLLMENT SERVICES
Location
Enrollment Center, Room 144
Sage Hall, 1st Floor
(805) 437-8500
Fax: (805) 437-8509

Enrollment Services can answer your questions about admissions, records, registration, recruitment, and financial aid.

ADMISSIONS AND RECRUITMENT
Admissions
Location
Enrollment Center, Room 144
Sage Hall, 1st Floor
(805) 437-8500
Fax: (805) 437-8509

The Admissions office accepts and processes admission applications for both undergraduate and post-baccalaureate programs. Eligibility for admission to CSUCI is governed by Title 5 of the California Code of Regulations and is addressed previously in this catalog.

Recruitment
Location
Recruitment Center, Room 158
Sage Hall, 1st Floor
(805) 437-8520/ (805) 437-CSCI (2724)
Fax: (805) 437-8519
Email: prospective.student@csuci.edu

The Recruitment office develops and maintains positive relationships to recruit, enroll, and retain a qualified and diversified undergraduate and graduate student body through college fairs, and provide visits and presentations to local high schools, community colleges, and community organizations. Admission counselors are available to assist prospective students in understanding the requirements necessary to obtain admission to CSU Channel Islands. We offer the following services:

• Pre-admissions counseling appointments for students who have yet to apply to the University. These are individual meetings at which one of our admission counselors will guide prospective students through general education questions and specific major requirements.
• Campus tours are offered Monday through Friday at 11 am and 2 pm. Weekend tours are available at noon on the first Saturday of every month, excluding holiday weekends. A visit to our campus provides an opportunity for prospective students to view the campus and familiarize themselves with the various resources the University has to offer. Each tour is led by a Cal State Channel Islands student.
• A group campus visit is designed to provide high school and college students the opportunity to tour the campus and view a presentation given by an admission counselor. Group campus visits are available by appointment to a maximum of 60 students.

If you would like additional information regarding any of these services or would like to speak to an admission counselor, please contact the University at (805) 437-CSCI (2724) or via email at prospective.student@csuci.edu.

RECORDS AND REGISTRATION
Location
Enrollment Center, Room 144
Sage Hall, 1st Floor,
(805) 437-8500
Fax: (805) 437-8509

The Records and Registration office maintains timely and accurate records on enrollment, and the academic progress and accomplishments of its students, while maintaining the privacy and security of those records.

Registration
Registration activities for new and continuing students, including eligibility for registration and assignment of registration appointments, is managed by the Records and Registration office. Students enroll on the web through myCSUCI.

Graduation
Verification of degree completion requirements is a function of the Records and Registration office. Students must file for graduation for the term in which they will have completed all requirements. Application for graduation must be made by the published deadline.
Veterans Affairs
Students who are eligible for benefits as a veteran, dependent, or reservist should contact our V.A. Specialist in the Enrollment Center. Services available include assistance in applying for educational benefits and education certification. Students planning to attend CSU Channel Islands should contact their local Veterans Services office or the regional Veterans Affairs office at www.gibill.va.gov. Once approved by the local or regional V.A. office, students who are registered in classes at CSU Channel Islands must make an appointment to complete their certification paperwork. This paperwork must be completed each semester. For additional information, please contact Enrollment Services.

FINANCIAL AID
Location
Enrollment Center, Room 144
Sage Hall, 1st Floor,
(805) 437-8530
Fax: (805) 437-8509
Email: financial.aid@csuci.edu

The mission of the Financial Aid office is to assist students in obtaining financial aid resources to meet their educational costs. Students must complete a Free Application for Federal Student Aid (FAFSA), which can be obtained in the Enrollment Center. The FAFSA can also be completed online at: www.fafsa.ed.gov. A variety of financial aid resources are available to students, including grants, loans, and scholarships. After students have completed and submitted the FAFSA, they may be considered for the following:

Grants
Federal or state funds that do not have to be repaid.
- Federal Pell Grants are awarded to eligible students who have not already earned a bachelor’s degree or are working toward a teaching credential.
- Cal Grants are awarded to California residents who have financial need and meet the California Student Aid Commission scholastic requirements.
- State University Grants are awarded to California residents who have financial need.

Loans
Federally guaranteed student loans with low interest rates.

Federal Stafford Loans include the subsidized and unsubsidized loan programs which provide low interest, long-term loans to eligible students through selected lenders. Federal Subsidized Stafford loans are available to students based on financial need. Interest is paid by the federal government (subsidized) while students are enrolled at least half-time and during their six-month grace period after leaving school. Unsubsidized Federal Stafford Loans are available to all students without regard to income. Interest is paid by the student or added to the loan amount that will be repaid later.

Scholarships
The University, in participation with the community, has an endowment that provides scholarships, which are based on academic excellence, financial need and community service (please refer to pages 47-48).

STUDENT LIFE
Location
Bell Tower Building
(805) 437-8510
Fax: (805) 437-8529
(805) 437-8510 (V/TTY)

Our college years are often among the most profound and exhilarating times of our lives. The prospect of experiencing new ideas, making new friends, and exploring new roles can be very exciting. But college life can also include confusion and uncertainty that challenges our personal and social limits. In Student Life, we view these challenges as opportunities for learning and personal development. Our office offers programs and services that are designed not only to help students cope with college life but to prepare for the challenges of the 21st century.

Our mission is to provide learning opportunities that encourage and empower students to become competent, responsible and involved citizens.

Our programs and services include: Career Development Services, Student Health Services, Disability Accommodation Services, Personal Counseling Services, Housing and Residential Education, Associated Students, Inc. (Student Government, Student Programming Board, the student newspaper, Channel Islands View, and the Nautical Yearbook), Judicial Affairs, New Student Orientation, University Outreach Program, the Educational Opportunity Program (EOP), Recreation and Leisure Services, Student Clubs and Organizations, Interfaith Council, Alcohol and Other Drugs Awareness Programs, Entrance Placement Exams, Student Leadership, The Hub, and the Multicultural and Women’s & Gender Center.

CAREER DEVELOPMENT SERVICES
Location
Sage Hall, Room 112
(805) 437-3270
Fax: (805) 437-8899
(805) 437-8510 (V/TTY)

The mission of Career Development Services is to assist students and other designated clients through all phases of their career development: to provide leadership to the institution on career development concerns; to develop positive relationships with employers and external constituencies; and to support institutional outcomes assessment and relevant research endeavors. Students are strongly encouraged to begin developing their unique Career Profile, as well as to start building their Co-Curricular Transcript during their freshman year.
However, students at any stage of career development can receive assistance in taking the next step towards a satisfying and rewarding career. Career exploration, planning, and job preparation resources include:

- Computer Assisted Career Guidance/Research EUREKA, and Career Cruising
- One-on-One Career Counseling
- Co-Curricular Transcript Development
- Career Resource Library
- Career Development Workshops (e.g. Resume Writing, Interview Strategies, Dress for Success)
- Internship Opportunities
- Resume Development
- Career Fair
- Volunteer Opportunities
- Student Employment

STUDENT HEALTH SERVICES
Location
Health Center on San Luis Avenue
(805) 437-8828
Fax: (805) 437-8829
(805) 437-8510 (V/TTY)

The mission of Student Health Services is to promote good physical and emotional health. Emphasis is placed on the prevention of illness through education. All regularly enrolled students are offered basic health services paid through student fees. These services, available on campus and at community clinics, include the following:

- Diagnosis and Treatment of Acute Illness and Injuries
- Physical Examinations
- Family Planning
- Immunizations (Measles and Rubella)
- PAP Smears
- TB Testing
- HIV Testing
- STD Screening and Treatment
- Pregnancy Testing
- Emergency Care
- Hepatitis Testing
- Health Education Program
- Student Health Advisory Board

Community Medical Clinics
Students are able to access the health care services listed at no cost through one of the seven Ventura County Medical Clinics listed below. Students must present their student identification card to receive service at the following clinics:

- Conejo Valley Family Care Center
  223 E. Thousand Oaks Blvd., #102
  Thousand Oaks (805) 371-8355

- Las Islas Family Medical Group
  325 W. Channel Islands Blvd.
  Oxnard (805) 385-8662

- Magnolia Family Medical Center
  2240 E. Gonzales Road
  Oxnard (805) 981-5151

- Moorpark Family Care Center
  35 West Los Angeles Ave.
  Moorpark (805) 529-4624

- Santa Paula Medical Clinic
  1334 East Main Street
  Santa Paula (805) 933-1122

- Sierra Vista Family Care Center
  4531 Alamo Street
  Simi Valley (805) 584-4885

- West Ventura Medical Clinic
  133 West Santa Clara Street
  Ventura (805) 641-5600

Student Health Insurance
Information regarding available student health insurance may be obtained from the Student Health Center or the office of Student Life.

Immunization Requirements
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment:

- Measles and Rubella
  All new and readmitted students born after January 1, 1957 must provide proof of immunization against measles and rubella prior to enrollment. Submit medical documentation to the Student Health Center to verify both vaccinations were received since age one or obtain the vaccination at no charge through Student Health Center.

- Hepatitis B
  All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum four to six months period. If you need further details or have special circumstances, please consult the Student Health Center at (805) 437-8828 in the Health Center Building located on San Luis Avenue. (Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that he or she has received information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease and whether or not he or she has chosen to receive the vaccination.) These are not admission requirements, but shall be required of students as conditions of enrollment in CSU. The form is available at the Student Health Center or through Housing and Residential Education. Submit medical documentation to the Student Health Center to verify vaccination or to obtain the vaccination at an additional charge through the Student Health Center.
DISABILITY ACCOMMODATION SERVICES

Location
Bell Tower Building, Rooms 1769-1798
(805) 437-8510
Fax: (805) 437-8529
(805) 437-8510 (V/TTY)
Email: accommodations@csuci.edu

CSU Channel Islands and Disability Accommodation Services (DAS) are dedicated to providing a broad range of quality support services to meet the needs of students with all types of physical, psychological, and learning disabilities. We strive to ensure access to all aspects of University life. Services are available to any student who finds his or her disability to be a barrier to achieving educational goals. However, only those students who identify themselves to the University and present appropriate written documentation of a disability are eligible for accommodation. Students with disabilities should contact the DAS as soon as possible, even if they are not yet enrolled.

To be eligible to receive services, students must meet with the DAS coordinator for intake and disability verification. Types of acceptable disability verification documentation can be found by looking online at the DAS website, contacting Disability Accommodation Services, or within the Student Life section of the CSUCI Student Guidebook available in print and online through the CSUCI Web site.

Students with disabilities who require special accommodation on the part of the University are advised to submit documentation to the DAS Coordinator prior to the beginning of the semester so that arrangements can be made to meet individual needs. Students are further required to return to DAS at the beginning of each new semester so that appropriate accommodations may be continued or new accommodations may be arranged. Services provided are based on disability verification and consultation with the student. Services may include (but are not limited to):

- Liaison to campus programs and departments
- Disability management counseling
- Computer lab with assistive software
- Test proctoring in quiet rooms with extended time
- Scribes for examinations
- Alternate format services
- Note-takers or taped lectures
- Readers
- Sign language interpreters
- Realtime captioning

Academic accommodations are provided, including alternative testing arrangements, based on disability related needs under section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Continuation of Services
It is the responsibility of the student with a disability to contact the office each semester for which they require accommodations, even if the same service was provided the previous semester. Students should make their accommodation requests to the coordinator of Disability Accommodation Services prior to classes, if at all possible, or immediately after the start of the semester. Delays in requesting services may cause a delay in service delivery.

Appointment Procedures
In an effort to provide the best quality services to all students, the following procedures for scheduling and maintaining appointments with Disability Accommodation Services have been established.

1. The first two (2) weeks of each semester are designated as walk-in only. Walk-in hours will be posted throughout the Disability Accommodation Services area and in the Student Life front office. Only students with urgent needs who cannot make a scheduled walk-in time will be granted an appointment. All students are encouraged to meet with the coordinator of DAS during the first two weeks of classes to avoid a delay in the provision of accommodations.

2. Same day appointments and walk-ins beyond the first two weeks of classes will be granted only in cases of urgent need and as schedule availability permits.

3. Appointments may be scheduled in the Student Life front office by calling 805-437-8510 (V/TTY) or by emailing accommodations@csuci.edu. Students are responsible for keeping their scheduled appointments and notifying the Student Life office if they will be late or need to cancel. Students are encouraged to make timely requests for accommodations in advance of known need. A delay in making a request may result in a delay or denial of service.

4. Scheduled appointments will be forfeited if the student is late by 20 minutes or more without notifying the office of the delay.

5. A student who misses two (2) appointments without notifying the office to cancel must contact the DAS coordinator via telephone (805-437-8528) or email (terri.goldstein@csuci.edu) to appeal for an appointment to be scheduled.

6. A student who misses three (3) appointments and has notified the office to cancel must contact the DAS coordinator via telephone (805-437-8528) or email (terri.goldstein@csuci.edu) to appeal for an appointment to be scheduled.
Counseling and Psychological Services provides high quality, confidential, short-term counseling free of charge to students. The counseling staff is committed to helping students develop their maximum potential while pursuing their educational and personal goals.

Counseling services include individual, and group counseling. Students come for counseling with a wide range of concerns, which may include:

- getting along with roommates,
- relationships,
- self-image and self-esteem,
- depression,
- anxiety,
- alcohol and drug concerns,
- self-injury,
- major direction in college,
- recovering from abuse or assault,
- body image,
- eating disorders,
- sexuality,
- sexual orientation,
- grief and loss, and
- living with a disability.

When brief counseling is not sufficient, referral assistance to community mental health services and providers is available.

In addition, Personal Counseling Services provides a variety of psychoeducational presentations, workshops and coaching groups to assist students to successfully address the challenges of college life. Topics include:

- Test Anxiety Management,
- Time Management,
- Surviving and Thriving with ADD,
- Stress Management, and
- Adjusting to College Life.

Personal Counseling Services works together with Disability Accommodation Services to consult with students with psychological disabilities and AD/HD to develop strategies to reduce impairment from a disabling condition.

Unlike traditional campus housing, the University has constructed apartment-style living arrangements that are tailored for the academic-minded student who wants quality on-campus housing at a reasonable price. The apartments offer an array of amenities that are targeted toward enhancing the student's University experience.

The residence halls are not merely a place to eat and sleep. It is a community made up of students from a variety of ethnic, cultural, and socio-economic backgrounds. The on-campus living experience at CSU Channel Islands is an integral part of the learning and educational process of students. In fact, the residence halls may provide one of the most rewarding and developmental experiences that students have at CSU Channel Islands.

Student residential living at CSUCI is unique in concept and design. To maintain the architectural integrity of the campus, each residential complex has been designed to reflect the Spanish-style architecture of the original buildings on campus that date back to the 1930s.

Students who are interested in learning more about the apartment-style residence halls of CSUCI and their amenities should contact Housing and Residential Education at (805) 437-2733 or via e-mail at studenthousing@csuci.edu.

For off-campus housing information, please contact the Student Leadership and Community office at (805) 437-8998.
All registered students are members of Associated Students Incorporated (ASI) and pay both an associated student fee and a student body center fee as part of their registration. ASI is the umbrella organization for Student Government, Student Programming Board, the student newspaper, Channel Islands View, and the Nautical Yearbook.

Student Government (SG) is comprised of elected student leaders including a president, vice president, senate members, and ASI board members. The student government sets policy, provides student service programs, contributes input on University policies, and recommends students to serve on University advisory boards.

The Student Programming Board (SPB) is a select group of students who assist in the creation of activities and events on the CSUCI campus. Their purpose is to plan, promote and produce a variety of student centered programs that are educational, cultural and social in nature.

The Channel Islands View student newspaper is written by and for students and is a forum for discussion of current topics as well as campus issues and events.

The Nautical Yearbook provides the campus community with a journalistically sound annual yearbook that is a culmination of the past academic year.

JUDICIAL AFFAIRS
Location
Bell Tower Building
Office of the Dean of Student Life
(805) 437-8511
Fax: (805) 437-8529
(805) 437-8510 (V/TTY)

The mission of Judicial Affairs is to develop, disseminate, interpret, and enforce campus regulations; to protect the relevant legal rights of students; to address student behavioral problems in an effective and educational manner; to facilitate and encourage respect for campus governance; and to provide learning experiences for students who participate in the operations of the judicial system.

NEW STUDENT ORIENTATION
Location
Bell Tower Building
(805) 437-8998
Fax: (805) 437-8529
V/TTY: (805) 437-8510

New Student Orientation assists new students with their successful transition to CSUCI. Orientations are offered to incoming freshman and transfer students prior to the start of the fall and spring semesters. These programs inform students about services and opportunities at CSUCI while assisting them with the initial advising and registration process. Transfer students are strongly encouraged to attend New Student Orientation. Attendance for freshman is mandatory.

UNIVERSITY OUTREACH PROGRAM
Location
Conference Center
(805) 437-8923
Fax: (805) 437-8529
(805) 437-8510 (V/TTY)

The University Outreach Program is an early academic outreach program aimed at preparing and motivating low income and educationally disadvantaged elementary and middle school students to pursue and successfully complete a post secondary education. The goal of the program is to offer positive reinforcement to develop a commitment to higher education, the resources and awareness of educational options, and encouragement for students to plan and prepare academically and financially for college.

EDUCATIONAL OPPORTUNITY PROGRAM (EOP)
Location
Conference Center
(805) 437-8939
Fax: (805) 437-8529
(805) 437-8510 (V/TTY)

The Educational Opportunity Program (EOP) is designed to improve access and retention of low income and educationally disadvantaged students by providing active and targeted support aimed at increasing academic accomplishment and individual empowerment. The ultimate goal is to provide incoming students from disadvantaged backgrounds with the tools that will help them succeed in college and ultimately graduate from California State University Channel Islands.

Student preparation and retention programs such as University Outreach and the Educational Opportunity Program provide the information necessary for students to learn about higher educational opportunities and assist them in qualifying for and gaining access to the program that meets their educational, vocational and social goals. Programs that provide retention services complement Outreach services by ensuring student support services will be available to students as they progress in their baccalaureate studies.
RECREATION AND LEISURE SERVICES
Location
Recreation Center
Arroyo Hall
(805) 437-8902

Recreation and Leisure Services provides programming and activities in seven categories including: informal recreation, intramural sports, sports clubs, health and fitness, outdoor adventures, instructional programs and special events. The programming is structured to provide a variety of recreational opportunities for a diverse student population.

STUDENT LEADERSHIP AND COMMUNITY
Location
Bell Tower Building
(805) 437-8998
Fax: (805) 437-8529
(805) 437-8510 (TTY)

Student Leadership and Community provides leadership opportunities for students and is directly responsible for a variety of exciting campus activities and events. Some of these events include the Welcome Barbecue, Family Weekend, and Dolphin Days, as well as various cultural heritage observances. In addition to increasing the vitality and culture of the campus, student clubs and organizations provide leadership opportunities and community service. Student organizations foster interest and education in a variety of areas ranging from sports to politics. Student Leadership and Community is ready to provide assistance and direction for the implementation, growth and development of all new and continuing clubs and organizations. Students who are interested in leadership opportunities, want to get involved with a club or organization, or just want to find out what is happening on campus should stop by the Student Leadership and Community office.

THE HUB
Location
The Hub
(805) 437-8932
Fax: (805) 437-8529
(805) 437-8510 (TTY)

The Hub is located on the northwest corner of the campus. The Hub is a great place to meet and chat with other students, and enjoy recreational activities such as billiards and chess. It is equipped with a big screen TV, a game room, computers with Internet access, a cozy place to read, and a snack area.

MULTICULTURAL AND WOMEN’S & GENDER CENTER
Location
Bell Tower Building, Room 1805
(805) 437-8407
Fax: (805) 437-3268
(805) 437-8510 (TTY)

The mission of the Multicultural and Women’s & Gender Center is to educate students on issues of diversity and equality, to advocate for underrepresented groups on campus, to affirm and celebrate the unique heritage of our students, promote awareness, understanding, and appreciation for all peoples and cultures, to be a unifying force on campus, and to foster an environment that is emotionally, mentally, physically, and spiritually safe, and beneficial to all areas of student life and development.

It is the Center’s goal to be more proactive than reactive by encouraging collaboration and dialogue between students, faculty, staff, and administrators of diverse backgrounds, and by being a forum, through which people can communicate, voice their concerns, and learn from one another.
POLICIES AND REGULATIONS

NONDISCRIMINATION POLICY
Race, Color, and National Origin
The California State University complies with the requirements of Title VI and Title VII of the Civil Rights Act of 1964, as well as other applicable federal and state laws prohibiting discrimination. No person shall, on the basis of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program of the California State University.

Disability
The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Sections 504 and 508 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and various state laws prohibit such discrimination. Dr. Teri Goldstein, has been designated to coordinate the efforts of CSU Channel Islands to comply with all relevant disability laws. Inquiries concerning compliance may be addressed to this person at Office of Disabilities Accommodation, (805) 437-8510.

Sex/Gender
The California State University does not discriminate on the basis of sex or gender in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972 and certain other federal and state laws prohibit discrimination on the basis of sex in education programs and activities operated by CSU Channel Islands. Such programs and activities include admission of students and employment. Inquiries concerning the application of these laws to programs and activities of CSU Channel Islands may be referred to the Office of Human Resources who are assigned the administrative responsibility of reviewing such matters or to the Regional Director of the Office of Civil Rights, Region IX, 50 United Nations Plaza, Room 239, San Francisco, California 94102.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

Sexual Orientation
By CSU Board of Trustees policy, the California State University does not discriminate on the basis of sexual orientation.

PRIVACY RIGHTS OF STUDENTS
IN EDUCATION RECORDS
The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained from Enrollment Services. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release “directory information” concerning students. “Directory information” may include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The above-designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the Vice President for Student Affairs.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’s academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).
USE OF SOCIAL SECURITY NUMBER
Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

IMMIGRATION REQUIREMENTS FOR LICENSURE
The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation these requirements are available from the Office of Human Resources in University Hall, or by telephone at (805) 437-8849.

CAREER PLACEMENT
The Office of Institutional Research may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

CANCELLATION OF REGISTRATION OR WITHDRAWAL FROM THE INSTITUTION
Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Enrollment Center, Sage Hall, (805) 437-8500.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

SYSTEMWIDE PLACEMENT TEST REQUIREMENTS
The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms.

Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to the office of Student Life located on the 1st floor, Bell Tower Building, (805) 437-8510.

English Placement Test (EPT)
The CSU English Placement Test (EPT) is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be competed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of “Exempt” on the augmented English CST taken in grade 11.
- A score of 550 or above on the verbal section of the College Board SAT I Reasoning Test taken April 1995 or later.
- A score of 24 or above on the enhanced ACT English Test taken October 1989 or later.
- A score of 680 or above on the re-centered and adjusted College Board SAT II: Writing Test taken May 1998 or later.
A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Scholastic Advanced Placement program.

Completion and transfer or a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) written communication requirement, provided such course was completed with a grade of C or better.

Directed Self Placement (DSP)
Directed Self Placement will be the only method used on the Channel Islands campus to place students into freshman composition courses. EPT scores will not be used. Students will be given guidance in Directed Self Placement during Orientation, and will select either English 105, Composition and Rhetoric, or the English 102, 103 Stretch Composition sequence. Completion of either English 105 or English 102 plus English 103 satisfies the freshman writing requirement.

Entry Level Mathematics (ELM) Placement Examination
The Entry Level Mathematics (ELM) Placement Examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of “Exempt” on the augmented mathematics CST taken in grade 11;
- A score of 550 or above on the mathematics section of the College Board SAT I Reasoning Test or on the College Board SAT II Mathematics Tests Level I, IC (Calculator), II, or IIC (Calculator);
- A score of 23 or above on the American College Testing Mathematics Test;
- A score of 3 or above on the College Board Advanced Placement Mathematics examination (AB or BC) or Statistics examination; or
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement provided such course was completed with a grade of C or better.

STUDENT CONDUCT

41301. Standards for Student Conduct
The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community must choose behaviors that contribute toward this end. Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

1. Student Responsibilities
Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

2. Unacceptable Student Behaviors
The following behavior is subject to disciplinary sanctions:

a. Dishonesty, including:
   (1) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   (2) Furnishing false information to a University official, faculty member, or campus office.
   (3) Forging, alteration, or misuse of a University document, key, or identification instrument.
   (4) Misrepresenting oneself to be an authorized agent of the University or one of its auxiliaries.

b. Unauthorized entry into, presence in, use of, or misuse of University property.

c. Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.

d. Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.

e. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, or leading to campus property or an off-campus University related activity.

f. Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.

1. Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.

h. Hazing, or conspiracy to haze, as defined in Education Code Sections 32050 and 32051: “Hazing” includes any method of initiation or pre-initiation into a student organization, or any pastime or amusement engaged in with respect to such an organization which causes, or is likely to cause, bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm, to any student or other person attending any school, community college, college, university or other educational institution in this state; but the term “hazing” does not include customary athletic events or other similar contests or competitions.

A group of students acting together may be considered a 'student organization' for purposes of this section whether or not they are officially recognized. Neither the express or implied consent of a victim of hazing, nor the lack of active participation while hazing is going on is a defense. Apathy or acquiescence in the presence
of hazing is not a neutral act, and is also a violation of this section.
i. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.
j. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.
k. Theft of property or services from the University community, or misappropriation of University resources.
l. Unauthorized destruction, or damage to University property or other property in the University community.
m. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.
n. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
o. Misuse of computer facilities or resources, including:
   (1) Unauthorized entry into a file, for any purpose.
   (3) Unauthorized transfer of a file.
   (4) Use of another's identification or password.
   (5) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.
   (6) Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   (7) Use of computing facilities and resources to interfere with normal University operations.
   (8) Use of computing facilities and resources in violation of copyright laws.
   (9) Violation of a campus computer use policy.
p. Violation of any published University policy, rule, regulation or presidential order.
q. Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
r. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.
s. Violation of the Student Conduct Procedures, including:
   (1) Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   (2) Disruption or interference with the orderly progress of a student discipline proceeding.
   (3) Initiation of a student discipline proceeding in bad faith.
   (4) Attempting to discourage another from participating in the student discipline matter.
   (5) Attempting to influence the impartiality of any participant in a student discipline matter.
   (6) Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   (7) Failure to comply with the sanction(s) imposed under a student discipline proceeding.
   t. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

3. Application of this Code
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

4. Procedures for Enforcing this Code
The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

41302. Disposition of Fees: Campus Emergency; Interim Suspension
The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required
in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

**STUDENT ACADEMIC POLICIES**

**Declaration of Majors**
To help ensure timely completion of graduation requirements, students who have a total of 60 units completed and in progress must have declared a major before they may register for the next term. Upper division transfer students are required to declare their intended major on their application for admission.

**(SP02-06)**

**Policy on Catalog Rights**
Undergraduate students who have maintained continuous attendance at a CSU or California Community College may elect to qualify for graduation from CSUCI under general education, United States history, Constitution and American ideals, and other non-major catalog requirements in effect either (1) at the time they began attending any California Community College or CSU campus, or (2) at the time they entered the CSU campus from which they will graduate, or (3) at the time they graduate from the CSU. (Title 5, Section 40401)

Transfer students, returning students, and students changing their major or minor field of study may be required by the individual program to meet updated major or minor requirements. All students may be subjected to any other requirements mandated by system-wide policy changes affecting all CSU students.

Absence related to an approved educational leave or for attendance at another accredited institution of higher learning is not considered an interruption, providing such absence does not exceed two years. The absence must be consistent with the CSU definition of educational leave and with CSU policy.

Students who have been academically disqualified lose previously established catalog rights.

**(SP04-28)**

**Double-Counting of Course Requirements**
A course may meet the requirements for two or more program areas (majors, minors, and other sub-programs) if the coordinators for those program areas agree; however, the units for the course are counted only once toward the total units for graduation. Double counting between a program and General Education requirements is also allowed. Only six of the nine units of upper-division, interdisciplinary General Education courses may be double counted between a major and General Education.

**(SP01-34)**

**Multiple Majors**
Students may declare more than one major. If all majors completed lead to the same degree, BA or BS, they will all appear on the diploma. If the majors lead to different degrees, the policy on double degrees applies. Double counting of courses shall conform to the policy in Senate Resolution 34-01.

**(SP02-07)**

**Double Degrees**
If two baccalaureate programs, one leading to a BA and one leading to a BS, are completed concurrently, only one degree (BA or BS) will be conferred. Only one degree, the one of the student’s choice, will appear on the diploma. The fact that requirements of another degree have been completed will be noted on the transcript. Double counting of courses shall conform to the policy in Senate Resolution 34-01.

**(SP02-16)**

**Wait List Policy**
Prior to the start of classes, students wishing to enroll in a closed course may choose to be added to a wait list. Wait listed students will be automatically enrolled in the course as space becomes available. At the instructor’s discretion, students may be added to the course after the start of classes.

**(SP03-20)**

**Policy on Course Time Conflict**
Students may not enroll in classes that conflict in time. If the faculty members involved believe a student may participate fully and attend two classes that conflict in time in the schedule, the student must obtain the signature of both instructors for these classes on the Time Conflict form, and state the reasons why this is possible.

**(SP04-30)**

**Add Policy**
1. Students may add courses during the first three weeks of classes with approval signatures from the instructor.
2. During the fourth week of instruction a student may add a class with the approval of the instructor and the approval of the Vice President for Academic Affairs (or designee) as indicated by their signatures on the appropriate forms.

**(SP03-05)**

**Withdrawal from Courses**
1. Students may drop courses during the first three weeks of classes without instructor permission.
2. After the third week of classes and before the end of the tenth week of classes, withdrawal from courses is permissible only for serious and compelling reasons. Approval signatures from the instructor and program chairs must be obtained to withdraw during this period. The withdrawal will be noted as a “W” on the student’s permanent record.
3. After the tenth week of instruction, withdrawal is not permitted except in cases beyond the student’s control such as accident or serious illness where the assignment of an Incomplete is not practical. Approval signatures from the instructor, program chair and Vice President for Academic Affairs (or designee) must be obtained. Withdrawal in this category will typically involve total withdrawal from the University and will be noted as a “W” on the student’s permanent record.

4. Instructor Initiated Withdrawal: Instructors may drop students within the first three weeks of classes and as early as the first day of classes for any of the following reasons:
   a. Student failure to attend class without having made prior arrangements with the instructor.
   b. Student failure to complete the prerequisites for a course before enrolling.
   c. Student failure to secure properly the permission of the instructor before enrolling when such permission is required.

(SP03-07)

Class Attendance
1. Students are expected to attend class regularly.
2. Instructors must include their class attendance requirements in the course syllabus.
3. If students have a valid reason to miss class (excused absence), they are responsible for informing their instructors of the absence at the earliest possible date (preferably before class if possible). Instructors may require students to provide documentation for excused absences. Excused absences include, but are not limited to:
   a. Illness or injury to the student
   b. Death, injury, or serious illness of an immediate family member
   c. Religious reasons (California Education Code section 89320)
   d. Jury duty or government obligation
   e. University sanctioned or approved activities (examples include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)
4. It is the responsibility of the student to give advance notification, contact the instructor to make arrangements to make up any academic work that may be missed, submit assignments on time, and make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.
5. If a student does not notify the instructor one week in advance of the dates of excused absences, the instructor is not required to adjust the class schedule or to allow for make-up activities, tests, or exams. However, students shall not be penalized for excused absences when circumstances make it impossible to provide advance notice (e.g. student is engaged in a University sanctioned event such as a playoff game that cannot be anticipated).

6. Students who expect to be absent from the University for any valid reason, and who have found it difficult to inform their instructors, should notify the Division of Academic Affairs. The Division of Academic Affairs shall notify the student’s instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work.
7. In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor’s option to assign alternative work.
8. Instructors are not obligated to consider other absences as excused.

(SP01-56)

Academic Leave
Students who take a one semester leave of absence from CSUCI are considered continuing students and do not need to take any action prior to registration. Any student in good academic standing may apply to take a leave of absence from the university for up to four consecutive semesters. While a student may apply for multiple leaves, no student will be permitted more than six total semesters of leave from CSUCI. Academic Leave Forms are available at the Office of Admissions and Records.

(SP03-06)

Grades
1. “ABCDF” is the default grading system.
2. Although it is not required, individual faculty members may add a “+” or “-” to any grade except “F.” By adding a “+” to a grade, the grade points earned increase by 0.3 (except an A+ shall still be 4.0 grade points). By adding a “-” to a grade, the grade points earned shall decrease by 0.3. Course syllabi are required to state clearly whether “+/-” grading is used.
3. A student may take a course “CR/NC” if the course is designated as allowing “CR/NC” grading in the course approval process.
4. Not more than 12 units of general education courses may be taken “CR/NC.”
5. The decision on how many units of courses may be taken “CR/NC” and which courses can be taken “CR/NC” is left up to each individual program.
6. Course syllabi shall include a discussion of the instructor’s grading policy.

(SP01-38)

Changing Basis for Grading
If either traditional letter grading or credit/no credit grading is allowed for a course, a student may change the basis of his or her grading for the course from traditional letter grading to credit/no credit grading, or vice versa, through the third week of instruction without instructor approval by filing the appropriate form. Grade basis changes are permitted when the program area for the course and the student’s major do not require a specific grading option for the course.

(SP03-34)
Course Load for Undergraduate Students
An undergraduate student may enroll in 18 units without advisor approval. Students enrolling in 19 or more units are required to have a program advisor’s written approval.
(SP03-04)

Incomplete Grade Policy
An “Incomplete Authorized” (I) signifies that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified reasons and that there is still a possibility of earning credit. After the request of the student for the “I” grade, the faculty member makes the decision as to whether or not an “I” grade is issued. If an “I” grade is issued, the faculty member determines what conditions must be met for the “I” to be removed. However, to protect both students and faculty, it is necessary that there be a written record of the conditions. Thus, if there is a later disagreement, or if the instructor is no longer available, the “I” can still be handled by the program. The Request for an Incomplete form which is to be used for writing the conditions mentioned above is available in the program administrative support offices. This form shall include a statement of:
1. the work not completed and the percentage that each uncompleted assignment will count toward the final grade; and
2. the final grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the “I” was assigned, without respect to continuous enrollment of the student during this period.

A copy of the agreement is to be given to the student and a copy is to be retained in the program office. The completed forms are filed in the program office. The awarding of an “I” requires prior consultation with the student. The student has the responsibility to confer with the faculty member to learn the requirements for removal of the “I”. At that time the student is given a copy of the form detailing the conditions to be met. An “I” must be made up within the time period set forth by the instructor with a maximum allowable time span of one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an “I” being converted to an “IC” symbol, unless the faculty member assigns a specific letter grade at the time the Incomplete is assigned, which would replace the “I” in the student’s record at the end of the calendar year deadline. The “IC” is counted as a failing grade (equivalent to an “F”) for grade point average and progress point computation. Although the one-year maximum for incomplete grades will be the general university policy, Executive Order 171 specifies that exceptions can be made in special cases, such as military service and serious health problems. An extension of an “I” grade in any one course shall be allowed only one time, for a maximum total extension of one year. An “I” may not be changed to a passing grade as the result of re-enrolling in the course. In cases where repetition of the course is appropriate, the student will be assigned a withdrawal or failing grade rather than an “I” grade. A failing grade is not an acceptable reason to request or grant an incomplete grade. If a student subsequently completes a course that is recorded as incomplete on a transcript from another institution, it is the student’s responsibility to submit a corrected official transcript and advise the Office of Admissions and Records that he/she wishes to receive credit.
(SP03-18)

Other Grading Symbols Assigned
RP (Report in Progress) The “RP” symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress, but that the assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate degree theses.

W (Withdrawal) The “W” symbol indicates that the student was permitted to withdraw from the course after the third week of the semester with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade point average. See withdrawal procedures in the Catalog.

WU (Withdrawal Unauthorized) The “WU” symbol indicates that an enrolled student did not formally withdraw from the course according to University policy and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average, this symbol is equivalent to an “F”

Course Grade Appeals
1. Each student has the right to appeal the final course grade, but only the final course grade. For example, a student may not appeal grades on individual assignments and/or examinations.
2. Appeals are limited to situations in which the student believes the grade was “prejudicially”, “capriciously”, or “arbitrarily” assigned.
3. The appeal must be initiated within the first seven weeks of the first regular semester after assignment of the grade. A student who believes that a course grade has been assigned inappropriately must follow the proper steps in the appeal process, observing the time limits for completion of the steps as follows:
Step 1: The grade appeal must first be directed to the instructor of the course, in writing by the end of the seventh week of the semester and copied to the Chair. If the grade is not correct, the instructor can change the grade with a change of grade form. The instructor has two weeks to respond to the student’s request in writing and copied to the Chair. Students who file a grade appeal after the fifth week may not have their appeals settled by the end of the semester.
Step 2: If the grade is correct and the student is not satisfied with the instructor's explanation, and intends to appeal the grade, the student must make an appointment to speak with the program chair. If the instructor is not available or does not respond to the student's appeal within the given time frame, the program chair may act on behalf of the instructor. If the program chair is the instructor, the student should speak with the Vice President of Academic Affairs (or designee). The program chair or Vice President of Academic Affairs (or designee) cannot change the grade, but will then discuss the issue with the instructor and provide a response by the end of the ninth week of the semester to the student.

Step 3: If the student is not satisfied after receiving the response from the appropriate administrator, the student should submit a written appeal by the end of the eleventh week of the semester to the University Appeals Committee through the office of Academic Affairs.

Step 4: The University Appeals Committee will forward the student's statement to the instructor. The instructor will be required to respond in writing by a specified date within the semester. The student's statement and the instructor's response will be reviewed by the entire committee, after which the committee can:

a. Request more information from the student and/or the instructor
b. Decide to change or maintain the grade

Step 5: When the committee has made its decision, it will notify the student and instructor in writing, and the student will be given a copy of the instructor's written response by the end of the semester.

4. The University Appeals committee shall consist of faculty and at least one student.

5. Individuals may not participate as a member of the University Appeals Committee in review of an appeal if they are a participant in the appeal. The decision of the University Appeals Committee is final.

6. If a student is a candidate for graduation, the grade appeal must be initiated 30 days from the last day of the semester. The Office of the Registrar must be notified in writing of the intent to appeal the grade. The degree will not be granted until the grade change process has been completed.

7. No grades can be changed for any reason after a degree has been granted.

Forgiveness of Previously Earned Grade (Repeat Policy)

The Forgiveness of Previously Earned Grade Policy may be used only by undergraduate students. It may not be used by graduate/postbaccalaureate students working on master's degrees, graduate certificates, teaching credentials or by unclassified postbaccalaureate students, even when they might take undergraduate courses.

1. In the case of a repeated course, the subsequent grade is substituted for the earlier one in the computation of units attempted and grade point average. The previous course grade(s) remain(s) on the record, but is/are annotated as being discounted from grade point average calculations.

2. This policy applies only to courses taken at CSUCI and repeated at CSUCI.

3. A student may repeat up to a total of eighteen (18) semester units taken at CSUCI, for forgiveness. Beyond 18 semester units, all grades received will be averaged into the GPA.

4. This policy may be used only on grades of “WU,” “F,” “D-,” “D,” “D+,” “C-,” “IC.”

5. This policy may not be used on grades of “A+,” “A,” “A-,” “B+,” “B,” “B-,” “C+,” “C,” “I.”

6. A grade assigned as a result of student disciplinary procedures cannot be forgiven and will be computed in the grade point average.

Graduate/Postbaccalaureate Student Course Repeat

A graduate/postbaccalaureate student may take a course a total of 3 times with no grade forgiveness. All grades will be calculated into the GPA. Unit credit for the courses will be granted only once unless courses are repeatable as specified in the catalogue.

Semester Honors

CSUCI undergraduate students completing 12 or more units with a letter grade in a single semester or completing 12 or more units with a letter grade in one academic year assessed at the end of the Spring semester, shall be named to the Semester Honors list if they earn a 3.75 or higher grade point average.

Program Honors

Program honors will be awarded based on criteria developed by individual programs.

University Honors

To receive honors at graduation at CSU Channel Islands, a student must:

1. Complete a minimum 30 units of courses taken at CSUCI for a letter grade:.
2. Earn a grade point average of 3.50 or above in all work taken at CSUCI.
3. Earn the following cumulative grade point average in all undergraduate courses, including transfer work:

   **Summa Cum Laude**
   This honor is awarded to all students who earn a grade point average of 3.90 - 4.0.

   **Magna Cum Laude**
   This honor is awarded to all students who earn a grade point average of 3.75 - 3.89

   **Cum Laude**
   This honor is awarded to all students who earn a grade point average of 3.50 - 3.74.
Title V, Section 40404: Graduation Requirements in United States History, Constitution, and American Ideals

Students are required to demonstrate competencies in U.S. History, U.S. Constitution and California state and local government for graduation. Competencies can be met by enrollment in six units as follows:

1. POLS 150 American Political Institutions (3)
   Students who have AP credit for American Government or have taken American Government without coverage of California government may take the following:
   - POLS 140 California Government (1)

2. Choose from one of the following:
   - HIST 270 The United States to 1877 (3)
   - HIST 271 The United States since 1877 (3)
   - HIST 272 Constitutional History of the U.S. (3)
   - HIST 275 The United States to 1900 (3)

Language and Multicultural Requirements

1. The language requirement can be met by satisfying General Education category C3a with a grade of C or better. Students who are G.E. certified in Section C must still meet the language requirement for graduation and may do so either by passing a C3a course with a grade of “C” or better or by demonstrating proficiency through examination. Students will also receive credit for having advanced proficiency in a language other than English. This proficiency can be demonstrated via an examination that assesses the student’s language skills (speaking, listening, reading and writing) on a variety of informal and formal topics. By passing this examination, students fulfill the graduation exit requirement for language. For purposes of the General Education requirement, however, students receive content credit but not unit credit.

2. The multicultural requirement can be met by satisfying General Education category C3b with a grade of C or better.

Outstanding Integrative Approaches Award

Granted to a student who exemplifies an education marked by integrative approaches from more than one discipline.

Outstanding Experiential and Service Learning Award

Granted to a student who exemplifies an education marked by experiential and service learning.

Outstanding Multicultural Perspectives Award

Granted to a student who demonstrates a widening of multicultural perspectives.

Outstanding International Perspectives Award

Granted to a student who demonstrates a widening of international perspectives.

Participating in Commencement Ceremonies

Students may participate in commencement ceremonies if they have no more than 10 units pending toward completion of their degrees.

Grade Point Average (GPA)

An overall GPA of 2.0 is required in:
1. Total courses attempted
2. CSU Channel Islands courses attempted; and
3. Courses in the major

Academic Dishonesty

1. Academic dishonesty includes such things as cheating, inventing false information or citations, plagiarism and helping someone else commit an act of academic dishonesty. It usually involves an attempt by a student to show possession of a level of knowledge or skill that he/she does not possess.

2. Course instructors have the initial responsibility for detecting and dealing with academic dishonesty. Instructors who believe that an act of academic dishonesty has occurred are obligated to discuss the matter with the student(s) involved. Instructors should possess reasonable evidence of academic dishonesty. However, if circumstances prevent consultation with student(s), instructors may take whatever action (subject to student appeal) they deem appropriate.

3. Instructors who are convinced by the evidence that a student is guilty of academic dishonesty shall assign an appropriate academic penalty. If the instructors believe that the academic dishonesty reflects on the student’s academic performance or the academic integrity in a course, the student’s grade should be adversely affected. Suggested guidelines for appropriate actions are: an oral reprimand in cases where there is reasonable doubt that the student knew his/her action constituted academic dishonesty; a failing grade on the particular paper, project or examination where the act of dishonesty was unpremeditated, or where there were significant mitigating circumstances; a failing grade...
in the course where the dishonesty was premeditated or planned. The instructors will file incident reports with the Vice Presidents for Academic Affairs and for Student Affairs or their designees. These reports shall include a description of the alleged incident of academic dishonesty, any relevant documentation, and any recommendations for action that he/she deems appropriate.

4. The Vice President for Student Affairs shall maintain an Academic Dishonesty File of all cases of academic dishonesty with the appropriate documentation.

5. Student may appeal any actions taken on charges of academic dishonesty to the “Academic Appeals Board.”

6. The Academic Appeals Board shall consist of faculty and at least one student.

7. Individuals may not participate as members of the Academic Appeals Board if they are participants in an appeal.

8. The decision of the Academic Appeals Board will be forwarded to the President of CSU Channel Islands, whose decision is final.

(SP01-57)

Honor Code

Academic integrity is the responsibility of all members of the CSUCI community. We, as members of the university community, share equally in the responsibility to ensure that the honor code instills self-respect, fosters scholarship and achievement, builds habits of honesty, promotes ethical behavior, inspires mutual fellowship and respect, and confers prestige on California State University Channel Islands and members of the university community. All university community members should be familiar with the Honor code. Students share with faculty and staff the responsibility of sustaining a climate of integrity. These values are to be maintained at all times.

A. Introduction

In a university community, there can be no doubt that honor and the pursuit of knowledge are inexorably intertwined.

An honor system must be believed in, supported, and administered by those who belong to it. Upon enrollment at California State University Channel Islands (CSUCI), each student is automatically subject to the provisions of the Honor system. Each student has a duty to become familiar with the Honor Code and the provisions of the Honor system. Ignorance of what constitutes an Honor Code violation cannot be used as a defense in an honor hearing.

The Honor system at CSUCI does not discriminate based upon race, color, religion, national origin, political affiliation, gender, sexual orientation, age, or disability. A faculty or staff member may require examination, paper, and other written or electronically submitted assignment contain the following pledge (or similar pledge approved by the faculty or staff member) of the student(s) submitting the work: “This work complies with the CSUCI Honor Code.” The pledge shall be signed by the student(s) unless it is submitted electronically, in which case the faculty or staff member may require a different method of proof of a student’s pledge.

B. The Honor Code

Students shall observe complete honesty in all academic matters. All students are strongly urged to ask their faculty or staff members to clarify what types of conduct are authorized or unauthorized in each course. Violations of the Honor Code include, but are not limited to, taking or attempting to take any of the following actions:

1. Using unauthorized materials or receiving unauthorized assistance during an examination or in connection with any work done for academic credit. Unauthorized materials may include, but are not limited to, notes, textbooks, previous examinations, exhibits, experiments, papers, or other supplementary items.

2. Giving false or misleading information regarding an academic matter.

3. Copying information from another student during an examination.

4. Rendering unauthorized assistance to another student by knowingly permitting him or her to see or copy all or a portion of an examination or any work to be submitted for academic credit.

5. Obtaining prior knowledge of examination materials (including using copies of previously given examinations obtained from files maintained by various groups and organizations) in an unauthorized manner.

6. Providing or obtaining unauthorized copies of any portion of an examination or other course work.

7. Using a commercially prepared paper or research project, or submitting for academic credit any work completed by someone else.

8. Falsifying or attempting to falsify class attendance records for oneself, or for someone else, or having another falsify attendance records on your behalf.

9. Falsifying material relating to course registration or grades, either for oneself or for someone else.

10. Falsifying reasons why a student did not attend a required class or take a scheduled examination.

11. Taking an examination in the place of another student.

12. Making unauthorized changes in any reported grade or on an official academic report form.

13. Falsifying data submitted for academic credit.

14. Collaborating in an unauthorized manner with one or more other students on an examination or any work submitted for academic credit.

15. Committing the act of plagiarism - the deliberate copying, writing, or presenting as one’s own the work of another person without proper acknowledgment of the true source.

16. Using University resources in an academically dishonest manner.

17. Falsifying evidence, intimidating, or influencing someone in connection with an honor violation investigation, hearing, or appeal.

(SP04-38)
Academic Probation and Disqualification
This CSU Channel Islands policy does not supersede additional policies or procedures mandated by Chancellor’s Executive Order 823.

Academic Probation
An undergraduate student is subject to academic probation if at any time the cumulative grade point average (GPA) in all college work attempted or the cumulative GPA at CSUCI falls below 2.0. Probationary students will be advised of their status at the end of the semester. The communication will include conditions for removal from probation and the circumstances that would lead to disqualification. All probationary students are required to receive academic advising no later than the second week of the following semester. Students shall be removed from academic probation once they have received such advising and both the cumulative GPA in all college work attempted and the cumulative GPA average at CSUCI are at least 2.0 or higher. (SP04-33)

Academic Disqualification
An undergraduate student on academic probation is subject to academic disqualification when: as a freshman the student falls below a GPA of 1.50 in all units attempted or in all units attempted at CSU Channel Islands; as a sophomore the student falls below a GPA of 1.70 in all units attempted or in all units attempted at CSU Channel Islands; as a junior the student falls below a GPA of 1.85 in all units attempted or in all units attempted at CSU Channel Islands; as a senior the student falls below a GPA of 1.95 in all units attempted or in all units attempted at CSU Channel Islands. Students’ records will be evaluated for disqualification at the end of spring semester.

A post-baccalaureate student will be subject to academic probation if, after attempting 12 or more graded units, his or her post-baccalaureate cumulative GPA for units attempted at CSU Channel Islands falls below a 2.50 average. The GPA will determine whether a student is subject to probation only when the student has attempted 12 semester units. A student enrolled in a graduate degree program in either conditionally classified or classified status shall be subject to academic probation if he or she fails to maintain a cumulative GPA of at least 3.0 in all units attempted; no course in which the student receives lower than a C may be counted toward a Master’s degree.

Administrative-Academic Probation
An undergraduate or graduate student may be placed on administrative-academic probation for any of the following reasons:
• Withdrawal from more than half the units in which a student is enrolled in two successive semesters or in any three semesters (withdrawals directly associated with a medical condition are not included);
• Repeated failure to progress toward the stated degree objective; or
• Failure to comply, after due notice, with an academic requirement or regulation.

Probationary students will be advised of their status by letter at the end of the semester. The letter will include conditions for removal from probation and the circumstances that would lead to disqualification.

Administrative-Academic Disqualification
A student who has been placed on administrative-academic probation may be disqualified if:
• the conditions for removal of academic-administrative probation are not met within the specified period;
• the student becomes subject to academic probation while on administrative-academic probation; and
• the student becomes subject to administrative-academic probation for the same or similar reason to a previous placement on academic-administrative probation, although not currently in such status.

When such action is taken, the student will receive written notification including an explanation of the basis for the action and the process for appeal.

Reinstatement
In order to be considered for reinstatement to CSUCI, a disqualified student must demonstrate academic ability by completing additional coursework. All classes taken must be applicable for degree credit at CSUCI. After eliminating the grade-point deficiency, the student may petition the Academic Appeals Board for reinstatement. The student must submit the petition for reinstatement no later than three weeks before the beginning of the semester that the student intends to return. The Academic Appeals Board will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (Fall or Spring) semester after their dismissal. Students who are disqualified, reinstated, and become disqualified a second time will not be granted a second reinstatement. (SP04-37)

Acceleration of University Studies
The University provides several means by which students may accelerate their studies; these are discussed below and on the Academic Advising website located at www.csuci.edu/academics/advising. Each of the following options may be subject to restrictions and regulations within individual academic programs. Therefore, students interested in any of these options should consult with the coordinator of the program concerned.

Advanced Placement (AP) Exam Credit
CSU Channel Islands grants credit toward its undergraduate degrees for successful completion of AP examinations. Students who present scores of 3 or better will be granted up to 6 semester units of college credit for each AP course. The exams for May 2006 will be available on the Academic Advising website (www.csuci.edu/academics/advising) after publication of this catalog. The AP table included in this catalog indicates credit likely to be given. It should be viewed as a guideline only and is subject to change. Grade reports are sent automatically to CSU Channel Islands if requested by the student at exam time. The student may also order the report through the AP website at http://www.collegeboard.com/student/testing/ap/exgrd_rep.html or by calling (609) 771-7300 or (888) 225-5427, Mon-Fri 8 am to 4:45 pm, Eastern Time. Reports should be sent to Admissions & Records.

**International Baccalaureate (IB) Exam Credit**

CSU Channel Islands grants credit toward its undergraduate degrees for successful completion of IB examinations. IB exams at the Higher Level (HL) passed with a score of 4 or higher will earn 6 units of semester credit. Exams passed earn a grade of credit (CR) and are not calculated into the GPA. The exams for 2006 will be available after publication of this catalog on the Academic Advising website (www.csuci.edu/academics/advising). The IB table included in this catalog indicates credit likely to be given. It should be viewed as a guideline only and is subject to change. IB transcripts are sent automatically to CSU Channel Islands upon completion of the exam if requested by the student. For more information about transcript requests, please call the IB North American office in New York City at (212) 696-4464, Mon-Fri 9:30 am to 4:30 pm, Eastern Time or send an e-mail to transcripts.ibna@ibo.org. Transcripts should be sent to Admissions & Records.

Military Service Credit
Credit will be allowed toward graduation to any student submitting evidence (DD 214 or DD 295) of satisfactory completion of Basic Training. Students with service in the Air Force, Army and Coast Guard will receive 4 units of credit. Students with service in the Marine Corps will earn 8 units of credit. Credit is allowed in accordance with the recommendation by the American Council on Education (ACE). Other military courses completed may earn baccalaureate credit as outlined in the Guide to the Evaluation of Education Experience in the Armed Forces. CSU Channel Islands has final discretion on where these units will be applied.

Substitution of Courses
Students who have taken a required course in their major/minor at a college or university other than CSUCI must petition to receive major/minor credit for this course. The Course Substitution of Major or Minor Requirements for Bachelor’s Degree is available in the Records Office and Advising Center. Petitions are also available for Request for Course Substitution: General Education/Graduation Requirements and Petition for Exception to a University Policy or Deadline. A photocopy of the course syllabus or catalog course description is required for each course being petitioned. Please note: a final grade of “C” or better is required for the language and multicultural graduation requirements. Advisors in the Advising Center can assist students in completing course substitution petitions. Once completed, all petitions must be submitted to the Records Office, which will then route the petition to the appropriate Faculty Major Advisor, Academic Coordinator, or Committee (GE or Curriculum) for review. A copy of the petition with the determination will be emailed to the student and the original form will be kept in the student’s file in the Records Office.

Internships
The following policies will pertain to all courses or programs designated as academic internships.

1. Definition
Internships integrate the students’ academic study with practical experience in cooperating organizations. Through the integration of practical and academic experience, students enhance their academic knowledge in their area of study, their personal development, and their professional preparation. The teaching faculty and the on-site supervisors share in the educational process of interns.

Any academic department/program/unit/faculty can develop their appropriate guidelines and procedures and structure regarding internships. However, for the purposes of legally minimizing the risk of liability and ensuring a safe and effective internship program for the University, students, faculty and partner organizations, the following policy should be incorporated into any university-related internship program.

2. All internships should:
   a. Include a signed agreement with a senior representative of the partner agency or corporation and the University procurement officer as designated signature authority. In this agreement, it must be stated that the university assumes no risk or liability and that the sponsoring agency/corporation assumes full responsibility for the liability of the intern, affirming that they have requisite insurance to cover any potential harm to the intern, and include basic information such as location, contact person, and organization description.
   b. Include a learning agreement signed by the student, sponsoring faculty, and placement supervisor listing the learning goals of the internship and the duties and responsibilities of each party, notifying the student of the assignment of liability, terms and conditions and the listing of relevant agency policies, and the date the internship begins. This includes mention of whether the intern is paid and conditions for receiving academic credit.

Faculty and/or programs must maintain a file of the aforementioned signed forms. The Dean of faculty will also retain a sample copy of internship forms that are used.

*This requirement is pursuant to Executive order 849, page 6: “Student placement agreements must be in writing and shall specify minimum insurance requirements applicable to the contracting parties and appropriate hold harmless provisions based upon the needs of the contracting parties. The following hold harmless provisions may be used as a minimum:

Hold Harmless Provision: CSU Channel Islands shall be responsible for damages caused by the negligence of its officers, employees and agents. Trustees shall be responsible for the damages caused by the negligence of its officers, employees and agents. The intent of this paragraph is to impose responsibility on each part for the negligence of its officers employees and agents.” (SP03-17)

Unit Credit by Examination
CSU Channel Islands may grant unit credit to those students who pass examinations that have been approved for credit system-wide. These are: the CSU English Equivalence Examination (EEE) and the College Level Entrance Program (CLEP) Examinations. Specific information on credit earned may be found by visiting the Academic Advising website located at www.csuci.edu/academics/advising.

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded as “CR” (credit) on the student’s transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.
Waiver of Course Requirement
In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree nor does it reduce the residence requirement. (SP01-37)

Credit Toward Graduation for Courses Taken Outside CSU Channel Islands
A student may earn credit toward graduation for courses taken outside of CSU Channel Islands as follows:

Transfer of Undergraduate and Graduate Credit from Another Accredited Institution
Students who were in good standing at another accredited institution may, within maximums, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements is subject to the determination and discretion of the University; students are cautioned that while the University will accept transferred courses for unit credit towards admission, it is under no obligation to accept those same courses for subject credit to fulfill requirements. Policy regarding transfer of courses from California community colleges differs in some respects. Individual program regulations for specific transfer limitations should be consulted.

Transfer of Undergraduate Credit From Accredited Community Colleges
A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:
1. No upper-division credit may be allowed for courses taken in a community college;
2. No credit may be allowed for professional courses in education taken in a community college, other than introduction to education courses;
3. Students who transfer general education certification are still required to complete at least 9 units of upper-division general education courses at CSU Channel Islands.
Note: Articulation agreements with the California Community Colleges may be found at www.ASSIST.org. ASSIST also provides CSU General Education and IGETC certification lists.

High School Students
Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given program and does not constitute the right to continued enrollment.

Communication with Students
The purpose of this policy is to ensure accurate, timely, and effective communication of University business to students either by mail or email.
1. Mail
   a. Students shall provide the University with a current mailing address.
2. Email
   a. All students shall receive an email account from the University. Official student email addresses end in @dolphin.csuci.edu. Students may have email privileges restricted for disciplinary reasons.
   b. The University shall utilize the “Dolphin Email” system as the official means of communication to CSUCI students. In the event that the University is unable to communicate with a student using the “Dolphin Email” system, the University shall communicate with students via the U.S. Postal Service.
   c. Students shall check their “Dolphin Email” at least once each week.
   d. Students may redirect their University email address to another account. However, the University will not be responsible for the handling of email by outside vendors or departmental servers. Instructions for redirecting email shall be available on the CSUCI “Dolphin Email” web site.
   e. Faculty shall determine how electronic forms of communication (e.g. email) will be used in their respective classes and will specify requirements to their students.
   f. All electronic communication shall meet federal and state accessibility requirements.
   g. All email sent to students shall include the name, title, email address, and telephone number of the person sending the email so that the student may verify the integrity of the email.
   h. Personal or identifying information in emails sent to students may only include directory information as defined in the University Catalog under the section entitled “Privacy Rights of Students in Education Records (FERPA)” unless the student has specified in writing to the Admissions and Records office not to release directory information.
   i. It is a violation of University policy to use University mail or a University email address to impersonate a University office, administrator, faculty, staff member, or student.
   j. Students who are suspended or expelled may have their “Dolphin Email” account closed. The account shall only be re-opened with approval from the University Judicial Affairs Officer.
   k. Complaints involving harassing email shall be investigated by the University Judicial Affairs Officer.
   l. Students who voluntarily withdraw from the University and have not completed their program degree or have not enrolled for more than one academic year, will have their email account closed at that time.
m. Only designated University offices are eligible to send global student emails.

n. Student email addresses shall not be provided for commercial purposes, personal gain or spamming.

(SP04-20) (SA.07.005)

Service-Learning Policy
The following policies will be adhered to at California State University Channel Islands for all courses designated as Service Learning Courses, Service-Learning Internships or courses with Service Learning components (hereafter collectively referred to as “Service-Learning Courses”).

1. Definition: *Service learning is a teaching and learning approach that integrates community service with academic study to enrich learning, teach civic responsibility, and strengthen communities, while engaging students in reflection upon what was experienced, how the community was benefited, and what was learned.

*Adapted from the National Commission on Service Learning Definition.

2. All Service Learning Courses must:
   a. Serve a genuine community need.
   b. Integrate course learning and teaching objectives with the service-learning activities.
   c. Provide activities to engage students in reflection about the service experience and the achievement of learning outcomes.
   d. Generate for each student, before placement, a Student Learning Plan, signed by the faculty instructor and authorized Community Organization (“CO”) representative, that identifies course goals and risks.
   e. Complete feedback forms on the value and effectiveness of the service-learning experience from the perspective of the student, faculty instructor and CO.
   f. Provide a description of the service-learning component of the class in the syllabus, stating whether service learning is a required component or not and what percentage of the course grade the service learning component comprises.

3. Service-Learning Agreement: A signed Service-Learning Agreement between California State University Channel Islands and the CO must be on file before any students are placed at the CO.

(SP03-16)

^Note that feedback forms related to the service learning experience are explicitly distinct from and not related to the Student Evaluations of Teaching Effectiveness.

Extension Courses
Students may take extension courses without matriculating at CSU Channel Islands provided that they meet course prerequisites. Extension courses may be applied to degree and credential requirements with approval of the degree program coordinator. Extension courses do not satisfy the University’s residence requirement for graduation. Up to 24 units earned through Open University (see Open University) and Extension may be applied to a bachelor’s degree at CSU Channel Islands, and up to 9 units may be applied to a master’s degree.

Open University
Open University permits non-matriculated students to register concurrently with matriculated students in regular classes. Up to 24 units earned through Open University and Extension (see Extension Programs) may be applied to a bachelor’s degree at CSU Channel Islands, and up to 9 units may be applied to a master’s degree.

International Program Credit
Course credits earned in universities abroad may be accepted for degree credit at CSU Channel Islands subject to evaluation by the Office of Admissions and Records. Specific course equivalencies may require consultation with individual program coordinators. CSU Channel Islands students who desire, subsequently, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the program coordinator.

(SR 36-01)

ACADEMIC SENATE RESOLUTION ON ACADEMIC FREEDOM

Be it resolved that the Academic Senate of CSU Channel Islands affirms its commitment to upholding and preserving the principles of academic freedom: the right of faculty to teach, conduct research or other scholarship, and publish free of external constraints other than those normally denoted by the scholarly standards of a discipline, and

Be it further resolved that the Academic Senate of CSU Channel Islands fully endorses the 1940 Statement of Principles on Academic Freedom and Tenure of the AAUP (www.aaup.org), and

Be it further resolved that this campus is dedicated to fostering the free speech rights guaranteed by the First Amendment of the U.S. Constitution and to ensure that guests on campus have full opportunity to the exercise of these rights; and

Be it further resolved that the Academic Senate of CSU Channel Islands calls on the university community to maintain our campus as an open forum for free expression of ideas and diverse views in the framework of scholarly inquiry and professional ethics; and

Be it further resolved that the Academic Senate of CSU Channel Islands affirms its intent to help ensure that all relevant policies developed on this campus protect freedom of inquiry, research, expression, and teaching both inside the classroom and beyond, and

Be it finally resolved that the Academic Senate of CSU Channel Islands opposes any system or campus policy that would restrict academic freedom in the name of “security” or a “balanced approach” to controversial issues. (SR 03-11)
UNIVERSITY POLICIES

The Administrative Policy Manual identifies the most current policy of California State University Channel Islands. Administrative policies that apply to students are listed below. The manual is subject to change at any time as policies are issued or updated. For further information about the policies listed here, please refer to the Administrative Policy Manual at http://policy.csuci.edu/. Additional policies that apply to students and others connected to CSUCI may be found in Title 5 of the California Code of Regulations, the CSU Memoranda of Understanding, CSU system wide policies, and within other University publications. As an agency of the State of California, CSUCI is subject to state and federal laws and regulations.

OP.01.001 - Policy on Policies

Purpose
Seeking to maximize transparency and accessibility in the administrative processes of the University, the Policy on Policies specifies the characteristics of all administrative and academic policies at CSUCI.

Background
Title V. Division 5. Chapter 1. Subchapter 7. 42700 (n) “Executive employee” means an employee with primary responsibility for the execution of policy and includes the Chancellor, vice chancellors and the campus presidents.

Accountability
The policies of the University are acts of the President, and the President is accountable for their content and enforcement.

Applicability
This policy applies to all CSUCI faculty, staff or students with policy issuance responsibilities.

Definition(s)
Policy is a system of principles that guide the management of the University’s affairs. Policies select courses of action in a context of well-understood goals and appropriate strategies. These goals and strategies are recorded in policy statements and communicated to the University community.

Policy
All administrative and academic policies are acts of the President, and no policy shall be enforced without the approval of the President.

Policies shall be presented in a consistent format utilizing the Policy Template (see Exhibits). In addition to the text of the proposed policy, policy proposals must include statements of:
• Purpose
• Accountability
• Applicability

All policies must follow the procedures defined in the Procedures section of the present policy.

All approved policies shall be published on the University Website (http://www.csuci.edu), and a current record of all approved policies shall be maintained by the Office of the President.

FA.31.004 - Policy on Campus Violence

Purpose
California State University Channel Islands is committed to creating and maintaining a working, learning and social environment for all individuals that is free from violence.

Civility, understanding, and mutual respect toward all persons are intrinsic to the existence of a safe and healthy workplace. Threats of violence or acts of violence not only impact the individuals concerned, but also the mission of California State University Channel Islands to foster higher education through open dialogue and the free exchange of ideas.

Background
Applicable State of California Laws included in California Penal Code; Workplace Violence Act; Title V, Sections 41301-41304 and Executive Order 628 as they relate to students.

Accountability
Established personnel and public safety procedures will serve as the mechanism for resolving situations of violence or threats of violence. For students, this policy is administered through the Judicial Affairs Officer.

Applicability
All individuals on the campus of California State University Channel Islands including vendors or guests.

Policy
CSU Channel Islands prohibits violent acts or threats of violence, and any individual who commits a violent act or threatens to commit a violent act is subject to disciplinary action and/or civil or criminal prosecution as appropriate. Each allegation of violence or threat of violence will be taken seriously. Individuals are encouraged to report acts of violence, threats of violence, or any other behavior that by intent, act or outcome harms another person or property, to their supervisor, Human Resources Programs and for students to any Student Affairs administrator.

CSU Channel Islands has zero tolerance for violence against any members of the University community. To fulfill this policy, the University will work to prevent violence from occurring and will ensure that federal and
state laws, as well as University regulations prohibiting violence, are fully enforced. In determining whether conduct constitutes a credible threat or act of violence, the circumstances surrounding the conduct will be considered.

For the purpose of this policy, violence and threats of violence include, but are not limited to:
- Any act that is physically assaultive; or
- Any threat, behavior or action which is interpreted by a reasonable person to carry potential:
  - To harm or endanger the safety of others;
  - To result in an act of aggression; or
  - To destroy or damage property.

SA.02.010 - Policy on Submission of Official Transcripts

Purpose
Enrollment Services supports the mission and goals of the Division of Student Affairs by maintaining timely and accurate records on admission, enrollment, and academic progress and accomplishments of its students, while maintaining the privacy and security of those records.

Background
Title 5 §40601(e) The term “application” means the submission to the campus by the person applying for admission of all documents including official transcripts of all the applicant’s academic records and information which the applicant is required to personally submit, and the payment of any application fee due pursuant to Section 41800.1.

Accountability
The Director of Admissions and Recruitment and the University Registrar

Applicability
All applicants for admission to degree-, credential-, or certificate-granting programs at CSU Channel Islands.

Definition(s)
Official Transcripts include all prior coursework attempted, withdrawn, completed, and in-progress at all institutions, colleges, universities, or high schools.

Policy
1. A transcript is considered official if it is sent directly from the institution of origin to the Office of Admissions and Records at CSU Channel Islands and bears the official seal of the institution of origin and the signature of the custodian of records. A transcript hand-carried by the applicant from the institution of origin in an envelope sealed by the issuing institution is also considered official. A transcript bearing a college seal is not official unless it meets the above guidelines.

2. Official transcripts are required from all institutions attended, including extension and correspondence courses, even if withdrawal occurred prior to the completion of the course(s). The University reserves the right to determine whether a transcript will be accepted as official. An applicant disregarding these requirements is subject to disciplinary action and may have the application for admission cancelled.

3. As schools and colleges will send transcripts only upon the request of the student, the responsibility for insuring that official transcripts reach the Office of Admissions and Records rests with the applicant.

4. All transcripts submitted to CSUCI become the property of the University. Students are required to have their own personal set of transcripts from all institutions attended for advisement. The Office of Admissions and Records will not provide copies from other institutions.

5. Students admitted on a Provisional basis must submit required final official transcripts by the established deadlines. Failure to comply will result in cancellation of provisional admission or a hold on further enrollment until final official transcript is received.

SA.02.009 - Policy on Issuing Official Transcripts

Purpose
Students are entitled to access their educational records maintained by the University and have an official transcript of record provided to them or their designated recipient.

Background
Family Educational Rights and Privacy Act of 1974 as amended (FERPA) 20USC 1232g

Accountability
University Registrar

Applicability
Any student who has ever enrolled in an academic program at CSU Channel Islands may request an official transcript.

Definition(s)
Official Transcript of Record shall consist of a summary of the courses for which academic credit, including Continuing Education Units (CEU), is attempted by the student at CSUCI. Request for Official Transcript is the authorization from the student to the University to release the above defined transcript of the student’s record.

Policy
An Official Transcript of Record is released upon request of the student. Such requests must be made in writing either by completing the Request for Official Transcript form or by writing a letter. All written requests must be signed by the student.

Transcripts will be issued as soon as possible after receipt of the request and any applicable processing fee. All outstanding debts and obligations to the University must
be cleared prior to release of transcript. It is the student's responsibility to notify Records and Registration when such debts and obligations have been satisfied.

Transcripts are normally issued via U.S. Mail to the recipient designated by the student. Prior arrangement must be made in order for transcripts to be picked up by the student. Pick up of transcripts by student's designee must be authorized in writing at the time of request.

SA.02.008 - Policy on Application Roll-Over

Purpose
The CSU application for admission and application fee (or waiver) are required from each applicant for a specific term. CSU Channel Islands offers a process to postpone enrollment in certain circumstances.

Background
Title 5, 41800.1 (2)(b)(c) Application Fees; CSU Application Instructions (page 11)

Accountability
The Director of Admissions and Recruitment

Applicability
Any applicant who finds it necessary to move his/her application for admission forward to the next term for which applications are accepted.

Definition(s)
Roll-Over: To move the application for admission from the original term of application to the next subsequent term.

Policy
Normally, an application for admission is applicable only to the term of original application. In cases of hardship (illness, etc.) the applicant may request in writing that his/her application be rolled over to the next semester for which applications are accepted. Such request must be submitted to the Director of Admissions and Recruitment no later than the Census date of the semester for which the applicant originally applied. Approval is granted at the discretion of the Director of Admissions and Recruitment.

SA.02.007 - Policy on Intent to Enroll

Purpose
Admitted applicants may reserve a space at the University for the term of admission by filing an Intent to Enroll form. The University requests the Intent to Enroll as an enrollment management tool to gauge the yield from the applicant pool and to manage the available resources to support enrollment.

Background
EO 863 Enrollment Confirmation Deposit Fee

Accountability
Enrollment Services

Applicability
Any undergraduate applicant who has been offered admission to the University.

Definition(s)
Intent to Enroll: Form used by applicant to notify the University of his/her acceptance of the offer of admission.

Policy
Admitted undergraduate applicants are required to indicate their acceptance of the offer of admission by submitting the Intent to Enroll form and enrollment confirmation deposit, if requested, by the published deadline. Failure to submit the Intent to Enroll by the deadline may result in the applicant’s inability to enroll in classes or otherwise be accommodated at the University.

SA.02.006 - Policy on Admission Exceptions

Purpose
Cal State Channel Islands offers a selective admission appeal process for applicants who have been denied University admission.

Background
Title 5, Section 40900: General Exceptions or Section 40901. CSU Admission Handbook (2004-5); Section 2, Page 44

Accountability
The Director of Admissions and Recruitment

Applicability
Any applicant who does not meet the published admission eligibility standards and has received an official denial from the University may submit a letter of appeal to the Admission Appeals Committee.

Definition(s)
Admission Appeals Committee: Appointed by the Director of Admissions and Recruitment in consultation with the Senate Executive Committee and composed of faculty, staff, and a student representative.

Denial: A formal letter from the University denying admission.

Extenuating Circumstances: Any condition that the applicant believes explains the reason for failure to meet admission criteria and that warrants the review of the application.

Petition: This may be by form or letter and must include a statement of extenuating factors which includes the potential hardship to be incurred if admission is denied as well as the reason the applicant’s past record is not indicative of present capabilities.
Policy
Every applicant who has been denied admission to the University may appeal this decision by submitting a letter of appeal requesting that the application be reviewed. Under the purview of the Director of Admissions and Recruitment, the Admissions Appeals Committee regularly reviews these letters along with the original application and supporting documents. The committee will review the appeal and judge whether or not the applicant’s petition warrants revising the original denial and whether or not the applicant will likely succeed in the University environment given the explanation and documentation provided. A limited number of admission exceptions are allocated to the campus each academic year. The Committee, therefore, considers a number of factors, normally favoring applicants who are close to qualifying and whose appeal both adequately explains why the student failed to meet admission criteria and demonstrates the motivation to succeed.

SA.07.006 - Policy on Free Speech and Assembly

Purpose
In fulfilling its mission as an institution of higher learning, the University seeks to create a spirit of free inquiry and to promote discussions of a wide variety of issues, ideas and opinions, provided the views expressed are stated openly and subject to critical evaluation. The University will protect the rights of freedom of speech, expression, petition, and peaceful assembly as set forth in the U.S. Constitution, and as such, restraints on free inquiry will be held to a minimum and will be consistent with preserving an organized society in which peaceful democratic means for change are available.

Background
This policy is necessary in order to establish and maintain a process whereby orderly demonstrations and protests may occur without disruption of the educational process.

Accountability
The Vice President for Student Affairs and the Office of Student Leadership and Development

Applicability
All registered students at CSUCI

Policy
The University maintains its rights to regulate reasonable time, place, and manner restrictions concerning acts of expression and dissent. Any acts that are disruptive to the normal operations of the University including classes and University business or invade the rights of others will not be tolerated. The University has designated an area in the park Northeast of The University HUB as the Free Speech Area. For members of the campus community spontaneous use of this area is permitted for non-amplified activity. A recognized club or organization, faculty, or University division or department must sponsor non-campus community members.

The issuance of invitations to outside speakers by members of the campus community is encouraged and (except for constraints that may follow from the lack of availability of suitable facilities) is limited only in unusual circumstances when an invitation may be canceled by the President of the University or designee, if in his or her opinion the proposed event or speech constitutes a clear and present danger to the University.

This policy is not intended to prohibit or regulate free speech in the form of a guest lecture or speaker which is tied to, sponsored by or affiliated with a specific academic class or program.

In all instances, Free Speech and Assembly will be governed by the following guidelines:

1. Disruptive Activity – Obstruction, disruption, or interference with classes, research, administrative functions, or other University activities is not permitted. Likewise, infringement on the rights of others is prohibited.

2. Reasonable Access – It is important to provide reasonable access to and exit from any office, classroom, laboratory, or building. Likewise vehicular and pedestrian traffic should not be obstructed.

3. Peaceful Assembly – Picketing or demonstrating in an orderly manner or distributing literature outside University buildings is acceptable with the appropriate approval from the Office of Student Leadership and Development. Demonstrations inside campus buildings are prohibited. All applicable University policies on written materials apply as well.

4. Symbolic Protest – Displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible unless it is a disruptive activity or impedes access. Such actions should not interfere with others view or prevent them from being able to pay attention to other events, which may be occurring. In all instances signs may not be carried with the aid of wooden, plastic, or metal sticks, pipes or polls.

5. Noise – Making sustained or repeated noise in a manner that substantially interferes with a speaker’s ability to communicate his/her message is prohibited. Noise levels should not interfere with classes, meetings, or activities in progress.

6. Force or Violence – Any attempt to prevent a University activity or other lawful assembly by the threat or use of force or violence is prohibited.

7. Damage to Property – Care should always be taken to ensure that University and personal property is not damaged or destroyed.

8. Other University Regulations – All applicable University rules, regulations, policies, and guidelines should always be adhered to.
SA.07.003 - Policy on Distribution of Written Materials

Purpose
The policy on the distribution of written materials is intended to establish guidelines for posting of materials, which will allow for the promotion of ideas and events pertinent to the campus community. This policy is also intended to establish a consistent standard with respect to what is acceptable for posting and the timeframes for which these materials may be posted and subsequently removed.

Background
This policy is necessary to help maintain the esthetic beauty and quality of the campus while also helping to maintain the structural integrity of University buildings and facilities.

Accountability
The Vice President for Student Affairs and the Office of Student Leadership and Development

Applicability
All registered students at CSUCI, non-academic functions and external campus constituencies.

Policy
1. Written materials identified by authorship and sponsorship may be sold or distributed on campus within the guidelines of propriety and responsible journalism as established and supervised by the Vice President of Student Affairs or designee. The distribution of such materials by student organizations, as approved by the Vice President for Student Affairs or designee, is permitted provided steps have been taken to preserve the orderliness of the campus. The distribution of materials or circulation of petitions to captive audiences as those in classrooms, at registration, in study areas, or in residential units will not be allowed without prior permission. Such permission may be requested from the pertinent University Vice President or designee.

2. The distribution of materials or circulation of petitions to captive audiences such as those in classrooms, at registration, in study areas, or in residential units will not be allowed without prior permission. Such permission may be requested from the pertinent University Vice President or designee.

3. Non-university or off-campus printed materials shall not be distributed or circulated by students or student organizations without first being approved by the Vice President for Student Affairs or designee.

4. Non-campus community members may not distribute or sell materials without seeking approval from the appropriate Vice President or designee, and in some instances may be required to obtain sponsorship from a registered student club or organization prior to receiving approval. Non-campus community members may be charged a fee for the distribution of written materials to students, faculty or staff.

5. All materials, flyers, leaflets, and brochures to be posted on campus from students, student clubs and organizations and non-university affiliated community groups must first be approved by the Office of Student Leadership and Development or other appropriate university department. Other University departments may also supply materials to be posted to the Office of Student Leadership and Development who will place materials in appropriate display cases and bulletin boards around campus. Every effort will be made to post requested materials within 24 hours from the time the materials are approved. All materials will be removed 14 days after approval or after the event is complete whichever comes first. Students should in no way tack, stick, glue, paste, pin, staple, or otherwise affix any materials on any door, wall, window, or other surface on campus without prior approval from the Office of Student Leadership and Development.

SA.07.004 - Policy on the University Events Calendar

Purpose
The purpose of this policy is to create a CSUCI Events Calendar to help connect our campus community by providing a means to publish accurate, up-to-date information on events and activities related to the University.

Background
A need exists to provide a campus calendar on the Internet for the purpose of disseminating public information concerning CSU Channel Islands’ activities and events.

Accountability
The calendar editor (director of Special Projects and Student Communication or designee) and the director of Information Management.

Applicability
All divisions, departments, and programs within the University structure.

Definition(s)
N/A

Policy
1. Intent of the Calendar
The CSUCI Events Calendar is a calendar of regular or routine events and is not a bulletin board for the sale or purchase of goods and services. Items must directly relate to University events and activities. Types of events displayed on the calendar include academic events, lectures and presentations; University Hour and Community Hour events or activities; co-curricular events and activities for students; intramural and recreational sports; alumni events; art and film exhibits; concerts and performances; and Advancement or Foundation events.
Policies and Regulations

2. Calendar Usage
   Faculty and staff at CSU Channel Islands may submit events for inclusion on the CSUCI Events Calendar. Students or student organizations may submit calendar requests, however, the calendar editor will seek approval of student submissions from the Office of Student Leadership and Development in order to ensure that events have been sanctioned by the University.

3. Submission Deadlines and Process
   In order to allow ample time to promote events, all requests should be submitted electronically a minimum of seven (7) business days prior to the event date. Requests not submitted by the indicated deadline are not guaranteed to appear on the calendar in advance of the event or activity.

Faculty and staff submitting events for the CSUCI Events Calendar are responsible for immediately notifying the calendar editor of updates or modifications if the original information has changed (i.e. cancellations, time changes, etc).

SA.10.001 - Policy on Financial Aid Packaging

Purpose
   This policy establishes guidelines for the allocation of financial aid funds to eligible students.

Background
   A packaging policy is needed in order to allocate limited financial aid resources.

Accountability
   The Financial Aid Office

Applicability
   All registered students at CSUCI

Definition(s)
   Institutional Student Information Report (ISIR) – An electronic record received by CSUCI from the Federal Government when the student files a FAFSA form (Free Application for Federal Student Aid).

Policy

Eligibility
   Financial aid eligibility is measured using federal, state, CSU and institutional standards. All students must meet program eligibility criteria as established by the funding entity. All students are required to have a valid Institutional Student Information Report (ISIR) on file before aid is awarded. All students must be enrolled or accepted for enrollment in an eligible university program. The enrollment and program record must be recorded in the Student Administration System. These packaging standards given are for full time enrolled students. The Financial Aid Office is authorized to reduce funding for part time enrollment.

Pell Grant
   Pell Grant is the foundation of the aid package. As Pell eligibility is assessed by a national standard, no institutional adjustment of the amount of a Pell award can be made, except as required by regulation due to changes in enrollment status.

State University Grant
   State University Grant funds are awarded in accordance with CSU policy which was issued on March 8, 2001, to CSU Presidents from Executive Vice Chancellor David Spence. This CSU policy establishes system wide standards as well as sets the maximum award amounts based on the enrollment category.

   CSUCI policy on State University Grant eligibility can be found in the CSUCI policy manual.

   A State University Grant is awarded up to the full amount of fees minus any fee based Cal Grant awards or waivers. Additional amounts may be awarded up to the maximums established by the Chancellor on a case-by-case basis. Awards may vary based on state funding. The Financial Aid Office is authorized to adjust award amounts to maximize program effectiveness.

   A State University grant is awarded only to students accepted in degree or credential programs. Post baccalaureate unclassified students are not eligible for financial aid.

   Priority is given to on-time undergraduate applicants with an expected family contribution of $800 or less and no award is made to students whose expected family contribution exceeds $4000.

EOP Grant
   EOP grant funds are awarded only to undergraduate students accepted for admission through the CSU EOP program. Eligibility must be confirmed by the EOP Office.

   An EOP grant is awarded up to a maximum of $1000 per academic year.

   Priority is given to on-time undergraduate applicants with an expected family contribution of $800 or less.

Stafford Loans
   Subsidized Stafford loans are awarded to meet a remaining need. Federal rules regarding class level and cumulative maximum amounts are followed by the Financial Aid Office.

   Unsubsidized Stafford loans are awarded to upper division and post baccalaureate students. Lower division students may receive unsubsidized loans after a review of their circumstances.
Work Study
State Work Study funds are awarded to undergraduates who prefer that their eligibility for Stafford Loans be reduced. This program has limited funding and is subject to the State budget process.

Coordination
As required by regulation, all aid components and other available resources are reviewed to assure that aid is awarded appropriately and that no duplication of aid resources occurs. Consultation with awarding authorities will take place to determine award priorities.

SA.10.002 - Policy on State University Grant Awarding

Purpose
This policy establishes guidelines for the allocation of State University Grant funds to eligible students.

Background
A policy is needed to allocate scarce financial aid resources.

Accountability
The Financial Aid Office

Applicability
All registered students at CSUCI

Policy
State University Grant funds are awarded in accordance with the system-wide policy statement issued on March 8, 2001, to CSU Presidents from Executive Vice Chancellor, David Spence.

The March 8, 2001 document set system-wide eligibility requirements, annual limits and award priority groups. The following summary is a summary of that policy statement.

Eligibility for awards
- Be admitted or enrolled at a CSU campus
- Be classified as a California resident for fee purposes
- Pay the State University fee (excludes students in self support programs)
- Demonstrate financial need
- Not be in default on a student loan
- Not owe a repayment on a student grant
- Be making satisfactory academic progress
- Have an expected family contribution not exceeding fifty percent of the campus standard off-campus budget.

Annual limits
- Academic year award limits are $3600 for full time students and $2400 for less than full time enrollment.
- Summer award limits are $1800 for students enrolled in 12 units and $1200 for student enrolled in less than 12 units.
- Twelve month limits for students enrolled in both academic year and summer are $4800 for full time enrollment and $3200 for less than full time enrollment.

System-wide priority groups
- Have an expected family contribution of $800 or less
- Be enrolled on at least a half-time basis in a degree or credential program
- File a FAFSA by the campus designated priority date
- Have not received a Cal Grant or a waiver of the State University fee

California State University Channel Islands is in compliance with this policy. The Financial Aid Office awards the State University grant according to the following guidelines:
- a State University Grant is awarded up to the full amount of fees minus any fee based Cal Grant awards or waivers. Additional amounts may be awarded up to the maximums established by the Chancellor on a case-by-case basis;
- a State University grant is awarded only to students accepted in degree or credential programs. Post baccalaureate unclassified students are not eligible for financial aid;
- priority is given to on-time applicants with an expected family contribution of $800 or less and no award is made to students whose expected family contribution exceeds $4000; and
- this procedure is subject to change as the system-wide policy is amended or as allocations limit the ability of the Financial Aid Office to completely fund eligible students.

SA.10.003 - Policy on Financial Aid Satisfactory Academic Progress

Purpose
An annual review of Satisfactory Academic Progress is required as one of the conditions of student financial aid eligibility. Students who fail to meet these standards have not made satisfactory academic progress and are not eligible for financial aid.

Background

a. If a student is enrolled in a program of study of more than two academic years, to be eligible to receive title IV, HEA program assistance after the second year, in addition to satisfying the requirements contained in Sec. 668.32(f), the student must be making satisfactory under the provisions of paragraphs (b), (c) and (d) of this section.
b. A student is making satisfactory progress if, at the end of the second year, the student has a grade point average of at least a “C” or its equivalent, or has academic standing consistent with the institution's requirements for graduation.

c. An institution may find that a student is making satisfactory progress even though the student does not satisfy the requirements in paragraph (b) of this section, if the institution determines that the student's failure to meet those requirements is based upon:

   (1) The death of a relative of the student;
   (2) An injury or illness of the student; or
   (3) Other special circumstances.

d. If a student is not making satisfactory progress at the end of the second year, but at the end of a subsequent grading period comes into compliance with the institution’s requirements for graduation, the institution may consider the student as making satisfactory progress beginning with the next grading period.

e. At a minimum, an institution must review a student’s academic progress at the end of each year.

(Authority: 20 U.S.C. 1091(d))

Accountability
Office of Financial Aid

Applicability
All registered students at California State University Channel Islands.

Policy
This policy has four parts. All four conditions must be met to be eligible for financial aid. Students who have been awarded financial aid and do not meet these conditions will have their aid canceled.

Part One: Acceptable Passing Rate (Quantitative Standards)
To assess quantitative standards the overall ratio of cumulative units passed to cumulative units taken is reviewed. As a student progresses, this expected ratio or percentage increases. The required ratios are represented in the chart below.

<table>
<thead>
<tr>
<th>Class level</th>
<th>Percentage of cumulative units taken which must be passed.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate degree</td>
<td></td>
</tr>
<tr>
<td>Freshman</td>
<td>75%</td>
</tr>
<tr>
<td>Sophomore</td>
<td>80%</td>
</tr>
<tr>
<td>Junior</td>
<td>85%</td>
</tr>
<tr>
<td>Senior/2nd BA</td>
<td>90%</td>
</tr>
<tr>
<td>Post-baccalaureate Credential</td>
<td>90%</td>
</tr>
<tr>
<td>Graduate degree</td>
<td>90%</td>
</tr>
</tbody>
</table>

Part Two: Acceptable Grade Point Average (Qualitative Standards)
Students Academically Disqualified by the University are ineligible for financial aid based on qualitative standards.

Part Three: Unit and Time Limits
Students exceeding the unit and time limits listed below are ineligible for financial aid. Students working toward their first undergraduate degree are limited to 150 earned units (including transfer units). Students who have earned their first undergraduate degree and are enrolled in a second baccalaureate program are limited to 48 earned units. Students in a credential program are limited to 48 earned units including prerequisite courses. Students in a master’s program are limited to 48 earned units including prerequisite courses.

Part Four: Other Provisions
- Any student whose academic history shows a pattern of enrollment indicating inability or unwillingness to progress, such as numerous withdrawals or enrollment inconsistent with the student’s educational objective, may be regarded as ineligible for future financial aid.
- Students who exceed the university limit of CR/NC units while receiving aid funds are subject to review of continued eligibility.
- Students who have completed all undergraduate degree course requirements but have not graduated for any reason are not eligible for funding.
- Any financial aid award is tentative until the academic record is reviewed. For entering transfer students, the review is based on the academic record on file at the time of first consideration (or when information becomes available).
- A student who completes no units in any term of enrollment is not considered to be making reasonable progress toward a degree. Students in this category will be disqualified from receiving aid the following term and may be subject to repayment of previous term aid received.
- Academic progress can be reevaluated at other times identified by the Office of Financial Aid.

Reinstatement of Eligibility
Students may appeal the satisfactory progress determination by submitting a written petition to the Office of Financial Aid citing mitigating circumstances as provided for in regulation. This petition may be supported by additional documentation and may include the recommendation(s) of faculty who are familiar with the student’s academic history.

The criteria for approving a petition will be a reasonable expectation that the student can reestablish progress toward a degree objective and regain standing consistent with the requirements for graduation. If a decision is made to restore aid eligibility, conditions may be imposed and eligibility may be restricted to a limited time frame.
SA.10.004 - Policy on EOP Grant Awarding

Purpose
This policy establishes guidelines for the allocation of financial aid funds to eligible students.

Background
A policy is needed to allocate scarce financial aid resources.

Accountability
Office of Financial Aid, Educational Opportunity Program (EOP)

Applicability
All EOP students at CSUCI.

Definition(s)
EOP – Educational Opportunity Program:
The Educational Opportunity Program is designed to improve academic support of low-income and educationally disadvantaged students. An EOP student has the potential to perform satisfactorily in the CSU but has not been able to realize this potential because of economic or educational background. The program provides admission, academic, and financial assistance to EOP-eligible undergraduate students.

At California State University Channel Islands the program is self funded and receives no state appropriation.

Policy
The priority for awarding an EOP grant is as follows:
1. Entering from high school with an expected family contribution of 0-800.
2. Continuing lower division with an expected family contribution of 0-800
3. Entering from high school with an expected family contribution of 800-4000
4. Continuing lower division with an expected family contribution of 800-4000
5. Continuing upper division with an expected family contribution of 0-800
6. Continuing upper division with an expected family contribution of 800-4000

The maximum current EOP grant for full time students is established at $1,000 per academic year ($500 per semester). Approval of grant eligibility for part time enrollment must be confirmed by the EOP coordinator prior to the start of the term. Grant awards will be prorated according to the following schedule.

<table>
<thead>
<tr>
<th>Enrollments</th>
<th>Award Amount</th>
<th>Proration Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full time 12 + units</td>
<td>$500</td>
<td></td>
</tr>
<tr>
<td>Three Quarter time 9-11 units</td>
<td>$350</td>
<td></td>
</tr>
<tr>
<td>Half time 6-8 units</td>
<td>$200</td>
<td></td>
</tr>
<tr>
<td>Less than half time 1-5 units</td>
<td>not eligible</td>
<td></td>
</tr>
</tbody>
</table>

If funds are disbursed at the beginning of a term based on full time enrollment and the student reduces their unit load during the initial change of program period, the EOP grant awards will be adjusted and the student will be required to return funds to the University.

Enrollment adjustments made after the initial change of program period are required to have the approval of the instructor and the Dean or Associate Dean of the Faculty. Courses dropped at this point will be reflected in a grade of “W” on the official transcript. There will be no attempt to recover EOP funds from students who drop below full time status in this manner.

Prior to the start of each term, EOP will provide a list of entering and continuing EOP students to the Office of Financial Aid. If any students have been discontinued from the program, the Office of Financial Aid should be notified as those decisions are made.

SA.11.002 - Policy on Student Judicial Process

Purpose
Judicial Affairs programs contribute to the teaching of appropriate individual and group behavior, as well as the protection of the campus community from disruption and harm. The programs are conducted in ways that serve to foster the ethical development and personal integrity of students and the promotion of an environment that is in accord with the overall educational goals of the University community.

Background
Title V California Code of Regulations 41301-41304 Executive Order 628

Accountability
The Vice President for Student Affairs and Judicial Affairs in the Office of the Dean of Student Life

Applicability
All registered students at CSUCI

Definition(s)
Adjudicated – To hear, determine, and settle a case by judicial procedure.
Preponderance – Evidence presented which establishes a majority (51%) in favor of one side or the other.
Adverse-witness – A witness for the University testifying against the accused student.
Informal Disposition – Resolution without formal trial-type hearing usually by mutual agreement between the student and the Judicial Officer, including the sanctions to be imposed, if any.

Policy
Where possible, informal procedures are implemented, emphasizing the personal growth and development of the student. Where formal procedures are utilized, the system is designed to provide a prompt, fair, impartial hearing and resolution of the matter. When a complaint is received by Judicial Affairs (the Office of the Dean of Student Life), the Judicial Officer investigates the complaint or allegation. If there is evidence to substantiate the charge, the Judicial Officer will initiate the student disciplinary process. Judicial Affairs notifies the student(s) in writing of the alleged misconduct and directs the student(s) to schedule a meeting with the Judicial Officer.
At the initial meeting, the student is advised of his/her rights and informed of the evidence supporting the charges. The student is provided with an opportunity to respond and to openly and honestly discuss the incident and possible resolutions of the case. Students involved in criminal violations are subject to remedies through the criminal justice system (e.g., University Police Department and the Ventura County District Attorney’s office) as well as Student Disciplinary action. In the event that a resolution cannot be reached through the informal process the Judicial Officer shall proceed to a formal process.

The following rights shall be explained to the accused prior to the commencement of any formal judicial hearing:

- All parties shall be afforded reasonable written notice, at least five (5) working days prior to the hearing. A letter sent to the address listed in the registrar’s records shall constitute full and adequate notice. Written notice shall include:
  - A statement of the time, place and nature of the proceeding.
  - A statement of the nature of the case and of the jurisdiction under which it is to be adjudicated.
  - A brief statement of matters asserted.

Thereafter, upon request by the accused, a more detailed and definitive statement will be furnished prior to the commencement of any formal hearing.

- An accused student may choose to have an advisor present at the hearings.
- All hearings will be conducted on the basis that the accused is not in violation until the preponderance of evidence proves otherwise.
- All hearings shall be private and closed only to persons directly involved in the matters being adjudicated. The accused may request that a hearing be open to others. The University shall consider such a request in light of the best interests of all persons involved and of the university.
- The accused may inspect any evidence presented in support of the charges. Evidence may be presented in defense of the accused.
- The accused may hear and question adverse witnesses.
- The accused shall not be forced to present self-incriminating evidence; however, the University is not required to postpone disciplinary proceedings pending the outcome of any criminal prosecution.
- The determination of “in violation” or “not in violation” as charged, shall be based solely on the evidence presented at the hearing.
- The determination from a formal hearing and any sanctions assigned and the Student’s Appeal Rights shall be furnished in writing to the accused within five (5) working days following the hearing.
- The enrollment status of the accused shall remain unchanged pending the University’s final decision in the matter except in cases where the President or President’s designee determines that the safety, health, or general welfare of a student or the University is involved.

The Judicial Officer and/or the Hearing Officer may recommend any disciplinary action listed below with any appropriate modifications as well as any of the penalties listed under informal disposition.

**Verbal Disciplinary Warning**
A verbal disciplinary warning is an official warning that the student’s behavior is in violation of the CSUCI Student Code of Conduct. The verbal warning is the least severe of all the sanctions. If the student is found to be in violation of a second charge, subsequent action may be more severe.

**Written Disciplinary Warning**
A written disciplinary warning is an official reprimand for violations of specified University policies or campus regulations. The written warning is placed in the students file for a specified period of time. The warning is then removed if the student does not commit any further violations during the specified time. If the student is found to be in violation of a second charge, subsequent action may be more severe.

**Disciplinary Probation**
Disciplinary probation status is designed for a specific length of time extending from a month to a number of semesters. Restrictive conditions may be imposed and vary according to the severity of the offense. Restrictive conditions include, but are not limited to, the following: loss of good standing, which may become a matter of record; the loss of eligibility to receive any University award, scholarship, loan, honorary recognition, or initiation into any local or national organizations; denial of the privilege to occupy a position of leadership or responsibility in a University student organization, publication, or activity, and loss of privilege to represent the University in a public capacity.

While under disciplinary probation, the student is given a chance to show the capability and willingness to live in accordance with the University rules. However, if the student is found to be in violation through another action while on disciplinary probation, more serious consideration will be given to suspension or expulsion from the University.

**Suspension**
A student involved in an offense warranting consideration of action more serious than disciplinary probation, or one involved in repeated misconduct may face suspension. Suspension is the separation of the student from the University for a specified period of time, after which the student is eligible to return, provided that the student has complied with any conditions imposed as part of the suspension. The length of the suspension period shall be definite and may extend from days to a number of semesters. During suspension, a student may not attend class.
Expulsion is the permanent separation of the student from student status from the University. When an offense is of such severity that the University will not allow the student to re-enroll, the student will be expelled. When a student has been expelled from the University for disciplinary reasons, a full report will be placed in the permanent record of the individual concerned.

* These sanctions may be deferred, i.e., the student may be permitted to remain in school on condition that he/she waives the right to a formal hearing for a subsequent violation. Sanctions may be imposed separately or in combination with other disciplinary action.

Restitution
Reimbursement, either monetary or by service(s) performed to, or misappropriation of University property, or property belonging to campus community members.

Special Assignment
Assignment of costs, labor, duties or other responsibilities, (e.g., apology, research paper, community services etc.), which are appropriate to the violations. Special assignments may be imposed at any level of sanctions.

SA.03.001 - Policy on Alcohol

Purpose
The University Alcohol Policies are intended to guide practices relating to alcohol use in order to achieve the following:

a. Provide a safe and secure environment for all students.
b. Promote healthy choices for students.
c. Consistently enforce laws and policies regarding the use of alcohol.
d. Educate students regarding safe, legal, responsible, moderate consumption of alcohol for those who choose to drink and do not punish responsible, legal behavior.
e. Encourage students to take responsibility for each other. Good Samaritan behavior should be supported and recognized, and students should be provided with the tools to help others practice safe and responsible behavior.
f. Provide assistance, when appropriate, to those students who need support, treatment, and other services.
g. Involve students in all steps of the process and program development.
h. Focus alcohol abuse prevention efforts on campus and community environments since the University is part of the surrounding community that influences students’ behavior.
i. Use social norm principles and peer education and enforcement as core components of an education and prevention program. The Social Norms approach uses informational campaigns to correct widespread student misperception of peers’ drinking. Peer educator programs, such as the BACCHUS and GAMMA Peer Education Network, use students to encourage their peers to develop responsible habits and attitudes regarding alcohol and related issues.

Background
CSU Channel Islands is committed to creating a healthy learning environment in which illegal or improper use of alcohol and other controlled substances does not interfere with student learning, performance, or development within or outside the classroom.

Responsible Consumption of Alcoholic Beverages
This policy provides guidelines for safe, legal, responsible, moderate consumption of alcohol for those who choose to drink. This policy explicitly prohibits the consumption of alcohol by any individual under the age of 21. We believe this policy to be necessary because

a. Alcohol use is an accepted accompaniment to recreation and socializing in the society in which the University operates.
b. Students are adults and many are of legal drinking age; they believe it is their right to drink and may exercise that right.
c. Well-managed and regulated alcohol use on campus can provide a safer environment than consumption at local off-campus establishments. For students living on campus, the privilege to use alcohol on campus mitigates the risk of drinking and driving.
d. On-campus alcohol consumption offers opportunities to teach and encourage responsible choices regarding alcohol use.

Accountability
For students: the Judicial Affairs Officer; for staff: the Associate Vice President for Human Resource Programs; for faculty: the Associate Vice President for Faculty Affairs & Academic Resources for Faculty; for visitors: the University Police

Applicability
Students, faculty, staff and visitors of CSU Channel Islands

Policy: Consumption of Alcoholic Beverages

a. Open containers of alcohol are not allowed in any public areas on campus, except as part of registered events.
b. Alcoholic beverages will not be consumed, possessed or stored in University residence halls by anyone under the age of 21. Likewise, alcoholic beverages may not be consumed; possessed or stored in a University resident Hall where any member of the living unit is under the age of 21. Such beverages will not be permitted in public or outdoor areas of the residence complex without a special written permit issued by the Vice President for Student Affairs or designee.
c. No person may bring alcoholic beverages to any University workplace for his/her own consumption unless the President has designated a University sponsored event as a place where such self-furnishing may occur.
d. Campus police must be notified in advance of any event where 100 or more people are expected and alcohol is served.
Marketing Alcoholic Beverages on Campus
Support of campus events by alcohol beverage manufacturers and distributors is permitted only within the following guidelines:

a. Sponsorship agreements with alcohol manufacturers and distributors shall be discussed and approved in advance by the appropriate division Vice President and forwarded to the University Marketing Committee for final campus approval. No sponsorship activities will be permitted without this approval. All corporate contributors shall conform to and comply with University marketing policies and procedures.
b. Manufacturer and distributor sponsorship through promotional activities of alcoholic beverages specifically targeted for students and/or held on campus must conform to the code of student conduct of the institution as found in the Student Handbook.
c. Alcoholic beverage distributors sponsorship on campus must not engage in demeaning or otherwise discriminatory portrayal of individuals or groups.
d. Alcoholic beverages (such as kegs or cases of beer) must not be used as a prize or contest award.
e. No uncontrolled sampling as part of a campus-sponsorship program will be permitted, and no sampling or other promotional activities will include “drinking contests.”
f. Where law allows controlled sampling, it will be limited as to time and quantity. Principles of good hosting will be observed including availability of alternative beverages, food and planned programs. The consumption of beer, wine and distilled spirits must not be the sole purpose of any promotional activity.
g. Promotional activities must not be associated with otherwise existing campus events or programs without the prior knowledge and consent of appropriate institutional officials listed above in paragraph “a”.
h. Display or availability of promotional materials must be determined in consultation with the Vice President for Student Affairs or designee.
i. Informational marketing-programs must have educational value and subscribe to the philosophy of responsible and legal use of the products presented.
j. If permitted, alcoholic beverage advertising on campus or in institutional media, including that which promotes events as well as product advertising, must not portray drinking as a solution to personal or academic problems of students or as necessary to social, sexual or academic success.
k. An alcohol logo, trademark or symbol may be used in the literature advising an event only if the symbol does not dominate or overshadow the information about the actual event. The name of the alcohol manufacturer may not be connected with the name of the event but may be listed as a sponsor of an event.
l. Promotional items such as T-shirts or cups with alcoholic beverage trademarks on it, may be distributed at an event as long as the alcohol symbol or name appears alone on the item and not along with any university trademark or logo.

Enforcement of Alcohol Policies
Violations of University Alcohol Policy will be strictly enforced.

a. On campus, the Police Department exercises normal police powers in enforcing state laws regarding alcoholic beverages. Violators may be referred to the District Attorney for prosecution (See attached State Laws regarding the use of alcoholic beverages). In addition to requesting prosecution under appropriate laws, the University may impose its own sanctions on the students.
b. Violation of the University Alcohol Policy will be referred to the Judicial Affairs Officer.

SA.16.001 - Policy on Family Educational Rights and Privacy Act (FERPA)

Purpose
The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children’s education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have been denied them under FERPA.

Solomon Amendment [32 CFR Part 16] published October 28, 1998, and interim rule [65 Fed Reg 2056] published January 13, 2000, gives branches of the military access to student directory information which would have been denied them under FERPA.

Background
CSU Executive Order 796: Privacy and Personal Information Management Student Records Administration
Collective Bargaining Agreement for Unit 11 (UAW – Academic Student Employees)

Accountability
This policy designates the Vice President for Student Affairs as the Compliance Officer for the University. This policy also clarifies secondary roles and responsibilities in University procedures for ensuring compliance. The Custodian of Education Records will vary, based on the type of record, as listed on the chart on the next page.

Applicability
All students who are attending or have attended California State University Channel Islands.
Definitions

**Student** – Any person who enrolls or has been enrolled California State University Channel Islands.

**Third Parties** – Non-university persons or entities.

**University** – Hereafter in this document a reference to California State University Channel Islands.

**University Official** – University employees who have a legitimate educational interest in the records.

**Education Records** – Any record (in handwriting, print, tapes, film or other medium) maintained by California State University Channel Islands, or an agent of the University, which is directly related to a student except:
1. A personal record kept by a staff member, if it is kept in the personal possession of the individual who made the record, and information contained in the record has never been revealed or made available to any other person except the maker’s temporary substitute.
2. An employment record of an individual whose employment is not contingent on the fact that he or she is a student, provided the record is used only in relation to the individual’s employment.
3. Records maintained by the University’s Student Health Services, Personal Counseling Services, or Disability Accommodation Services offices if the records are used only for treatment of a student and made available only to those persons providing treatment.
4. Alumni records which contain information about a student after he or she is no longer in attendance at the University and the records do not relate to the person as a student.

**Legitimate Educational Interest** – a school official has a legitimate educational interest in the protected education records, a legal “right to know” if the official is:
1. Performing a task that is specified in his or her position description or contract agreement: related to a student’s education; or related to the discipline of a student.
2. Providing a service or benefit relating to the student or student’s family, such as health care, counseling, job placement or financial aid.
3. Maintaining the safety and security of the campus.

The custodian of record as designated in the “Accountability” section, above, will determine whether a legitimate educational interest exists, whether the school official has a legal right to know, on a case-by-case basis. When the custodian has any question regarding the request, the custodian should withhold disclosure unless the custodian obtains written consent from the student or the concurrence of a supervisor or other appropriate official that the record may be released.

Policy
California State University Channel Islands is committed to meeting the provisions established in the Family Educational Rights and Privacy Act (FERPA), which protects the rights of students who are attending or have attended the University.

Annual Notification
The University will notify currently enrolled students of their rights under FERPA by publishing a notice in the university catalog, and on the California State University Channel Islands website.

Disclosure of Education Records to Student
A. Procedure of Students to Inspect Their Education Records
To inspect or review an education record, a student must submit a written request to the University Registrar. If students wish to inspect their student conduct records, the written request must be submitted to the Dean of Student Life. The student must sign the request; describe the specific records to be reviewed; and must set forth the name under which the student attended the University, the student’s student ID number, and the student’s last date of attendance. Proper picture identification must be presented before the documents may be reviewed. The custodian of record, or the custodian’s designee, may waive the requirement for a written request. For example, the custodian of record for the student account may waive the requirement for a written request when the student requests a copy of the current bill.

The custodian of record or an appropriate designee will make the needed arrangements for access as promptly as possible and advise the student when and where the records will be available for inspection. Access will be given within 45 days or less after receipt of the written request.

Some student records may be destroyed (per the records retention policy) and therefore, the file may not exist for the student to inspect.

B. Right of University to Refuse Access
The University reserves the right to refuse permission to the inspection and review of:
- financial statements of the student’s parents;
- confidential letters and confidential statements of recommendation placed in the education record before January 1, 1975, if the student has waived his or her right to inspect and review those letters and statements, and the letters and statements relate to the student’s admission to an educational institution, application for employment, or receipt of an honor or honorary recognition; or
- confidential letters and confidential statements placed in the education record after January 1, 1975 for which the student has waived the right of access in writing for admission, employment, or receipt of an honor or honorary recognition, except when these documents have been used for any purpose other than that for which they were originally intended; and
- documents excluded from the FERPA definition of education records (such as those listed in the “Definitions” section above.)

C. Refusal to Provide Copies
The University reserves the right not to provide copies of transcripts it has received from other education institutions. It also reserves the right to deny copies of the University transcripts if the student has an unpaid financial obligation to the University.
D. Request for Copies

If health reasons or extreme distance from the University prevents the student from inspecting the education record, then copies of the specific education record requested will be mailed to the student. The student must pay all copying expenses in advance of the release of the record. The requirement of a written request will not be waived in these circumstances.

Disclosure of Education Records to Other Than the Student to Whom the Record Pertains

A. Disclosure of Education Records to University Officials

The University will disclose information from a student’s education records to University officials who have a legitimate educational interest in the records.

A University official has a legitimate educational interest if the official is:

- performing a task or service specified in the official’s position description or contract;
- performing an instructional task directly related to the student’s education;
- performing a task related to the discipline of a student;
- performing as a faculty advisor, program director or dean; (this pertains exclusively to access to the student’s academic records); or
- providing a service or benefit relating to the student, including, but not limited to, health care, counseling, job placement, financial aid, or health and safety emergency.

B. Disclosure to Others

California State University Channel Islands may disclose information from a student’s education records to other than University officials only with written consent of the student, except:

1. To officials of another school where the student seeks or intends to enroll;
2. To certain authorized government representatives;
3. In connection with the student’s financial aid request or award and the information is necessary for certain purposes set forth in the regulations;
4. To organizations conducting studies for or on behalf of the University;
5. To accrediting organizations to carry out their accrediting function;
6. To comply with a judicial order or lawfully issued subpoena and the University has made reasonable effort to notify the student of the order or subpoena in advance of compliance;
7. To appropriate parties in a health or safety emergency;
8. To victims of crimes of violence or of a non-forcible sex offense who requests the final results of a disciplinary review process held by the institution against the perpetrator on account of the crime or offense.

9. In connection with the University’s obligation to respond to a request from military recruiters made under the Solomon Amendment.

C. Records of Requests for Disclosure to Individuals Other than the Student or University Officials

A record will be maintained of all requests for access to and disclosures of information from the education records of each student except as stated below. The record will indicate the name of the party making the request, any additional party to whom it may be disclosed and the party’s legitimate interest in requesting or obtaining the information. The record may be reviewed by the student. A record of disclosure need not be kept of disclosures to the student, a University official with legitimate educational interests, a party with written consent from the student, or a party seeking directory information.

D. Directory Information

The University designates the following items as directory information:

1. Student’s name
2. University assigned e-mail address
3. Major field of study
4. Dates of attendance
5. Full-time or part-time status
6. Degrees, awards, and honors received
7. Dates degrees conferred

For Student Employees:

1. Department where employed
2. Employee Status (i.e. Graduate Assistant, Instructional Student Assistant, Teaching Associate)

Directory information may be released without prior written approval unless notified in writing by the student that all information is to be held in confidence by the University. Requests to withhold directory information should be sent in writing to the University Registrar. The student's records will be kept confidential until the student requests in writing that the confidentiality hold be removed.

A. Challenge and Correction of Education Records

Students have the right to ask to have education records corrected that they believe are inaccurate, misleading, or in violation of the privacy or other rights of the student. The following are the procedures for correcting the records.

1. The student must request an informal discussion of the questionable item with the custodian of record, who will determine whether to comply.
2. If the student is not satisfied with the result and still wishes to have the record corrected, the student must submit a written request for a change in the education record. This written request must state why the education record is inaccurate, misleading or violates the privacy...
or other rights of the student. This request must be given to the Vice President for Student Affairs (VPSA). The VPSA will then forward the request to the appropriate division vice president for review.

3. Upon receipt of the request, the appropriate division vice president shall obtain a written statement from the records custodian that explains why the request for the change in the education record was denied at the informal stage.

4. After a review, the Vice President will notify the student whether or not the University will comply with the requested change. If not, the Vice President will notify the student of the right to a hearing to challenge the information believed to be inaccurate, misleading, or in violation of the student’s rights. A copy of this communication will be sent to the Vice President for Student Affairs.

5. Upon receiving a written request for a hearing the Vice President for Student Affairs shall arrange for a hearing within a reasonable amount of time after receipt of the request. The student shall be notified reasonably in advance of the date, time and place of the hearing. The right to a hearing does not include any right to challenge the appropriateness of a grade determined by an instructor. The Vice President for Student Affairs or the Dean of Student Life can apprise students of the appropriate process for challenging a grade.

6. The President shall appoint a hearing officer to conduct a hearing. The hearing officer shall be a disinterested party; however, the hearing officer may be an official of the University. The student will be afforded a full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student’s education records. In accordance with university policy, attorneys will not be permitted to attend the hearing.

7. The hearing officer will submit a written decision to the Vice President for Student Affairs (VPSA) based on the evidence presented at the hearing. The VPSA will communicate the decision in writing to the student within a reasonable period of time after the hearing.

8. If the University’s decision is that the challenged information is not inaccurate, misleading, or in violation of the student’s right of privacy, the Vice President for Student Affairs will inform the student of the right to place a statement in the record commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision. This statement will be maintained as part of the education record as long as that record is maintained, and the statement will be disclosed whenever the University discloses the portion of the record to which the statement relates. The hearing officer’s decision is final.

9. If the University's decision is that the challenged information is not inaccurate, misleading, or in violation of the student’s right of privacy, the Vice President for Student Affairs will inform the student of the right to place a statement in the record commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision. This statement will be maintained as part of the education record as long as that record is maintained, and the statement will be disclosed whenever the University discloses the portion of the record to which the statement relates. The hearing officer’s decision is final.

B. Compliance with FERPA

A student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address for the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave. SW
Washington, DC 20202-4605
C. Periodic Review of Campus Information Management Practices
Per California State University Executive Order No. 796, a periodic review of campus information management practices concerning student records will be conducted at least every two years or more often as the need arises.
1. The campus Compliance Officer will have the responsibility for ensuring that the periodic review is conducted and that appropriate reports resulting from these reviews be submitted to the President to be forwarded to the Chancellor's Office.
2. Any recommended changes to the policy and/or its procedures will be the responsibility of the Compliance Officer to complete in consultation with designated records custodians.

SA.21.001 - Policy on Eligibility Requirements for Student Clubs and Organizations

Purpose
To ensure that student leaders in clubs and organizations at California State University Channel Islands maintain academic excellence while participating in co-curricular activities, academic and behavioral requirements have been established in order to maintain an optimal balance.

Background
The Chancellor’s Office memorandum, “Qualifications for Student Office Holders,” dated August 4, 1997, states that all student representatives must be enrolled and in good standing at the university, maintain a 2.0 GPA each term, and not be on probation of any kind. This applies to major student government offices, minor student representative offices as defined by the campus, and student representatives to system-wide committees.

Accountability
Dean of Student Life

Applicability
All enrolled students at California State University Channel Islands

Definitions
Club/Organization is defined as a group of students that share a common interest or characteristic and meet regularly for the purposes of exchanging information or planning activities.

GPA is defined as grade point average.

Club/Organization officer is defined as an elected position, generally a president, vice president, secretary treasurer and/or parliamentarian.

Club/Organization member is defined as a student in a general membership role without a specific title or job function.

Policy
Eligibility Requirements will be reviewed each semester
Minimum eligibility requirements to be a member of a club or organization at CSUCI:
• Be in good academic and disciplinary standing (not on academic or disciplinary probation)
• Be free of any holds on University records

Eligibility Requirements will be reviewed each semester.
Minimum eligibility requirements to be an officer of a club or organization at CSUCI:
• Have an overall CSUCI GPA of at least 2.5 (Undergraduates)
• Have an overall CSUCI GPA of at least 3.0 (Post Baccalaureate)
• Have an overall Transfer GPA of at least 2.5 (Transfers)
• Be in good academic and disciplinary standing (not on academic or disciplinary probation)
• Be free of any holds on University records

Failure to meet the above requirements will result in the student member’s removal from the Club/Organization’s roster prior to the start of the next semester.

First time freshmen students without a CSUCI GPA can not serve as officers, but may participate as general members their first semester. However, upon completion of their first semester they must follow the eligibility requirements outlined for general membership. Clubs/Organizations may impose more restrictive requirements in their constitution(s) or bylaws.

CM.02.001 - Policy on Tobacco Sales and Sponsorships on Campus

Purpose
To provide a safe and healthy environment for the students, faculty, staff, and visitors of California State University Channel Islands. To ensure that Cal State Channel Islands is not encouraging the use of products that have been scientifically proven to be harmful to ones health.

Background
This policy is to serve as a companion piece to the University’s proposed Policy on Smoking (policy still pending).

Accountability
Vice President of Finance and Administration, Vice President of Advancement, Director of Communications and Marketing.

Applicability
Applies to all University events held on campus and all advertising and sales in the campus bookstore and campus food services. Independent vendors, other than the campus bookstore, who lease space in the Town Center complex are excluded from this policy.
Policy
It is the policy of California State University Channel Islands to provide a healthful environment for all who visit, work and live on the campus and, further, to encourage a healthy lifestyle for the visitors and residents of the University and University Glen.

The University prohibits the sale of all tobacco products on campus. This prohibition includes the areas of The Cove campus bookstore and the Island’s Café. The University encourages all other lessees and auxiliary groups to abstain from tobacco sales.

Further, the campus will not advertise tobacco or accept sponsorship for campus events or activities from tobacco companies.

**FA.31.005 - Policy on Smoking on Campus**

**Purpose**
To enable California State University Channel Islands to fulfill its role and responsibility to provide a safe and healthy environment for faculty, staff, and students, it is essential to eliminate exposure to the toxic substances produced by tobacco smoke.

**Background**
This policy implements CSU Executive memorandum 02-108 in accordance with Education Code 89030 and 89031 (Section 1994.30) and Human Resources Coded Memorandum 94-18 and California Assembly Bill 291.

**Accountability**
The Associate Vice President, Human Resources Programs, administers this policy at California State University Channel Islands. Questions, concerns, suggestions, or complaints should be directed to (805) 437-8423.

**Applicability**
Applies to all individuals on the campus of California State University Channel Islands and excludes the East Campus of the University.

**Policy**
It is the policy of California State University, Channel Islands to provide an environment free of smoke. Smoking is prohibited in all California State University Channel Islands work locations, meeting, conference, classrooms and student designated buildings including housing. Designated smoking areas are those areas that exceed 50 feet beyond any inhabited structure on the campus. Additionally, smoking is prohibited in any State-owned passenger vehicle including pool vehicles, electric and golf carts on the campus.

**FA.31.003 - Policy on Prohibition of Sexual Harassment**

**Purpose**
California State University Channel Islands University is committed to maintaining an environment free of discrimination and all forms of coercion that impede the academic freedom or diminish the dignity of any member of the University community. The University emphasizes this policy specifically as it pertains to the prevention of sexual harassment and to the obligations of male and female students, faculty, administrators, and staff.

**Background**
Chancellor’s Executive Order 345; Section 703 of Title VII of the Civil Rights Act of 1964; Title IX of the Education Amendments of 1972; Title V, Sections 41301-41304 and Executive Order 628 as they relate to students.

**Accountability**
This policy is administered through the Associate Vice President, Human Resources Programs for staff, by the Associate Vice President for Faculty Affairs & Academic Resources for faculty and the Judicial Affairs Officer for students. Questions, concerns, suggestions, or complaints should be directed to (805) 437-8423 for staff and (805) 437-8482 for faculty and to (805) 437-8961 for students. The Associate Vice President, Human Resources Programs is responsible for assisting staff, the Associate Vice President for Faculty Affairs & Academic Resources for assisting faculty and the Judicial Affairs Officer for assisting students regarding alleged sexual harassment and resolving situations in which sexual harassment occurs or is perceived as occurring; educating CSU Channel Islands staff, faculty and students regarding the issue of sexual harassment and developing strategies for its elimination; and conducting investigations and responding to allegations of sexual harassment made against personnel of CSU Channel Islands. These responses may include an appropriate action to remedy the complainant’s loss, if any.

If a mutually satisfactory resolution cannot be reached at this level, employees may file a complaint utilizing the complaint procedures in the appropriate collective bargaining agreement or Executive Order 675.

**Applicability**
Employees: Harassment on the basis of sex is defined by Section 703 of Title VII of the Civil Rights Act of 1964 as: Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment, (2) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual, or (3) such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile, or offensive working environment.
Students: Sexual harassment of students is a violation of Title IX of the Education Amendments of 1972, which prohibits sex discrimination in education. Academic sexual harassment is the use of authority to emphasize the sexuality of a student in a manner which prevents or impedes that student’s full enjoyment of educational benefits, environment, or opportunities.

Policy
California State University Channel Islands will take action to prevent and eliminate sexual harassment, as mandated by the Chancellor’s Executive Order No. 345. Sexual harassment is conduct subject to disciplinary action, including termination. Sexual harassment may also result in legal action against the individual and university. Sexual harassment includes but is not limited to:

- Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature;
- Conduct of a sexual nature that is unwelcome and contributes to a workplace or learning environment that is hostile, intimidating, offensive, or adverse to persons;
- Conditioning an academic or employment act, decision, evaluation, or recommendation on the submission to or tolerance of any act of a sexual nature.

Although this policy focuses on the treatment of persons lacking or holding lesser authority by persons possessing greater authority, it does not preclude the possibility that sexual harassment may also be perpetrated by persons lacking or holding lesser authority e.g., employee, student, applicant or vendor.

In determining whether conduct constitutes sexual harassment, all of the circumstances surrounding the conduct are considered.

The prohibition against sexual harassment applies to all transactions of University business, whether on or off campus.

Individuals with supervisory authority are responsible for reporting any complaint about sexual harassment to the Associate Vice President, Human Resources Programs. Failure to do so may lead to appropriate administrative action.

CSU Channel Islands will not tolerate any retaliatory action or other reprisals against those persons who:
- (a) oppose practices prohibited by this policy;
- (b) file complaints of sexual harassment; or
- (c) assist with or participate in a sexual harassment investigation, proceeding, or hearing conducted by CSU Channel Islands or the State of California, Department of Fair Employment and Housing.

The terms of the Collective Bargaining Agreement shall prevail. If there is any conflict between this policy and the Collective Bargaining Agreement, the Collective Bargaining Agreement is controlling.

*The parameters of ‘sexual harassment’ are legally defined by State and Federal statutes and Court decisions. While the policy set forth above describes actions which fall generally within the scope of ‘sexual harassment,’ all CSU employees and students are required to conduct themselves in a manner that avoids harassment as defined by State and Federal law.
Academic Affairs
DIVISION OF ACADEMIC AFFAIRS

PROVOST AND VICE PRESIDENT FOR ACADEMIC AFFAIRS
Location
Bell Tower Building
West Wing, 2nd floor, Room 2188
(805) 437-8441

The Provost and Vice President of Academic Affairs is charged with the overall administration of all academic units in the context of the University as a whole. The Provost provides direction regarding accreditation, faculty selection, evaluation, and performance; is responsible for analysis of the division's academic programs, policies, and procedures; and directs studies on major operational concerns. The Provost consults with the Academic Senate and University committees in order to maintain institutional focus on the campus mission and to enhance student learning. Among the academic offices reporting to the Provost are the Dean of the Faculty, the Dean of the University Library, the Dean of Extended Education, Faculty Affairs, Research and Sponsored Programs, Institutional Assessment, Academic Resources, Academic Programs and Planning, and Institutional Research.

DEAN OF THE FACULTY
Location
Bell Tower Building
West Wing, 1st floor, Room 1164
(805) 437-8967

The office of the Dean of the Faculty provides academic direction and support for the University faculty, meeting regularly with the program chairs and faculty to discuss program implementation and planning, student enrollment, and academic support.

Working within Academic Affairs, the office helps identify priorities in instruction and planning for undergraduate and graduate programs. The Dean of Faculty is responsible for implementing student academic policies, including academic eligibility, appeals, matriculation and graduation, and provides direction in developing the fall and spring schedules of classes.

The Dean of the Faculty provides overall management of the instructional budget, including purchases, acquisitions, and travel, and is responsible for classroom and lab scheduling and utilization. Along with the Associate Dean, the Dean of the Faculty directs the operations of the Advising Center, the Credential Office, and the University Writing and Math Centers.

PROGRAM AREAS

Art
Location: Bell Tower Building - West Wing, Room 1131
(805) 437-8815

Biology and Physics
Location: Aliso Hall, Room 104
(805) 437-2779

Business and Economics
Location: Sage Hall, Room 238
(805) 437-8545

Computer Science
Location: Bell Tower Building - West Wing, Room 1131
(805) 437-8815

Education
Location: Bell Tower Building - West Wing, Room 2199
(805) 437-8594

English: Literature and Writing
Location: Bell Tower Building - West Wing, Room 1199
(805) 437-3272

History
Location: Sage Hall, Room 212
(805) 437-8835

Liberal Studies
Location: Bell Tower Building - West Wing, Room 1199
(805) 437-3272

Mathematics
Location: Bell Tower Building - West Wing, Room 1131
(805) 437-8815

Location: Bell Tower Building - Room 1521
(805) 437-5870

Psychology
Location: Sage Hall, Room 212
(805) 437-8835

ACADEMIC PROGRAMS AND PLANNING
Location
Sage Hall, Room 250
805 437-8540

The office of Academic Programs and Planning has responsibility for developing and updating the campus academic master plan and facilitating proposals for new degrees and programs. The office coordinates academic planning with enrollment management, assessment, and physical space planning, and coordinates relations with the Chancellor's Office on academic plans and program reviews.
With respect to academic programs, the office assists Academic Senate committees in their work on course and program development and modification. It oversees catalog production for the University and assists program chairs in their relations with community colleges and schools. It oversees the lower division transfer project (LDTP) and CSU efforts to facilitate student degree completion. It directs the CSU Pre-doctoral Program on campus.

The office of Academic Programs and Planning administers Instructionally Related Activities (IRA) funding and cocurricular support for programs. It oversees Academic Affairs events and student recognition, and directs the scheduling of special events.

**ADVISING CENTER**

**Location**
Bell Tower Building, 1st floor
(805) 437-8571
www.csuci.edu/academics/advising

At CSU Channel Islands, the role of advising is shared with faculty advisors and professional advisors. Academic advising is a continuous process that supports students throughout their academic journey at the University. Students are ultimately responsible for their education planning and meeting all graduation requirements. Students need to be familiar with the University catalog policies and major and degree policies. To ensure academic success and to remain on course, students are encouraged to maintain regular contact with academic advisors.

Advisors in the Advising Center provide guidance with general education and graduation requirements, monitoring of the student’s degree progress, undeclared major advising, clarification of academic probation policies, and other institutional policies and procedures. In addition to taking advantage of the center’s professional advisors, students can develop a mentoring relationship with a faculty advisor upon declaration of a major. Faculty advisors assist students with clarification of major requirements and assist students with internship and career opportunities.

Students may call or stop by the Advising Center check-in counter to schedule an appointment with one of our professional academic advisors. Major faculty advisors are available on a walk-in basis or by appointment. For availability and office locations of program advisors, please contact the Advising Center. Advisors are busiest during registration periods and the first few weeks of the semester. Therefore, students are encouraged to schedule advising sessions during non-peak times. The Advising Center hours are: Monday – Thursday, 8:30 a.m. – 6 p.m.; Friday, 8 a.m. – 5 p.m.

**CENTERS**

**Center for Integrative and Interdisciplinary Studies**

The mission of the Center for Integrative and Interdisciplinary Studies is to serve as an organized source of information and support for integrative and interdisciplinary approaches to the creation, discovery, transmission and application of knowledge.

The goals of the Center for Integrative and Interdisciplinary Studies are to:
- create the infrastructure for integrative and interdisciplinary teaching and learning;
- design and implement programs and curricula that promote integrative and interdisciplinary understanding for students in all fields of study;
- assist faculty in developing the integrative and interdisciplinary dimensions of their teaching, scholarship, and service activities;
- facilitate and develop academic and scholarly exchanges and partnerships for students and faculty; and
- coordinate all activities that enhance campus awareness of interdisciplinary and integrative studies and their importance to the life of the campus and local community.

**Center for International Affairs**

The mission of the Center for International Affairs is to internationalize the CSUCI educational experience.

The Center for International Affairs supports efforts to internationalize the curriculum, affords students the opportunity to study abroad, supports international faculty collaboration, and fosters links with higher education institutions around the world.

The objectives of the Center are to:
- design and implement policies and programs that promote cross-cultural and global understanding in all fields of study;
- assist faculty in developing the international dimension of their teaching, scholarship, and service activities;
- facilitate and develop academic and scholarly international exchanges and partnerships for students and faculty;
- diversify the student body to include outstanding students who represent a broad range of geographic, linguistic, and cultural backgrounds; and
- coordinate all activities that enhance campus global awareness and augment the international life of the campus and local community.
Center for Multicultural Learning and Engagement
The mission of the Center for Multicultural Learning and Engagement (CMLE) is to create and sustain a campus climate in and out of the classroom that values and promotes all forms of diversity. It challenges students, staff, and faculty to commit to diversity as a source of renewal and vitality that empowers them to change the culture and the world through civic action.

The Center for Multicultural Learning and Engagement promotes working to end all forms of oppression and toward a just society so that all people can exist with equality and respect.

The objectives of the Center for Multicultural Learning and Engagement are to:
• promote and support efforts to incorporate multicultural perspectives across the curriculum;
• act as a resource for multicultural scholarship and pedagogy for faculty, students and staff/administrators;
• articulate the nature of multiculturalism;
• document its importance for CSUCI;
• maintain a communication network for the exchange of scholarly and pedagogical information on multicultural study among faculty and administrators in undergraduate and graduate education;
• enhance research and teaching in multicultural studies by promoting the development of multicultural theory, methodology, and curricular design;
• provide facilities and support for multicultural courses;
• encourage students and faculty to engage in multicultural study including those that focus on how diverse communities build sustaining cultures that model alternatives to prejudice and how individuals create and maintain authority and integrity in atmospheres of discrimination;
• become a broad-based professional home for reflective multiculturalists; and
• support, promote, and maintain the Multicultural, Women’s and Gender Student Center (MWGSC) and thereby support students’ efforts to promote justice on our campus, in society at large, and in their personal lives.

Hank Lacayo Community and Labor Studies Institute
The Community and Labor Studies Institute serves as a resource to students and campus community and those interested in the study of community and labor issues. Through interdisciplinary learning and research, the institute seeks solutions to community and workforce problems, emphasizing the Central Coast region and its relationship with the global economy. By affording students service learning opportunities, the institute serves as a resource to government and public agencies, community-based organizations and labor unions in the region along with a wide spectrum of stakeholders including business and labor and non-profit organizations as well as, faculty and staff of California State University Channel Islands

The Center integrates student interdisciplinary skills and service learning with applied studies and research and with the community, labor and the non-profit sector. The Center:
• Serves as clearinghouse for information
• Offers consultation and training
• Conducts public policy, collaborative and applied research studies
• Convenes the public on issues of interest to communities

CREDENTIAL OFFICE
Location
Bell Tower Building, Room 1595
(805) 437-8953
http://education.csuci.edu

The Credential Office is responsible for facilitating admission to all credential programs. Our staff serves as a campus resource to provide advice, assistance, and current information to students, members of the faculty, and other interested parties on matters regarding the State and the campus credential requirements. Credential staff members serve as a liaison between the campus and the California Commission on Teacher Credentialing, by recommending the issuance of teaching credentials. Advising services are available with the goal of supporting individuals interested or engaged in the teaching profession. Information meetings are conducted to provide admissions assistance and an overview of the teaching field. Resource materials, including admissions and credential materials, test bulletins, and test preparation referrals are provided.

EXTENDED EDUCATION
Location
Sage Hall, Room 227
(805) 437-2748
www.csuci.edu/exed

The office of Extended Education is designed to respond to important needs in the community for continuing access to higher education, and to provide overall support of the University’s commitment to lifelong learning. It assists individuals seeking to enhance their lives through personal and cultural enrichment. Extended Education serves professionals throughout their career life cycles with job skills training, career upgrades, professional certifications, and accelerated courses of study. It offers special session degree programs, credit and non-credit courses, and certificate programs. Additionally, the office custom designs courses for various groups and businesses in Ventura County. It utilizes a mix of evening and weekend schedules, distance-learning technologies, and variable formats.
**OSHER (Osher Lifelong Learning Institute)**

The Osher Lifelong Learning Institute (OLLI) was created in 2004 to offer University-quality courses to seniors over 50 years of age seeking intellectual stimulation and enhancement. Courses do not carry college credit, and thus do not entail tests or grading. Ten courses are offered during each of the eight-week fall, winter, and spring semesters. Courses meet on weekday mornings or afternoons on the CSUCI campus. For a nominal fee, seniors may join the Institute for a single semester, or for the entire year. Membership entitles seniors to unlimited course enrollment, attendance at the regular noontime speaker series, participation in travel programs, and library privileges. Members participate in suggesting courses and speakers.

Courses are taught by CSUCI faculty, retired College and University faculty, and persons with special expertise. Each semester a balanced and varied program of courses is offered in the arts, music, social and natural sciences, English and literature, and history.

Enrollment for the fall semester (September/October) takes place in July and August. Enrollment for winter (January/February) and spring (April/May) takes place in November and December (winter) and March (spring). To enroll, call (805) 437-2748, email osher.institute@csuci.edu, or see the current course descriptions at www.csuci.edu/exed/osopher.html.

**Open University**

Open University provides an opportunity for those people who are not currently admitted to CSU Channel Islands to enroll in courses offered by the regular University.

- **Begin Working Towards a Degree:** Have you missed the deadline for admission? Do you want to improve your grade point average to better qualify for admittance?
- **Sample a Field or Possible Career:** Are you thinking of a career change? Do you want to examine a new field before enrolling in a degree program?
- **Professional and Personal Enrichment:** Do you want to update your professional training in specific fields? Interested in learning more about a particular subject for your personal growth? CSU Channel Islands’ Open University program allows enrollment in regular University credit classes on a “space available” basis, subject to the approval of the instructor and Academic Affairs. Check the CSU Channel Islands Schedule of Classes for class meeting times and location.

The registration process is easy. Admission to the University is not required, and the same fees apply to everyone.

Students may apply up to 24 units taken through Open University toward a baccalaureate degree. Grades received through this program will be factored into your grade point average at CSU Channel Islands. Units earned through Open University may not be applied toward the 30 unit residency requirement.

**Limitations**

We cannot guarantee a space nor assure that you will be permitted to enroll in any class. Instructors are not required to accept Open University students even if space is available.

**Open University is NOT Available to:**

- Matriculated students (those admitted for the current semester)
- Non-matriculated international students with a score of less than 450 on the TOEFL examination or its equivalent
- International students on F-1 or J-1 visas without proper authorization.

**Four Easy Registration Steps**

(for Open University Only)

1. Check the CSU Channel Islands Schedule of Classes for the days and times of the courses you need.
2. You must use an Open University registration form to enroll in courses through this program (available by calling (805) 437-2748).
3. Attend the first class meeting and get instructor and Academic Affairs signatures. Registration is done on a “space available basis.” Note: some departments may have additional requirements for certain classes. Attend the first class to obtain the instructor’s signature. Instructors are not permitted to sign forms before the first day of class when they can determine space availability. Forms will not be accepted by Extended Education before the first day of class.
4. Return the completed form to Extended Education by the end of the second week of classes.

**Open University Registration Deadlines**

Regular Registration: 1st two weeks of session
Late Registration Dates (late fee applies): 3rd week
Drop (with 65% refund, instructor signature required): End of 2nd week
Late Withdrawal (no refund) - Instructor Signature Required: end of 3rd week

To confirm the schedule and to receive an enrollment form, call (805) 437-2748.

**FACULTY AFFAIRS AND ACADEMIC RESOURCES**

**Location**
Bell Tower Building
West Wing, 2nd Floor
(805) 437-8455

The office of Faculty Affairs advises on faculty personnel and human resources matters, including faculty appointments, collective bargaining administration, faculty recruitment, selection, and retention processes. Faculty Affairs works with the office of Academic Resources in the purchase of equipment and supplies, space utilization, and facilities. The office also promotes faculty development and provides assistance on funded projects, instructional and curriculum design, Web-based instructional efforts, and orientation of incoming faculty.
INSTITUTIONAL RESEARCH
Location
Sage Hall, 2nd floor
(805) 437-8979
www.csuci.edu/about/ir

Institutional Research (IR) is responsible for official university reporting to the CSU Chancellor’s Office and other external entities. IR supports university decision-making by collecting, compiling, and analyzing institutional data. IR supports the WASC accreditation process, as well as the University’s efforts in assessment, accountability, and institutional effectiveness. Reports are posted to the IR website.

OFFICE OF RESEARCH AND SPONSORED PROGRAMS
Location
Lindero Hall
(805) 437-8495

The Office of Research and Sponsored Programs (ORSP) is responsible for the preparation and submission of University grants and contracts and supports the Institutional Review Board (IRB). ORSP offers grant seeking, grant writing, IRB basics and principal investigator certification trainings every semester. The office oversees a number of special projects such as the Child Abuse Training and Technical Assistance Center, Technology Enhanced Learning for great Careers and Higher achievement (T.E.C.H.) project, and the Office of Service Learning and Civic Engagement that promotes civic engagement and service-learning initiatives on campus and in the community.

UNIVERSITY LIBRARY
(805) 437-8561
www.csuci.edu/library

The University Library provides an atmosphere and space conducive to study and inquiry for both individuals and small groups. Use of the adjacent courtyard has expanded both individual and group study areas and has provided students with the largest library outdoor study facility in the CSU. Students have access to a knowledgeable and service-oriented staff and a newly developed print collection of 75,000 volumes, along with numerous databases, electronic journals, and digital images available 24/7. With all these resources, the Library enhances student learning through one-on-one assistance with research, the offering of an active instructional program, providing a space to display student art and outstanding projects, and providing meaningful and thought provoking exhibits.

The University Library has been designated a Digital Teaching Library incorporating up-to-date technologies and instructional support. There is wireless Internet connection throughout the Library and a complete instructional space with 21 wireless computers. The Media Distribution unit checks out digital cameras, digital video cameras, and Macintosh laptops for editing.

The Library’s staff provides one-on-one instruction and support for student use of multimedia applications such as web authoring, digital photography, and digital video editing.

The Robert J. Lagomarsino Collection
Located in the department of archives and special collections in the University Library, the Lagomarsino collection contains papers, photographs, furniture, and memorabilia relating to Mr. Lagomarsino’s years of political service as a California Senate member from 1961-1974 and as a United States Congressman from 1974-1992.

UNIVERSITY MATH AND WRITING CENTER
At the Math Tutoring Lab and the University Writing Center, the process is collaborative. Tutors work with students to encourage effective, independent learning and to further knowledge and understanding during their education at CSU Channel Islands.

Math Tutoring Lab
Location
Bell Tower Building, Room 1512
(805) 437-8409

Math tutors are available to accommodate students’ needs, such as completing homework, studying for a test, or understanding a concept. Tutors are able to consult in virtually every math course offered on this campus and tutor specialties are posted in front of the lab.

University Writing Center
Location
Bell Tower Building, Room 1512
(805) 437-8409

Trained student consultants are available to assist students with composing a first draft, organizing their ideas, and polishing their completed work. Students who would like to review the fundamentals of grammar, syntax, and word usage are invited to work with consultants on an individual basis or in small group sessions with the center’s coordinator. The center is also available to assist students with organizing their studies, taking notes, and using research materials.
FACULTY BIOGRAPHIES

WILLIAM HAMPTON ADAMS
Associate Professor of Anthropology
Ph.D., Anthropology, 1976, Washington State University
M.A., Anthropology, Washington State University
A.B., Anthropology, Indiana University

Areas of Specialization: Historical archaeology; oral history; ethno-history; ethno-archaeology; human ecology; environmental history; cultural heritage management; cultural preservation; applied anthropology; African-American history; USA; Oceania; Australia.

VIRGIL H. ADAMS III
Associate Professor of Psychology
Ph.D., Psychology, 1994, University of California Santa Cruz
M.S., Psychology, University of California Santa Cruz
B.A., Psychology, California State University, Fresno

Areas of Specialization: Social Psychology, Intergroup Relations, Hope, Quality of life, African American Families

MARY ADLER
Assistant Professor of English
Ph.D., Curriculum and Instruction, 2002, University at Albany, State University of New York
M.A., English/Creative Writing, University at Albany, State University of New York
B.A., History, University of California at Los Angeles

Areas of Specialization: English education (literature instruction, classroom discourse studies, writing development & processes), second language acquisition

SIMONE ALOISIO
Assistant Professor of Chemistry
Ph.D., Analytical Chemistry, 2000, Purdue University
B.A., Chemistry, Bradley University

Areas of Specialization: Atmospheric chemistry, theoretical chemistry, infrared spectroscopy.

SEAN ANDERSON
Assistant Professor of Environmental Science and Resource Management
Ph.D., Population Biology, 2003, University of California Los Angeles
B.A., Environmental Science, University of California Santa Barbara
B.A., Ecology and Evolution, University of California Santa Barbara

Areas of Specialization: Restoration Ecology, Conservation Biology, Marine Biology, Wetland Ecology

HARLEY BAKER
Associate Professor of Psychology; Chair, Psychology
Ed.D, Organization and Leadership, 1999, University of San Francisco
M.S., Developmental Psychology, University of California Santa Cruz
M.A., Psychology, San Jose State University
B.A., Psychology, California State University Stanislaus

Areas of Specialization: Psychometrics, adolescence, attachment theory, psychoanalytic thought, psychology of religion.

JULIA BALÉN
Assistant Professor of English
Ph.D., Comparative Cultural and Literary Studies, 1993, University of Arizona
M.A., English Literature, University of Arizona
B.A., English/Creative Writing, University of Arizona

Areas of Specialization: Twentieth century world literature, feminist studies, activism and social change, sexuality and gender studies
TERRY L. BALLMAN
Professor of Spanish
Ph.D., Spanish Linguistics, 1985, University of Texas
M.A., Spanish, California State University Long Beach
B.A., Spanish, California State University Long Beach

Areas of Specialization: Spanish Language Acquisition, Second/Foreign Language Teaching

FRANK P. BARAJAS
Assistant Professor of History
Ph.D., History, 2001, Claremont Graduate University
M.A., B.A., History, California State University, Fresno

Areas of Specialization: California History, Chicano Studies, Twentieth Century United States History

ANDRZEJ (A.J.) BIESZCZAD
Assistant Professor of Computer Science
Ph.D., Electrical Engineering, 1996, Carleton University
M.S., Computer Science, 1993, Carleton University
M.S., Informatics, 1981, Jagiellonian University, Krakow, Poland

Areas of Specialization: Cognitive Informatics, Artificial Intelligence, Intelligent Agents, Network and Service Management, Internet Programming, Game Programming

ROBERT BLEICHER
Associate Professor of Education-Science
Ph.D., Educational Psychology, 1993, University of California Santa Barbara
M.A., Educational Psychology, University of California Santa Barbara
B.A. (Honors), Chemistry, University of California Davis

Areas of Specialization: Classroom Discourse, Self-Efficacy, Science Education, Service Learning

MERILYN BUCHANAN
Assistant Professor of Education
Ph.D., Education: Study of Teaching, 1991, University of California Los Angeles
M.Ed., Education: Curriculum Design and Evaluation, Liverpool University, UK.
Cert. Ed., Primary Education: Environmental Studies, Notre Dame College, U.K.

Area of Specialization: K-6th grade mathematics education, teacher's work experiences, organization and function of professional development schools.

RAINER F. BUSCHMANN
Associate Professor of History
Ph.D., History, 1999, University of Hawai‘i at Manoa
M.A., Anthropology, University of Hawai‘i at Manoa
B.A., Anthropology, University of Illinois at Urbana-Champaign

Areas of Specialization: World History, Pacific Islands History, Modern European History, History of Oceans

RENNY CHRISTOPHER
Professor of English
Ph.D., Literature, 1992, University of California, Santa Cruz
M.A., Linguistics, San Jose State University
B.A., English/Creative Writing, Mills College

Areas of Specialization: Twentieth century multicultural U.S. literature, working-class studies, gender studies

WILLIAM P. CORDEIRO
Professor of Management; Director, Martin V. Smith School of Business & Economics
Ph.D., Executive Management, 1986, Claremont Graduate University
M.A., Management, Claremont Graduate University
M.B.A., Finance, University of Southern California
B.S., Biology, University of San Francisco

Areas of Specialization: Strategic Planning; Professional Ethics
BEATRICE M. DE OCA
Associate Professor of Psychology
Ph.D., Psychology, 1997, University of California Los Angeles
B.A., Psychology, California State University Los Angeles

Areas of Specialization: Psychophysiology of emotion, biological basis of emotion, animal defensive behaviors, learning and memory

GEOFF DOUGHERTY
Professor of Physics
Ph.D., Biophysics, 1979, Keele University, England
P.G.C.E., Physics and Education, Leeds University, England
B.S., Physics, Manchester University, England

Areas of Specialization: Medical imaging, image analysis, pattern recognition, biophysics, instrumentation.

JESSE ELLIOTT
Assistant Professor of Mathematics
Ph.D., Mathematics, 2003, University of California, Berkeley
B.S., Mathematics, Massachusetts Institute of Technology

Areas of Specialization: Commutative algebra and number theory

SCOTT A. FRISCH
Associate Professor of Political Science; Chair, Multiple Programs
Ph.D., Political Science, 1997, Claremont Graduate University
M.A., Political Science/International Relations, University of Pennsylvania
M.G.A., Government Administration, University of Pennsylvania
A.B., International Affairs, Lafayette College

Areas of Specialization: American Institutions (Congress, The Presidency), Public Policy, Public Budgeting
MATTHEW FURMANSKI
Assistant Professor of Art
M.F.A., Sculpture, 1995, Claremont Graduate University

Areas of Specialization:
Sculpture, ceramics, digital media and new genres

JORGE GARCIA
Assistant Professor of Mathematics
Ph.D., Mathematics, 2002, University of Wisconsin Madison
M.S., Mathematics, University of Wisconsin-Madison
M.S., Mathematics, Center for Research and Advanced Studies (CINVESTAV) at National Polytechnic Institute (IPN), Mexico
B.A., Mathematics, National University of Mexico

Areas of Specialization: Large Deviations, Stochastic Integrals

BLAKE GILLESPIE
Assistant Professor of Chemistry
Ph.D., Chemistry, 1999, University of Oregon, Eugene OR
B.S., Chemistry, 1991, The Evergreen State College, Olympia WA

Areas of Specialization: Protein stability, dynamics, structure

JEANNE M. GRIER
Assistant Professor of Secondary Education
Ph.D, Teaching and Teacher Education, 1998, University of Arizona
M.Ed., Curriculum and Instruction-Science Education, University of Missouri-Columbia
B.A. Interdisciplinary Studies-Biology, Chemistry, Art, University of Missouri-Columbia

IVONA GRZEGORCZYK
Professor of Mathematics; Chair, Mathematics
Ph.D., Mathematics, 1990, University of California Berkeley
M.S., Mathematics, University of Warsaw

Areas of Specialization: Algebraic Geometry, Vector Bundles, Mathematics and Art, Mathematics Education.

PHILIP HAMPTON
Professor of Chemistry; Director of Faculty Development
Ph.D., Organic Chemistry, 1989, Stanford University
B.A., Chemistry, St. Olaf College

Areas of Specialization: Organic and inorganic synthesis, catalysis, mechanistic studies, organometallic chemistry, and polymer chemistry.

ELIZABETH HARTUNG
Professor of Sociology
Ph.D., Sociology, 1985, University of Nebraska, Lincoln
M.A., Sociology, Kansas State University
B.A., Sociology, Kansas State University

Areas of Specialization: Stratification, Gender, Popular Culture

NIAN-SHENG HUANG
Associate Professor; Chair, History
Ph.D., History, 1990, Cornell University
M.A., History, Cornell University
M.A., History, Tufts University
B.A., History/Political Science, Teachers University of Inner Mongolia, P. R. China

Areas of Specialization: Early America
JACQUELYN KILPATRICK
Professor of English and Chair, English
Ph.D., Literature, 1996
University of California, Santa Cruz
M.A., English, California State University, Fresno
B.A., English, California State University, Fresno

Areas of Specialization: British Literature, world literature, Native American literature, Renaissance drama, multicultural literature and film

LIZ KING
Assistant Professor of Art
M.F.A., 1990, University of California, Los Angeles
B.A., 1986, University of California, Los Angeles

Areas of Specialization: Computer Graphics, Web Design, Flash Animation, and Interactive Media

JILL M. LEAFSTEDT
Assistant Professor of Special Education
Ph.D., Education/Emphasis in Special Education Disabilities and Risk, 2002, University of California, Santa Barbara
B.S., Elementary Education and Special Education, Rhode Island College

Areas of Specialization: Learning Disabilities, Early Reading, Early Intervention, Bilingual Education/Special Education

BOB MAYBERRY
Associate Professor of English
M.F.A., 1985, Theatre, Univ. of Iowa
Ph.D., 1979, English, University of Rhode Island
M.A., 1975, English, Univ. of Utah
B.A., 1971, English, Univ. of Nevada

Areas of Specialization: Composition theory and pedagogy, playwriting, modern drama
JOAN K. PETERS
Assistant Professor of English
Ph.D., Comparative Literature, 1974, University of Chicago
M.A., English, University of Chicago
B.A., English, University of Chicago

Areas of Specialization: 17th Century English and European literature; Modern and Contemporary Fiction, Fiction Writing; Women's Studies

JACK REILLY
Professor of Art; Chair, Art
M.F.A., Studio Art, 1978, Florida State University
B.F.A., Creative Art, Florida State University
Specialized Studies in Art: Paris American Academy

Areas of Specialization: Painting media and theory, digital art, video, film, surfing

PAUL A. RIVERA
Assistant Professor of Economics
Ph.D., Economics, 2002, University of Southern California
M.A., Economics, California State University Long Beach
B.A., Economics, Texas A&M University

Areas of Specialization: Development economics, international migration, rural household economics, culture and economics.

DONALD A. RODRIGUEZ
Assistant Professor of Environmental Science and Resource Management
Ph.D., Human Dimensions of Natural Resource Management, 1996, Colorado State University
M.S., Environmental Education, California State University Hayward
B.S., Wildlife Zoology, San Jose State University

Areas of Specialization: Human Dimensions of natural resource management, parks and protected areas management, management of wildland-urban interface, watershed management and land use conflicts.
KEVIN VOLKAN  
Professor of Psychology  
Ph.D., Clinical Psychology, 1991, Center for Psychological Studies  
Ed.D., Educational Psychology, Northern Illinois University  
M.A., Psychology, Sonoma State University  
B.A., Biology, University of California, Santa Cruz  

Areas of Specialization: Quantitative assessment of physician performance, Asian philosophy and religion, Psychoanalysis and Depth Psychology

STEPHEN STRATTON  
Associate Professor, Head of Collections and Technical Services, Library  
M.S., Library Science, 1992, Wayne State University  
M.A., Counseling, Eastern Michigan University  
A.B., Communications, University of Michigan  

Areas of Specialization: HIV/AIDS Information, Information provision to GLBT populations

ASHISH VAIDYA  
Professor of Economics and Dean of Faculty  
Ph.D., Economics, 1990, University of California, Davis  
M.A., Economics, University of Bombay, India  
B.A., Economics, St. Xavier’s College, Bombay, India  

Areas of Specialization: International Trade, Applied Microeconomics, International Business Strategy

LILLIAN VEGA-CASTANEDA  
Professor of Language, Culture & Literacy; Chair, Liberal Studies  
Ed.D. Teaching, Curriculum and Learning Environments, 1989, Specialization in Sociolinguistics, Harvard University  
M.A., Bilingual/Multicultural Education, California State University Los Angeles  
B.A., History, University of California, Irvine  

Areas of Specialization: Multicultural/Multilingual Education, Language, Literacy and Culture in Diverse Contexts, Narrative, Social Justice and Equity issues in curriculum and instruction.

AMy WALLACE  
Associate Librarian  
M.L.I.S., Library and Information Science, 1996, San Jose State University  
M.A., History, San Diego State University  
B.A., History, San Diego State University  

Areas of Specialization: Reference, Instruction, and Outreach

CHING-HUA WANG  
Professor of Immunology and Microbiology; Chair, Biology  
Ph.D., Immunology, 1986, Cornell University  
M.S., Immunology, Beijing Medical University  
M.D., 1978, Beijing Medical College  

Areas of Specialization: Infection and immunity, cellular and molecular immunology, microbiology

WILLIAM J. WOLFE  
Professor of Computer Science; Chair, Computer Science  
Ph.D., Mathematics, 1976, City University of New York  
B.A., Mathematics, Queens College  

Areas of Specialization: Artificial Intelligence, Neural Networks, Scheduling Systems, Database-driven Web Sites.
GREGORY G. WOOD  
Assistant Professor of Physics

Ph.D., Physics, 2000, University of California, Riverside  
B.S., Physics, 1996, University of California, San Diego

Areas of Specialization:  
Statistical Mechanics, Biophysics, Computational Physics

CYNTHIA WYELS  
Associate Professor of Mathematics

Ph.D., Mathematics, University of California, Santa Barbara  
M.S: Mathematics, University of Michigan  
B.A: Mathematics, Pomona College

Areas of Specialization:  
Combinatorics, Linear Algebra, Graph Theory
General Education and Graduation Requirements
OBJECTIVES
The General Education Program provides a vital element in fulfilling the mission of the University. Interdisciplinary courses facilitate learning within and across disciplines, enabling students to use information and approaches from a wide variety of disciplines. Language and multicultural courses provide the opportunity for students to experience cultures other than their own in meaningful and respectful ways. General Education requirements are designed to assure that all graduates of the University, whatever their major, have acquired essential skills, experiences, and a broad range of knowledge appropriate to educated people within society.

General Education courses are intended:
• to foster an ability to think clearly and logically,
• to prepare students to find and critically examine information,
• to communicate at an appropriate level in both oral and written forms,
• to acquaint students with the physical universe and its life forms and to impart an understanding of scientific methodology and of mathematical concepts and quantitative reasoning,
• to cultivate through the study of philosophy, literature, languages, and the arts-intellect, imagination, sensibility, and sensitivity,
• to deal with human social, political, and economic institutions and their historical backgrounds, with human behavior and the principles of social interaction, and
• to integrate their knowledge by forming an interdisciplinary and insightful approach to learning.

REQUIREMENTS
As a graduation requirement, all CSUCI students must complete 48 units of General Education distributed across categories A-E. Nine of the 48 units of General Education are required to be resident upper division, interdisciplinary courses numbered in the 330-349 or 430-449 ranges.

Transfer students who enter CSUCI as GE certified will need to complete 9 units of upper division, interdisciplinary general education coursework to meet the 48 unit requirement.

In planning to fulfill the General Education requirements, students are encouraged to consult an academic advisor and the General Education Informational Brochure.

Category A: Communication in the English Language and Critical Thinking (9 units)
Category B: Mathematics, Sciences, and Technology (12 units)
Category C: Art, Literature, Languages and Cultures (12 units)
Category D: Social Perspectives (12 units)
Category E: Human Psychological and Physiological Perspectives (3 units)

UPPER DIVISION INTERDISCIPLINARY GENERAL EDUCATION COURSES
Nine of the 48 units of General Education have been designated as upper division, interdisciplinary courses. These courses integrate significant content, ideas, and ways of knowing from more than one discipline. Each of these courses will involve the student in collaborative work, critical thinking, and integration of ideas. By taking nine units of these courses in categories A-E, students will extend their experience across the curriculum and gain more breadth of educational experience. In addition, they will begin to make connections between their majors and a variety of other fields and ways of knowing, increasing both their knowledge and their ability to communicate with people across the disciplinary spectrum.

• The nine units of resident upper division General Education required of all students must be selected from the listing of upper division interdisciplinary courses. Courses may be cross-listed in two or more disciplines. A minimum of three semester units must come from a discipline outside the student’s major and not cross-listed with the student’s major discipline.

• All upper division, interdisciplinary courses will include substantive written work consisting of in-class writing as well as outside-class writing of revised prose.
• Courses numbered 330-349 do not have prerequisites.
• Courses numbered 430-449 may have prerequisites.
• Students must have junior standing or permission from the instructor to enroll in these courses.

MAJOR SPECIFIC COURSES
Some majors require specific GE courses. Students should consult the catalog for their majors’ requirements or contact their advisors.

CROSS LISTED COURSES
Many upper division General Education courses are cross-listed. Students may only receive credit once for each cross-listed course. For example: ENGL 431 is cross-listed with ART 431. The student may choose to receive course units for either of the two courses but not both.

DOUBLE COUNTING
A course may meet the content requirements for two or more program areas (majors, minors, and other sub-programs) with permission of the program; however, the units for the course are counted only once toward the total units for graduation. Double counting between a program and General Education requirements is allowed;
however, only six of the nine units of upper division, interdisciplinary General Education courses may be double counted between a major and General Education.

Courses in More Than One Category
A course may be found in more than one GE category. The student may choose which category requirements the course will fill, but a single course cannot fulfill requirements for two categories or sub-categories.

GENERAL EDUCATION CATEGORIES AND COURSES

CATEGORY A: COMMUNICATION IN THE ENGLISH LANGUAGE AND CRITICAL THINKING (9 UNITS)
Courses in Category A approach communication as symbolic interaction, examining the formulation and complexities of those interactions. Students learn how to discover, evaluate, and report information, how to reason inductively and deductively, how to distinguish fact from judgment or opinion. Courses in Categories A1 and A2 emphasize the content and form of both oral and written English. They explore the psychological basis and the social significance of communication, as well as the ways language works in diverse situations. Through active participation in written and oral communication, students develop the skills necessary for effective speaking, comprehension, writing, and reasoning. Modes of argument, rhetorical perspectives, and the relationship of language to logic are stressed in all Category A courses.

Students must take a minimum of one course in each of the three subcategories.

A-1 Oral Communication
COMM 101 Public Speaking
COMM 210 Interpersonal Communications
COMM 220 Group Communication
COMM/ 345 Media Literacy and Youth
EDUC 106 Culture
ENGL 106 Composition and Rhetoric II - Service Learning
ENGL 107 Advanced Composition and Rhetoric
ENGL 330 Writing in the Disciplines
ENGL/ 336 Multicultural Literature and Communication

A-2 English Writing
ART/ 230 The Art of Creating Journalism
LS/ENGL 103 Stretch Composition II
ENGL 105 Composition and Rhetoric I
ENGL 106 Composition and Rhetoric II - Service Learning
ENGL 107 Advanced Composition and Rhetoric
ENGL 330 Writing in the Disciplines

A-3 Critical Thinking
MATH 230 Logic and Mathematical Reasoning
UNIV 110 Critical Thinking in an Interdisciplinary Context

CATEGORY B: MATHEMATICS, SCIENCES, AND TECHNOLOGY (12 UNITS)
Courses in this area explore the scope and major concepts of mathematics and/or scientific disciplines. In the sciences, the intent is to present the principles and concepts which form the foundations of living or non-living systems. The focus of all courses in Category B is on the presentation and evaluation of evidence and argument, the appreciation of use/misuse of data, and the organization of information in quantitative, technological, or other formal systems. Students are introduced to the principles and practices that underscore mathematical and scientific inquiry (logic, precision, hypothesis generation and evaluation, experimentation, and objectivity) and gain an understanding of the process by which new knowledge is created, organized, accessed, and synthesized. Students improve their reasoning skills (critical thinking, problem-solving, decision making, analysis, and synthesis), and apply information and technology to the understanding of complex and diverse problems in mathematics and the sciences. They become aware of the influence and significance of mathematics and the sciences in world civilization.

Students must take a minimum of one course in each of the subcategories. At least one course must include a laboratory component.

B-1 Physical Sciences-Chemistry, Physics, Geology, and Earth Sciences
ART/ 208 The Physics of Art and Visual Perception
CHEM 100 Chemistry and Society

CATEGORY C: ART, LITERATURE, LANGUAGES, AND CULTURES (12 UNITS)
The courses in this category enable students to develop a basic appreciation of the human imagination and understand the value of personal creativity in a complex, global society. Exposure to a diverse range of work in art, literature, languages, and cultures cultivates the student’s ability to express intellectual and emotional responses and make subjective and objective evaluations. Awareness of diverse cultural contributions, in both historical and contemporary work, stresses the interrelationship between individual aesthetics and collective human sensibility. Numerous teaching methodologies involve active participation in the creative experience, leading to personal inquiries into the cultural diversity prevalent in the visual, literary, audible, kinetic, and oral traditions of human expression.

Students must take one course in each subcategory.

CATEGORIE D: SOCIAL PERSPECTIVES (12 UNITS)
The courses in this category enhance student knowledge of the complex cultural and institutional world in which people live. Each course examines relationships between various cultures and institutions that shape our social, economic, psychological, and political realities. Using the lenses of the social sciences, students gain insight and understanding of the social, political, historical, economic, educational or behavioral aspects of world cultures and systems, including the ways in which these interact and influence each other.

Students must select a minimum of three courses (12 units), each course in a different social science discipline.

CATEGORIES E: HUMAN PSYCHOLOGICAL AND  
PHYSIOLOGICAL PERSPECTIVES (3 UNITS)  
The courses in this category enhance students' awareness  
and understanding of themselves as both psychological  
and physiological beings. These courses promote  
this awareness by focusing on issues such as human  
development, human sexuality, human behavior and  
psychology, health, nutrition, physical activity, and  
death and dying. The perspective is that humans, as  
physiological and psychological beings, must relate to  
others in a physical and social environment.  

Students must complete at least one course to satisfy  
Category E. Courses that are primarily physical activity  
courses may satisfy no more than  
1 unit of the 3-unit requirement.

UPPER DIVISION INTERDISCIPLINARY  
GENERAL EDUCATION COURSES  
Courses in the following list meet the upper division  
general education requirement and may also be counted  
toward the designated General Education category. If a  
course is designated in more than one GE category the  
student must choose which GE category the course is  
fulfilling.

GRADUATION REQUIREMENTS

BACCALAUREATE DEGREE REQUIREMENTS
All baccalaureate degrees require completion of the requirements listed below. Degree requirements fall into three categories: general education requirements; major/ minor requirements and other University requirements.

Total Units
A minimum of 120-125 units are required, depending on the major selected. No more than 70 units taken at a community college or another two-year college may be applied to this total, excluding military credit and credit by examination. A quarter unit is equivalent to two-thirds of a semester unit.

Upper Division Units
At least 40 of the total required units for graduation must be in courses numbered 300-499.

Major
Completion of a specific number and pattern of courses in one or more academic departments is defined as a major and is required for graduation.

General Education
All students must complete General Education requirements. General Education requirements can be found in the General Education section of the catalog. A minimum of nine upper division, interdisciplinary units must be completed in residence at CSU Channel Islands.

Residence
At least 30 of the total units must be taken at CSU Channel Islands excluding Open University and Extension units. At least 24 of these 30 units must be upper division coursework, and 12 of the 30 units must be in the major. At least 9 units of upper division interdisciplinary General Education courses (numbered in the 330-349 or 430-449 ranges) of the required 48 General Education units must be completed in residence at CSU Channel Islands.

Grade Point Average (GPA)
An overall GPA of 2.0 is required in:
1. Total courses attempted
2. CSU Channel Islands courses attempted; and
3. Courses in the major

Title V, Section 40404: Graduation Requirements in United States History, Constitution and American Ideals
(American Institutions Requirement)
Students are required to demonstrate competencies in U.S. History, U.S. Constitution and California state and local government for graduation. Competencies can be met by enrollment in six units as follows:
1. POLS 150 American Political Institutions (3) Students who have AP credit for American Government or have taken American Government without coverage of California government may take the following:
   POLS 140 California Government (1)
2. Choose from one of the following:
   HIST 270 The United States to 1877 (3)
   HIST 271 The United States since 1877 (3)
   HIST 272 Constitutional History of the U.S. (3)
   HIST 275 The United States to 1900 (3)

Language and Multicultural Requirement
1. The language requirement can be met by satisfying General Education category C3a with a grade of C or better. Students who are G.E. certified in Section C must still meet the language requirement for graduation and may do so either by passing a C3a course with a grade of “C” or better or by demonstrating proficiency through examination. Students will also receive credit for having advanced proficiency in a language other than English. This proficiency can be demonstrated via an examination that assesses the student’s language skills (speaking, listening, reading and writing) on a variety of informal and formal topics. By passing this examination, students fulfill the graduation exit requirement for language. For purposes of the General Education requirement, however, students receive content credit but not unit credit.
2. The multicultural requirement can be met by satisfying General Education category C3b with a grade of C or better.
   (SP 03-27)

Graduation Writing Assessment Requirement
The Graduate Writing Assessment Requirement will be satisfied through the completion of 9 units of Upper-Division Interdisciplinary General Education courses, which are writing intensive.
   (SP 14-03)
GRADUATION

GRADUATION INFORMATION AND APPLICATION PROCESS FOR THE BACHELOR'S DEGREE

To qualify for graduation students must complete all requirements for the Bachelor's Degree by the official graduation date listed in the schedule of classes. Graduation is not automatic upon the completion of requirements. Students who intend to graduate must take the initiative and should follow the key steps listed below. While students are ultimately responsible for completing all degree requirements, assistance is available through faculty advisement, the Advising Center and Graduation Evaluations. It is important that students meet regularly with an advisor to avoid graduation problems and delays.

Application for Graduation

The application for Degree and Diploma and filing fee entitles students to an official graduation evaluation of progress toward meeting baccalaureate degree requirements. Students qualifying for graduation by the designated graduation date may participate in the annual commencement ceremony. Students may only participate in commencement if they have 10 or fewer units remaining at the time of the ceremony. The application for degree is available at the Advising Center in the Bell Tower building and at the Enrollment Center in the Sage Hall.

Key Steps to Graduation

1. Request a preliminary graduation evaluation from the Advising Center approximately two semesters prior to the anticipated graduation date. Students begin the process by meeting with a professional advisor in the Advising Center. The advisor will complete a preliminary check of all graduation requirements. Included in this check will be a major evaluation that may be signed by either a professional advisor or major program advisor.

2. After the initial check with the Advising Center advisor, complete the Application for Degree and Diploma, attach the preliminary graduation evaluation completed by the Advising Center advisor, along with any approved course substitutions.

3. Submit the completed preliminary evaluation, application for Bachelor’s Degree and any approved course substitutions to the Enrollment Center Cashier (Sage Hall) and pay the appropriate fees for graduation application. The graduation fee covers the cost of the graduation check, the diploma, and participation in the annual commencement ceremony. (The fee does not include cap and gown rental, which is handled separately by the Student Bookstore). The Cashier’s Office sends the Application for Degree and Diploma, preliminary graduation evaluation and certification of payment to Graduation Evaluations.

4. If the Application for Degree and Diploma is completed by the published deadline (see current semester schedule for filing dates and deadlines), a completed degree evaluation will be mailed before the end of the add/drop period in a student’s last semester. The graduation evaluation confirms remaining requirements for graduation and is a formal statement on the expected semester of graduation. The actual date of graduation will be the end of the semester in which all requirements have been met.

5. Participate in the commencement ceremony held at the end of the spring semester if eligible (participation is optional).

6. Students not completing the requirements by expected date of graduation must reapply for graduation and will be charged a $15 graduation refile fee.

7. After all degree requirements have been completed and Graduation Evaluators can verify their completion, a diploma is normally available within four months of final clearance. If proof of completion of degree is needed prior to receiving a diploma, verification of graduation or transcript may be requested from Records and Registration.

Commencement and Honors Convocation

Commencement and Honors Convocation are held each year in the spring, bringing together local community members to celebrate the accomplishment of our students.

University Honors

To receive honors at graduation at CSU Channel Islands, a student must:

1. Complete a minimum 30 units of courses taken at CSUCI for a letter grade.

2. Earn a grade point average of 3.50 or above in all work taken at CSUCI.

3. Earn the following cumulative grade point average in all undergraduate courses, including transfer work:

   - **Summa Cum Laude** - this honor is awarded to all students who earn a grade point average of 3.90 - 4.0.
   - **Magna Cum Laude** - this honor is awarded to all students who earn a grade point average of 3.75 - 3.89
   - **Cum Laude** - this honor is awarded to all students who earn a grade point average of 3.50 - 3.74. (SP 03-24)

Participating in Commencement Ceremonies

Students may participate in commencement ceremonies if they have no more than 10 units pending toward completion of their degrees. (SP02-05)

ANTHROPOLOGY

PROGRAM OFFERED
• Minor in Anthropology

Anthropologists stress the holistic relationship between humans and their environment using culture as the organizing theme. As such anthropologists study human biological origins and adaptations, as well as cultural adaptations. Although anthropology had its roots in studying hunting and gathering societies and agrarian ones, today anthropologists study modern industrial societies. Because of the ecological, holistic approaches anthropology provides a solid basis to understand the difficult choices facing modern humans, like overpopulation, dwindling resources, and environmental degradation and pollution. By using the knowledge and perspectives gained from many cultures, anthropology is in a position to offer great insight into solutions for the future. Anthropology is a key discipline contributing to multiculturalism, environmental studies, and globalization.

CAREERS
The anthropology program prepares students for graduate school in anthropology, careers in government service, consulting, international relations, the professions (law, medicine), and teaching social sciences.

REQUIREMENTS FOR THE MINOR IN ANTHROPOLOGY (24 UNITS)

ANTH 102 Cultural Anthropology (3)
ANTH 105 Introduction to Archaeology and Prehistory (3)
ANTH 332 Human Ecology (3)
ANTH 310 Civilizations of an Ancient Landscape: World Archaeology (3)
ANTH 345 Human Evolution and Diversity (3)

Choose two electives from the following courses:

ANTH 323 Native Americans of California to the 1850s (3)
ANTH 443 Medical Anthropology: Cross-Cultural Perspectives on Health and Healing (3)
ANTH 452 Applied Anthropology (3)
ANTH 490 Seminar in Anthropology (3)
ANTH 492 Service Learning/Internship (1-3) (Consent of Instructor)
ANTH 494 Independent Study (1-3) (Consent of Instructor)
ANTH 499 Capstone Project (3)
APPLIED PHYSICS

PROGRAM OFFERED
• Minor in Applied Physics

Physics is the fundamental science from which many fields of science and engineering developed. It is essentially an inter-disciplinary undertaking, interacting with computer science, mathematics, the life sciences, medicine, and other disciplines. Applied physics focuses on the hi-tech applications of physics, and on developing technological skills. It applies a thorough analytic understanding of the principles to the complexities of real applications at the frontiers of science and technology, e.g. in imaging and computer vision, electronic instrumentation, and biomedical engineering. The Applied Physics Minor will equip you with the solid cross-disciplinary background that is highly valued by industry and academia. It takes a unifying, systems approach to science and technology to provide you with a strong background in fundamental science and the transferable skills (such as analytical thinking, communication skills, computer literacy and cooperative learning) relevant to a rapidly changing working environment.

CAREERS
The program gives you the opportunity to explore selected area(s) in greater depth, thus providing you with the depth and flexibility to explore a wide variety of career opportunities, including graduate study, medical school, teaching, imaging science, instrumentation, investments and technical management.

   BIOL/HLTH

2. Applied Physics Electives (3-4 units)
Choose from:
   PHYS 490 Topics in Physics (3)
   PHYS 492 Internship (3)
   PHYS 494 Independent Research (1-3)
   PHYS 497 Directed Studies (1-3)
   PHYS 499 Senior Colloquium (1)
ART

PROGRAMS OFFERED
• Bachelor of Arts Degree in Art
  Option in Studio Art
  Option in Art History
• Minor in Art
• Certificate in Digital Media Art

The California State University Channel Islands Art Major focuses on interdisciplinary studies in fine art, digital art technology, graphic design and art history, emphasizing an innovative approach to artistic process, technique and problem solving through the integration of traditional media and digital technologies. Courses in studio art, art history and interdisciplinary studies focus on developing a solid artistic foundation, leading to advanced work in art media and theory. The studio art option provides in-depth study in the areas of two-dimensional art, three-dimensional art, digital media art, and communication design technology. The art history option provides in-depth study in the history of art and interdisciplinary topics.

The CSUCI Art program is designed for students who wish to pursue:
• a Bachelor of Arts Degree in Art,
• a Minor in Art,
• a Certificate in Digital Media Art,
• a Liberal Studies Concentration in Art,
• preparation for graduate study, and
• preparation for professional and academic fields in the Arts.

CAREERS
Students prepare for a wide range of opportunities in today’s professional and academic fields. Careers include visual arts positions in fine art, graphic design, Web design, multimedia, computer graphics, computer animation, digital photography, video art, digital filmmaking, visual effects, galleries, museums, teaching and numerous other professions in the arts.

PROGRAM LEARNING OUTCOMES
Students graduating from the Art program will be able to:
• demonstrate methods of critical analysis through the analysis, interpretation, and evaluation of works of art;
• demonstrate informed understanding and appreciation of the role of art in contemporary society as well as throughout history;
• create and express personal ideas and opinions through artwork in response to diverse range of global events;
• explore the integration of traditional art techniques and materials with emerging art technologies;
• develop communication skills needed to articulate their conscious artistic intentions, and express coherent aesthetics;
• demonstrate familiarity with high-tech tools while working with emerging digital art technologies;
• demonstrate their preparation for professional artistic practice through the refinement of artistic concept, narrative and technique;
• complete in-depth work in specific media and demonstrate advanced competency in artistic production; and
• analyze a diverse range of career opportunities in their selected artistic discipline.

REQUIREMENT FOR THE BACHELOR OF ARTS IN ART (120 UNITS)

LOWER DIVISION REQUIREMENTS (24 UNITS)
Art majors are required to complete a minimum of twenty-four units of lower division Art courses in preparation for upper division studies in the major.

Studio Fundamentals (12 units)
ART 105 Drawing and Composition (3)
ART 106 Color and Design (3)
ART 107 Life Drawing (3)
ART 108 Visual Technologies (3)

Art History (6 units)
Select two courses from the following:
ART 110 Prehistoric Art to the Middle Ages (3)
ART 111 Renaissance to Modern Art (3)
ART 112 Arts of the Eastern World (3)

Studio Electives (6 units)
In selecting lower division studio elective courses, students are encouraged to enroll in courses that satisfy prerequisites for upper division study in specific areas. Transfer students may substitute additional CSU transferable courses, provided they meet CSUCI
requirements for lower division articulation in the major. Students interested in pursuing a teaching credential should consult an advisor before selecting courses.

Select a minimum of two courses from the following:

</table>

UPPER DIVISION REQUIREMENTS (33 UNITS)

Upper division Art majors are required to select an option within the major and complete a minimum of thirty-three units of upper division Art courses.

REQUIREMENTS FOR THE OPTION IN STUDIO ART

Lower Division Art Courses (24 units)
Upper Division Art Studio Courses (18 units)
Upper Division Art History & Interdisciplinary Art Courses (6 units)
Professional Preparation Courses (9 units)

REQUIREMENTS FOR THE OPTION IN ART HISTORY

Lower Division Art Courses (24 units)
Upper Division Art History & Interdisciplinary Art Courses (18 units)
Upper Division Art Studio Courses (6 units)
Professional Preparation Courses (9 units)

STUDIO ART COURSES

Students are encouraged to pursue an integrated approach in the exploration of media and artistic processes by integrating traditional methods of art production with digital technologies in at least two areas of study. Assignments incorporate projects that lead toward development of artistic skills and computer literacy that result in the creation of individual art projects.

Select a minimum of two courses from ART 310-315.

Professional Preparation Courses (9 units)
Upper division Professional Preparation courses provide students with an understanding of current issues in the arts, application of specialized studio work, field activities and service learning.
ART  489  Arts Seminar (3)
ART  490  Special Topics in Art (3)
ART  499  Arts Capstone Project (3)

ART ELECTIVES
Upper Division Art elective courses may fulfill up to six units of upper division Studio Art or Art History requirements. Portfolio review and instructor consent required.
ART  492  Internship in the Arts (1-3)
ART  494  Directed Independent Study (1-3)

REQUIRED SUPPORTING AND OTHER GE COURSES (63 UNITS)
University Electives (9 units)
American Institutions Requirement (6 units)
General Education (48 units)

REQUIREMENTS FOR THE MINOR IN ART (24 UNITS)
The Art minor provides non-majors with the opportunity to explore artistic media, techniques and basic art concepts. Coursework includes aspects of art appreciation, aesthetics, art history and studio experience. Students seeking a minor in Art are required to complete a minimum of twenty-four units of Art courses.

LOWER DIVISION REQUIRED COURSES (12 UNITS)
ART  105  Drawing and Composition (3)
ART  106  Color and Design (3)
ART  108  Visual Technologies (3)

Select one additional course from the following:
ART  100  Understanding Fine Arts Processes (3)
ART  102  Multicultural Children's Art (3)
ART  107  Life Drawing (3)
ART  110  Prehistoric Art to the Middle Ages (3)
ART  111  Renaissance to Modern Art (3)
ART  112  Arts of the Eastern World (3)

STUDIO ART COURSES (6 UNITS)
Select a minimum of two courses from the following:
ART  201  Painting (3)
ART  202  Sculpture (3)
ART  203  Illustration (3)
ART  204  Graphic Design (3)
ART  205  Multimedia (3)
ART  206  Animation (3)
ART  207  Ceramics (3)
ART  310  Two-Dimensional Art: Painting Media and Techniques (3)
ART  311  Three-Dimensional Art: Sculpture Media and Techniques (3)
ART  312  Digital Media Art: Time-Based Imaging and Compositing (3)
ART  313  Communication Design Technology: Graphic Design for Print Media (3)
ART  314  Digital Media Art: Digital Photography (3)
ART  315  Animation Media and Techniques (3)

ART HISTORY & INTERDISCIPLINARY ART COURSES (6 UNITS)
Select a minimum of two courses from the following:
ART  330  Critical Thinking in a Visual World (3)
ART  331  Art and Mass Media (3)
ART  332  Multicultural Art Movements (3)
ART  333  History of Southern California Chicana/o Art (3)
ART  334  The Business of Art (3)
ART  337  Art as Film and Film as Art (3)
ART  338  Psychology of Art and Artists (3)
ART  351  The Baroque Eye: Art, Culture, Money, Power (3)
ART  352  Visual Canons of the Ancient World (3)
ART  353  The Medieval World: Spirituality and Representation (3)
ART  431  European Renaissance Literature and Art (3)
ART  433  Women in the Arts (3)
ART  434  The Museum: Culture, Business, Education (3)
ART  435  Postmodern Visual Culture (3)
ART  436  Modern Art (3)
ART  451  Diversity in the Visual Arts (3)

REQUIREMENTS FOR CERTIFICATE IN DIGITAL MEDIA ART (18 UNITS)
The certificate program in Digital Media Art is designed to prepare individuals for an entry-level career working in the expanding field of Digital Media Art. Courses specifically focusing on multimedia, digital design for print media, Web design, digital photography, motion graphics, and visual effects for film/video and computer animation lead to an in-depth understanding and technical proficiency working in computer-based media.

Required Courses
ART  108  Visual Technologies (3)
ART  204  Graphic Design (3)
ART  205  Multimedia (3)
ART  312  Digital Media Art: Time-Based Imaging and Compositing (3)
ART  324  Communication Design Technology: Web Design (3)

Select one additional course from the following:
ART  314  Digital Media Art: Digital Photography (3)
ART  325  Digital Media Art: Digital Filmmaking (3)
ART  326  Digital Media Art: 3D Computer Animation (3)
ART  327  Communication Design Technology: Multimedia Theory and Process (3)
ASIAN-PACIFIC STUDIES

PROGRAM OFFERED
• Minor in Asian-Pacific Studies

The minor in Asian-Pacific Studies gives students exposure to the cultures, histories, literatures, philosophies, politics and psychologies related to the study of the Asian-Pacific region. The minor in Asian-Pacific Studies is appropriate for students interested in understanding the diverse perspectives and influences, traditional and modern, emanating from this part of the world.

FACULTY COORDINATOR
Kevin Volkan, Ed.D., Ph.D., MPH, Professor of Psychology
Sage Hall, Room 206
(805) 437-8667
kevin.volkan@csuci.edu

REQUIREMENTS FOR THE MINOR IN ASIAN-PACIFIC STUDIES (18 UNITS)

LOWER-DIVISION REQUIREMENTS (0 UNITS)
None.

UPPER-DIVISION REQUIREMENTS (18 UNITS)
Eighteen units from the following list (also includes Lower Division courses):
ART 112  Arts of the Eastern World (3)
ENGL 452  Asian/Asian American Literature (3)
HIST 380  History of the Pacific Islands (3)
HIST 391  Traditional China (3)
HIST 392  Modern China (3)
HIST 393  Contemporary China (3)
HIST 394  Traditional Japan (3)
HIST 395  Modern Japan (3)
HIST 396  East Asia: Then and Now (3)
PHED 102  Traditional Asian Martial Arts: Tai Ji (repeatable) (1)
PSY 344  Psychology and Traditional Asian Thought (3)
PSY/436  Psychology and History of Asian Warrior Cultures (3)

(Other courses may be used to satisfy the requirements on approval of the Faculty Coordinator.)

BIOLOGY

PROGRAM OFFERED
• Bachelor of Science in Biology
• Bachelor of Science in Biology with an Emphasis in Cell and Molecular Biology
• Bachelor of Science in Biology with an Emphasis in Medical Imaging
• Bachelor of Science in Biology with an Emphasis in General Biology
• Bachelor of Science in Biology with an Emphasis in Pre-Professional Studies
• Bachelor of Arts in Biology with an Emphasis in Subject Matter Preparation in Teaching Biology
• Master of Science in Biotechnology and Bioinformatics
• Minor in Biology
• Certificate in Biotechnology
• Honors in Biology

PROGRAM DESCRIPTION
Biology is the study of life, its origins, diversity and intricacies. It emphasizes the relationship between structure and function in living systems and the processes, by which organisms grow, reproduce and interact with each other and their environment. The discipline is dynamic and rapidly advancing, particularly in the areas of biotechnology and information technology. The Biology Program provides its undergraduate and graduate students with a strong theoretical foundation in biology, combined with extensive hands-on laboratory experiences using state-of-the-art technology. Students take a series of core courses augmented by electives selected from areas of special interest.

CAREERS
The Bachelor of Science in Biology and the Bachelor of Science in Biology with an Emphasis in Cell and Molecular Biology are designed for students who wish to enter medical, dental or other health professional or graduate schools, or to seek careers in business, industry or government.

The Bachelor of Science in Biology with an Emphasis in Cell and Molecular Biology offers students an opportunity to study the exciting developments in genetics, molecular biology, cloning, biotechnology and bioinformatics. Such programs lead to careers in biotechnology, pharmaceuticals, research and development, intellectual property and patent law.

The Bachelor of Science in Biology with an Emphasis in Medical Imaging prepares students for graduate or professional study in the medical sciences (medical imaging, medical physics, health physics, dosimetry, nuclear medicine, radiotherapy, oncology, biomedical engineering), or for entry into professional positions in the clinical environment and in medical imaging research and development.
The Bachelor of Arts degree is designed to obtain a general background in both the concepts and the technical skills of modern biology. Students completing the Bachelor of Arts major will find that their strong general background will allow them flexibility in both completing minor fields of study and career choices. The degree prepares graduates for careers in medical and other health professions, science education, industry or government.

Biology as a discipline has been rapidly advancing in the last decade. With the information derived from the sequencing of the genomes of many organisms, it will have far-reaching impacts on the environment, public health, and on local, regional, and global economies. The Biology Minor allows students in majors other than biology to gain an understanding of these exciting developments. It will provide a solid background in biology and the opportunity to explore selected area(s) at a greater depth. Equipped with a minor in biology, students with a major in other disciplines will have a greater understanding and knowledge of the latest advances in many areas of biology and will therefore be more versatile in their career paths. The requirement for a Minor in Biology is 21 units.

The Certificate in Biotechnology will provide students with advanced knowledge and skills in modern biotechnology that will lead to careers in biotech as well as pharmaceutical industries.

PROGRAM LEARNING OUTCOMES
Students graduating from the Biology program will be able to:
• explain the basic structures and fundamental processes of life at molecular, cellular and organismal levels;
• identify the evolutionary processes that lead to adaptation and biological diversity;
• describe the relationship between life forms and their environment and ecosystems;
• collect, organize, analyze, interpret and present quantitative and qualitative data and incorporate them into the broader context of biological knowledge;
• effectively apply current technology and scientific methodologies for problem solving;
• find, select and evaluate various types of scientific information including primary research articles, mass media sources and world-wide web information; and
• communicate effectively in written and oral forms.

REQUIREMENTS FOR HONORS IN BIOLOGY
Candidacy for honors in biology is voluntary. To be eligible, a student must fulfill the following requirements:
1. Achieve a minimum grade point average of 3.5 for all courses satisfying the requirements for the major as defined above;
2. Take at least seven courses in the major at this university;
3. Satisfactorily complete a Service Learning course from BIOL 492, 494 or 497;
4. Satisfactorily complete a Senior Capstone course.

Application for candidacy must be made at the beginning of the senior year. Approval of candidacy and of the Service Learning project and project advisor rests with the Biology Program. The project advisor will have the sole responsibility for acceptance of the completed project.

The Biology Program may grant honors to exceptional students who have not met the above requirements, but who have in the judgment of the Program brought distinction upon themselves and the Program in some other significant and appropriate manner.

   BIOL 497 Directed Study (1-3)

   Required Supporting and Other GE Courses (53-54 Units)

2. Mathematics and Statistics (3-4 units)
   Select one of the following:
   BIOL 203* Quantitative Methods for Biology, GE-B3 (3)
   MATH 105 Pre-Calculus (4)
   MATH 150* Calculus I, GE-B3 (4)

3. Other Required GE Courses in Categories A-E (36)
   Category A (9)
   Category C (12)
   Category D (12)
   Category E (3)

4. American Institutions Requirements (6)

Electives in Any Discipline (21-22 units)

FOR EMPHASIS IN PRE-PROFESSIONAL STUDIES

Upper Division Requirements in the Major (32 Units)

1. Required Biology Courses (21-22 units)
   BIOL 300 Cell Biology (4)
   BIOL 302 Genetics (4)
   BIOL 304 Comparative Animal Physiology (3)
   BIOL 400 Molecular Biology (4)
   AND Select one of the following:
   BIOL 303 Evolutionary Biology (3)
   BIOL 433* Ecology and the Environment, GE-B2, UDID (4)
   BIOL 499 Senior Capstone (3)

2. Electives in Biology (10-11 units)
   Select at least three courses from the following list, one of which must be a lab course.
   BIOL 301 Microbiology (4)
   BIOL 310 Animal Biology and Ecology (4)
   BIOL 311 Plant Biology and Ecology (4)

**Required Supporting and Other GE Courses (69-70 Units)**

1. Chemistry (16 units)
   - CHEM 121* General Chemistry I, GE-B1 (4)
   - CHEM 122 General Chemistry II (4)
   - CHEM 311 Organic Chemistry I (3)
   - CHEM 312 Organic Chemistry I Laboratory (1)
   - CHEM 314 Organic Chemistry II (3)
   - CHEM 315 Organic Chemistry II Laboratory (1)

2. Mathematics and Statistics (3-4 units)
   - BIOL 203* Quantitative Methods for Biology, GE-B3 (3)
   - MATH 150* Calculus I, GE-B3 (4)

   (Check with professional schools or pre-professional advisor for specific requirements in this category.)

3. Physics (8 units)
   - PHYS 100 Introduction to Physics I (4)
   - PHYS 101 Introduction to Physics II (4)

4. Other Required GE Courses in Categories A-E (36)
   - Category A (9)
   - Category C (12)
   - Category D (12)
   - Category E (3)

5. American Institutions Requirements (6)

**Electives in Any Discipline (10-11 Units)**

FOR EMPHASIS IN SUBJECT MATTER PREPARATION IN TEACHING BIOLOGY

**Upper Division Requirements in the Major (36 Units)**

1. Required Biology Courses (24 units)
   - BIOL 300 Cell Biology (4)
   - BIOL 302 Genetics (4)
   - BIOL 303 Evolutionary Biology (3)
   - BIOL 304 Comparative Animal Physiology (3)
   - BIOL 335* The Biosphere, GE-B2, UDID (3)
   - BIOL 433* Ecology and the Environment, GE-B2, UDID (4)
   - BIOL 499 Senior Capstone (3)

2. Electives in Biology (12 units)
   - Select at least three courses from the following list, one of which must be a lab course.
     - BIOL 301 Microbiology (4)
     - BIOL 310 Animal Biology and Ecology (4)
     - BIOL 311 Plant Biology and Ecology (4)
     - BIOL 312 Marine Biology (4)
     - BIOL 313 Conservation Biology (4)
     - BIOL 316 Invertebrate Zoology (4)
     - BIOL 317 Parasitology (4)
     - BIOL 400 Molecular Biology (4)
     - BIOL 401 Biotechnology and Recombinant DNA Techniques (5)
     - BIOL 402 Toxicology (3)
     - BIOL 420 Cellular and Molecular Immunology (4)
     - BIOL 421 Virology (3)
     - BIOL 422 Molecular Plant Physiology (4)
     - BIOL 423 Cellular and Molecular Neurobiology (3)
     - BIOL 424 Human Physiology (3)
     - BIOL 425 Human Genetics (3)
     - BIOL 427 Developmental Biology (4)
     - BIOL 428 Biology of Cancer (3)
     - BIOL 431* Bioinformatics, GE-B2, B4, UDID (4)
     - BIOL 432* Principles of Epidemiology and Environmental Health, GE-B2, D, UDID (3)
     - BIOL 450 Ichthyology: The Biology of Fishes (4)

   (No more than 2 units taken from the following:)
   - BIOL 492 Internship (2-3)
   - BIOL 494 Independent Research (1-3)
   - BIOL 497 Directed Study (1-3)
Required Supporting and Other GE Courses (76 units)

1. Required Education Course (3 units)
   EDUC 330* Introduction to Secondary Schooling, GE-D, UDID (3)

2. Mathematics and Statistics (7 units)
   BIOL 203* Quantitative Methods for Biology, GE-B3 (3)
   and
   MATH 105 Pre-Calculus (4)
   or
   MATH 150* Calculus I, GE-B3 (4)

3. Physical Sciences (24 units)
   CHEM 121* General Chemistry I, GE-B1 (4)
   CHEM 122 General Chemistry II (4)
   GEOL 121 Physical Geology (4)
   PHYS 100 Introduction to Physics I (4)
   PHYS 101 Introduction to Physics II (4)
   PHYS 105 Introduction to the Solar System (4)

4. Other Required GE Courses in Categories A-E (36)
   Category A (9)
   Category C (12)
   Category D (12)
   Category E (3)

5. American Institutions Requirements (6)

(Courses with * are double-counted toward GE credits.)

REQUIREMENTS FOR THE MASTER OF SCIENCE DEGREE IN BIOTECHNOLOGY & BIOINFORMATICS (33-34 UNITS)

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

PROGRAM DESCRIPTION
The Master of Science in Biotechnology and Bioinformatics is a professional degree program designed to meet the needs of biotechnology industry and related public and private agencies and organizations. The program combines rigorous scientific training in interdisciplinary areas in biotechnology and bioinformatics with course work and experience in business management and regulatory affairs. The program includes a set of core courses with two emphases to choose from: biotechnology and bioinformatics.

Biotechnology is centered in the laboratory and employs sophisticated molecular biology techniques for applications in human and animal health, agriculture, environment, and specialty biochemical manufacturing. In the next century, the major driving force for biotechnology will be the strategic use of the data derived from large-scale genome sequencing projects. Bioinformatics turns raw data from genome sequencing and new experimental methodologies such as microarrays and proteomics into useful and accessible information about gene function, protein structure, molecular evolution, drug targets and disease mechanisms using computational analyses, statistics, and pattern recognition. Our approach also includes team projects drawn from biotechnology industries to focus on real-world problems and applications of biological and computational sciences and to inculcate interpersonal as well as problem-solving skills using multiple perspectives.

Graduates from this program will develop analytical, managerial and interpersonal skills along with sophisticated expertise in biotechnology and bioinformatics. They will be ready to make immediate contributions to scientific research and development, management in biotechnological, biomedical and pharmaceutical industries, biotechnology law and regulations, governmental or environmental agencies, research institutes, consulting firms, research and clinical laboratories, private and public health organizations, or education.

ADMISSION REQUIREMENTS
1. Applicants must have a BS/BA degree in Biology, Computer Science, Chemistry, Biochemistry, or Mathematics. Alternatively, applicants with a BA/BS degree in any field and equivalent work experiences in one of the above fields may be granted conditional admission, and they must fulfill all conditional requirements before they can be fully classified.
2. Applicants seeking admission to the professional MS in Biotechnology and Bioinformatics program must be officially accepted into the CSUCI academic program.
3. Applicants must declare themselves as graduate students in the professional MS degree program in Biotechnology and Bioinformatics.
4. Applicants will be evaluated by the program admissions committee which will consider the applicants in the context of the total applicant pool using our general admission standards. The following materials are required for our evaluation and admission process:
   • Applicants must submit to the program their transcript from their undergraduate institution, Graduate Record Examinations (GRE) General Test scores or the Medical College Admission Test (MCAT) scores.
   • Applicants who have received their undergraduate degrees from a university where English is not the language of instruction, or have studied fewer than two years at a university where instruction is in English, must submit to the program their Test of English as a Foreign Language (TOEFL) scores for evaluation.
   • A one page “Statement of Purpose” from the applicant and two letters of recommendations from people who are able to judge the applicant’s capacity for both academic and professional success should be submitted to the program for evaluation.
DEGREE REQUIREMENTS

Common Core Courses (16 units)
BINF  500  DNA & Protein Sequence Analysis (3)
BIOL  502  Techniques in Genomics & Proteomics (2)
BIOL  503  Biotechnology Law and Regulation (3)
MGT  471  Project Management (3)
BIOL  600  Team Project (4)
BIOL  601  Seminar Series in Biotechnology and Bioinformatics (1)

FOR BIOENGINEERING (17 UNITS)

Required Courses (7 units)
BIOL  504  Molecular Cell Biology (3)
BIOL  505  Molecular Structure (4)

Electives (10 units)
A minimum of 10 units chosen from the following courses and/or from the elective courses under the Bioinformatics Emphasis:
BIOL  506  Molecular Evolution (4)
BIOL  507  Pharmacogenomics and Pharmacoproteomics (3)
BIOL  508  Advanced Immunology (4)
BIOL  509  Plant Biotechnology (4)
MGT  421  Human Resource Management (3)

FOR BIOINFORMATICS EMPHASIS (18 UNITS)

Required Courses (12 units)
BINF  501  Biological Informatics (3)
BINF  510  Database Systems for Bioinformatics (3)
BINF  511  Computational Genomics (3)
BINF  513  Programming for Bioinformatics (3)

Electives (6 units)
A minimum of two courses chosen from the following courses and/or from the elective courses under the Biotechnology Emphasis, with at least one course in the BINF category:
BINF  512  Algorithms for Bioinformatics (3)
BINF  514  Statistical Methods in Computational Biology (3)
PHYS  445  Image Analysis & Pattern Recognition (3)
MGT  421  Human Resource Management (3)

PROPOSED COURSE OF STUDY

For Biotechnology Emphasis

FIRST YEAR (13 UNITS)
First Semester
MGT  471  Project Management (3)
BIOL  504  Molecular Cell Biology (3)

Second Semester
BINF  500  DNA and Protein Sequence Analysis (3)
BIOL  503  Biotechnology Law and Regulation (3)
BIOL  601  Seminar Series in Biotechnology and Bioinformatics (1)

SECOND YEAR (20 UNITS)
First Semester
BIOL  502  Techniques in Genomics and Proteomics (2)
BIOL  505  Molecular Structure (4)
Electives (3)

Second Semester
BIOL  600  Team Project (4)
Electives (7)

For Bioinformatics Emphasis

FIRST YEAR (13 UNITS)
First Semester
MGT  471  Project Management (3)
BINF  501  Biological Informatics (3)

Second Semester
BINF  500  DNA and Protein Sequence Analysis (3)
BIOL  503  Biotechnology Law and Regulation (3)
BIOL  601  Seminar Series in Biotechnology and Bioinformatics (1)

SECOND YEAR (21 UNITS)
First Semester
BIOL  502  Techniques in Genomics and Proteomics (2)
BINF  510  Database Systems for Bioinformatics (3)
BINF  511  Computational Genomics (3)

Second Semester
BINF  513  Programming for Bioinformatics (3)
BIOL  600  Team Project (4)
Electives (6)

REQUIREMENTS FOR THE MINOR IN BIOLOGY (21 UNITS)

LOWER DIVISION REQUIREMENTS (8 UNITS)
BIOL  200*  Principles of Organismal and Population Biology, GE-B2 (4)
BIOL  201  Principles of Cell and Molecular Biology (4)

UPPER DIVISION REQUIREMENTS (13 UNITS)
1. Biology (8 units)
   BIOL  300  Cell Biology (4)
   BIOL  302  Genetics (4)
2. Biology Electives (5 units)
   A minimum of 5 units of 300-400 level biology courses, with no more than one course selected from BIOL 331-342.
REQUIREMENTS FOR THE CERTIFICATE IN BIOTECHNOLOGY (23-24 UNITS)

(For students with a B.S. degree in biology pursuing a certificate in biotechnology)

1. B.S. degree in biology (may be concurrent);

2. Completion of the following courses with C or better grades:
   - CHEM 318 or 460 Biological Chemistry or Biochemistry I (3-4)
   - BIOL 401 Biotechnology and Recombinant DNA Techniques (5)
   - BIOL 420 Cellular and Molecular Immunology (4)
   - BIOL 431 Bioinformatics (4)

3. Complete another 4 units of upper-division biology course in consultation with the program;

4. Complete an internship course;

5. Complete the capstone course;

6. Approval by the Biology program.

MARTIN V. SMITH
SCHOOL OF BUSINESS AND ECONOMICS

PROGRAMS OFFERED

- Bachelor of Arts in Economics
- Bachelor of Science in Business Emphasis in Entrepreneurship Emphasis in Global Business Emphasis in Marketing
- Minor in Business Management
- Minor in Economics
- Certificate in Business Administration
- Master of Business Administration (MBA)

The Business and Economics Program has a liberal arts and interdisciplinary focus. It is built on the three Cs: critical thinking, cooperation (working with others), and communication (oral and written English). Students learn the fundamental principles of accounting, economics, finance, information systems, management, and marketing as applied in a variety of organizational settings. A distinguishing aspect of the Business and Economics Program is the requirement to take courses developed in conjunction with disciplines outside the traditional business curriculum. Examples include courses with Biology, Chemistry, Education, English, Fine Arts, and History.

In addition, a Capstone Course provides students with the opportunity to integrate their knowledge through a Global Strategy Simulation exercise. To foster an integrative and cross disciplinary experience in a relevant business area, students are required to select one of three emphases: Entrepreneurship, Global Business or Marketing. All emphases draw on upper-division courses from accounting, economics, management and marketing to offer an in-depth perspective into three critical areas of business. We anticipate enhancing the curriculum with additional emphasis choices as the program grows.

The Bachelor of Arts in Economics focuses on the integration of core economic analysis with relevant interdisciplinary applications. The degree develops analytical tools and communication skills in the context of economic theory and its linkages to a broad array of human decisions. Economics, as a social science, seeks to explain and predict the behavior of consumers, producers, managers, government officials and citizens by examining the interactions of incentives and constraints in an environment of ever-present scarcity of time, skills and resources. Microeconomics focuses on the choices of individuals and firms, as well as their role in the marketplace, while macroeconomics aggregates economic activity to the national level to analyze trends and fluctuations in overall economic activity. The Bachelor of Arts in Economics program offers
flexibility and opportunity through its emphases: general, environmental resource, international, managerial or quantitative economics. These emphases allow students to pursue specific interests and maximize connections to disciplines related to economics.

**CAREERS**
The Business and Economics Program prepares students to work in a variety of organizations - both public and private. The Bachelor of Science degree prepares students for several types of graduate and professional school studies: MBA, MPA, law school.

The Bachelor of Arts degree also prepares students for careers in both the public and private sectors. It can also prepare students for graduate study in such fields as economics, business, resource management, public administration, law, and international affairs.

**PROGRAM LEARNING OUTCOMES FOR BUSINESS AND ECONOMICS**
- Prepare students for employment in a variety of public and private organizations.
- Prepare students for further study in graduate or professional schools.
- Demonstrate critical thinking skills by identifying, evaluating, synthesizing, and presenting issues related to accounting, economics, finance, information systems, management and marketing.
- Demonstrate communication skills by writing excellent reports and papers and making effective oral presentations in English.
- Demonstrate cooperation skills by working effectively with others in group settings - both inside and outside the classroom.

**LOWER DIVISION REQUIREMENTS (9-10 UNITS)**

- ECON 110 Principles of Microeconomics (3)
- ECON 111 Principles of Macroeconomics (3)
- MATH 140 Calculus for Business Applications (3)
  or
- MATH 150 Calculus I (4)

**UPPER DIVISION REQUIREMENTS (15-16 UNITS)**

- ECON 310 Intermediate Microeconomics (3)
- ECON 311 Intermediate Macroeconomics (3)
- MATH 329 Statistics for Business and Economics (3)
  or
- MATH 352 Probability and Statistics (3)
- ECON 488 Applied Managerial Econometrics (4)
- ECON 499 Capstone (3)

*Note: Students selecting the Quantitative Economics emphasis must take MATH 352 Probability and Statistics (3) instead of MATH 329.*
REQUIRED EMPHASIS (15-20 UNITS)
Economics majors are required to complete one of the following five emphases:

1. GENERAL ECONOMICS EMPHASIS
(15 units: 3 lower division and 12 upper division)

Lower Division
ACCT 210 Financial Accounting (3)

Upper Division
A minimum of 4 upper division courses in economics (or approved courses outside of economics) as follows:

At least two courses must be taken from cross-disciplinary courses offered by economics (ECON 330-349 and 430-449).

A minimum of three economics courses at the 400 level are required.

ECON 300, 492, and 497 may not be taken to meet the requirements of the economics major.

2. ENVIRONMENTAL RESOURCE ECONOMICS EMPHASIS
(15 units: 3 lower division and 12 upper division)

Lower Division
ESRM 100 Introduction to Environmental Science and Resource Management (3)

Upper Division
ECON 464 Natural Resource Economics (3)
ECON 400+ Elective Course (3)
ECON 362 Environmental Economics (3)

Choose one of the following:
ESRM 410 Environmental Impact Assessment (3)
ESRM 462 Coastal and Marine Management (3)
ESRM 463 Water Resources Management (3)
ESRM 464 Land Use Planning and Agricultural Management (3)
ESRM 482 Issues in Environmental Planning and Resource Management (3)
ESRM 483 Issues in Global Resource Management (3)

Econ 300, 492, and 497 may not be taken to meet the requirements of the economics major.

3. INTERNATIONAL ECONOMICS EMPHASIS
(20 units: 8 lower division and 12 upper division units)

Lower Division
A minimum of 2 courses in the same foreign language or equivalent [for example, SPAN 101 (4) and 102 (4)].

Note: This requirement represents one additional course beyond the CSUCI foreign language requirement.

Upper Division
A minimum of 4 upper division courses in economics (or approved courses outside of economics) as follows:

Choose two of the following:
ECON 470 The World Economy (3)
ECON 472 International Macroeconomics (3)
ESRM 483 Issues in Global Resource Management (3)
POLS 328 United States Foreign Policy (3)

At least one course must be taken from cross-disciplinary courses offered by economics (ECON 330-349 and 430-449).

A minimum of two economics courses at the 400 level are required.

ECON 300, 492, and 497 may not be taken to meet the requirements of the economics major.

4. MANAGERIAL ECONOMICS EMPHASIS
(15 units: 3 lower division and 12 upper division)

Lower Division
ACCT 210 Financial Accounting (3)

Upper Division
A minimum of 4 upper division courses in economics (or approved courses outside of economics) as follows:

Choose one of the following:
ECON 320 Business Finance (3)
ECON 329 Managerial Economics (3)
ECON 471 International Trade (3)

At least one course must be taken from cross-disciplinary courses offered by economics (ECON 330-349 and 430-449).

A minimum of two economics courses at the 400 level are required.

ECON 300, 492, and 497 may not be taken to meet the requirements of the economics major.

Note: Students selecting this emphasis must take either ECON 320 or 329, but may not take both courses for credit in the major.
5. QUANTITATIVE ECONOMICS EMPHASIS  
(19 units: 10 lower division and 9 upper division)

**Lower Division**
- MATH 151 Calculus II (4)
- MATH 250 Calculus III (3)
- MATH 240 Linear Algebra (3)

**Upper Division**
A minimum of 3 upper division courses in economics (or approved courses outside of economics) as follows:

At least one courses must be taken from cross-disciplinary courses offered by economics (ECON 330-349 and 430-449).

- MATH 429 Operations Research (3) may be taken to meet this requirement.

A minimum of two economics courses at the 400 level are required.

Econ 300, 492, and 497 may not be taken to meet the requirements of the economics major.

Note: To meet the calculus and statistics requirement, students selecting this emphasis must take MATH 150 and MATH 352.

**REQUIRED SUPPORTING AND OTHER GE COURSES (75-81 units)**
- General Education (48)
- American Institutions (6)
- Free Electives (21-27)
2. GLOBAL BUSINESS EMPHASIS
ACCT  410  International Accounting (3)
MGT  310  Management of International Business (3)
MKT  410  International Marketing Management (3)

Select two from the following:
ECON  370  The World Economy (3)
ECON  471  International Trade (3)
ECON  472  International Macroeconomics (3)
Electives (3)

3. MARKETING EMPHASIS
MKT  311  Consumer Behavior (3)
MKT  409  Marketing Research (3)
MKT  410  International Marketing and Management (3)
MKT  411  New Product Development and Management (3)
Electives (3)

REQUIRED SUPPORTING AND OTHER GE COURSES (48 UNITS)
Upper Division Interdisciplinary course outside Business Major (3)
American Institutions (6)
Other GE Courses in Categories A-E (39)

REQUIREMENTS FOR THE MINOR IN BUSINESS MANAGEMENT (21 UNITS)
The minor in Business Management offers students a foundation in principles related to managing people. The minor stresses critical thinking and the application of management concepts in a variety of organizational environments. The minor provides non-business majors with a basic understanding of management issues.

LOWER DIVISION REQUIREMENTS (9 UNITS)
ACCT  210  Financial Accounting (3)
BUS  110  Business Law (3)
ECON  110  Principles of Microeconomics (3) or ECON  300  Fundamentals of Economics (3)
ECON  111  Principles of Macroeconomics (3) or
UPPER DIVISION REQUIREMENTS (12 UNITS)
Choose from the following:
BUS  320  Business Operations (3)
BUS  420  Cases in Strategy (3)
BUS  424  Business, Government and Society (3)
MATH  329  Statistics for Business & Economics (3)
MGT  307  Management of Organizations (3)
MGT  310  Management of International Business (3)
MGT  325  Entrepreneurial Management (3)
MGT  326  Scientific and Professional Ethics (3)
MGT  421  Human Resource Management (3)
MKT  310  Principles of Marketing (3)
MKT  311  Consumer Behavior (3)

REQUIREMENTS FOR THE MINOR IN ECONOMICS (21-22 UNITS)
The economics minor familiarizes students with the tools of economics analysis, and applies these tools to economic decisions made by individuals in their personal and professional lives, and to the workings of national economies and the world economy.

CAREERS
The economics minor is suitable for students desiring careers in all fields of business, education, journalism, law and government.

LOWER DIVISION REQUIREMENTS (6-10 UNITS)
ECON  110  Principles of Microeconomics (3)
ECON  111  Principles of Macroeconomics (3) or
ECON  300  Fundamentals of Economics (3)
Note: If ECON 300 is taken in place of ECON 110 and 111, an additional 3 unit course must be taken from upper division electives.
MATH  140  Calculus for Business Applications (3) or
MATH  150  Calculus I (4)

UPPER DIVISION REQUIREMENTS (6 UNITS)
ECON  310  Intermediate Microeconomics (3) or
ECON  329  Managerial Economics (3)
ECON  311  Intermediate Macroeconomics (3) or
ECON  320  Money and Banking (3)

ELECTIVES (6-9 UNITS)
Additional upper divisions course in economics. (Minimum total of 21 units)

FOR BUSINESS MAJORS ONLY
Courses used to fulfill Upper Division Interdisciplinary and Emphasis requirements may not be used (double counted) for ECON minor electives.

POST-BACCALAUREATE CERTIFICATE IN BUSINESS ADMINISTRATION
The Certificate in Business Administration provides basic business skills to post baccalaureate and graduate students. The certificate program is suitable for: (i) Business professionals who wish to update their knowledge, skills, and abilities; (ii) Managers in science, technology, or engineering who seek a business orientation; (iii) Individuals making a transition into a managerial position; (iv) Individuals returning to the workforce, or considering a career change; (v) Those without an undergraduate degree in business who are considering an MBA. The program provides the essentials of business administration to students with limited or no formal business education. The coursework completed under this Certificate fulfills the prerequisite
course requirements for the MBA Program. Courses offered under the Certificate may be delivered partially via distance education and consist of four 3-unit courses and one 4-unit course for a total of 16 units.

**PREREQUISITE**
A Bachelor’s degree in any field OR consent of advisor.

**REQUIREMENTS FOR CERTIFICATE (16 UNITS)**

**MASTER OF BUSINESS ADMINISTRATION (MBA)**

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

CSUCI’s MBA Program is designed to develop business leaders capable of working in an increasingly multicultural and global environment. Key elements include:

- Learning Community/Cohort Experience
- Evening Classes
- Online Foundations of Business courses
- Focus on International Business and Entrepreneurial Innovation
- Study Abroad Option
- Real-World Orientation

**THE MBA CURRICULUM**

The curriculum is comprised of three parts: Foundations of Business (0-16 semester units), Required Core (24 semester units), and Electives (9 semester units) for a total of 33-49 semester units.

**FOUNDATIONS OF BUSINESS**

The Foundations of Business courses provide the theoretical concepts and quantitative tools that form the basis for making business decisions. These courses are designed to provide students with a general understanding of accounting, economics, finance, ethics and law, statistics, management, and marketing. Some or all of these courses may be waived depending upon the applicant’s undergraduate degree and coursework. Students with a bachelor’s degree in business from CSUCI or from other accredited institutions within the last 10 years will have met the Foundations of Business requirements. Individual business courses taken as an undergraduate student at CSUCI or another institution may also meet specific Foundations requirements. Upon acceptance to the program, a student’s transcripts will be reviewed for completion of the necessary coursework for mastery of the Foundations of Business. A grade of “C” or better is required to meet the criteria.

**REQUIRED CORE**

The core MBA courses are presented in a cross-functional, integrative manner that provides a comprehensive view of the structure of business operations. Students learn to analyze business from a variety of perspectives. The seven core courses provide the skills and competencies students will need to be effective business leaders in the 21st century. A distinguishing aspect of the MBA Program is its focus on entrepreneurship and global business awareness. The Capstone Course (BUS 570) provides students with the opportunity to integrate their knowledge through an International Business Simulation exercise.

**ELECTIVES**

With advisor approval, students will choose 9 additional units of upper-division or graduate level courses.

**Electives**

With advisor approval, 9 units of upper-division or graduate-level courses.
CHEMISTRY

PROGRAMS OFFERED
• Bachelor of Arts in Chemistry
• Bachelor of Science in Chemistry
• Bachelor of Science in Chemistry, Option in Biochemistry
• Minor in Chemistry
• Certificate in Chemistry

The Chemistry Program at CSUCI is based on a “Big Ideas” approach to the discipline. Students will learn how to apply the “Big Ideas” skills to their analysis of concepts and problems. In addition to implementing the “Big Ideas” across the curriculum, students learn how to improve their analytical thinking, oral and written communication, and problem solving skills as individuals and in teams. The culmination of the degree involves a Chemistry Colloquium in conjunction with a service learning project, internship, or independent research experience. Writing skills are developed in all upper-division Chemistry courses.

CAREERS
Graduates from the Bachelor of Arts or Bachelor of Science in Chemistry will receive an excellent preparation for securing entrance to a professional program (i.e., medical, veterinary, dentistry, or pharmacy), to graduate school in Chemistry or Biochemistry, and for employment in the academic, private, or public sector as chemists, biochemists, forensic scientists, and materials scientists.

The Bachelor of Arts in Chemistry is designed to provide a broad preparation in the Chemical Sciences. Required courses prepare students in four of the five traditional sub-disciplines of Chemistry: analytical, inorganic, organic, and physical chemistry. The Bachelor of Arts in Chemistry can also serve as the depth of study necessary for securing a Single Subject Credential in Science for teaching at the high school and middle school level. Additional courses in geology, astronomy, and biology are recommended to meet the breadth requirements for this credential.

The Bachelor of Science in Chemistry provides an excellent breadth and depth of preparation in Chemistry suitable for obtaining a position at a chemical or pharmaceutical industry, or for admission to graduate school in Chemistry or Biochemistry. Students may select either the general Bachelor of Science in Chemistry or the Biochemistry Option within the Bachelor of Science in Chemistry. The Biochemistry Option overlaps substantially with the requirements for the minor in Biology and students are encouraged to obtain the Biology minor in addition to the Bachelor of Science in Chemistry, Biochemistry Option.

The Minor in Chemistry provides non-majors with the Chemistry background that is needed to pursue graduate study or a career in an interdisciplinary field. Students in professional programs (medical, dental, veterinary, pharmacy), or majoring in Biology or Environmental Science and Resource Management, in particular, should consider obtaining a Chemistry minor, since a significant portion of the coursework needed for the Chemistry minor is included in these programs.

The Certificate in Chemistry is designed to provide individuals who have already obtained a Bachelor of Arts or Bachelor of Science degree in another discipline with the opportunity to obtain a certificate for advanced Chemistry coursework that is equivalent to a minor in Chemistry.

PROGRAM LEARNING OUTCOMES
Students graduating from the Chemistry program will be able to:
• explain the fundamental concepts of Chemistry;
• evaluate a microscopic and macroscopic (real-life) problem and appropriately apply the fundamental concepts of Chemistry to the problem;
• formulate hypotheses and devise and perform experiments to test a hypothesis as individuals and in a team;
• explain key concepts in chemistry effectively through oral and written communication; and
• interpret and evaluate the chemical literature.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN CHEMISTRY (120 UNITS)

LOWER DIVISION REQUIREMENTS (28 UNITS)
1. CHEMISTRY
   - CHEM 121 General Chemistry I (4)
   - CHEM 122 General Chemistry II (4)
   - CHEM 250 Quantitative Analysis (2)
   - CHEM 251 Quantitative Analysis Laboratory (2)

2. MATH
   - MATH 150 Calculus I (4)
   - MATH 151 Calculus II (4)

3. PHYSICS
   - PHYS 100 Introduction to Physics I or
   - PHYS 200 General Physics I (4)
   - PHYS 101 Introduction to Physics II or
   - PHYS 201 General Physics II (4)

UPPER DIVISION REQUIREMENTS (16 UNITS)
- CHEM 305 Computer Applications in Chemistry (1)
- CHEM 311 Organic Chemistry I (3)
- CHEM 312 Organic Chemistry I Laboratory (1)
- CHEM 314 Organic Chemistry II (3)
- CHEM 315 Organic Chemistry II Laboratory (1)
- CHEM 371 Physical Chemistry I (3)
- CHEM 372 Physical Chemistry Laboratory (1)
- CHEM 492 Internship/Service Learning or
- CHEM 494 Independent Research (2)
- CHEM 499 Chemistry Colloquium (1)

(9 units of the above courses will be counted toward lower-division general education categories B1, B3, and B4)

UPPER DIVISION CHEMISTRY ELECTIVES (11 UNITS)
A total of 11 units of electives, excluding courses numbered 330-349 or 430-449, and including a minimum of two laboratory courses. Two units of Chemistry Learning community courses (i.e., CHEM 313 and 316) may be used as electives toward the degree. No more than a combined total of 4 units of CHEM 492, 494, and 497 may be applied as electives.

- CHEM 301 Environmental Chemistry (3)
- CHEM 313 Organic Chemistry I Learning Community (1)
- CHEM 316 Organic Chemistry II Learning Community (1)
- CHEM 373 Physical Chemistry II (3)
- CHEM 410 Advanced Organic Synthesis (4)
- CHEM 415 Molecular Structure Determination (4)
- CHEM 450 Instrumental Analysis (4)
- CHEM 460 Biochemistry I (4)
- CHEM 461 Biochemistry II (4)
- CHEM 465 Bioinorganic Chemistry (4)
- CHEM 490 Special Topics in Chemistry (1-3)
- CHEM 492 Internship/Service Learning (1-3)
- CHEM 494 Independent Research (1-3)
- CHEM 497 Directed Studies (1-3)

CHICANO/A STUDIES

PROGRAM OFFERED
• Minor in Chicano/a Studies

The minor in Chicano/a studies affords students the opportunity to investigate the multi-dimensional culture of the Chicano/a community in the United States. It is, by definition, interdisciplinary and seeks to provide students with a nuanced appreciation of this population. The minor offers non-majors the opportunity to investigate the historical complexities of societies and social movements and their legacies in the present. Therefore the minor serves as a primer to the scholarly appreciation of the past.

FACULTY

REQUIREMENTS FOR THE MINOR IN CHICANO/A STUDIES (18-20 UNITS)

LOWER DIVISION REQUIREMENTS (6-8 UNITS)
SPAN 201 Intermediate Spanish I (4)
SPAN 202 Intermediate Spanish II (4)
or
SPAN 211 Spanish for Heritage Speakers I (4)
SPAN 212 Spanish for Heritage Speakers II (4)
or
Six upper division units in Spanish approved by minor advisor.

UPPER DIVISION REQUIREMENTS (12 UNITS)
Select four courses from the following:
EDUC 451 The Chicano/Mexicano Child & Adolescent (4)
ART/333 History of Southern California
HIST Chicano/a Art (3)
BUS/349 History of Business and Economics in North America (3)
HIST 350 Chicano/a History and Culture (3)
HIST 402 Southern California History and Culture (3)
HIST 421 Revolutionary Mexico, 1876-1930 (3)
or
Other upper division courses approved by the minor advisor.
COMPUTER SCIENCE

PROGRAMS OFFERED
• Bachelor of Science in Computer Science
• Minor in Computer Science
• Master of Science in Computer Science
• Bachelor of Science in Information Technology

The Computer Science degree offers the latest cutting edge education for various industrial and applied fields. Students will be given a strong background in computer hardware and software, as well as a substantial amount of “hands-on” experience. The program will stress interdisciplinary applications in other sciences and business and prepare students for graduate studies.

CAREERS
The program will prepare students for careers in high-tech, computer and Internet-driven industries, where interdisciplinary, dynamic and innovative professionals trained in the latest technologies are increasingly sought.

PROGRAM LEARNING OUTCOMES
Students graduating from the Computer Science program will be able to:
• demonstrate critical thinking and problem solving skills by identifying, evaluating, analyzing and presenting fundamental software solutions and their applications;
• demonstrate the knowledge of current computing practices and broad technology use in industry and society, including a working knowledge of software development techniques;
• be cognizant of emerging new technologies and industrial practices connected to the computer industry;
• demonstrate communication, research and cooperation skills by working effectively with others in interdisciplinary group settings - both inside and outside the classroom; and
• demonstrate a sense of exploration that enables them to pursue rewarding careers in high-tech and bio-tech industries with life-learning.

FACULTY
William J. Wolfe, Ph.D.

REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN COMPUTER SCIENCE (122 UNITS)

LOWER DIVISION REQUIREMENTS (42 UNITS)
COMP 150 Object-Oriented Programming, GE-B4 (4)
COMP 151 Data Structures and Program Design (4)
COMP 162 Computer Architecture and Assembly Language (3)
COMP 232 Programming Languages (3)
COMP 262 Computer Organization and Architecture (3)
MATH 150 Calculus I, GE-B3 (4)
MATH 151 Calculus II (4)
MATH 240 Linear Algebra (3)
MATH 230 Logic, GE-A3, B3 (3)
Science: A 2 semester science sequence and an additional science course (one lab section required) in Physics, Biology, or Chemistry (11-12, G.E. B1 and B2)

UPPER DIVISION REQUIREMENTS (40 UNITS)
COMP 350 Introduction to Software Engineering (3)
COMP 362 Operating Systems (3)
COMP 447 Societal Issues in Computing, GE-B4, D, UDID (3)
COMP 454 Automata, Languages and Computation (3)
COMP 499 Senior Colloquium (1)
MATH 300 Discrete Mathematics (3)
MATH 352 Probability and Statistics (3)
MATH 354 Analysis of Algorithms (3)
MATH 448 Scientific Computing, GE-B3, B4, UDID (3)
Choose 3 units from the following:
COMP 420 Database Theory and Design (3)
COMP 464 Computer Graphics I (3)
Choose 12 Elective units from:
COMP 337 Perspectives in Computer Gaming (3, GE B, UD)
COMP/ 345 Digital Image Processing (3)

PHYS
COMP 421 Unix for Compilers (3)
COMP 422 Design of Compilers (3)
COMP 424 Computer System Security (3)
COMP 425 Computer Game Programming (3)
COMP 429 Computer Networks (3)
COMP 437 Foundations of Computer Game Development (3, GE B, UD)
COMP/ 445 Image Analysis & Pattern Recognition, MATH/PHYS GE-B1, B4, UDID (3)
COMP/ 449 Human Computer Interaction, GE-B4, PSY E, UDID (3)
COMP/ 452 Computational Bioinformatics (4)
MATH
COMP 462 Advanced Object Oriented Programming (3)
COMP 464 Computer Graphics I (3)
COMP 466 Computer Graphics II (3)
COMP 469 Artificial Intelligence/Neural Nets (3)
COMP 490 Topics in Computer Science (3)
COMP 492 Internship (1-3)
COMP 494 Independent Research(1-3)
COMP 497 Directed Study (3)
COMP 499 Senior Colloquium (1)
ENGL 482 Technical Writing (3)
MATH 429 Operations Research (3)

PROPOSED COURSE OF STUDY

Freshman Year (31 units)
COMP 150 Object-Oriented Programming, GE-B4 (4)
COMP 151 Data Structures and Program Design (4)
COMP 162 Computer Architecture and Assembly Language (3)
ENGL 105 Composition and Rhetoric,* GE-A2 (3)
MATH 150 Calculus I, GE-B3 (4)
G.E. Section A or C (3)
MATH 151 Calculus II (4)
MATH 230 Logic and Mathematical Reasoning, GE-A3 (3)
G.E. Section A or C (3)
* Or ENGL 102 and 103 (6)

Sophomore Year (26-27 units)
COMP 232 Programming Languages (3)
COMP 262 Computer Organization & Architecture (3)
MATH 240 Linear Algebra (3)
MATH 300 Discrete Mathematics (3)
Select one interdisciplinary GE (3-4)

Recommend one of:
BIOL 431 Bioinformatics, GE-B2, B3, UDID (4)
MATH 331 History of Mathematics (3)
PHYS 434 Biomedical Imaging, GE-D, UDID (4)
Select one 2 semester science sequence and an additional science course (one lab section required) in Physics, Biology, or Chemistry, GE-B1 and B2 (11-12)

Junior Year (15 units + G.E)
COMP 350 Introduction to Software Engineering (3)
COMP 362 Operating Systems (3)
COMP 454 Automata, Languages, & Computation (3)
MATH 354 Analysis of Algorithms (3)

Senior Year (22 units + GE)
COMP 420 Database Theory and Design (3)
COMP 424 Computer System Security (3)
COMP 429 Computer Networks (3)
COMP 447 Societal Issues in Computing, GE-D (3)
COMP 464 Computer Graphics I (3)
COMP 469 Artificial Intelligence/Neural Nets (3)
COMP 499 Senior Colloquium (1)
MATH 448 Scientific Computing (3, Interdisciplinary)

General Education Courses Included in Major Requirements (18 units):
MATH 150 Calculus I, GE-B3 (4)
COMP 150 Object-Oriented Programming, GE-B4 (4)
MATH 230 Logic and Mathematical Reasoning, GE-A3 (3)
COMP 447 Societal Issues in Computing, GE-D (3)
Sciences, GE-B1, B2 (4)

REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN COMPUTER SCIENCE DEGREE (122 UNITS)

Lower Division Required Major Courses (42)
Upper Division Required Major Courses (28)
Upper Division Elective Major Courses (12)
Elective Courses (6)
General Education and American Institutions Requirement (34)
Note: General Education Included in Major Requirements (18)

REQUIREMENTS FOR THE MINOR IN COMPUTER SCIENCE (23 UNITS)
The Computer Science minor teaches the fundamentals of computer systems and programming. This minor includes the fundamentals of computer programming, including design, implementation, and testing of object-oriented programs. It also teaches the basic architecture of the computer hardware, including the fundamental components of a computer system and the logical reasoning that it is based upon. Since these computer skills are extremely useful in most other disciplines, enhancing the students knowledge of technology no matter which major they have chosen.

CAREERS
Computer Programmer; Computer Systems Analyst;
Any career that requires a basic knowledge of computer systems and programming.

LOWER DIVISION REQUIREMENTS
COMP 105 Computer Programming Introduction (3)
COMP 150 Object Oriented Programming (4)
COMP 151 Data Structures and Program Design (4)
COMP 162 Computer Architecture and Assembly (3)
MATH 230 Logic and Mathematical Reasoning (3)

UPPER DIVISION REQUIREMENTS
Two upper-division courses from the CS program approved by the advisor
MASTER OF SCIENCE IN COMPUTER SCIENCE

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

The MS in Computer Science degree at Channel Islands offers latest, cutting edge education in computer science. The program will prepare students for careers as computer professionals in high-tech industries, businesses, education systems, military and local and federal government, where interdisciplinary, dynamic and innovative professionals trained in latest computer technologies are increasingly sought. Students will be obtain a strong background in mathematics, computer hardware and software, as well as skills to conduct independent applied research or develop an industrial project. The program will stress interdisciplinary applications, especially the interaction between Mathematics and Computer Science.

http://www.cs.csuci.edu/MSCS/

CORE COURSES (11 UNITS)

COMP 510 Algorithms (3)
COMP 569 Artificial Intelligence (3)

Choose one course from:
MATH 510 Probabilistic Methods And Measure Theory (3)
MATH 511 Functional Analysis (3)
PHYS 510 Advanced Image Analysis Techniques (3)

Required: 2 units of:
COMP 599 Graduate Seminar (1)

ELECTIVES (15 UNITS)

Choose 5 Electives, at least 3 in Computer Science, from the following list:
COMP 520 Advanced Database Systems (3)
COMP 524 Security (3)
COMP 529 Network Computing (3)
COMP 549 Human-Computer Interaction (3)
COMP 550 Object-Oriented Software Engineering (3)
COMP 569 Artificial Intelligence (3)
COMP 571 Biologically Inspired Computing (3)
COMP 572 Neural Networks (3)
COMP 575 Multi-Agent Systems (3)
COMP 578 Data Mining (3)
COMP 581 Mathematical Methods in Artificial Intelligence (3)
MATH 511 Functional Analysis (3)
MATH 555 Actuarial Sciences (3)
MATH 565 Research in Mathematics Education (3)
MATH 582 Number Theory and Cryptography (3)
MATH 584 Algebraic Geometry and Coding Theory (3)
MATH 587 Markov Chains and Markov Processes (3)
MATH 588 Stochastic Analysis (3)
PHYS 546 Pattern Recognition (3)

PROJECT OR MASTER THESIS (6 UNITS)

COMP 597 Master Thesis (6)

TOTAL CREDITS: 32 UNITS

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

This BSIT program is specifically designed to provide an avenue of advancement for students with associate’s degrees in a technology discipline such as networking (e.g.: Moorpark College’s Associate in Science Degree in Computer Network Systems Engineering). This new program gives the student the opportunity to complete a Bachelor of Science degree in Information Technology. The course work will provide a foundation in mathematics, programming, networking, databases, web, computer architecture and information systems. The BSIT sits between a BS in Computer Science and a BS in Management Information Systems, emphasizing the fastest growing segments of the both: Web Systems, Databases, and Networks. For a foundation, the BSIT program draws from both camps: mathematics, science, and computer programming from Computer Science, and business organization and project management from Management Information Systems. From there it adds depth in Web Programming and Technology, Database Theory and Design, and Data Communications and Networking, while allowing for further depth in these or related areas such as e-Commerce, Computer Security, and Multimedia. Students entering this program are expected to have already attained an associates degree in a technology area (or the equivalent), with at least 30 units that are “GE certified” for the CSU system, including courses in: Statistics, First Course in a Laboratory science (Physics, Chemistry, or Biology), First course in a programming language (such as C, Java, or C++), Computer Architecture and Assembly Language.

CAREERS

PROGRAM LEARNING OUTCOMES AND CONTACT INFORMATION

http://www.cs.csuci.edu/
REQUIREMENTS FOR THE BACHELOR OF
SCIENCE IN INFORMATION TECHNOLOGY
(120 UNITS)

Lower Division Requirements
Students entering this program are expected to have
completed an associate's degree (or equivalent) in a
technology area, including:
1. Statistics.
2. One semester of a Laboratory science (Physics,
Chemistry, or Biology).
3. First course in a computer programming language such
as C, Java or C++.
4. First course in Computer Architecture and Assembly
Language.
5. CSU GE Certification or courses fulfilling the CSUCI
lower division general education requirements.
6. A minimum of 15 units of lower division coursework
in a technology area (computer technology, electronics
technology, manufacturing technology, engineering,
computer science, etc.).

Students who have not completed these 60 units prior
to their admission to the program will be required to
complete them at CSUCI or a community college.
Course substitutions for these requirements may be made
with the approval of the program chair.

Upper Division Requirements
Mathematics and Science Requirements (7 Units)
MATH 300 Discrete Mathematics I (3)
Lab Science II Physics, Chemistry or Biology (4)

Core Courses (24 Units)
IT 151 Data Structures for IT (3)
IT 262 Computer Organization and
Architecture for IT (3)
IT 280 Web Programming (3)
IT 429 Computer Networks for IT (3)
IT 420 Database Theory and Design for IT (3)
IT 362 Operating Systems for IT (3)
MIS 310 Management Information Systems (3)
MGT 307 Management of Organizations (3)

Upper Division Interdisciplinary GE (9 Units)
As a graduation requirement, all CSUCI students must
complete 48 units of General Education. Nine of the 48
units must be resident upper division, interdisciplinary
courses numbered in the 330-349 or 430-439 ranges.

Electives (15 units)
Choose 15 units from:
IT 400 e-Commerce (3)
IT 401 Web Intelligence (3)
IT 424 Computer System Security for IT (3)
IT 402 Advanced IT Programming (3)
IT 464 Computer Graphics for IT (3)
IT 469 Artificial Intelligence/Neural Networks
for IT (3)

**COMPUTER GAME DESIGN AND DEVELOPMENT**

**PROGRAM OFFERED**
- Minor in Computer Game Design and Development

The design and development of computer games is a rapidly growing academic area. It is highly interdisciplinary and is having a major impact on all levels of education. The gaming industry requires specialists with a variety of backgrounds. Game companies need artists, mathematicians and computer scientists, but also writers for story building, psychologists for creating a fun factor in games, and business-savvy professionals, who ensure financial soundness of the endeavors. In addition, the use of games by a growing part of the population has serious societal and legal implications that need to be studied. This computer gaming minor is a blend of several disciplines, including a wide range of academic areas, such as Art, Business, Mathematics, Psychology and Computer Science. This minor is meant to meet the need of an interdisciplinary curriculum that prepares students with a working knowledge necessary to pursue a career in the gaming industry. As such it is consistent with the interdisciplinary mission of CSUCI.

**CAREERS**
This interdisciplinary minor will provide students with the skills needed for a variety of careers in the field of Computer Game Design and Development. Students in this minor will receive a foundation in artistic, mathematical, psychological and computer programming tools and techniques relevant to the design and development of computer games as well as in business methodologies applicable to Computer Gaming. Legal and societal implications of computer games will also be studied.

**ECONOMICS**

(SEE BUSINESS AND ECONOMICS)

---

**EDUCATION**

**PROGRAMS OFFERED**

- Multiple Subject Teaching Credential
- Single Subject Teaching Credential
- Special Education Teaching Credential Level I
- Special Education Teaching Credential Level II
- Master of Arts in Education: Specialization in Principals Leadership
- Administrative Services Credential
- Cross-Cultural Language and Academic Development (CLAD Certificate)

The Education Program is devoted to the advancement of teaching and learning. Our image for teacher education begins with a vision for K-12 schools in the 21st century. The transformation from an industrial economy to an information society in the U.S., combined with an increasing emphasis on global issues and technology, demands more highly skilled adults to function effectively in the workforce. Young people who complete their schooling are the most educationally, socially and economically advantaged. They become adults who are lifelong learners and have the basic skills necessary for leading a full and rewarding life in an interdependent society and an information and service driven economy. The power of educators to make the fundamental difference in students’ lives makes education the most important social service.

The Education Program builds from the foundation of the undergraduate Liberal Studies option in Teaching and Learning and academic majors in biology, English and mathematics (subject matter programs) and extends to Masters of Arts in Education. Our Education Programs contribute to the teaching profession by producing teachers and school administrators who believe that all students have the ability to achieve high standards, who adapt their teaching to reach all students, and who respect the diversity of all students. Our graduates are reflective about their teaching, their attitudes, and their ability to work in collaborative analytical teams. The Master of Arts in Education program focuses on Principals Leadership and also leads to the Preliminary Administrative Services Credential.

All credential programs have been approved by the California Commission on Teacher Credentialing. Students who are hired by local public schools on emergency credentials may be eligible for an internship program. Contact the credential advisor or program chair for an internship application.
PROGRAM LEARNING OUTCOMES
- Students can teach all subjects in their area of specialty.
- Students are able to teach children with English as first or second language.
- Students understand and relate to diversity of languages and cultures in and among children and families.
- Students can meet the diverse needs of all students including those with special needs.
- Students are reflective and deliberative practitioners.
- Students link content and pedagogy.
- Students actively engage children in their learning.
- Students integrate research, theory, and best educational practice into their teaching.

MULTIPLE SUBJECT TEACHING CREDENTIAL PROGRAM
This program specifically prepares teachers for the diversity of languages and cultures often encountered in California’s public school classrooms. It prepares candidates to address the needs of students who speak English as a native language and/or as a second language in the elementary school setting. An underlying principle of the program is the belief that all children (regardless of race, ethnicity, gender, ability or economic status) are capable of learning. Emphasis is placed on the K-8 student as actively engaged in his/her learning.

CAREERS
The Multiple Subject Credential Program prepares teachers to work with students in grades K-8 with responsibility for all subject areas in a self-contained classroom. Multiple Subject Credential Teachers most often teach in elementary, middle school, or self-contained classrooms.

REQUIREMENTS FOR ADMISSION TO THE MULTIPLE SUBJECT TEACHING CREDENTIAL PROGRAM
1. Application. Apply to both the University and the Education Program. Applications to the Program are available in the Credential Office.

2. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Multiple Subject Teaching Credential Program. Students are urged to take this examination at the earliest possible time after deciding to pursue a teaching credential.

3. Subject Matter Preparation. The CSU Channel Islands Liberal Studies in Teaching and Learning option best prepares students for the subject matter knowledge and skills required for the
Multiple Subject Teaching Credential Program. All students must pass the California Subject Examination for Teachers (CSET) Multiple Subjects Examination or Multiple Subjects Assessment for Teachers (MSAT) prior to admission to the Multiple Subject Credential Program. The CSET or MSAT examination results are valid for five years from the date of passing and must be valid upon final completion of the program.

4. Prerequisite Courses in Education (16 units). If taken at CSU Channel Islands, the course must be completed within seven (7) years prior to beginning the program with a grade of “C” or better. If an equivalent course at another college or university has been taken, it must have been completed within five (5) years prior to beginning the program.

ENGL 475 Language and Social Context (3)
EDUC 510 Learning Theory and Development Applied in Multicultural Education Contexts (3)
EDUC 512 Equity, Diversity and Foundations of Schooling (3)
SPED 345 Individuals with Disabilities in Society (3)
EDUC 520 Observing and Guiding Behavior in Multilingual/Multicultural and Inclusive Classrooms (3)
EDUC 521 Field Experience (1)

5. American Institutions Requirement: Knowledge of the U.S. Constitution demonstrated by completion of two units (semester) of a college level course or college level examination.

6. Grade Point Average. A student must have a cumulative grade point average (GPA) of 2.67 or 2.75 in the last 60 semester units completed to be accepted. If a student does not have the required GPA, conditional admission may be available on a limited basis.

7. Health Clearance. Evidence of a negative tuberculin test is required. The tuberculin test is valid for four (4) years and must be valid through student teaching. The tuberculin test may be completed at a private physician's office, the County Health Department, or the CSU Channel Islands Student Health Center.

8. Certificate of Clearance. Students must possess or apply for a valid Certificate of Clearance as part of admission. A copy of an emergency permit satisfies the clearance requirement. The Certificate of Clearance is a background check and clearance conducted by the Department of Justice and Federal Bureau of Investigation.

9. Two Sets of Official Transcripts. One official set of transcripts from each of the colleges or universities attended must be mailed directly to the CSU Channel Islands Office of Admissions and Records, and one official set of transcripts must be submitted to the Credential Office with the program application.

10. Two Letters of Recommendation. Two letters of recommendation from faculty, employers, and/or others who are knowledgeable about the student’s personal qualities and potential to work with children must be submitted with the program application.

11. Experience. At least 45 hours of documented field experience in a K-8 classroom or an equivalent documented field experience must be completed.

12. Bachelor’s Degree. A bachelor’s degree or all undergraduate academic subjects must be satisfied toward a bachelor’s degree before entering a teacher education program. A bachelor’s degree is a requirement for teacher certification.

13. Writing Sample. Writing samples are required as part of the application process. The writing sample includes a 500-600 word essay describing the applicant’s interest in teaching children with the diversity of languages and cultures represented in California schools.

14. Interview. An Education Program Admissions Committee will interview candidates once all other portions of the admissions requirements are complete.

Please Note: The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject Credential. It is recommended that the Assessment be taken after completion of the Literacy I and Literacy II courses in the credential program. Certification in adult, infant and child CPR competency is required by the CCTC for an initial issuance of a teaching credential.

Program Maintenance Requirements: As a condition of remaining in the program, students must maintain a grade point average of 3.0 (B) or better, with no course grades lower than a C+.

Requirements for the Multiple Subject Teaching Credential

Full-time Multiple Subject Credential Program (34 Units)

FIRST SEMESTER
EDMS 522 Literacy 1: Multicultural/Multilingual (3)
EDMS 526 Modern Methods in Mathematics Teaching (3)
EDMS 527 History, Social Studies and Integrated Arts (4)
EDMS 565 Initial Student Teaching (7)
EDMS 566 Initial Student Teaching Seminar (1)

SECOND SEMESTER
EDMS 523 Literacy 2: Multicultural/Multilingual (4)
EDMS 529 Science, Health and PE (4)
EDMS 575 Advanced Student Teaching (7)
EDMS 576 Advanced Student Teaching Seminar (1)

Part-time Multiple Subject Credential Program (38 Units)

Students interested in a part-time or internship program must consult with the Multiple Subject program advisor to plan their course of study.
FIRST SEMESTER
EDMS 522  Literacy 1: Multicultural/Multilingual (3)
EDMS 526  Modern Methods in Mathematics Teaching (3)
EDMS 562  Field Experience Multiple Subject (Part-time program) (2)

SECOND SEMESTER
EDMS 523  Literacy 2: Multicultural/Multilingual (4)
EDMS 527  History, Social Studies and Integrated Arts (4)
EDMS 562  Field Experience: Multiple Subject (Part-time program) (2)

THIRD SEMESTER
EDMS 529  Science, Health and PE (4)
EDMS 565  Initial Student Teaching (7)
EDMS 566  Initial Student Teaching Seminar (1)

FOURTH SEMESTER
EDMS 575  Advanced Student Teaching (7)
EDMS 576  Advanced Student Teaching Seminar (1)

SINGLE SUBJECT TEACHING CREDENTIAL PROGRAM

This program specifically prepares teachers for the diversity of languages and cultures often encountered in California Public Schools. The program prepares candidates to address the needs of students who speak English as a native language and/or as a second language in the secondary school setting. An underlying principle of the program is that all students (regardless of race, ethnicity, gender, ability or economic status) are capable learners. Currently, Single Subject Credentials are offered in mathematics, English and the sciences.

CAREERS

The Single Subject Teaching Credential Program prepares teachers to work with students in subject specific content areas in departmentalized schools. Single Subject Credential Teachers most often teach in departmentalized middle, junior high and high schools.

REQUIREMENTS FOR ADMISSION TO THE SINGLE SUBJECT TEACHING CREDENTIAL PROGRAM

1. Application. Apply to both the University and the Education Program. Applications for the Program are available in the Credential Office.
2. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission. Students are urged to take this examination at the earliest possible time after deciding to pursue a teaching credential.
3. Subject Matter Preparation. Prior to admission to the Single Subject Teaching Credential Program, students may complete a state approved subject matter program in the specific content area from other colleges or universities. Students who have not completed a state-approved subject matter program must pass the California Subject Examination for Teachers (CSET) in the subject matter area of the single subject credential prior to admission to the Credential Program. The CSET examination results are valid for five years from the date of passing and must be valid upon final completion of the program.

4. Prerequisite Courses in Education (13 units). If taken at CSU Channel Islands, the courses must be completed within seven (7) years prior to beginning the program with a grade of “C” or better. If an equivalent course at another college or university has been taken, it must have been completed within five (5) years prior to beginning the program.
   EDUC 512  Equity, Diversity and Foundations of Schooling (3)
   EDUC 520  Observing and Guiding Behavior in Multicultural/Multilingual and Inclusive Classrooms (3)
   EDUC 521  Field Experience (1)
   ENGL 475  Language and Social Context (3)
   SPED 345  Individuals with Disabilities in Society (3)

5. American Institutions Requirement: Knowledge of the U.S. Constitution demonstrated by completion of two units (from a semester program) of a college level course or college level examination.

6. Grade Point Average. A student must have a cumulative grade point average (GPA) of 2.67 or 2.75 in the last 60 semester units completed to be admitted. If a student does not have the required GPA, conditional admission may be available on a limited basis.

7. Health Clearance. Evidence of a negative tuberculin test is required. The tuberculin clearance is valid for four (4) years and must be valid through student teaching. The tuberculin test may be completed at a private physician’s office, the County Health Department, or the CSU Channel Islands Student Health Center.

8. Certificate of Clearance. Students must possess or apply for a valid Certificate of Clearance as part of admission. A copy of an emergency permit satisfies the clearance requirement. The Certificate of Clearance is a background check and clearance conducted by the Department of Justice and Federal Bureau of Investigation.

9. Two Sets of Official Transcripts. One official set of transcripts from each of the colleges or universities attended must be mailed directly to the CSU Channel Islands Admissions and Records, and one official set of transcripts must be submitted to the Credential office with the program application.

10. Two Letters of Recommendation. Two letters of recommendation from faculty, employers, and/or others who are knowledgeable about the student’s personal qualities and potential to work with children must be submitted with the program application.

11. Field Experience. At least 45 hours of documented field experience in a 7-12 classroom or an equivalent documented field experience must be completed and submitted with the application to the program.
12. Bachelor’s Degree. A bachelor’s degree or, for the student still in his/her last term, all undergraduate academic subjects for a bachelor’s degree must be completed or in progress before entering the Single Subject Teaching Credential Program. A bachelor’s degree is a requirement for teacher certification.

13. Writing Sample. Writing samples are required as part of the application process. The writing sample includes a 500-600 word essay describing the applicant’s interest in teaching children with the diversity of languages and cultures represented in California schools.

14. Interview. An Education Program Admissions Committee will interview candidates once all other portions of the admissions requirements are complete.

Please Note: Certification in adult, infant and child CPR competency is required by the CCTC for an initial issuance of a teaching credential.

Program Maintenance Requirements
As a condition of remaining in the program, students must maintain a grade point average of 3.0 (B) or better, with no course grades lower than a C+.

Requirements for the Single Subject Teaching Credential (30 Units)

EDSS 530 General Secondary School Methods (3)
EDSS 540 Literacy in Secondary Schools (3)
EDSS 550 Access to Learning: English Language Learners (2)
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 571 Student Teaching Seminar Middle School (1)
EDSS 575 Student Teaching Middle School (6)
EDSS 580 Field Experience High School (Part-Time Program) (1)
EDSS 581 Student Teaching Seminar High School (1)
EDSS 585 Student Teaching High School (6)

Students taking two courses from one of the following subject matter areas: mathematics, science or English:

Students seeking a single subject credential in mathematics take the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
EDSS 542 Teaching Life/Physical/Geo-Science in Secondary Schools (3)

Students seeking a single subject credential in English take the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
EDSS 543 Teaching Language Skills in Secondary Schools (3)

Students completing the program in two semesters should enroll in the full-time program. Students planning to take three to six semesters to complete the program should enroll in the part-time program. Students who are teaching interns enroll in the part-time program and may choose option a, b, or c to complete the program.

Placements for the first semester will be in local middle schools. Second semester placements will be in local high schools.

Students must be enrolled in either field placement or student teaching each semester.

Full-time Single Subject Program (30 Units)

First Semester (15 Units)
EDSS 530 General Secondary School Methods (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 571 Student Teaching Seminar Middle School (1)
EDSS 575 Student Teaching Middle School (6)

Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
EDSS 542 Teaching Life/Physical/Geo-Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
EDSS 543 Teaching Language Skills in Secondary Schools (3)

Second Semester (15 Units)
EDSS 540 Literacy in Secondary Schools (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 581 Student Teaching Seminar High School (1)
EDSS 585 Student Teaching High School (6)
Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
EDSS 543 Teaching Language Skills in Secondary Schools (3)

Intern and Part-time Single Subject Program (31-34 Units)

OPTION A (34 UNITS)
First Semester (6 Units)
EDSS 530 General Secondary School Methods (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 570 Field Experience Middle School (1)

Second Semester (6 Units)
EDSS 540 Literacy in Secondary Schools (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 580 Field Experience High School (1)

Third Semester (4 Units)
EDSS 570 Field Experience Middle School (1)

Fourth Semester (4 Units)
EDSS 580 Field Experience High School (1)

Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
or
EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
or
EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
or
EDSS 543 Teaching Language Skills in Secondary Schools (3)

Fifth Semester (7 Units)
EDSS 571 Student Teaching Seminar Middle School (1)
EDSS 575 Student Teaching Middle School (6)

Sixth Semester (7 Units)
EDSS 581 Student Teaching Seminar High School (1)
EDSS 585 Student Teaching High School (6)

OPTION B (32 UNITS)
First Semester (6 Units)
EDSS 530 General Secondary School Methods (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 570 Field Experience Middle School (1)

Second Semester (6 Units)
EDSS 540 Literacy in Secondary Schools (3)
EDSS 550 Access to Learning: English Language Learners (2) or
EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 580 Field Experience High School (1)

Third Semester (10 Units)
EDSS 571 Student Teaching Seminar Middle School (1)
EDSS 575 Student Teaching Middle School (6)

Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
or
EDSS 541 Teaching Mathematics in Secondary Schools (3)
Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
or EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
or EDSS 543 Teaching Language Skills in Secondary Schools (3)

**Fourth Semester (10 Units)**
EDSS 531 Teaching Mathematics in Middle Schools (3)
or EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
or EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)
EDSS 581 Student Teaching Seminar High School (1)
EDSS 585 Student Teaching High School (6)

**OPTION C (31 UNITS)**

**First Semester (6 Units)**
EDSS 530 General Secondary School Methods (3)
EDSS 550 Access to Learning: English Language Learners (2)
or EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 570 Field Experience Middle School (1)

**Second Semester (15 Units)**
EDSS 540 Literacy in Secondary Schools (3)
EDSS 550 Access to Learning: English Language Learners (2)
or EDSS 560 Access to Learning: Special Needs Learners (2)
EDSS 571 Student Teaching Seminar Middle School (1)
EDSS 575 Student Teaching Middle School (6)

Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
or EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
or EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDS 533 Teaching Writing and Literature in Secondary Schools (3)
or EDSS 543 Teaching Language Skills in Secondary Schools (3)

**Third Semester (10 Units)**
EDSS 581 Student Teaching Seminar High School (1)
EDSS 585 Student Teaching High School (6)

Students seeking a single subject credential in mathematics take one of the following courses:
EDSS 531 Teaching Mathematics in Middle Schools (3)
or EDSS 541 Teaching Mathematics in Secondary Schools (3)

Students seeking a single subject credential in science take one of the following courses:
EDSS 532 Teaching Science in Middle Schools (3)
or EDSS 542 Teaching Life/Physical/Geo- Science in Secondary Schools (3)

Students seeking a single subject credential in English take one of the following courses:
EDSS 533 Teaching Writing and Literature in Secondary Schools (3)
or EDSS 543 Teaching Language Skills in Secondary Schools (3)

Students interested in a part-time or an internship program must consult with the Single Subject Program Advisor to plan their course of study.
SPECIAL EDUCATION TEACHING CREDENTIAL: MILD/MODERATE DISABILITIES, LEVEL I

The program prepares candidates to teach students with mild/moderate disabilities in self-contained special education and general education classrooms. The program specifically prepares candidates for the diversity of languages and cultures often encountered in California's public school classrooms. The program prepares candidates to address the needs of students who speak English as a native language and/or as a second language in the elementary or secondary school setting. An underlying principle of the program is the belief that all children (regardless of race, ethnicity, gender, ability or economic status) are capable of learning. Emphasis is placed on the K-22 student actively engaged in his/her learning.

This is a post baccalaureate program that has two levels. Level I prepares candidates for a preliminary certificate. After Level I is successfully accomplished, Level II is completed while working in a special education setting and requires the collaboration of the university preparation program and the candidate's employing school department. Successful completion of the Level II program will result in the candidate's eligibility for a professional certificate. The Level II program must be completed within five years of completion of Level I.

CAREERS
The Education Specialist Program prepares candidates to complete the California Commission on Teacher Credentialing standards for the preparation of teachers of children with mild and moderate disabilities from kindergarten to grade 12.

REQUIREMENTS FOR ADMISSION TO THE EDUCATION SPECIALIST LEVEL I TEACHING CREDENTIAL PROGRAM
1. Application. Apply to both the University and the Education Program Area. Applications to the Program are available in the Credential Office.
2. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission. Students are urged to take this examination at the earliest possible time after deciding to pursue a teaching credential.
3. Subject Matter Preparation. The CSU Channel Islands Liberal Studies Option - Teaching and Learning best prepares students for the subject matter knowledge and skills required for the Education Specialist Teaching Credential Program. Students may also complete a state-approved multiple subjects subject matter program from other California colleges or universities. Students who have not completed a state-approved subject matter program must pass a California Subject Examination for Teachers (CSET) in any content area or Multiple Subjects Assessment for Teachers (MSAT) prior to admission to the Education Specialist Credential Program. The CSET or MSAT examination results are valid for five years from the date of passing and must be valid upon final completion of the program Subject matter requirements are currently being revised by the CCTC. Please consult with the Credential Advisor for the latest regulations.
4. Prerequisite Courses in Education (12 units). If taken at CSU Channel Islands, the course must be completed within seven (7) years prior to beginning the program with a grade of “C” or better. If an equivalent course at another college or university has been taken, it must have been completed within five (5) years prior to beginning the program.
   ENGL 475 Language and Social Context (3)
   EDUC 510 Learning theory and development applied in multicultural education contexts (3)
   EDUC 512 Equity, Diversity and Foundations of Schooling (3)
   SPED 345 Individuals with Disabilities in Society (3)
5. U.S. Constitution. Knowledge of the U.S. Constitution demonstrated by completion of two units (semester) of a college level course or college level examination.
6. Grade Point Average. A student must have a cumulative grade point average (GPA) of 2.67 or 2.75 in the last 60 semester units completed. If a student does not have the required GPA, conditional admission may be available on a limited basis.
7. Health Clearance. Evidence of a negative tuberculin test is required. The tuberculin test is valid for four (4) years and must be valid through student teaching. The tuberculin test may be completed at a private physician’s office, the County Health Department, or the CSUCI Student Health Center.
8. Certificate of Clearance. Students must possess or apply for a valid Certificate of Clearance as part of admission to the Teaching Credential Program. A copy of an emergency permit satisfies the clearance requirement. The Certificate of Clearance is a background check and clearance conducted by the Department of Justice and Federal Bureau of Investigation.
9. Two Sets of Official Transcripts. One official set of transcripts from each of the colleges or universities attended must be mailed directly to the CSU Channel Islands Admissions and Records, and one official set of transcripts must be submitted to the Credential office with the program application.
10. Two Letters of Recommendation. Two letters of recommendation from faculty, employers, and/or others who are knowledgeable about the student’s personal qualities and potential to work with children must be submitted with the program application.
11. Experience. At least 45 hours of documented field experience in a K-12 or special education classroom or an equivalent documented field experience must be completed.
12. **Bachelor’s Degree.** A bachelor’s degree or all undergraduate academic subjects must be satisfied toward a bachelor's degree before entering a teacher education program. A bachelor’s degree is a requirement for teacher certification.

13. **Writing Sample.** Writing samples are required as part of the application process. The writing sample includes a 500-600 word essay describing the applicant’s interest in teaching children with disabilities and with the diversity of languages and cultures represented in California schools.

14. **Interview.** An interview is conducted by an Education Program Admissions Committee once all other portions of the admissions requirements are complete.

**Please Note:** The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of an Education Specialist Credential. It is recommended that the Assessment be taken after completion of Literacy I.

**Program Maintenance Requirements**
As a condition of remaining in the program, students must maintain a grade point average of 3.0 (B) or better, with no course grades lower than a C+.

**REQUIREMENTS FOR THE EDUCATION SPECIALIST LEVEL I TEACHING CREDENTIAL**

**Full-time Education Specialist Level I Credential Program (35 Units)**

**First Semester**
- EDMS 522*+Literacy I: Multicultural/Multilingual (3)
- EDMS 526*+Modern Methods in Mathematics Teaching (3)
- SPED 541 Foundations of Special Education (2)
- SPED 544++Inclusionary Teaching Methods (2)
- SPED 546+ Consultation and Communication with Families and Professionals (3)
- SPED 570 Field Experience in General Education (3)

**Second Semester**
- EDSS 540**+Literacy in Secondary Schools (3)
- SPED 542+ Managing Learning Environments (3)
- SPED 543++Educating Diverse Learners with Mild to Moderate Disabilities (3)
- SPED 545+ Assessment of Students with Disabilities (3)
- SPED 580 Student Teaching in Special Education (8)

* Not required of individuals holding a valid Multiple Subject Credential
** Not required of individuals holding a valid Single Subject Credential
+ Coursework requires field experience (SPED 562, EDMS 562) and/or observation time at a school site.
++ Course must be taken with SPED 562, 570, 580 or full time teaching.

Note: Students must demonstrate competence teaching students in elementary and secondary settings. This may occur through field experience, student teaching and prior teaching experiences.

Students interested in a part-time or an internship program must consult with the Education Specialist Advisor to plan their course of study.

**EDUCATION SPECIALIST: MILD/MODERATE DISABILITIES LEVEL II CREDENTIAL**

(Pending approval from the Chancellor’s Office and the California Commission on Teacher Credentialing)

The Education Specialist: Mild/Moderate Disabilities Level II Credential Program at CSUCI is an advanced professional training program for Special Education Teachers. The California Commission on Teacher Credentialing requires that candidates complete the Level II Credential within five years of completion of a Level I Education Specialist Credential. CSUCI’s Level II Program builds on the goals and objectives of our Level I Program. This program focuses on the diversity of students, collaboration between professionals and families, and effective instructional practices for students with disabilities. In alignment with the California state standards, the Level II Program has formed a partnership with local school districts. Candidates for the Level II Credential are employed teachers who, in collaboration with their employing school district and the University, develop an induction plan. The induction plan describes the coursework and non-university related professional development activities in which the candidate will participate. Up to 25% of the students induction plan may be completed through approved non-University activities. During the induction planning stage, the candidate will identify an area of specialization that will be his/her area of focus. University and non-university activities guide the candidate in developing the expertise in the following areas: data-based decision making; behavioral, emotional and environmental supports; current perspectives in special education; transitions from school to work; advanced assessment techniques; curriculum and instruction; and advanced collaboration and consultation with families and professionals.

**REQUIREMENTS FOR ADMISSION TO EDUCATION SPECIALIST LEVEL II**

1. CBEST verification
2. Education Specialist: Mild/Moderate Disabilities Level I Credential
3. Evidence of employment as a special education teacher. The Educational Specialist: Mild/Moderate Disabilities Credential Level II requires the student to be employed as a Special Education Teacher.
4. Cumulative grade point average of 3.0 in post baccalaureate or graduate work
5. Two letters of recommendation from professionals who are knowledgeable about the candidate's professional work, at least one of whom is the candidate's current supervisor or administrator. Letters from university faculty describing the candidate's ability to successfully complete graduate work are also recommended.

6. Interview with the Education Programs Admissions Committee

7. Writing Sample. A written statement of purpose in a 400-600 word essay. This essay includes reflections on personal and professional goals, and how the candidate plans to acquire the knowledge and skills in order to achieve these goals.

**Note:** Candidates are required to complete courses in health education and technology and have certification in adult, infant and child CPR for CCTC to issue the Level II credential.

**Program Maintenance Requirements**

As a condition of remaining in the program, students must maintain a grade point average of 3.0 (B) or better with no course grades lower than a C+. The progress of students in meeting this requirement and in progressing toward completion in a timely manner will be monitored at the conclusion of each term as part of the Induction Planning and Evaluation courses SPED 640 & 641.

**Option 1:** Four semester plan (17 units)

**First Semester**
- SPED 640 Induction Planning and Support (repeatable) (1)
- SPED 641 Advanced Perspectives in Special Education (3)

**Second Semester**
- SPED 640 Induction Planning and Support (repeatable) (1)
- SPED 642 Advanced Behavior and Environmental Support (3)

**Third Semester**
- SPED 640 Induction Planning and Support (repeatable) (1)
- SPED 643 Advanced Assessment and Instructional Practices for Diverse Learners (3)

**Fourth Semester**
- SPED 646 Advanced Collaborative Partnerships and Effective Communication in School Settings (3)
- SPED 649 Induction Evaluation (1)
- SPED 647 Transition and Career Education (1)

**Option 2:** Two semester plan (15 units)

**First Semester**
- SPED 640 Induction Planning and Support (1)
- SPED 641 Advanced Perspectives in Special Education (3)
- SPED 643 Advanced Assessment and Instructional Practices for Diverse Learners (3)

**Second Semester**
- SPED 642 Advanced Behavior and Environmental Support (3)
- SPED 646 Advanced Collaborative Partnerships and Effective Communication in School Settings (3)
- SPED 649 Induction Evaluation (1)
- SPED 647 Transition and Career Education (1)

**MASTER OF ARTS IN EDUCATION**

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

The Master of Arts in Education provides advance preparation for educational professionals and leaders. The first specialization to be offered at CSU Channel Islands prepares principals for schools and educational programs.

**PRINCIPALS’ LEADERSHIP SPECIALIZATION**

The Principals’ Leadership Specialization prepares candidates to complete the California Commission on Teacher Credentialing Preliminary Administrative Services Credential. Completion of this entry level administrative program prepares students to serve in positions of educational leadership in the California Public Schools. Through integration of course work and field experiences students are provided multiple opportunities to learn and practice the California Professional Standards for School Leaders. The program offers students understanding and application of leadership skills related to relationship building, communication, and the ability to apply, model, and analyze curriculum, instructional strategies, assessment, standards-based accountability systems, and data-based school improvement. The program also develops each student’s understanding of basic school administrative responsibilities including resource management, personnel supervision, and daily operational issues related to safety, law, and public policy.

Prior to recommendation for certification, University faculty determine eligibility, based on fully documented evidence, that each student has demonstrated satisfactory performance on the full range of standards set forth by the California Commission on Teacher Credentialing. A Masters degree is required for CSU Channel Islands to recommend a candidate Preliminary Administrative Services Credential. Candidates already possessing a Masters degree who successfully complete the required 30 units successfully will be recommended for the Level I credential without completing a research project.

**CAREERS**

The Master of Arts in Education: Principals Leadership Specialization prepares candidates for leadership positions as school principals. It prepares educational leaders who can develop, coordinate, and
assess instructional programs; evaluate and supervise certificated and classified personnel, provide students' with discipline, manage school site, district, or county level fiscal services; and develop, coordinate and supervise student support services.

REQUIREMENTS FOR ADMISSION TO THE MASTER OF ARTS IN EDUCATION AND PRELIMINARY ADMINISTRATIVE SERVICES CREDENTIAL

1. Application to the Extended Education Office.
2. One Set of Official Transcripts: One official set of transcripts from each of the colleges or universities attended must be mailed directly to the CSU Channel Islands Extended Education Office. Cumulative grade point average of 3.0 is required to be accepted into the Preliminary Administrative Services Credential Program.
3. CBEST Examination-Copy of card indicating passage of the CBEST or verification that you have taken the test prior to admission to the program. Passage of CBEST is required for certification.
4. Copy of a valid California teaching credential requiring a baccalaureate degree and a program of professional preparation, including student teaching; or a valid California Designated Subjects teaching credential provided the applicant also possesses a baccalaureate degree; or a valid California services credential in Pupil Personnel Services, Health Services, Library Media Teacher Services, or Clinical or Rehabilitative Services requiring a baccalaureate degree and a profession preparation program including field practice or the equivalent submitted to the Extended Education Office.
5. Documentation of at least three years of full-time successful teaching experience (substitute or part-time service does not apply).
6. Two letters of recommendation from professionals who are knowledgeable of the candidate's professional work at least one of whom is the candidate's current school administrator.
7. Interview with Education Program Admissions Committee.
8. Writing Sample. A written statement of purpose (500-600 word essay) describing why the candidate desires to be a school administrator serving the children and families of the diverse communities of California. This essay will include personal and professional reflection on personal goals and developing the knowledge and skills to achieve these goals.

COURSE REQUIREMENTS FOR PRELIMINARY ADMINISTRATIVE SERVICES CREDENTIAL (34 UNITS)

Prerequisites
- Advanced coursework or a component of an induction program focusing on the integration of technology into education
- Advanced coursework or a component of an induction program focusing in Special Education

Masters Core Courses
EDUC 605 Education in a Diverse Society (3)
EDUC 615 Principles of Educational Research (3)
EDUC 616 Masters Research Thesis/Project (continuing registration required) (1)

Required Courses for Specialization in Principals Leadership
EDPL 610 Foundations of Curriculum, Instruction and Assessment (3)
EDPL 620 Instructional Leadership of the Collaborative Inclusive School (3)
EDPL 621 Law and School Management (3)
EDPL 622 School Finance and Principles of Applied Leadership (3)
EDPL 623 Understanding and Influencing Organizations in Diverse Communities (3)
EDPL 624 Human Resource Management in Education Settings (3)
EDPL 625 Building Collaborative, Inclusive Learning Communities (3)
EDPL 631 Professional Development and Field Experience I (2)
EDPL 632 Professional Development and Field Experience II (4)

Program Maintenance Requirements
As a condition of remaining in the program, students must maintain a grade point average of 3.0 (B) or better with no course grades lower than a C+. The progress of students in meeting this requirement and in progressing toward completion in a timely manner will be monitored at the conclusion of each term as part of the Professional Development and Field Experience Courses (EDPL 630-633.)

CROSS-CULTURAL LANGUAGE AND ACADEMIC DEVELOPMENT (CLAD) CERTIFICATE

The CLAD certificate prepares future and practicing teachers to teach students from diverse language and cultural backgrounds in the K-12 public school setting. Students who complete this program will receive training (theory and methods) in working with English Learners in K-12 school settings. Students will receive authorization in the areas of language, culture, and methods, as reflected in the CLAD competencies of the state of California. Students will complete the following courses:
EDMS 522 Literacy I Multicultural/Multilingual (3)
EDUC 512 Equity, Diversity and Foundations of Schooling (3)
ENGL 475 Language and Social Context (3)
EDMC 550 Theory and Methods of Bilingual Education (2)
EDMC 560 Application of Mainstream and English Language Development (ELD) (2)

Requirements for the Degree Program
Students must be enrolled in the Special Education Credential Program or have a valid teaching credential.
ENGLISH: LITERATURE AND WRITING

PROGRAMS OFFERED
• Bachelor of Arts in English
• Bachelor of Arts in English with an emphasis in Creative Writing
• Bachelor of Arts in English with an emphasis in Multicultural Literature
• Bachelor of Arts In English with an emphasis in English Education Preparation, Pre-Credential
• Certificate in Technical Writing
• Minor in English

The major in English at California State University Channel Islands approaches the study of Literature, Writing and Criticism in an interdisciplinary context. Students develop a sound foundation in all three areas. They develop analytical and critical skills as well as the ability to explore, organize, and articulate ideas through writing. Literature and language are significant cultural phenomena that shape and are shaped by particular contexts; therefore, this program addresses the historical and cultural significance of the English language, literature written in English, and other literatures in translation.

Course work in the English: Literature and Writing program is completed in three areas. Foundation courses provide the tools for intellectual discussion of materials. Interdisciplinary courses provide connections with different ideas, approaches and ways of knowing. The required sequence provides in-depth investigation in a specialized field of Multicultural Literature, Writing or Education. In addition, the student may choose to pursue an emphasis in Creative Writing, Multicultural Literature, English Education Preparation, or a certificate in Technical Writing.

English majors will keep a portfolio of work produced in each of their required courses and electives. The student will work closely with his or her advisor in developing the portfolio, which will be reviewed by the instructor as a prerequisite to the capstone/service learning course. At the end of the capstone, when all course requirements have been fulfilled for the major, there will be a review of the final portfolio.

CAREERS
The B.A. in English prepares students for graduate programs in English, Linguistics, Comparative Literature, Creative Writing, Journalism, and Secondary Education. English majors, trained in logical thinking, interpretative reading, and effective writing also do very well on the LSAT exams for law schools. The major is excellent preparation for a variety of creative professions such as: editor for a publishing company, book agent, magazine editor, newspaper reporter, teacher of English abroad, freelance magazine writer, script reader, speech writer, advertising copy writer, and director of communications for businesses.

PROGRAM LEARNING OUTCOMES
The English program is designed to:
• meet the philosophical, educational and cultural objectives of the university mission statement;
• stress interdisciplinarity and the multicultural, global perspectives which are the hallmarks of CSU Channel Islands programs;
• prepare students to think critically and analyze written and visual texts;
• prepare students to express themselves effectively in written and spoken form and to apply multiple theoretical perspectives; and
• prepare students for further study and for entry into a variety of professional paths.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN ENGLISH (120 UNITS)

LOWER DIVISION REQUIREMENTS (12 UNITS)
Students seeking the Bachelor of Arts in English must have fulfilled the lower division writing requirement (at CSUCI ENGL 103 or ENGL 105). In addition, the following 12 units of literature survey courses (or the equivalent) are required in preparation for upper division studies:

ENGL 120 American Literature I (3)
ENGL 150 British and European Literature I (3)
ENGL 220 American Literature II (3)
ENGL 250 British and European Literature II (3)

UPPER DIVISION REQUIREMENTS (27 UNITS)
The upper division English core is designed to provide students with a broad background in literature, solid foundations in theory and criticism, and experience in writing to learn.

ENGL 310 Research Methods (3)
ENGL 315 Introduction to Language Structure and Linguistics (3)
ENGL 330 Writing in the Disciplines (3)
ENGL 410 Shakespeare (3)
ENGL 420 Literary Theory (3)
ENGL 449 Perspectives on Multicultural Literature (3)
ENGL 499 Capstone Project/ Senior Seminar (3)

Two of the following are required:
ENGL 325 Major Non-Western Authors (3)
ENGL 326 Major British and European Authors (3)
ENGL 327 Major American Authors (3)

Required Sequence (6 units)
The sequence requirement allows students to explore an area of interest in more depth. Students choose one of the following sequences.

SEQUENCE A
ENGL 449 Perspectives on Multicultural Literature (3)
Plus two of the following:
ENGL 450 Native American Literature (3)
ENGL 451 African/African American Literature (3)
ENGL 452 Asian/Asian American Literature (3)
ENGL 453 Hispanic/Hispanic American Literature (3)

or
SEQUENCE B
ENGL 460 Perspectives in Creative Writing (3)
Plus one of the following:
ENGL 461 Fiction Writing (3)
ENGL 462 Poetry Writing (3)
ENGL 463 Writing for the Stage and Screen (3)
ENGL 464 Creative Non-Fiction (3)

ELECTIVES: (6 UNITS)
ENGL 210 Themes in World Literature (3)
ENGL 311 Bilingual Literary Studies/ Estudios Literarios Bilingües (3)
ENGL 328 Mythology (3)
ENGL 333 Multicultural Drama in Performance/ Production (3)
ENGL 334 Narratives of Southern California (3)
ENGL 335 American Ethnic Images in Novels, Film and Art (3)
ENGL 337 Literature of the Environment (3)
ENGL 338 Science and Conscience (3)
ENGL 339 Psychology and Literature (3)
ENGL 340 Business and Economics in American Literature (3)
ENGL 378 Contemporary Native American Authors: Telecourse (3)
ENGL 400 Contemporary Literature (3)
ENGL 412 Drama of Ancient Greece (3)
ENGL 431 European Renaissance Literature and Art (3)
ENGL 432 Arts of the Harlem Renaissance (3)
ENGL 433 Gay/lesbian/Bisexual/transgender Studies (3)
ENGL 450 Native American Literature (3)
ENGL 451 African/African American Literature (3)
ENGL 452 Asian/Asian American Literature (3)
ENGL 453 Hispanic/Hispanic American Literature (3)
ENGL 456 Women's Fiction (3)
ENGL 461 Fiction Writing (3)
ENGL 462 Poetry Writing (3)
ENGL 463 Writing for the Stage and Screen (3)
ENGL 464 Creative Non-Fiction (3)
ENGL 474 Approaches To English Grammar (3)
ENGL 478 Writing as Reflective Practice (3)
ENGL 482 Technical Writing (3)
ENGL 483 Technical Visual Communication (3)
ENGL 484 Technical Writing for the Sciences (3)
EDUC/ 345 Media Literacy And Youth Culture (3)
REQUIRED SUPPORTING AND OTHER GE COURSES (69 UNITS)

Electives (15)
American Institutions Requirement (6)
General Education (48)

EMPHASIS IN CREATIVE WRITING (12 UNITS)
The Creative Writing Emphasis gives the English major an opportunity to pursue his or her interests in creative writing of various forms. The culmination of the emphasis is the Creative Writing project, which the student chooses in consultation with her or his advisor. The product of that course will be a completed work of publishable quality in one of the following genres. Students must choose Sequence B as their required sequence.

In addition, choose nine units from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 461</td>
<td>Fiction Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 462</td>
<td>Poetry Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 463</td>
<td>Writing for the Stage and Screen</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 464</td>
<td>Creative Non-Fiction</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 465</td>
<td>Creative Writing Project</td>
<td>3</td>
</tr>
</tbody>
</table>

EMPHASIS IN MULTICULTURAL LITERATURE (12 UNITS)
The Multicultural Literature Emphasis gives the English major an opportunity to pursue his or her interests in studying the literature of various cultures and ethnic groups. The culmination of the emphasis is the Multicultural Literature project, which the student chooses in consultation with his or her advisor. The product of that course will be a completed work which addresses the literature (broadly defined as fiction, nonfiction, poetry, drama and film) in one of the following course areas. Students must choose Sequence A as their required sequence. In addition, choose nine units from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 450</td>
<td>Native American Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 451</td>
<td>African/African American Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 452</td>
<td>Asian/Asian American Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 453</td>
<td>Hispanic/Hispanic American Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 454</td>
<td>Multicultural Literature Project/Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

EMPHASIS IN ENGLISH EDUCATION, PRECREDENTIAL (12 UNITS)
The English Education Emphasis gives the English major an opportunity to gain the coursework and experience necessary to pursue a teaching credential in English at the secondary level. This program is designed to prepare the student to succeed on the state subject examination and may fulfill a waiver requirement in lieu of the examination (pending state approval). Students must choose Sequence C as their required sequence.

In addition, choose nine units from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 474</td>
<td>Approaches To English Grammar</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 477</td>
<td>Adolescent Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 478</td>
<td>Writing as Reflective Practice</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 454</td>
<td>Multicultural Literature Project/Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

Required Supporting Course

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM/345</td>
<td>Media Literacy And Youth Culture</td>
<td>3</td>
</tr>
</tbody>
</table>

*Students in this emphasis who wish to apply for a waiver requirement for the CSET exam also need to complete English 210, Themes in World Literature, as an elective.

Annual consultation with an advisor in English is required for students in this emphasis.

Requirements for the Certificate in Technical Writing (18 UNITS)

(Open to All Students)
The Certificate in Technical Writing provides an opportunity for students from various disciplines to pursue interests in Technical Writing, and the certificate will prove valuable in a variety of career choices. The culmination of the certificate is the Project/Seminar course, which may be an internship or a project the student chooses in consultation with his or her advisor.

The certificate requires each of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 310</td>
<td>Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 330</td>
<td>Writing in the Disciplines</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 482</td>
<td>Technical Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 483</td>
<td>Technical Visual Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 484</td>
<td>Technical Writing for the Sciences</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 485</td>
<td>Technical Writing Project/Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>
### REQUIREMENTS FOR THE MINOR IN ENGLISH (24 UNITS)

The English minor provides non-majors with the opportunity to explore literature and become more involved with the writing process. The English: Literature and Writing minor is an excellent addition to the baccalaureate degree for all majors. A minor in English requires a grade of C or better in each course.

#### LOWER DIVISION REQUIREMENTS (12 UNITS)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 120</td>
<td>American Literature I</td>
<td>3</td>

### ENVIRONMENTAL SCIENCE AND RESOURCE MANAGEMENT

#### PROGRAMS OFFERED

- Bachelor of Science in Environmental Science and Resource Management
- Emphasis in Environmental Science
- Emphasis in Resource Management
- Minor in Environmental Science and Resource Management

Today’s environmental problems call for individuals who are educated in more than one discipline, highly trained in technical skills, and aware of the political, economic, and social dimensions of environmental decisions. The Bachelor of Science in Environmental Science and Resource Management provides solid training in basic physical, biological, and social sciences, and application of management science to reduce adverse impacts of human activity on the environment and to maximize the benefits that accrue from environmental resources.

In the narrowest sense, environmental science is the study of the impact of human systems on physical and biological systems, and the dependence on natural resources by human systems. In a broader sense, environmental science is the study of the interaction and co-evolution of human, physical, and biological systems. Natural science is the study of physical and biological systems. Social science is the study of human systems - economic systems, political systems, human perceptions, and human interactions. Environmental science requires integral knowledge of both natural and social science. Resource management is concerned with the most effective means of avoiding damage to environmental assets and extracting beneficial uses of environmental resources, within the context of social institutions. Effective resource management considers benefits and costs, uncertainties and risks, limits of knowledge, institutional constraints, and social and political forces.

The B.S. program has two emphases: environmental science and resource management. This program prepares graduates specializing in environmental science who understand basic principles of resource management, and graduates specializing in resource management who understand basic principles of environmental science. Most required courses are those offered in related disciplines. The curriculum fosters cross-disciplinary communication in the several required courses common to both degree programs and particularly in the Environmental Science and Resource Management courses.
CAREERS
This curriculum prepares students for professional careers in Environmental Science and Resource Management and for subsequent graduate study. For graduates completing the program of study required for the BS degree in Environmental Science and Resource Management, there are ample career opportunities working on environmental problems in industry, government, and non-profit organizations. The degree will also prepare students for graduate programs in either Environmental Science or Resource Management. For example, students might pursue a Ph.D. in Environmental Science at UCLA or in Environmental Science and Policy at UC Santa Barbara.

PROGRAM LEARNING OUTCOMES
Students graduating from the ESRM program will be able to:
• identify the scientific, social scientific and humanistic aspects of environmental issues;
• identify, locate, evaluate, synthesize and present current research and information on environmental issues;
• define environmental problems from the perspectives of both environmental science and resource management;
• identify possible causes and propose solutions to environmental problems from the perspectives of both environmental science and resource management;
• evaluate proposed solutions to environmental problems from the perspectives of both environmental science and resource management;
• use the methodologies of the natural and social sciences to formulate testable hypotheses concerning environmental problems and issues;
• collect, organize, analyze, interpret and present quantitative and qualitative data; and
• make use of current, technological tools in the collection, organization, analysis and interpretation of data.

Required Course in the Emphasis (3)
Required Course in the Emphasis (4 or 2+2)
Electives in the Emphasis (16)

REQUIREMENTS FOR THE MINOR IN ENVIRONMENTAL SCIENCE AND RESOURCE MANAGEMENT (23 UNITS)

The Environmental Science and Resource Management minor provides non-majors with the opportunity to explore environmental issues and examine human impacts on natural systems. It provides students with an understanding of how their personal choices affect the environment around them. In addition, it equips students for further study in environmental science, law, policy, or management.

LOWER DIVISION REQUIREMENTS (7 UNITS)
ESRM 100 Introduction to Environmental Science and Resource Management (3)
BIOL 200 Principles of Organismal and Population Biology (4)

UPPER DIVISION REQUIREMENTS (13 UNITS)
BIOL 433 Ecology and the Environment (4)
ECON 300* Fundamentals of Economics (3)
ECON 362 Introduction to Environmental Economics (3),

or
ENGL 337 Literature of the Environment (3)
ESRM 329 Environmental Law and Policy (3)

UPPER DIVISION ELECTIVES (3 UNITS)
Any other 300-400 level ESRM course (3)
ECON 110* Principles of Microeconomics (3) and
ECON 111 Principles of Macroeconomics (3) may be substituted for ECON 300.

(* ECON 110 or 111 can be substituted for ECON 300 above, but may not be double counted)

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN HISTORY (120 UNITS)

(Except for the capstone category, all courses listed below are 3 units)

LOWER DIVISION REQUIRED COURSES
(15 UNITS)

6 units of World Civilizations
HIST 211 World Civilizations: Origins to 1500*
HIST 212 World Civilizations: Since 1500*

6 units of American History
HIST 270 The United States to 1877†
HIST 271 The United States Since 1877†
HIST 275 The United States to 1900†
(for LS majors)

ALSO
HIST 272 Constitutional History of the US†

3 units in Methodology
HIST 280 The Historian's Craft*

* Courses fulfilling the GE requirement
† Courses fulfilling the Title V requirement

UPPER DIVISION REQUIRED COURSES
(31-33 UNITS)

9-12 units in History of North America
Students should select at least three courses from the following list:
HIST 333 History of Southern California
HIST 334 Narratives of Southern California
HIST 335 American Ethnic Images in Novels and Film
HIST 349 History of Business and Economics in North America
HIST 350 Chicano History and Culture
HIST 369 California History and Culture
HIST 370 United States Colonial History
HIST 371 The Founding of the United States
HIST 372 United States Industrialization and Progressivism
HIST 373 American Labor History
HIST 374 United States since 1945
HIST 402 Southern California Chicano/a History and Culture
HIST 403 The American Intellectual Tradition
HIST 420 History of Mexico
HIST 421 Revolutionary Mexico, 1876-1930
HIST 470 People and Everyday Life in Early America

9-12 units in World History
Students should select at least three courses from the following list:
HIST 310 History of the Mediterranean
HIST 319 European History, 1871-1945
HIST 320 European History 1945 to the Present
HIST 340 History and Psychology of Nazi Germany
HIST 365 Themes in World History
HIST 366 Oceans of World History
HIST 367 Environmental History
HIST 380 Pacific Islands History
HIST 391 Traditional China
HIST 392 Modern China
HIST 393 Contemporary China
HIST 394 Traditional Japan
HIST 395 Modern Japan
HIST 396 East Asia: Then and Now
HIST 410 Global Perspectives on the History of Science
HIST 436 Psychology and History of Asian Warrior Cultures
HIST 442 The African Diaspora

6 units in Thematic History
Students should select two courses from the following list:
HIST 365 Themes in World History
HIST 366 Oceans of World History
HIST 367 Environmental History
HIST 410 Global Perspectives on the History of Science
HIST 412 Law and Society
HIST 413 World Religions and Classical Philosophy
HIST 414 Women in History
HIST 415 Society and Radicalism

Special Topics—Can be used to fulfill major requirements, see Major advisor
HIST 490 Special Topics

3 units in Historiography
HIST 491 Historiography
1-3 units in Capstone or Internship or Service Learning
HIST 492 Internship/Service Learning (1-3)
HIST 494 Independent Research (1-3)
HIST 497 Directed Studies (1-3)
HIST 499 Capstone in History (1-3)

46-48 units required for the major
24-26 units of free electives in any discipline
48 units of General Education
120 Total Units for Graduation

About Double-Counting for History Majors
1. Courses double counted from the requirements by both the History Program and GE would increase the standard units (24-26) for free electives.
2. According to the GE requirements, students should take nine units from those interdisciplinary courses numbered 330-349 and 430-449, and six of the nine units can be double counted. History majors are encouraged, but not required, to select from the following interdisciplinary courses offered by the History Program:
   HIST 333 History of Southern California Chicana/o Art
   HIST 334 Narratives of Southern California
   HIST 335 American Ethnic Images in Novels and Film
   HIST 340 History and Psychology of Nazi Germany
   HIST 349 History of Business and Economics in North America
   HIST 436 Psychology and History of Asian Warrior Cultures
   HIST 442 The African Diaspora

Requirements for the Minor in History (18 Units)
Affords non-majors the opportunity to investigate the historical complexities of societies and movements and their legacies in the present. Therefore the minor serves as a primer to the scholarly appreciation of the past.

Lower Division Requirements (9 Units)
Students must select three lower division History courses. They must select at least one course from each area listed below:

World History
HIST 211 World Civilizations: Origins to 1500 (3)
HIST 212 World Civilizations: Since 1500 (3)
OR
articulated transfer courses of African, Asian, Latin American or Western Civilization based on history advisor’s approval may be substituted.

American History
HIST 270 The United States to 1877 (3)
HIST 271 The United States since 1877 (3)
HIST 272 Constitutional History of the U.S. (3)

Methodology
HIST 280 The Historian’s Craft (3)

Upper Division Requirements (9 Units)
Students must select any three courses from the program’s upper-division offerings.
PROGRAMS OFFERED

• Bachelor of Arts in Liberal Studies with Options in:
  Teaching and Learning
  Concentrated Studies

TEACHING AND LEARNING OPTION
This option is for students who plan to pursue a career as an elementary school teacher or an elementary-level special education teacher. The Teaching and Learning Option provides the required multiple-subject content preparation for students seeking the Multiple Subject Teaching Credential for teaching kindergarten through 8th grade or a Special Education credential. This option includes the subject-matter content specified by the California Commission on Teacher Credentialing (CCTC).

CONCENTRATED STUDIES OPTION
Students work with a faculty advisor to develop a Program of Study that focuses on a discipline or interdisciplinary area. In addition to students interested in non-traditional or interdisciplinary degree programs, this option will be of interest to students who have taken substantial course work from a four-year institution in a discipline not currently reflected in the majors at CSUCI.

CAREERS
The Teaching and Learning option provides the content necessary for teaching grades K-8 and for admission into teacher education programs, including the Multiple-Subject and Special Education Teaching Credential Programs. Students who are interested in teaching grades 6-12 should consider obtaining a bachelor's degree in a traditional major (e.g. History, English, Math, or Biology) and then apply to be admitted into Single-Subject Teaching Credential Programs in History, English, Math, Science or Special Education. The Concentrated Studies Option provides a broad-based background for entry into professional and/or graduate programs. This option is for students who need flexibility in order to complete their education, or need to prepare for specific careers not represented by California State University Channel Islands' current majors.

PROGRAM LEARNING OUTCOMES
Students graduating from the Liberal Studies program will be able to:

Concentrated Studies
• evaluate oral or written communication for accuracy of content, logic of its argument, and clarity of reasoning;
• demonstrate strong communication and technological skills in written communication, oral communication, computer literacy, information literacy, and technological literacy;
• summarize content-area knowledge from their program of study and relate it to their intended career goals;

Teaching and Learning
• evaluate oral and written communication for accuracy of content, logic of its argument, and clarity of reasoning;
• demonstrate strong communication and technological skills;
• summarize content-area knowledge related to California Commission on Teacher Credentialing content standards for the Multiple Subject Teaching Credential and relate it to their intended career goals;
• explain and reflect (orally and in writing) on issues faced by Kindergarten-8th grade teachers related to the California school system and its diverse student population;
• compare and contrast other cultures and their customs; and
• relate and apply content-area knowledge to a societal problem or issue.

FACULTY ADVISORS
The following faculty members have expressed a willingness to serve as advisors for a student’s Program of Study in the Concentrated Studies Option in the indicated area:

William H. Adams, Ph.D.
(Anthropology, Social Science, Multiculturalism, Oral History, African American History)
805-437-8866, bill.adams@csuci.edu

Mary Adler, Ph.D., (Single-Subject English)
805-437-8486, mary.adler@csuci.edu

Simone Aloisio, Ph.D., (Single-Subject Chemistry, Environmental Chemistry, Forensic Science)
805-437-8999, simone.aloisio@csuci.edu

Harley Baker, Ph.D., (Human Development)
805-437-8997, harley.baker@csuci.edu

Julia Balen, Ph.D., (Gender and Multicultural Studies)
805-437-8435, julia.balen@csuci.edu

Terry Ballman, Ph.D., (Humanities)
805-437-8996, terry.ballman@csuci.edu

Frank Barajas, Ph.D., (Social Science)
805-437-8871, frank.barajas@csuci.edu

Robert E. Bleicher, Ph.D., (Education)
805-437-8508, bob.bleicher@csuci.edu

Rainer Buschmann, Ph.D., (Social Science)
805-437-8995, rainer.buschmann@csuci.edu

Renny Christopher, Ph.D., (Gender Studies)
805-437-8994, renny.christopher@csuci.edu

Maria Denney, Ph.D., (Special Education, Child Development)
805-437-2766, maria.denney@csuci.edu

Geoff Dougherty, Ph.D., (Physics, Medical Imaging)
805-437-8990, geoff.dougherty@csuci.edu

Scott Frisch, Ph.D., (Political Science)
805-437-2770, scott.frisch@csuci.edu

Ivona Grzegorczyk, Ph.D., (Single-Subject Mathematics)
805-437-8868, ivona.grzegorczyk@csuci.edu
Phil Hampton, Ph.D., (Chemistry)  
805-437-8869, philip.hampton@csuci.edu
Nian-Sheng Huang, Ph.D., (Single-Subject History)  
805-437-8879, nian.huang@csuci.edu
Antonio Jimenez, Ph.D., (Spanish)  
805-437-8501, antonio.jimenez@csuci.edu
Liz King, M.F.A., (Multimedia)  
805-437-8556, liz.king@csuci.edu
Joan Peters, Ph.D., (Creative Writing-Fiction and Non-fiction, Oral History and Journalism)  
805-437-8448, joan.peters@csuci.edu
Don Rodriguez, Ph.D., (Environmental Science and Resource Management)  
805-437-8494, don.rodriguez@csuci.edu
Peter Smith, Ph.D., (Computers and Computer Science)  
805-437-8882, peter.smith@csuci.edu
Lillian Vega-Castaneda, Ed.D., (Language and Culture in Education)  
805-437-8872, lilian.castaneda@csuci.edu
Kevin Volkan, Ph.D., (Social Sciences)  
805-437-8867, kevin.volkan@csuci.edu
Ching-Hua Wang, M.D., Ph.D., (Single-Subject -Biology, and Pre-Professional Programs)  
805-437-8870, ching-hua.want@csuci.edu
Amy Wallace, M.L.I.S., (Library and Information Science)  
805-437-8911, amy.wallace@csuci.edu

advisement@csuci.edu

CREDENTIAL INFORMATION
The Liberal Studies Teaching and Learning Option has been designed to meet the State-approved Multiple Subject Matter Preparation Program. Completion of the Liberal Studies Teaching and Learning Option, a passing score on both the California Basic Educational Skills Test (CBEST) and the California Subject Examinations for Teachers (CSET), and completion of prerequisite courses are required for entrance into CSUCI’s Multiple Subject Credential Program. For more information about credential programs see the Education section and contact the CSUCI Credential Office.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN LIBERAL STUDIES (120 UNITS)

REQUIREMENTS FOR THE TEACHING AND LEARNING OPTION (85 - 88 UNITS)
A total of 85-88 units are required for the Bachelor of Arts in Liberal Studies, Teaching and Learning Option. These units include General Education, Liberal Studies Core, Emphasis, and Capstone courses. Requirements for the Emphases are available from the Advising Center. Three of the six units of the American Institutions Requirement and 36- 39 units of General Education are included in the Core for the Teaching and Learning Option.

Required Core Courses (76-79 units)

1. Reading, Language, and Literature (15-18 units)
COMM 210 Interpersonal Communication (3)
ENGL 105 Composition and Rhetoric I (3)
or
ENGL 102 Stretch Composition I (3)
and
ENGL 103 Stretch Composition II (3)
ENGL 312 Children’s Literature (3)
ENGL 315 Introduction to Language Structure and Linguistics (3)
ENGL 475 Language in Social Context (3)

2. History and Social Science (21 units)
HIST 211 World Civilizations: Origins to 1500 (3)
HIST 212 World Civilizations: Since 1500 (3)
or
ANTH 310 Civilizations of an Ancient Landscape: World Archeology (3)
or
HIST 365 Themes in World History (3)
EDUC 101 Introduction to Education (3)
EDUC 320 Education in Modern Society (3)
HIST 275 The United States to 1900 (3)
HIST 369 California History and Culture (3)
ANTH 102 Cultural Anthropology (3)

3. Mathematics (6 units)
MATH 208 Modern Math for Elementary Teaching I: Numbers and Problem Solving (3)
MATH 308 Modern Math for Elementary Teachers II: Geometry, Probability and Statistics (3)

4. Science (15 units)
BIOL 170 Foundations of Life Science (4)
PHSC 170 Foundations in Physical Science (4)
GEOL 300 Foundations of Earth Science (4)
COMP 101 Computer Literacy (3)

5. Visual and Performing Arts (6 units)
ART 102 Multicultural Children’s Art (3)
PAMU 343 Teaching Music to Children (3)

6. Physical Education and Health (4 units)
PHED 302 Motor Learning, Fitness and Development in Children (2)
HLTH 322 Health Issues in Education (2)
7. Human Development, Learning and Cognition (6 units)
    PSY  210  Learning, Cognition and Development (3)
    SPED 345  Individuals with Disabilities in Society (3)

8. Capstone (3 units)
    LS  499  Capstone Project (3)
    The capstone project (LS 499) must be passed with a grade of “B” or better for the Teaching and Learning Option.

REQUIRED EMPHASIS (9 UNITS)
Nine additional units must be taken from one of the following Emphases:
• Reading, Language and Literature
• History and Social Science
• Mathematics
• Science
• Visual and Performing Arts
• Physical Education and Health
• Human Development and Psychology
• Bilingual Studies: Spanish/English

REQUIRED SUPPORTING, GE AND ELECTIVE COURSES (32-35 UNITS)
COMM/ 345  Media Literacy and Youth Culture
EDUC   (3 units)
Foreign Language (3 units)
(May double count for Reading, Language and Literature Emphasis; Spanish language may double count for Bilingual Studies)
American Institutions Requirement (3 units)
Electives (23-26 units)
(Must satisfy General Education categories A3 and C2 if not covered in emphasis)

Additional Courses (0-10)
Students are strongly encouraged to take EDUC 510, EDUC 512, EDUC 520, and EDUC 521 as electives since these courses are prerequisites for admission to the CSUCI Multiple-Subject Teaching Credential Program.

The Liberal Studies Program requires that all major courses be completed with a grade of “C” or better in the Teaching and Learning Option.

Special Note: Students who plan to enter a teaching credential program in California will be required to have a 2.67GPA OR 2.75 in the last 60 units for Admission to the post baccalaureate credential program.

REQUIREMENTS FOR THE CONCENTRATED STUDIES OPTION (57 UNITS)
This option consists of a 9 unit Core, a 45 unit Program of Study, and a 3 unit Capstone. In order for a student to have their Program of Study approved, it must be developed with a tenure-track faculty advisor. General Education may not be double-counted with the requirements for this Option.

Required Core Courses (9 UNITS)
Choose one course from each of the following 3 core areas. (Note: the courses listed under Multicultural Studies meet the Multicultural Graduation Requirement for students who are General Education certified. For a complete list of eligible Multicultural Studies courses, see the Advising Center.)
1. Advanced Writing Course (3 units)
    ENGL 330  Writing in the Disciplines (3)
    or
    ENGL 478  Writing and Metacognition (3)

2. Multicultural Studies (3 units)
    Any three unit course approved for General Education, Area C3B. (See General Education requirements in the university catalog)

3. Computer Literacy (3 units)
    COMP 101  Computer Literacy (3)

PROGRAM OF STUDY (45 UNITS)
The Program of Study must be arranged with a faculty advisor. Students are strongly encouraged to pursue a minor as part of the Program of Study. A minimum of 24 units must be upper-division. Community college courses may be used in the Program of Study provided they are approved by the faculty advisor and are not used to meet General Education or the American Institutions Requirements. Students must select a faculty advisor within the first 60 days after they begin taking coursework at CSUCI and submit their initial Program of Study to the Advising Center. A list of faculty who are willing to serve as advisors to the Concentrated Studies Option students is provided at the beginning of this catalog description.

Capstone (3 units)
All students must enroll in LS 499 during the final year prior to graduation.
LS  499  Capstone Project (3)
The Capstone project (LS 499) must be passed with a grade of "B" or better.

REQUIRED SUPPORTING AND OTHER GE COURSES (63 UNITS)
Other courses should be selected to meet the Multicultural Graduation Requirement (3 units), Foreign Language Graduation Requirement (3 units), American Institutions Requirements (6 units), and General Education requirements and electives (51 units).
The Liberal Studies Program requires that all major courses be completed with a grade of “C” or better in the Concentrated Studies Option.
Mathematics can be pursued as a scholarly discipline of an especially elegant and creative art form or it can be treated as a valuable tool in an applied discipline. Our program addresses both needs. Students will be given a strong background in mathematics and statistics as well as a substantial amount of interdisciplinary applications in Physics, Biostatistics, Business, Computer and Information Sciences, Computer Imagining or Artificial Intelligence.

CAREERS
The mathematics major will prepare students for teaching careers, studies in graduate programs (in pure mathematics, applied mathematics, mathematics education, or the mathematical sciences) or for employment in high-tech and bio-tech industries, where mathematics-trained professionals with interdisciplinary expertise (sciences and business) are increasingly sought after.

PROGRAM LEARNING OUTCOMES
Students graduating from the Mathematics program will be able to:
- demonstrate critical thinking, problem solving skills and ability to use advanced mathematical methods by identifying, evaluating, and classifying, analyzing, synthesizing, data and abstract ideas in various contexts and situations;
- demonstrate the knowledge of current mathematical applications, computing practices and broad technology use in industry, science and education;
- demonstrate ability to use modern software, abstract thinking, and mathematical practices connected to scientific and industrial problems, and demonstrate these skills that are currently used by technologies in society and education;
- perform skills that enable them to evaluate, propose and convey novel solutions to scientific and business problems, etc.;
- demonstrate cooperation skills by working effectively with others in interdisciplinary group-settings - both inside and outside the classroom; and
- demonstrate a sense of exploration that enables students to pursue lifelong learning and currency in their careers in mathematics, statistics, education, high-tech and bi-tech industries.

FACULTY
Ivona Grzegorczyk, Ph.D.
Professor of Mathematics
Chair, Mathematics Program
Academic Advisor for Mathematics and Single Subject Credential in Mathematics
Bell Tower West, Room 2275
(805) 437-8868
ivona.grzegorczyk@csuci.edu

Jesse Elliott, Ph.D.
Assistant Professor of Mathematics
Bell Tower West, Room 2215
(805) 437-2768
jesse.elliott@csuci.edu

Jorge Garcia, Ph.D.
Assistant Professor of Mathematics
Developmental Mathematics Coordinator
Bell Tower West, Room 2219
(805) 437-2769
jorge.garcia@csuci.edu

Cindy Wyels, Ph.D.
Associate Professor of Mathematics
MS in Mathematics Graduate Program Director
Bell Tower West, Room 1191
(805) 437-3260
cynthia.wyels@csuci.edu

CONTACT INFORMATION
http://math.csuci.edu or math@csuci.edu

REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN MATHEMATICS (120 UNITS)

LOWER DIVISION REQUIREMENTS (34-35 UNITS)
MATH 150 Calculus I (4)
MATH 151 Calculus II (4)
MATH 230 Logic and Mathematical Reasoning (3)
MATH 250 Calculus III (3)
COMP 105 Computer Programming Introduction (4) or
COMP 150 Object Oriented Programming (4)
PHYS 200 General Physics I (4)
either PHYS 201 and one additional science course or 2 semester science sequence in sciences (7-8)

UPPER DIVISION REQUIREMENTS (20 UNITS)
MATH 300 Discrete Mathematics (3)
MATH 350 Differential Equations and Dynamical Systems (3)
MATH 331 History of Mathematics (3)
MATH 352 Probability and Statistics (3)
MATH 351 Real Analysis (3)
MATH 451 Complex Analysis (3)
MATH 499 Senior Colloquium (1) (twice)
EMPHASIS (6-9 UNITS)
By the sophomore year the student should decide on one of the emphases listed in the Proposed Plan of Study (below). Students planning on teaching mathematics have to choose Education Emphasis to meet the Single Subject Matter Preparation requirements.

ELECTIVES IN MAJOR (9-13 UNITS)
Note:
1. Courses used for the emphases cannot be counted as elective.
2. Students planning on teaching math have to choose MATH 492 for field experience requirement. Other courses recommended for teaching careers are marked with T.

MATH 318 Mathematics for Secondary School Teachers (3 - T)
MATH 330 Mathematics and Fine Arts (3 - T)
MATH 354 Analysis of Algorithms (3)
MATH 393 Abstract Algebra (3 - T)
MATH 429 Operations Research (3)
MATH 430 Research Design and Data Analysis (3)
MATH 450 Partial Differential Equations and Mathematical Physics (3)
MATH 482 Scientific Computing (3)
MATH/345 Digital Image Processing (3)

PHYS/MATH 445 Image Analysis and Pattern Recognition (3)
MATH/452 Computational Bioinformatics (3)

COMP 400 Topics in Mathematics (3)
COMP 429 Internship (3 - T - required)
COMP 444 Independent Study (3)
COMP 497 Directed Study (3)
COMP 499 Senior Colloquium (1)
Required Supporting and other GE Courses
Elective Courses (16)
General Education and Title V (34)

REQUIRED SUPPORTING AND OTHER GE COURSES
General Education and American Institutions Requirement (34)
Elective Courses (16)

PROPOSED COURSE OF STUDY

Freshman Year (30-32 units)
MATH 150 Calculus I (4, G.E. B3)
MATH 151 Calculus II (4)
MATH 230 Logic and Mathematical Reasoning (3, G.E. A3)
COMP 105 Computer Programming Introduction (3-4, G.E. B4) (3)
or COMP 150 Object Oriented Programming
ENG 102 Stretch Composition I
and ENG 103 Stretch Composition II (6)
or ENG 105 Composition and Rhetoric (3, G.E. A2)
PHYS 200 General Physics I (4, G.E. B2)
Computer Science Course (2-4)
G.E. Section A, C, D, or E (3)

Sophomore Year (22-23 Units)
MATH 240 Linear Algebra (3)
MATH 250 Calculus III (3)
MATH 300 Discrete Mathematics (3)
MATH 350 Differential Equations and Dynamical Systems (3)

Select one interdisciplinary G.E. (3)
Recommended:
COMP 447 Societal Issues in Computing (3)
COMP 449 Human Computer Interactions (3)
PHYS 434 Biomedical Imaging (3)
Select either PHYS 201 and one additional science course or 2 semester science sequence in sciences (7-8, G.E. B1 and B2)

Emphasis
By the sophomore year, in order to plan their electives, students should decide on one of the following emphases and take all courses listed in the section.

BIOMATHEMATICS (6)
Students selecting this emphasis should take BIOL 201.
MATH 430 Research design and Data Analysis (3, G.E. B1,B3, Interdisciplinary)
COMP 452 Computational Bioinformatics (4)

COMPUTER SCIENCE (9)
Students selecting this emphasis should take COMP 150 and COMP 151 for the computer science requirements
MATH 444 Analysis of Algorithms (3)
MATH 488 Scientific Computing (3, G.E. B4,B3, Interdisciplinary)
COMP 350 Software Engineering (3)

PHYSICS (6)
Students selecting this emphasis should take PHYS 200 and 201(8) as the science sequence.
MATH 350 Partial Differential Equations and Mathematical Physics (3)
Upper division Physics course (3)
APPLIED PHYSICS (6)
Students selecting this emphasis should take PHYS 200 and 201(8) as the science sequence.
COMP/ 345 Digital Image Processing (3)
PHYS
COMP/ 445 Image Analysis and Pattern
PHYS Recognition (3)

ACTUARIAL SCIENCES/ECONOMICS (9)
MATH 429 Operations Research (3)
ECON 300 Fundamentals of Economics (3, G.E. D)
ECON 486 Introduction to Econometrics (3)

BUSINESS MANAGEMENT (9)
MATH 429 Operations Research (3)
Upper Division Management Course (3)
Cognitive Science (9):
MATH 430 Research Design and Data Analysis (3)
ECON 300 Fundamentals of Economics (3, G.E. D)
PSY 210 Learning, Cognition and Development
Upper Division Cognitive Psychology Course (3)

EDUCATION (9)
MATH 318 Mathematics for Secondary School Teachers (3)
MATH 393 Abstract Algebra (3)
EDUC 512 Equity, Diversity and Foundation of Schooling

APPLIED MATHEMATICS
MATH 429 Operations Research (3)
MATH 448 Scientific Computing (3, G.E. B3, B4, Interdisciplinary)
MATH 450 Partial Differential Equations and Mathematical Physics (3)

DIGITAL DESIGN
MATH 393 Abstract Algebra (3)
ART 108 Visual Technologies (3)
ART 312 or 314 Digital Media Art

Choice of other emphases or individualized emphasis is possible upon approval of the mathematics advisor.

Junior Year (15-18 Units + G.E)
MATH 331 History of Mathematics (3, G.E. B3, D, Interdisciplinary)
MATH 351 Real Analysis (3)
MATH 352 Probability and Statistics (3)

Choose one of the groups from the Emphasis Courses listed above.

Senior Year (14-15 Units+ G.E.)
MATH 451 Complex Analysis (3)
MATH 499 Senior Colloquium (1) Fall
MATH 499 Senior Colloquium (1) Spring
Choose 3 or more Math Electives (9-12)

TOTAL REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN MATHEMATICS DEGREE (120 UNITS)
Lower Division Required Major Courses (34-35)
Upper Division Required Major Courses (20)
Upper Division Elective & Emphasis Major Courses (15-19)
Electives (16)
General Education Included in Major Requirements (18)
General Education and American Institutions Requirement (34)

REQUIREMENTS FOR THE MINOR IN MATHEMATICS (20 UNITS)
MATH 150 Calculus I (4)
MATH 151 Calculus II (4)
MATH 300 Discrete Math (3)

In addition, students should select three upper division courses (9 units) from the Mathematics program approved by the advisor.
MASTER OF SCIENCE IN MATHEMATICS

(Pending approval from the Chancellor’s Office and offered through California State University Channel Islands Extended Education Program)

Our MS in Mathematics program is interdisciplinary and innovative in nature, offers flexible schedule with highly qualified faculty. It is designed to address the global need for people with advanced mathematical, computational, and computer skills throughout the industry, high-tech, and educational systems. Students will be given a strong background in mathematics, computer software, as well as skills to conduct an independent applied research or develop independent projects. The program will stress interdisciplinary applications, for example in Actuarial Sciences, Cryptography, Security, Image Recognition, Artificial Intelligence, and Mathematics Education. Students’ specializations depend on the final project/thesis and the electives chosen under the supervision of Mathematics advisor. Individual study plan can be design to meet entry requirements for Ph.D. programs in Mathematical Sciences.

ADMISSION REQUIREMENTS

1. **Application.** Application to both the University and the Mathematics Program. Forms are available at the Extended Education Office and on-line at http://math.csuci.edu/.

2. **Recommendation.** At least two letters of recommendations from academia or professional supervisors.

3. **Subject Matter Preparation.** Applicants are expected to hold BS degree in mathematics. However students with other degrees (or equivalent coursework) maybe considered and admitted conditionally (subject to completing relevant undergraduate mathematics courses).

4. **GPA of 3.0 in Mathematical Sciences.** If applicant does not have the required GPA, conditional admission maybe available on a limited bases.

5. **GRE** (general and mathematics) scores are recommended, but not required.

REQUIREMENTS FOR THE MASTER OF SCIENCE IN MATHEMATICS (32 UNITS)

Core Courses (11 Units)
Choose 3 courses from the following list:
MATH 510 Probabilistic Methods And Measure Theory (3)
MATH 511 Functional Analysis (3)
COMP 510 Algorithms (3)
COMP 569 Artificial Intelligence (3)
PHYS 510 Advanced Image Analysis Techniques (3)
And required two units of:
MATH 599 Graduate Seminar (1)

Electives (15 Units)*
Choose 5 Electives from the following list (at least 3 courses in mathematics):
MATH 511 Functional Analysis (3)
MATH 513 Advanced Algebra (3)
MATH 555 Actuarial Sciences (3)
MATH 565 Research in Mathematics Education (3)
MATH/581 Mathematical Methods in Artificial COMP Intelligence (3)
MATH 582 Number Theory and Cryptography (3)
MATH 584 Algebraic Geometry and Coding Theory (3)
MATH 587 Markov Chains and Markov Processes (3)
MATH 588 Stochastic Analysis (3)
PHYS 546 Pattern Recognition (3)
COMP 520 Advanced Database Systems (3)
COMP 524 Security (3)
COMP 529 Network Computing (3)
COMP 549 Human-Computer Interaction (3)
COMP 550 Object-Oriented Software Engineering (3)
COMP 569 Artificial Intelligence (3)
COMP 571 Biologically Inspired Computing (3)
COMP 572 Neural Networks (3)
COMP 575 Multi-Agent Systems (3)
COMP 578 Data Mining (3)

*other graduate or junior/senior courses may be included with advisors approval.

PROJECT OR MASTER THESIS EMPHASIS (6 UNITS)
MATH 597 Master Thesis
or
MATH 598 Master Project
PERFORMING ARTS

PROGRAM OFFERED
• Bachelor of Arts in Performing Arts

The Performing Arts Program at California State University Channel Islands offers a broad, integrated undergraduate experience in music, theatre, and dance, with attention to the relatively new fields of audience and performance studies. The core courses provide the base necessary for building an educational and professional career in the performing arts.

Core courses offer experience in each of the three major areas of the performing arts—Dance, Music and Theatre—with special attention to current and future trends. Students also choose an emphasis to follow through one of the following areas:
• The Music emphasis (PAMU) provides concentrated study in commercial music and musical theatre.
• The Dance emphasis (PADA) provides concentrated study in dance performance and musical theatre.
• The Theatre emphasis (PATH) provides concentrated study in acting, directing and musical theatre.

The Performing Arts degree program stresses interdisciplinarity and the multicultural, global perspectives that are the hallmarks of CSUCI. In addition to gaining expertise and experience in their chosen fields of Dance, Music, or Theater, students will gain interdisciplinary experience in the performing arts, with education and experience in the intersections between the fields.

CAREERS
The Performing Arts major will prepare students for further study and for entry into the performing arts professions.

PROGRAM LEARNING OUTCOMES
Performing Arts students will develop their abilities to think critically, analyze written and visual texts, express themselves effectively in written, physical and spoken forms, and to apply multiple theoretical perspectives to their own performances and the performances of others.

REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN PERFORMING ARTS (120 UNITS)

Core Requirements: 18 units
Emphasis: 21 units
General Education: 39 units
Upper Division Interdisciplinary GE: 9 units
Title V Courses: 6 units
Performing Arts Electives: 12 units
Electives in any discipline: 15 units
Total Required Units: 120 units

PERFORMING ARTS CORE COURSES (18 UNITS)
PA 101 Introduction to the Performing Arts (3)
PA 202 Integrating Dance, Music and Theatre (3)
PA 335 Business and the Performing Arts (3)
PA 350 Audience and Performance Studies (3)
PA 360 Musical Theatre (3)
PA 436 Physics of Performing Arts (3)

EMPHASIS REQUIREMENTS
(Students choose either Dance, Music, or Theater as an emphasis.)

Dance Emphasis (21 units)
PADA 151 Conditioning for Dancers (3)
PADA 253 Jazz Dance I (3)
PADA 254 Modern Dance I (3)
PADA 353 Jazz Dance II (3)
PADA 354 Modern Dance II (3)
PADA 458 Dance Ensemble (3)
PADA 499 Performing Arts Capstone Internship in Dance (3)
Music Emphasis (21 units)
- PAMU 100 Music Appreciation (3)
- PAMU 261 Music Theory (3)
- PAMU 363 Music History (3)
- PAMU 330 Jazz in America (3)
6 units in the following repeatable courses, in consultation with the PAMU advisor:
- PAMU 109 Private Lessons (1)
- PAMU 307 University Chorus (1)
- PAMU 308 University Orchestra (1)
- PAMU 309 Private Lessons (1)
- PAMU 499 Performing Arts Capstone Internship in Music (3)

Theatre Emphasis (21 units)
- PATH 280 Acting I (3)
- PATH 281 Play Analysis (3)
- PATH 380 Acting II (3)
- PATH 382 Directing (3)
- PATH 481 Production (3)
  (Repeated once for 6 units)
- PATH 499 Performing Arts Capstone Internship in Theatre (3)

STRONGLY SUGGESTED ELECTIVE COURSES
- PA/ ART 383 Scenic Design (3)
- PA/ ART 384 Costume Design (3)
- PAMU 100 Music Appreciation (3)
- PAMU 109 Private Lessons (1)
- PAMU 200 History of Rock (3)
- PAMU 307 University Chorus (1)
- PAMU 308 University Orchestra (1)
- PAMU 309 Private Lessons (1)
- PAMU 330 Jazz in America (3)
- PAMU 333 The Varieties of Musical Experience (3)
- PAMU/ ART 335 The Physics of Music (3)
- PHYS 336 Art and Music: Dissonance, Diversity and Continuity (3)
- PAMU 343 Teaching Music to Children (3)
- PAMU/ ART 432 Arts of the Harlem Renaissance (3)
- ENGL 332 Teaching Dramatic Literature (3)
- ENGL 333 Multicultural Drama in Performance and Production (3)
- ENGL 412 Drama of Ancient Greece (3)
- ENGL 444 Original Practice in Renaissance Drama (3)
- ENGL 463 Writing for the Stage and Screen (3)

POLITICAL SCIENCE

PROGRAMS OFFERED
- Bachelor of Arts in Political Science
- Minor in Political Science

Political Science is the study of government, public policies and political behavior. Political Science uses both humanistic and scientific perspectives and skills to examine all countries and regions of the world. The Political Science Program is based on the educational objectives emphasized in the California State University Channel Island’s mission. All students graduating with a degree in Political Science will have taken course work and developed competencies in all four key areas of the university mission: interdisciplinary and integrative learning; multicultural perspectives; international perspectives and civic engagement through service learning or experiential learning. Unlike traditional political science majors, all students will be required to complete a course on racial politics in the United States. This is not only consistent with our mission, but it reflects the ethnic and racial reality of California in the 21st century. The curriculum will have a strong international component as well, as all graduates will take international politics, and comparative government, and many of the elective courses emphasize international perspectives. All students graduating from CSUCI must complete nine units of upper division interdisciplinary course work. Finally, experiential and service learning are woven throughout the curriculum, and the required capstone course is a community based project designed to synthesize learning through analysis of an important policy issue.

CAREERS
The Political Science Program prepares students for careers in federal state and local governments, law, business, international organizations, nonprofit associations and organizations, campaign management and polling, journalism, education, electoral politics, research and advocacy. In addition, the major in Political Science prepares students for graduate and professional study in the field of Political Science as well as International Relations and Public Administration.
PROGRAM LEARNING OUTCOMES
Students completing the requirements for a B.A. degree in Political Science will be able to:
• write clearly and with purpose on issues of international and domestic politics and public policy;
• participate as a civically engaged member of society;
• analyze political and policy problems and formulate policy options;
• use electronic and traditional library resources to research key local, state, national and international policy issues and present results;
• demonstrate competency with basic tools underlying modern social science research including competency in statistics and qualitative analysis
• demonstrate critical thinking, including the ability to form an argument, detect fallacies, and marshal evidence, about key issues of public policy and politics;
• discuss the major theories and concepts of political science and its subfields; and
• deliver thoughtful and well articulated presentations of research findings.

FACULTY
Scott Frisch, PhD.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN POLITICAL SCIENCE (120 UNITS)

(Pending Approval from the CSU Chancellor’s Office)

LOWER DIVISION REQUIREMENTS (9 UNITS)
POLS 102 Comparative Government (3)
POLS 103 Introduction to International Politics (3)
POLS 150 American Political Institutions (3) *
*Partially satisfies the American Institutions Requirement. The History portion is contained in the general requirements at the end of the major.

UPPER DIVISION REQUIREMENTS (15 UNITS)
POLS 300 Research Methods in Political Science (3)
POLS 301 Political Theory (3)
POLS/303 Statistical Applications in the Social Sciences (3)
POLS 306 The Politics of Race and Ethnicity (3)
POLS 499 Capstone (3)

ELECTIVES (15 UNITS)
Students should select a total of 15 units from the following list:
ESRM 328 Introduction to Geographic Information Systems (3)
POLS 140 California Government and Politics (1)
POLS 305 Gender and Politics (3)
POLS 315 Congress and the Presidency (3)
POLS 316 State and Local Politics and Policy (3)
POLS 317 Judicial Power and Process (3)
POLS 318 The Electoral Process (3)
POLS 320 Public Administration (3)
POLS 321 Public Budgeting and Finance (3)
POLS 325 American Public Policy (3)
POLS 326 Government and Politics of Selected Nations (3)
POLS 327 International Relations of Selected Areas (3)
POLS 328 American Foreign Policy (3)
POLS/330 Political Sociology (3)
SOC 331 Narratives of the Working Class (3)
ENG/ECON/SOC 335 Politics and Film (3)
COMM 340 Environmental Politics and Public Policy (3)
ESRM 345 Science and Public Policy (3)
BIOL 430 Political Communication (3)
COMM 490 Special Topics in Political Science (3)
POLS 492 Service Learning In Political Science (3)
POLS 493 Internship in Political Science (3)
POLS 494 Independent Research In Political Science (3)

REQUIREMENTS FOR THE MAJOR IN POLITICAL SCIENCE (120 UNITS)
Lower, Upper Division and Electives 39
General Education 48
Free Elective 30
American Institutions Requirement * 3
*The Government portion of the American Institutions Requirement (POLS 150) is listed in the major courses above.

REQUIREMENTS FOR THE MINOR IN POLITICAL SCIENCE (18 UNITS)
LOWER-DIVISION REQUIREMENTS (9 UNITS)
POLS 102 Comparative Government (3)
POLS 103 Introduction to International Politics (3)
POLS 150 American Political Institutions (3)
UPPER-DIVISION REQUIREMENTS (9 UNITS)
ECON 370 The World Economy (3)

POLS 325 American Public Policy (3)
POLS 494 Independent Research (3)
PSYCHOLOGY

PROGRAMS OFFERED
• Bachelor of Arts in Psychology
• Minor in Psychology
• Minor in Developmental Psychology

Psychology is the study of the aspects of mind related to human nature, our relationships to each other, and our relationship to the world at large. While psychology is often scientific in its outlook, it also includes ways of knowing and understanding the world based on philosophy and the arts. In this sense psychology is one of the broadest of disciplines, encompassing a wide range of academic areas and endeavors. Psychology recognizes the diverse cultural, economic, ethnic, historical, and political viewpoints that exist in a multicultural world. The discipline seeks to understand how these viewpoints interact with individual and group behavior in order to encourage a rich pluralism of human interaction.

The psychology program at CSUCI is unique in two aspects. The first is that students will have some exposure to all major areas of psychology through a required sequence of core courses. Included in these courses is a year-long upper division course in quantitative reasoning. This core-course curriculum borrows an ideology from the best undergraduate psychology programs, producing students with knowledge in all branches of psychology as well as methodological skills that can be widely applied within and outside of the discipline.

The second unique aspect of the CSUCI psychology program is its interdisciplinary course offerings. These interdisciplinary courses offer students a chance to experience the intersection of psychology with other disciplines. This closely follows how psychology is understood and practiced in the world at large.

CAREERS
Graduates of the CSUCI undergraduate psychology program will be prepared to work in a variety of settings. Typically, psychology graduates do well finding jobs. However, we recognize that nationally approximately 23% of undergraduate psychology majors go on to graduate school for masters, doctorates, or other professional degrees. Therefore, the psychology faculty at CSUCI are committed to helping students gain admittance into graduate or professional schools.

PROGRAM LEARNING OUTCOMES
Graduating from the Psychology program:
• students should be familiar with the major theoretical approaches, findings and historical trends in psychology;
• students should understand and be able to use major research methods in psychology, including design, data analysis and interpretation;
• students should have an understanding of applications of psychology to personal, social and organizational issues;
• students should demonstrate information competence and the ability to use computers and other technology for multiple purposes;
• students should use and respect skeptical inquiry, critical thinking, and the scientific approach to understanding behavior;
• students should have an understanding of the complexity of cultural diversity;
• students should be able to express themselves effectively in written and oral communication; and
• students should understand themselves and others in a cultural context and develop interpersonal skills for diverse settings over the lifespan.

kevin.volkan@csuci.edu
REQUIREMENTS FOR THE B.A. IN PSYCHOLOGY (120 UNITS)

LOWER DIVISION REQUIRED COURSES (15 UNITS)
Psychology majors must take each of these courses:
- PSY 100 Introduction to Psychology (3)
- PSY 202 Statistics (same as BIO 202 and Math 202) (3)
- PSY 211 Cognition and Learning (3)
- PSY 213 Developmental Psychology (3)
- PSY 217 Theories of Personality (3)

Students will need to obtain a grade of C- or better to apply these courses to the psychology major. Students may substitute equivalent courses taken at other universities in each area by articulation agreement or by permission of the Psychology program. Nine units from these required lower division courses may be counted towards GE requirements.

UPPER DIVISION REQUIRED CORE COURSES (22 UNITS)
Psychology majors will normally take these courses at CSUCI. Students may substitute equivalent courses taken at other universities in each area by articulation agreement or by permission of the Psychology program. All courses must be passed with a grade of C- or better to apply toward the Psychology major.
- PSY 300 Psychological Research and Statistical Methods with Lab I (3)
- PSY 301 Psychological Research and Statistical Methods with Lab II (3)
- PSY 310 History and Systems of Psychology (3)
- PSY 312 Social Psychology (3)
- PSY 313 Clinical and Abnormal Psychology (3)
- PSY 314 Behavioral Neuroscience (4)
- PSY 316 Sensation and Perception (3)

UPPER DIVISION PSYCHOLOGY ELECTIVES (12 UNITS)
Psychology majors must take 12 units of Upper Division Psychology Electives. These courses range from 330-499 (up to 6 units from interdisciplinary Psychology courses number 330-349 or 430-449 may be double-counted towards the upper division GE requirement). Not all courses will be taught in all years. Students must obtain a grade of C- or better (or CR) in each of these courses to apply them to the psychology major. The current list of Upper Division Elective courses in Psychology is as follows:
- PSY 333 Measurement and Testing of Groups and Individuals (3)
- PSY 337 Psychological Ethics and Moral Philosophy (3)
- PSY 338 Psychology of Art and Artists (3)
- PSY 339 Psychology in Literature (3)
- PSY 340 History and Psychology of Nazi Germany (3)
- PSY 344 Psychology and Traditional Asian Thought (3)
- PSY 345 Individuals with Disabilities in Society (3)
- PSY 346 Psychology of Motivation (3)
- PSY 400 Case Studies in Psychopathology and Clinical Psychology (3)
- PSY 410 Psychological Testing (3)
- PSY 415 Assessment of Children (3)
- PSY 432 Seminar in Leadership (3)
- PSY 436 Psychology and History of East Asian Warrior Cultures (3)
- PSY 441 Psychology of Space (3)
- PSY 445 Adolescent Development (3)
- PSY 449 Human-Computer Interaction (3)
- PSY 450 Advances in Neural Science (3)
- PSY 457 Criminal Behavior (3)
- PSY 461 Advanced Topics in Child and Adolescent Development (3)
- PSY 470 Seminar in Freud and Object Relations Theory (3)
- PSY 471 Seminar in Jungian and Archetypal Psychology (3)
- PSY 473 Bizarre Behavior and Culture Bound Syndromes (3)
- PSY 483 Applied Multivariate Analyses (3)
- PSY 489 Advanced Topics in Psychology (3)
- PSY 492 Psych Internship or Service Learning (1-3 units)
- PSY 494 Independent Research in Psychology (1-3 units)
- PSY 497 Directed Study in Psychology (1-3 units)
- PSY 499 Senior Capstone in Psychology (1-3 units)

Required Supporting and Other GE Courses (72 units):
- General Education (48 units)
- Title V, United States History, Constitution and American Ideals (6)
- University electives (18 units)

MINOR IN PSYCHOLOGY (18-19 UNITS)

The minor in psychology gives students concentrated exposure to the philosophy, history, methods and theories related to the study of the mind and behavior. The minor in psychology is appropriate for students interested in understanding how human psychological perspectives can influence their major field of study and the world around them.

LOWER-DIVISION REQUIREMENTS (9 UNITS)
1. PSY 100 Introduction to Psychology (3)
2. Two courses from the following list (6):
   - PSY 210 Learning, Cognition, & Development (3)
   - PSY 211 Cognition and Learning (3)
   - PSY 212 Neurobiology and Cognitive Science (3)
   - PSY 213 Developmental Psychology (3)
   - PSY 217 Theories of Personality (3)
   - PSY 220 Human Sexual Behavior (3)

UPPER-DIVISION REQUIREMENTS (9-10 UNITS)
1. One course from the following list (3 units):
   - PSY 310 History and Systems in Psychology (3)
   - PSY 312 Social Psychology (3)
   - PSY 313 Clinical and Abnormal Psychology (3)
   - PSY 314 Behavioral Neuroscience (4)
2. Six (6) units of coursework from any psychology courses at the 300 level or above (6 units).
MINOR IN DEVELOPMENTAL PSYCHOLOGY

(Child and Adolescent Emphasis) (18-19 units)
The minor in developmental psychology gives students concentrated exposure to the methods and theories related to how children and adolescents develop. Cognitive, emotional, and social perspectives will be covered as well as methods for psychological assessment. The minor in developmental psychology is appropriate for students interested in understanding how human developmental perspectives can influence their major field of study.

LOWER-DIVISION REQUIREMENTS (6 UNITS)
1. Each of the following courses (6 units):
   - PSY 210 Learning, Cognition, & Development (3)
   or
   - PSY 211 Cognition and Learning (3)
   - PSY 213 Developmental Psychology (3)

UPPER-DIVISION REQUIREMENTS (12-13 UNITS)
1. One course from the following list (3 units):
   - PSY 310 History and Systems in Psychology (3)
   - PSY 312 Social Psychology (3)
   - PSY 313 Clinical and Abnormal Psychology (3)
   - PSY 314 Behavioral Neuroscience (4)
2. Three courses from the following list (9 units):
   - PSY 333 Measurement and Testing of Groups and Individuals (3)
   - PSY 345 Individuals with Disabilities & Society (3)
   - PSY 415 Assessment of Children (3)
   - PSY 445 Adolescent Development (3)
   - PSY 461 Advanced Topics in Child and Adolescent Development (3)

SOCIOLOGY

PROGRAMS OFFERED
- Bachelor of Arts in Sociology
- Minor in Sociology

Sociology is the systematic study of the organization, dynamics and consequences of social life. The scope of the discipline is as broad and diverse as social life itself. The subject matter of sociology ranges from the intimate family to the hostile mob, from crime to cults, from the divisions of inequities of race, ethnicity, nationality, gender, and class to the beliefs of a common culture, and from work to leisure and sport. The Sociology major at CSUCI is designed to give students the ability to analyze the world around them, its people and institutions, from local and particular issues that affect people in Ventura County and the region to national and international questions. The program stresses the mission of CSUCI: we value interdisciplinarity and we emphasize the multicultural, global perspective which is the hallmark of Channel Islands programs. Graduates of the Sociology Program will be well-trained in the empirical methodology of the discipline to engage in the systematic study of human social interaction and institutions. The Sociology major will prepare students for further study and for entry into a variety of professional paths.

CAREERS
A B.A. degree in sociology can lead to career opportunities in law, management, marketing, public relations, journalism, social work, urban and environmental planning, public services, teaching, corrections, counseling, human resources, state and federal employment, and other professions. Sociology graduates are employed in both the for-profit and non-profit sectors. Many business, political science, prelaw and other students take sociology as a minor or a second major because of the applicability of sociology to their chosen professions. Graduate study can also lead to careers within the academy doing teaching and research, as well as careers in applied research in social service, public planning, education, mental health, business, and various governmental settings.

PROGRAM LEARNING OUTCOMES
The Sociology Program at CSUCI has stated goals and learning objectives (see http://sociology.csuci.edu/redesign/learningobjectives.htm). The core set of skills that students acquire can be expressed as follows:
1. Students graduating with a B.A. shall be able to articulate the sociological perspective on human behavior. Students shall be able to describe how sociology is different from and similar to other, related social sciences; apply sociological concepts and principles to a variety of problems; and express the contributions of sociology to understanding social reality.
2. Students shall be able to articulate the role of theory in building knowledge. They shall be able to understand the major theories, both classical and contemporary, and competing current orientations in the discipline. They shall demonstrate knowledge of the history of their own discipline.

3. Students will demonstrate solid training in understanding the role of evidence in the social sciences, and the use of both quantitative and qualitative research strategies. This will include demonstrated ability to independently carry out a research project. Students will be able to compare and contrast basic approaches for data collection, and be able to critically assess published studies.

4. Students shall be able to define, give examples, and demonstrate knowledge of core concepts in sociology and their theoretical relationships.

5. Through the sociology program, students should clearly understand issues of inequality and difference in the field, especially as manifested by class, race, ethnicity, sexuality, gender, age.

6. Students will demonstrate study in depth in at least one area of sociology, so that they will be able to summarize basic questions and issues in the area, compare theoretical orientations, summarize current research in the area, and be able to demonstrate understanding of policy implications.

7. Sociologists demonstrate good critical thinking skills, being able to identify assumptions that underlie theoretical and methodological approaches and orientation.

8. Students of sociology are global citizens, such that they can articulate the role of sociology in understanding how social facts can differ across cultures, demonstrate how social developments in one part of the globe affect developments in other parts, and so on. Students of sociology are local citizens as well, demonstrating how social facts manifest in their own communities and regions through sociological research and practice.

9. Finally, students will demonstrate an ability to communicate effectively what they know about sociology, through clear written and oral communication. They should demonstrate preparedness to embark upon a profession related to the field of sociology or to continue study at the graduate level.

**REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE IN SOCIOLOGY (120 UNITS)**

The Sociology Major is a 39 Unit major. Students are encouraged to declare a second major or minor in a related discipline, depending on their interests.

**LOWER DIVISION REQUIREMENTS (6 UNITS)**

SOC 100  Introduction to Sociology (3)  
SOC 201  Social Problems in a Service Learning Context (3)

**UPPER DIVISION REQUIREMENTS (24 UNITS)**

SOC/ 303  Statistical Applications In The Social Sciences (3)  
SOC 310  Research Methods In Sociology (3)  
SOC/ 330  Political Sociology (3)  
POLS 350  Stratification And Social Class (3)  
SOC 360  Race & Ethnicity (3)  
SOC 410  Sociology Of Gender And Sexuality (3)  
SOC 420  Sociological Theory (3)  
SOC 499  Capstone (3)

**UPPER DIVISION ELECTIVES (9)**

Choose from the following list:

SOC 490  Topics In Sociology (3)  
SOC 492  Field Experience In Sociology (1-3)  
SOC 494  Independent Study In Sociology (1-3)  
ANTH 332  Human Ecology (3)  
BIOL 333  Emerging Public Health Issues (3)  
ESRM 328  Introduction To Geographic Information Systems (3)  
POLS 325  American Public Policy (3)  
PSY 312  Social Psychology (3)  
PSY 445  Adolescent Development (3)  
PSY 457  Criminal Behavior (3)

**REQUIRED SUPPORTING, GE ELECTIVE COURSES (81 UNITS)**

American Institutions Requirement (6)  
Other GE Courses (45)  
Electives (30)

---

**REQUIREMENTS FOR THE MINOR IN SOCIOLOGY (18 UNITS)**

**LOWER-DIVISION REQUIREMENTS**

(including pre-/co-requisites)

SOC 100  Introduction to Sociology (3)  
SOC 201  Social Problems in a Service Learning Context (3)

**UPPER-DIVISION REQUIREMENTS**

(including pre-/co-requisites)

12 Units chosen from among the following (all of these are core requirements for the major):

SOC 310  Research Methods in Sociology (3)  
SOC/ 330  Political Sociology (Same as POLS) (3)  
SOC 350  Stratification and Social Class (3)  
SOC 360  Race, Ethnicity and Power (3)  
SOC 410  Sociology of Gender and Sexuality (3)  
SOC 420  Sociological Theory (3)  
SOC 490  Topics in Sociology (3)  
(Repeatable once to count for the minor)
SPANISH

PROGRAM OFFERED
• Bachelor of Arts in Spanish
• Minor in Spanish

The Spanish program at CSUCI provides students the opportunity to develop their Spanish-language skills while deepening their knowledge and appreciation of the peoples and cultures of the Hispanic world. Spanish is the first language of approximately 400 million people in 21 countries. Hispanic cultures and peoples form an integral part of U.S. history and society, and Spanish is the most prevalent second language in California and in most regions of the country.

Being bilingual is a tremendous asset and can open doors to students entering numerous occupations and careers, such as advertising, agriculture, business, government, health services, interpreting, journalism, law, public relations, social services, teaching, translation, and the travel industry. These fields, and many others, increasingly seek candidates who possess Spanish language ability and cultural sensitivity. The program addresses the needs of students by preparing them for an increasingly pluralistic and globally oriented society, as well as a competitive career world.

The B.A. in Spanish is thirty-four (34) units, providing students the opportunity to pursue a minor in another discipline or even a second major. The Spanish minor is twenty (20) units. Students can choose course work that focuses on language, culture, linguistics, literature, Spanish for careers, translation, and art or history. All courses with a SPAN prefix are taught in Spanish so that students develop proficiency in the language. Spanish majors and minors are encouraged to participate in a study abroad program.

PROGRAM LEARNING OUTCOMES
Students graduating from the Spanish program will be able to:
• achieve intermediate-high to advanced language proficiency in speaking, listening, reading and writing (proficiency levels are defined by the American Council on the Teaching of Foreign Languages); and
• demonstrate a reasonable understanding of the ways of thinking (ideas, beliefs, attitudes, values, philosophies), behavioral practices (patterns of social interactions), and the cultural products (for example, art, history, literature) of the Spanish-speaking world.

REQUIREMENTS FOR THE MAJOR IN SPANISH (34 UNITS)

PREREQUISITES
Spanish majors will have completed the equivalent of first year college level Spanish in high school, at a community college, or by completing SPAN 101 and SPAN 102 at CSUCI, prior to beginning the Spanish major.

LOWER DIVISION REQUIREMENTS (8 UNITS)
Students must take eight (8) units of second-year Spanish courses:
SPAN 201 Intermediate Spanish I (4), and
SPAN 202 Intermediate Spanish II (4); or
SPAN 211 Spanish for Heritage Speakers I (4), and
SPAN 212 Spanish for Heritage Speakers II (4).

UPPER DIVISION REQUIREMENTS (26 UNITS)
Students with intermediate high language proficiency may begin the major by taking upper-division courses. Student proficiency will be determined according to the proficiency guidelines developed by the American Council on the Teaching of Foreign Languages, and will be assessed by the Spanish faculty. For these students, a total of 34 units of upper-division courses are required to complete the Spanish major.

All Spanish majors must complete at least 11 units of 400-level courses with a SPAN prefix.

CORE (11 UNITS)
All students must take one course from each of the following categories.

Language
SPAN  301 Advanced Spanish: Part One (3) or
SPAN  302 Advanced Spanish: Part Two (3)

Literature
SPAN  310 Introduction to Prose, Poetry and Drama (3)

Culture
SPAN  410 Civilizations and Cultures of Spain (3) or
SPAN  411 Civilizations and Cultures of Latin America (3)

Capstone
SPAN  499 Capstone in Spanish (2)

Electives (15 units)
SPAN* 301 Advanced Spanish: Part One (3) or
SPAN  302 Advanced Spanish: Part Two (3)
SPAN  304 Spanish for Careers and Professions (3)
SPAN  311 Estudios literarios bilingües (3) (cross-listed as ENGL 311 Bilingual Literary Studies)
SPAN  315 Contrastive Features of Spanish and English (3)
Programs and Degrees

SPAN 320 Introduction to Spanish Translation (3)
SPAN* 410 Civilizations & Cultures of Spain (3) or
SPAN 411 Civilizations and Cultures of Latin America (3)
SPAN 415 Spanish Language Variation and Diversity (3)
SPAN 420 Specialized Spanish Translation (3)
SPAN 460 Masterpieces of Spanish Literature (3)
SPAN 461 Masterpieces of Latin American Literature (3)
SPAN 490 Special Topics in Spanish (3)

*Students may choose as electives courses found in the Core, provided the 11-unit core is completed.

One of the following courses may also be chosen as an elective for the Spanish major:
ART/ 333 History of Southern California Chicana/o Art (3)
ENGL/ 334 Narratives of Southern California (3)
ENGL 453 Hispanic/Hispanic American Literature (3)
HIST 402 Southern California Chicano/a History and Culture (3)
HIST 420 History of Mexico (3)
HIST 421 Revolutionary Mexico, 1876-1930 (3)

REQUIREMENTS FOR THE MINOR IN SPANISH (20 UNITS)
The Spanish minor provides students the opportunity to develop their Spanish-language skills while deepening their knowledge of the peoples and cultures of the Hispanic world. Students can choose from coursework which focuses on language, linguistics, culture, Spanish for careers, literature, translation, and art or history.

LOWER DIVISION REQUIREMENTS (8 UNITS)
SPAN 201 Intermediate Spanish I (4), and
SPAN 202 Intermediate Spanish II (4); or
SPAN 211 Spanish for Heritage Speakers I (4), and
SPAN 212 Spanish for Heritage Speakers II (4).

UPPER DIVISION REQUIREMENTS (12 UNITS)
Select Four (4) Courses from the Following:
SPAN 301 Advanced Spanish: Part One (3)
SPAN 302 Advanced Spanish: Part Two (3)
SPAN 304 Spanish For Careers and Professions (3)
SPAN 310 Introduction To Prose, Poetry and Drama (3)
SPAN/ 311 Bilingual Literary Studies/ Estudios Literarios Bilingües (3)
SPAN 315 Contrastive Features of Spanish and English (3)
SPAN 320 Introduction To Spanish Translation (3)
SPAN 410 Civilizations and Cultures Of Spain (3)
SPAN 411 Civilizations and Cultures Of Latin America (3)
SPAN 415 Spanish Language Variation and Diversity (3)
SPAN 420 Specialized Spanish Translation (3)
SPAN 421 Spanish For Educators I (3)
SPAN 422 Spanish For Educators II (3)
SPAN 460 Masterpieces of Spanish Literature (3)
SPAN 461 Masterpieces of Latin American Literature (3)
SPAN 490 Special Topics In Latin American Literature (3)
ART/ 333 History of Southern California Chicana/o Art (3)
Course Descriptions
ACCOUNTING

ACCT 210 FINANCIAL ACCOUNTING (3)
Three hours lecture per week
Introduction to accounting principles: accumulation, measurement, and evaluation of accounting data. Topics include internal controls, financial statement analysis and interpretation, and use of spreadsheets in accounting applications.

ACCT 220 MANAGERIAL ACCOUNTING (3)
Three hours lecture per week
Prerequisite: ACCT 210
Continues the exploration of accounting principles and topics: investing and financing activities, cost and budgeting systems, cash flow analysis, accounting for debt and equity, and introduces using accounting data for decision making.

ACCT 290 FINANCIAL AND MANAGERIAL ACCOUNTING: INTENSIVE REVIEW (1)
Prerequisite: ACCT 210 and 220 or equivalent
Co-requisites: ACCT 300
This course is an intensive in-depth review of the effect of accounting transactions on the basic financial statements, the uses and limitations of basic financial statements, cost function, cost behavior, and the impact of cost function and behavior on the basic financial statements and decision making. This accelerated course meets six hours each of the first three Saturdays of a semester.
Graded Credit/No Credit

ACCT 300 APPLIED MANAGERIAL ACCOUNTING (3)
Three hours lecture per week
Prerequisite: ACCT 210 and 220 or equivalent courses
Presents and analyzes the principles, methods, procedures, and applications for managerial accounting. Topics include understanding the business environment, cost concepts and classifications, job-order costing, process costing, cost behavior and relationships to volume and profits, variable costing, Activity Based Costing, profit planning, standard costs, relevant costs, capital budgeting decisions, cash flows, Economic Value Added, and financial statement analysis.

ACCT 490 SPECIAL TOPICS (3)
Three hours seminar per week
Prerequisite: Consent of the instructor
In-depth analysis of current topics in accounting. Topics vary each semester. Repeatable by topic.

ACCT 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Enrollment in this course is with permission of faculty member in charge. Individual internship through service learning.
Graded Credit/No Credit
ACCT 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study on topics or research selected by the student and faculty mentor. Repeatable for up to nine units.
Graded Credit/No Credit

ANTH 102 CULTURAL ANTHROPOLOGY (3)
Three hours lecture per week
The study of recent and modern societies using a cross-cultural perspective to gain an understanding on the range of human expression in culture and society. Issues discussed include ethnicity, gender, family structure, kinship, sex and marriage, socio-economic class, religion and the supernatural, language and culture, economics, political and social organization, art, and culture change. Student Option: Graded or CR/NC
GenEd: C3B,D

ANTH 310 CIVILIZATIONS OF AN ANCIENT LANDSCAPE: WORLD ARCHAEOLOGY (3)
Three hours lecture per week
Traces the relationship between the physical geography and the development of ancient civilizations in Pre-Columbian America, Africa, Asia, and Europe, beginning with the post-glacial period and ending with the rise of feudalism in Europe and Japan and including change from hunting and gathering groups to sedentary agriculturalists and pastoralists giving rise to later complex social organizations. Examines art, architecture, science, religion, trade economic and social systems. Student Option: Graded or CR/NC
GenEd: C3B,D

ANTH 323 NATIVE AMERICANS OF CALIFORNIA TO THE 1850S (3)
Three hours lecture per week
This course examines the development of Native American peoples and cultures in California as they adapted to diverse environments. The environmental history of the last glacial and post-glacial periods will be examined to provide a backdrop for human history. Using archaeological, historical, and ethnographic sources, the culture history of California’s Native Americans will be traced from antiquity to the 1850s. The impact of Spanish exploration, colonization, and the mission system will be traced from the perspectives of both the Native Americans and their colonizers. Student Option: Graded or CR/NC
GenEd: C3B,D

ANTH 332 HUMAN ECOLOGY (3)
Three hours lecture per week
This human ecology course places humans into the environment in historical and global contexts. Discusses systems theory as it applies to human adaptation to the environment. Studies the relations among political power, ideology, and resources, integrating concepts from ecology with those from social sciences. Theories and forecasts of human population growth and migration among regions and cultures. Social and environmental impacts of population and age distribution. Natural resource constraints on growth. Topics from land development, resource planning, environmental quality, politics, economic growth, conflicts and wars.
Same as ESRM 332
GenEd: D, Interdisciplinary

ANTH 345 HUMAN EVOLUTION AND DIVERSITY (3)
Three hours lecture per week
Human biological evolution from the African savannah of 5 million years ago to the present, focusing upon adaptation to environmental conditions, disease, diet. Includes segments on ecology, evolutionary theory, genetics, natural selection, non-human primates. Discusses the concept of race from an anthropological perspective. Includes issues of speciation and race, adaptation to cold, heat, desert, tropics, and diseases. Compares ethnicity vs. race.
Student Option: Graded or CR/NC
GenEd: B2, Interdisciplinary

ANTH 442 THE AFRICAN DIASPORA (3)
Three hours lecture per week
Examines the dispersal of Africans to other continents over the last two thousand years. Special attention will be paid to the African slave trade, identity formation, and nationalism. The course employs interdisciplinary methods borrowed from anthropology, art history, linguistics, and literature.
Same as HIST 442
GenEd: D, Interdisciplinary

ANTH 443 MEDICAL ANTHROPOLOGY: CROSS-CULTURAL PERSPECTIVES ON HEALTH AND HEALING (3)
Three hours lecture per week
This course provides a cross-cultural perspective on human health issues. Uses biological, cultural, and behavioral approaches to understanding the concepts of diseases and their treatment, ethnoscientific, health, and complementary and alternative medicine placed in a global perspective.
Student Option: Graded or CR/NC
GenEd: D, Interdisciplinary

ANTH 490 SEMINAR IN ANTHROPOLOGY (3)
Three hours seminar per week
Prerequisite: Consent of the instructor
This seminar explores a different topic each term. Repeatable by topic.
Student Option: Graded or CR/NC
ANTH 492 SERVICE LEARNING/INTERNSHIP (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual internship through service learning.
Graded Credit/No Credit

ANTH 494 INDEPENDENT STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study/research on topics selected by the student for further study.
Graded Credit/No Credit

ART

ART 100 UNDERSTANDING FINE ARTS PROCESSES (3)
Two hours lecture and two hours laboratory per week
Entry level art experience for non Art majors. This course integrates elements of drawing, painting, sculpture and mixed media techniques. Students gain an understanding of the function of Art in everyday life through participation in the artistic process.
GenEd: C1

ART 102 MULTICULTURAL CHILDREN'S ART (3)
Two hours lecture and two hours laboratory per week
Hands-on creation of artistic projects emphasize the importance of art in the child's development and the understanding of multicultural art traditions in subject matter, materials and processes. Historical contexts and indigenous aesthetics are investigated as they relate to the development of primary skills and appreciation for art and the creative process.
GenEd: C1,C3B

ART 105 DRAWING AND COMPOSITION (3)
Six hours laboratory per week
Basic fundamentals of drawing are explored through the use of various techniques and media. Investigations into line, value, perspective and composition as related to surface and pictorial space is also investigated.

ART 106 COLOR AND DESIGN (3)
Six hours laboratory per week
Explorations in basic color theory are conducted within two-and three-dimensional design contexts. Visual elements including line, shape, form and texture are explored incorporating elements of color interaction, harmony and dissonance within a variety of visual motifs.

ART 107 LIFE DRAWING (3)
Six hours laboratory per week
The study of the human figure and its representation depicted through gesture, contour value and volume. Anatomy, proportion, foreshortening and structure are explored through observation of props and live models.

ART 108 VISUAL TECHNOLOGIES (3)
Two hours lecture and two hours laboratory per week
An introductory survey of visual technologies commonly used by artists and designers. Projects explore software applications as they relate to current methods of digital art production. Emphasis is on the development of fundamental computer skills and an understanding of the relationship between digital media and visual design.

ART 110 PREHISTORIC ART TO THE MIDDLE AGES (3)
Three hours lecture per week
Survey of the history of art, artifacts and architecture from the Prehistoric era through the Gothic period. The examination of cultural and conceptual contexts will trace the early development of Western artistic traditions.
GenEd: C1

ART 111 RENAISSANCE TO MODERN ART (3)
Three hours lecture per week
Survey of the history of art and architecture from the European Renaissance through Modern Art. Cultural and conceptual contexts will examine the evolution of the art object as a form of Western cultural expression.
GenEd: C1

ART 112 ART OF THE EASTERN WORLD (3)
Three hours lecture per week
Exploration of painting, architecture and crafts of India, China, Japan and Southeast Asia. An examination of artistic, cultural, and historical events explores the exchange of influences and ideas related to Eastern cultures.
GenEd: C1,C3B

ART 201 PAINTING (3)
Six hours laboratory per week
Prerequisite: ART 105, ART 106, and ART 107
An introduction to basic painting materials and techniques. Experiments in representational and abstract painting will explore oil, acrylic, and water-based media. Particular emphasis will be on the development of fundamental skills and the understanding of color, shape, surface and pictorial structure.

ART 202 SCULPTURE (3)
Six hours laboratory per week
Prerequisite: ART 105, ART 106, and ART 107
An introduction to basic sculpture materials and techniques. Experiments in representational and abstract sculpture will explore a variety of three-dimensional materials through additive and subtractive sculptural processes. Particular emphasis will be on the development of fundamental skills and the understanding of design, form and structural elements.
ART 203 ILLUSTRATION (3)
Six hours laboratory per week
Prerequisite: ART 105, ART 106, and ART 107
An introduction to basic materials and rendering techniques utilized in commercial illustration including a variety of media and styles exploring quash, colored pencils, pen and ink, pastels and markers. Emphasis is on the development of fundamental skills and concepts required to execute successful illustrations.

ART 204 GRAPHIC DESIGN (3)
Six hours laboratory per week
Prerequisite: ART 105 or ART 106 or ART 108 or consent of instructor
An introduction to basic concepts in graphic design for print and electronic media. Projects incorporating traditional and digital media explore typography, layout and visual design. Particular emphasis is on the development of fundamental skills leading to the ability to communicate ideas through the use of text and visual imagery.

ART 205 MULTIMEDIA (3)
Six hours laboratory per week
Prerequisite: ART 105 or ART 106 or ART 107 or COMP 105 or consent of instructor
An introduction to techniques and concepts involved in the production of interactive multimedia. Projects explore basic interactive technologies utilized in the creation of digital graphics, websites and computer game designs.

ART 206 ANIMATION (3)
Six hours laboratory per week
Prerequisite: ART 105 or ART 106 or ART 107 or ART 108 or COMP 105 or consent of instructor
An introduction to basic techniques and processes involved in the production of animation. Projects include elements of concept and story development, character design, story boarding, timing, key framing, inbetweening, and cell production leading to the creation of short works in animation.

ART 207 CERAMICS (3)
Six hours laboratory per week
Prerequisite: ART 105 and ART 106
Explorations into a wide variety of ceramic ideas, techniques and materials utilized in the development of hand-building methods as applied to sculptural and vessel forms. Basic competence with the potter's wheel will also be covered.

ART 208 THE PHYSICS OF ART AND VISUAL PERCEPTION (3)
Two hours lecture and two hours lab per week
A course on the physics of light, color, art and visual perception. The course will cover the nature of light and optical phenomena, the perception and psychology of color, the reproduction of color in different media, and the analysis of art from a science perspective. The emphasis is on factors which permit the artist and observer to understand and more fully control the design and interpretation of images of all kinds. Demonstrations, experiments, and video/computer simulations are used to analyze signals received by the eyes or instruments.
Same as PHYS 208
GenEd: B1,C1

ART 230 THE ART OF CREATING JOURNALISM (3)
Three hours lecture per week
Prerequisites: ENGL 103 or ENGL 105
This course will integrate concepts from English/journalism, Education and Art. It is designed for students interested in producing print and photo journalism for local community publications. Topics will include journalistic writing styles and techniques, research strategies, interviewing methods, appropriate layout and design techniques. Projects will culminate in a product suitable for publication. No credit given toward the Art major.
GenEd: A2
Same as ENGL 230 and LS 230

ART 310 TWO-DIMENSIONAL ART: PAINTING MEDIA AND TECHNIQUES (3)
Six hours laboratory per week
Prerequisite: ART 108 and ART 201
Studio projects explore media and methodologies in painting, drawing and related two-dimensional art forms. Assignments emphasize the integration of traditional art materials and techniques with related digital art technologies in the creation of two-dimensional art projects.

ART 311 THREE-DIMENSIONAL ART: SCULPTURE MEDIA AND TECHNIQUES (3)
Six hours laboratory per week
Prerequisite: ART 108 and ART 202
Studio projects explore media and methodologies in sculpture, ceramics and other three-dimensional art forms. Assignments emphasize the integration of traditional art materials and techniques with related digital art technologies in the creation of three-dimensional art projects.
ART 312 DIGITAL MEDIA ART:
TIME-BASED IMAGING AND COMPOSITING (3)
Six hours laboratory per week
Prerequisite: ART 108 and ART 205
Studio projects explore media and methodologies in
digital imaging and non-linear compositing for time-based art, digital video and digitally generated animation. Assignments emphasize the integration of traditional art techniques with emerging digital technologies in the development of time-based digital art projects presented on video, CD Rom and DVD.

ART 313 COMMUNICATION DESIGN TECHNOLOGY:
GRAPHIC DESIGN FOR PRINT MEDIA (3)
Six hours laboratory per week
Prerequisite: ART 108 and ART 204
Studio projects explore media and methodologies in
typography and graphic design for print media. Assignments emphasize the integration of traditional design concepts with digital art technology in projects created for print and Internet applications.

ART 314 DIGITAL MEDIA ART:
DIGITAL PHOTOGRAPHY (3)
Six hours laboratory per week
Prerequisite: ART 108
An introduction to digital photography as an art form. Investigations into photographic processes include camera techniques, lighting, color imaging, photographic composition and visual design. Digital photographic software applications, monochrome prints and digital color image manipulation will be explored as related to photographic media and traditions. Photography as a commercial medium will also be investigated.

ART 315 ANIMATION MEDIA AND TECHNIQUES (3)
Six hours laboratory per week
Prerequisite: ART 206
Specialized media and artistic techniques utilized in the creation of animation are incorporated in the production of projects for video, film, multimedia and the Internet. Individual and group assignments explore a range of traditional materials combined with emerging digital processes to produce completed works in animation.

ART 320 TWO-DIMENSIONAL ART:
PAINTING THEORY AND PROCESS (3)
Six hours laboratory per week
Prerequisite: ART 310
Studio topics explore thematic approaches in the development of visual continuity and technical competency working in painting, drawing and related art processes. At this phase of study, projects focus on the integration of artistic concept, technique and proficiency in the use of two-dimensional media in the creation of individual works of art. Repeatable for up to 6 units.

ART 321 THREE-DIMENSIONAL ART:
SCULPTURE THEORY AND PROCESS (3)
Six hours laboratory per week
Prerequisite: ART 311
Studio topics explore theoretical approaches in the development of visual continuity and technical competency working in sculpture, ceramics and related art processes. At this phase of study, projects focus on the integration of artistic concept, technique and proficiency in the use of three-dimensional media in the creation of individual works of art. Repeatable for up to 6 units.

ART 322 DIGITAL MEDIA ART:
TIME-BASED GRAPHICS AND VISUAL EFFECTS (3)
Six hours laboratory per week
Prerequisite: ART 312
Studio topics explore thematic projects involving visual continuity and technical competency working in digital time-based art, animated graphics and visual effects. Projects focus on the integration of artistic concept and technological proficiency in the creation of time-based digital art presented on video, CD Rom and DVD. Repeatable for up to 6 units.

ART 323 COMMUNICATION DESIGN TECHNOLOGY:
PACKAGING AND PRE-PRESS (3)
Six hours laboratory per week
Prerequisite: ART 313
Studio topics explore thematic approaches in the development of visual continuity and technical competency working in graphic design, production art and product identity in preparation for mass media distribution. At this phase of study, projects focus on the integration of artistic concept and technological proficiency in the creation of design projects for print, packaging, and publishing. Repeatable for up to 6 units.

ART 324 COMMUNICATION DESIGN TECHNOLOGY:
WEB DESIGN (3)
Six hours laboratory per week
Prerequisite: ART 204 and ART 205
Studio projects investigate artistic techniques and digital applications leading to the design and implementation of Websites. The course explores factors that affect Web layout and design, such as browser, screen resolution, navigation, connection speed, typography, graphics, and color. An introduction to basic HTML will also be covered. Repeatable for up to 6 units.

ART 325 DIGITAL MEDIA ART:
DIGITAL FILMMAKING (3)
Six hours laboratory per week
Prerequisite: ART 312 and ART 314
Studio projects focus on filmmaking as an art form. Emerging digital technologies simulate traditional motion picture production. Assignments include aspects of producing, storyboarding, directing, cinematography, lighting, and editing in digital formats, resulting in short digital film projects presented on DVD. Repeatable for up to 6 units.
ART 326 DIGITAL MEDIA ART: 3-D COMPUTER ANIMATION (3)
Six hours laboratory per week
Prerequisite: ART 206 and ART 312 or consent of the instructor
Studio projects explore applications of digital technologies utilized in the production of 3D Computer Animation. Assignments involve character design, wire frame modeling, texture mapping, lighting techniques, motion paths and animation techniques. Class projects result in the creation of CGI and 3D animation presented on video or DVD. Repeatable for up to 6 units.

ART 327 COMMUNICATION DESIGN TECHNOLOGY: MULTIMEDIA THEORY AND PROCESS (3)
Six hours laboratory per week
Prerequisite: ART 206 or ART 312 or consent of instructor
In-depth exploration of artistic techniques and visual concepts involved in the production of interactive multimedia. Projects investigate interactive technologies utilized in the design and creation of digital graphics, websites and computer games while emphasizing creative project development and artistic skills. Repeatable for up to 6 units.

ART 328 DIGITAL MEDIA ART: PHOTOGRAPHIC THEORY AND PROCESS (3)
Six hours laboratory per week
Prerequisite: ART 314
Artistic theories and digital imaging processes involved in photography as an art form and commercial medium are explored through in-depth projects including camera techniques, lighting, color imaging, photographic composition and visual design. Digital photographic software applications utilized in the creation of color and monochrome prints as well as custom image manipulation will be investigated. A focus on subject matter, history and trends in photographic media will also be covered. Repeatable for up to 6 units.

ART 329 THREE-DIMENSIONAL ART: CERAMICS THEORY AND PROCESS (3)
Six hours laboratory per week
Prerequisite: ART 207
In-depth exploration into sculptural and throwing skills, including theories and processes involved in glaze materials and specialized ceramic techniques. Functionality of gas and electric kilns in oxidation and reduction atmospheres will also be covered through individual and class projects that explore the application of ceramic technology and media as a vital and expressive art form. Repeatable for up to 6 units.

ART 330 CRITICAL THINKING IN A VISUAL WORLD (3)
Three hours lecture per week
A critical look at subjective responses and objective reasoning in the assessment of visual images that permeate every day aspects of contemporary life. Comparative studies evaluate the psychological impact of corporate logos, religious iconography and secular symbolism. The genesis of cultural icons is investigated from a historical perspective in relationship to their role in a global society. GenEd: C1,Interdisciplinary

ART 331 ART AND MASS MEDIA (3)
Three hours lecture per week
The study of synergetic relationships between visual art and human communication dating back to the roots of civilization. Comparative studies in art and communication link ancient traditions to the development of contemporary mass media including print, photography, film, television and the Internet. GenEd: C1,D,Interdisciplinary

ART 332 MULTICULTURAL ART MOVEMENTS (3)
Three hours lecture per week
A exploration into the arts and crafts originating in African, Asian, Latin American, Middle Eastern and Native American cultures. Emphasis is on the understanding of traditions and historical contexts as well as the exploration of indigenous methods and aesthetics. GenEd: C1,C3B,Interdisciplinary

ART 333 HISTORY OF SOUTHERN CALIFORNIA CHICANA/O ART (3)
Three hours lecture per week
An exploration of the Southern California Chicano/a culture focusing on the genesis, vitality and diversity represented in the painting, sculpture and artistic traditions of Mexican American artists. Historical movements, politics, cultural trends and Mexican folklore underlying the development of this dynamic style of art will be investigated within a variety of contexts. Same as HIST 333
GenEd: C3B,D,Interdisciplinary

ART 334 THE BUSINESS OF ART (3)
Three hours lecture per week
Exploration into aspects of "art world" business including the financial activities of art consultants, private dealers, commercial galleries, corporate art collections, public museums and international auction houses. Case studies in art marketing, gallery and museum management, contracts and commissions, as well as public image and career development will be investigated. Same as BUS 334
GenEd: C1, D, Interdisciplinary
ART 335 AMERICAN ETHNIC IMAGES IN NOVELS, FILM AND ART (3)
Three hours lecture/discussion per week
Examines the portrayal of ethnic groups from an interdisciplinary perspective that includes, but is not limited to, the literary, historical, and anthropological modes of analysis. The course highlights the ways in which artistic works have shaped the intellectual landscape of the United States as they relate to ethnic peoples.
Same as ENGL 335, HIST 335
GenEd: C2,C3B,Interdisciplinary

ART 336 ART AND MUSIC: DISSONANCE, DIVERSITY AND CONTINUITY (3)
Three hours lecture per week
An interdisciplinary analysis of the essential elements defining modern and contemporary art and music. Discusses how artistic characteristics and music issues of the period are connected and intertwined within specific historic and cultural environments.
Same as PAMU 336
GenEd: C1,D,Interdisciplinary

ART 337 ART AS FILM AND FILM AS ART (3)
Three hours lecture per week
An interdisciplinary study of the relationships between film and traditional visual arts such as painting, sculpture and architecture. Comparative analyses expose the visual and conceptual modalities of expression used by film and art to create symbolic meanings and reveal complex links that exist between still and moving images within specific artistic, cultural, and historical contexts.
GenEd: C1,D,Interdisciplinary

ART 338 PSYCHOLOGY OF ART AND ARTISTS (3)
Three hours lecture per week
An inquiry into the mind of the artist and the psychological dynamics that underlie the creative process. Emphasis is placed on deciphering personal allegory and universal symbolism hidden within a wide range of visual and conceptual genre in painting, sculpture, film and music. The self-image of the artist will be examined from private and public point of view.
Same as PSY 338
GenEd: C1,E,Interdisciplinary

ART 351 THE BAROQUE EYE: ART, CULTURE, MONEY AND POWER (3)
Three hours lecture per week
An exploration of the history of visual art and culture during the Baroque through early Romantic periods from the seventeenth into the early nineteenth centuries. This course investigates the complex mixture of visual representation, ideology, global aesthetics and economics in painting, sculpture, prints and the decorative arts in Europe, Asia, and the Middle East.
GenEd: C1

ART 352 VISUAL CANONS OF THE ANCIENT WORLD (3)
Three hours lecture per week
This course will discuss the main visual concepts developed during the ancient times. Using examples from Greek and Roman art as well as the ancient cultures of Egypt, Mesopotamia, Asia, and the Americas, this course will explore a variety of artistic paradigms developed in the early stages of human civilization.
GenEd: C1

ART 353 MEDIEVAL WORLD: SPIRITUALITY AND REPRESENTATION (3)
Three hours lecture per week
This course will investigate the essential visual modalities of expression and reflections developed during the medieval period. The discussions will include examples from the western as well as non-western tradition. This course will focus its analysis on revealing the diverse representation and visual meaning of medieval spirituality in a variety of historical and geographical contexts.
GenEd: C1

ART 383 SCENIC DESIGN (3)
Six hours activity per week
A studio/activities course utilizing artistic techniques involved in the development of scenic design for theatrical, musical and dance productions. Script analysis, scenery sketching, drafting ground plans, elements of set construction and scenic painting will be covered in a series of studio projects.
Same as PA 383

ART 420 ADVANCED ARTISTIC PROBLEMS: TWO-DIMENSIONAL ART (3)
Six hours laboratory per week
Prerequisite: ART 320
Investigations into the development of advanced concepts, innovative processes and personal artistic style working in two-dimensional art. Students achieve increased artistic depth and advanced technical proficiency in the development of a congruent body of work in painting, drawing and mixed media. Creation of a professional portfolio presented on slides and CD ROM is a required component of the course work. Repeatable for up to 6 units.
ART 421 ADVANCED ARTISTIC PROBLEMS: THREE-DIMENSIONAL ART (3)
Six hours laboratory per week
Prerequisite: ART 321
Investigations into the development of advanced concepts, innovative processes and personal artistic style working in three-dimensional art. Students achieve increased artistic depth and advanced technical proficiency leading to the development of a congruent body of work in three-dimensional media. Creation of a professional portfolio presented on slides and CD ROM is a required component of the course work. Repeatable for up to 6 units.

ART 422 ADVANCED ARTISTIC PROBLEMS: DIGITAL MEDIA ART (3)
Six hours laboratory per week
Prerequisite: ART 322 or ART 325 or ART 326 or ART 328
Investigations into the development of advanced concepts, innovative processes and personal artistic style working in digital media art. Students achieve increased artistic depth and advanced technical proficiency leading to the development of a congruent body of work. Creation of a professional portfolio presented on Video, CD ROM or DVD is a required component of the course work. Repeatable for up to 6 units.

ART 423 ADVANCED ARTISTIC PROBLEMS: COMMUNICATION DESIGN TECHNOLOGY (3)
Six hours laboratory per week
Prerequisite: ART 323 or ART 324
Investigations into the development of advanced concepts, innovative processes and personal artistic style working in communication arts and design technology. Students achieve increased artistic depth and advanced technical proficiency leading to the development of a congruent body of work. Creation and presentation of a professional portfolio in print and interactive CD ROM is a required component of the course work. Repeatable for up to 6 units.

ART 431 EUROPEAN RENAISSANCE LITERATURE AND ART (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ART 105 or equivalent
Examination of the literature and art of the Renaissance of the 15th and 16th centuries in Europe and England, focusing on the re-birth” of the human spirit and the legacies of the Renaissance artists and writers.”
Same as ENGL 431
GenEd: C1,C2,Interdisciplinary

ART 432 ARTS OF THE HARLEM RENAISSANCE (3)
Three hours lecture per week
Prerequisite: Upper division standing
Study focusing on the dramatic upsurge of creativity in art, music and literature resulting from social and political undercurrents in the African American cultural revolution in New York during the 1920s. Historical geneses and subsequent artistic legacies will also be explored.
Same as ENGL 432, PAMU 432
GenEd: C1,C2,Interdisciplinary

ART 433 WOMEN IN THE ARTS (3)
Three hours lecture per week
An investigation into the historical roles and influences of women artists in Western and non-Western traditions. Women as subject matter in painting, sculpture, photography, film and video will also be explored as related to artistic, social, historical and political issues.
GenEd: C1,D,Interdisciplinary

ART 434 THE MUSEUM: CULTURE, BUSINESS AND EDUCATION (3)
Three hours lecture per week
This course is an interdisciplinary, in-depth study of a museum from the perspective of art, business, and education. Analyzes how artistic values, business and management issues and educational projects are linked within museum practices. Each term this course is offered it will focus on a specific museum in the area.
Same as BUS 434, EDUC 434
GenEd: C1,D,Interdisciplinary

ART 435 POSTMODERN VISUAL CULTURE (3)
Three hours lecture per week
An examination of the major visual components of postmodern culture. This course will explore a wide range of issues related to the multicultural identity of contemporary culture. Developments in the 20th and early 21st centuries such as film, digital media, and critical theory as well as traditional visual forms of expression such as painting and sculptures will be discussed.
GenEd: C1,C3B,Interdisciplinary

ART 436 MODERN ART (3)
Three hours lecture per week
From nineteenth century Impressionism, through twentieth century Cubism, Surrealism, Abstract Expressionism and Pop Art, this course explores the gamut of concepts, periods, trends and “isms” of the modern era (1850-1970).
GenEd: C1,Interdisciplinary

ART 451 DIVERSITY IN THE VISUAL ARTS (3)
Three hours lecture per week
This course will explore the meaning of diversity in the visual arts. The cross-cultural and chronological examples will address stylistic and conceptual changes within the specificity of various traditions as well as in connection with the global artistic arena.
GenEd: C1,C3B
ART 489 ARTS SEMINAR (3)
Three hours activity per week
Prerequisite: Senior Standing
Students interact with guest speakers, visiting artists, and industry professionals in a seminar environment. This course also affords students the opportunity to assess their training and summarize artistic achievements through group and individual projects that help prepare them for a variety of careers in the arts.

ART 490 SPECIAL TOPICS IN ART (3)
Three hours activity per week
Prerequisite: Art Major, Upper Division Standing
Special topics explore a variety of themes investigating the relationships of art and artists to aspects of social commentary, multiculturalism, experimental genres, commerce, first amendment rights and the role of art in a global society. Topics are presented on a rotating basis. Students are given the opportunity to experience in-depth interaction with visiting artists, industry professionals, art scholars and academicians.

ART 492 INTERNSHIP IN THE ARTS (1-3)
Variable hours per week
Prerequisite: Senior Standing, Art Program portfolio review, and consent of the instructor
Experiential study in a professional artistic environment appropriate to student's interests and artistic goals. Service learning internship positions are arranged by the university, instructor or student in cooperation with local community organizations or businesses. Internship positions must meet specific criteria set by the Art program and University. Repeatable up to 3 units maximum.

ART 494 DIRECTED INDEPENDENT STUDY (1-3)
Variable hours per week
Prerequisite: Senior Standing, Art Program portfolio review, and consent of the instructor
Independent art projects are created in conjunction with the supervising faculty. Completed projects are presented for critique and assessment.

ART 499 ARTS CAPSTONE PROJECT (3)
One hour seminar and two hours field work per week
Prerequisite: Senior Standing, portfolio review and consent of the instructor
A culminating interdisciplinary experience in which students from various Art disciplines work in groups with fellow artists, non-art majors and community members on projects specifically designed to meet a common goal. Activities supervised by sponsoring faculty are executed on campus and/or on-site in conjunction with community organizations or businesses.

AMERICAN SIGN LANGUAGE

ASL 101 AMERICAN SIGN LANGUAGE (3)
Three hours of lecture per week
An introduction to American Sign Language (ASL) and the visual and expressive skills needed for basic communication in ASL including finger-spelling, vocabulary, and grammar. Appreciation for the culture and diversity of the Deaf community and the contributions of Deaf individuals to literature and the Arts.
GenEd: C3A

ASL 102 AMERICAN SIGN LANGUAGE II (3)
Three hours of lecture per week
A continuing exploration of American Sign Language (ASL) and the visual and expressive skills needed for basic communication in ASL including finger-spelling, vocabulary, and grammar. Appreciation for the culture and diversity of the Deaf community and the contributions of Deaf individuals to literature and the Arts.
GenEd: C3A

ASTRONOMY

ASTR 105 INTRODUCTION TO THE SOLAR SYSTEM (4)
Three hours lecture and two hours activities per week
Descriptive introduction to the astronomical properties of the Solar System. Topics include: the historical development of astronomy, the laws that govern the behavior of the Universe, the properties of the stars and galaxies, including their origin and evolution and the Big Bang theory. Activity sessions will include computer-simulated exercises, and 2 field trips.
Same as PHYS 105
GenEd: B1
**BINF 500 DNA & PROTEIN SEQUENCE ANALYSIS (3)**
Three hours lecture per week
Prerequisite: BIOL 400 or consent of the instructor
This course will introduce the computational aspects of biological inference from nucleic acid and protein sequences. Pairwise sequence comparison and multiple sequence alignment will be studied in detail. Additional topics include: RNA structure prediction, conserved sequence pattern recognition (sequence profile analysis), phylogenetic analysis algorithms, sequence data as a means to study molecular evolution, models and algorithms for genetic regulation, contig assembly, PAM and BLOSUM matrices, protein three dimensional structure prediction.

**BINF 501 BIOLOGICAL INFORMATICS (3)**
Three hours lecture per week
Prerequisite: BIOL 431 or consent of the instructor
This course describes relational data models and database management systems with an emphasis on answering biologically important questions; teaches the theories and techniques of constructing relational databases to store various biological data, including sequences, structures, genetic linkages and maps, and signal pathways. Topics include: relational database query language SQL and the ORACLE database management system, summary of currently existing biological databases, web based programming tools, data integration and security, future directions for biological database development.

**BINF 510 DATABASE SYSTEMS FOR BIOINFORMATICS (3)**
Three hours lecture per week
Prerequisite: BINF 501 and COMP 420, or consent of the instructor
This course is an applied, hands-on sequel to BINF 501, designed for students with interests in careers as professional programmers, analysts, designers, and managers involved in design or implementation of large bioinformatic systems. Covers concepts and methods for the design, creation, query and management of large enterprise databases, functions and characteristics of the leading database management systems. Topics include: object oriented database systems, distributed database systems, advanced database management topics, web application design and development, data warehouse systems, database mining.

**BINF 511 COMPUTATIONAL GENOMICS (3)**
Three hours lecture per week
Prerequisite: BINF 500 or consent of the instructor
This course applies the theories and algorithms taught in BINF 500 to real-life genomic data sets, with an emphasis on practical applications, hands-on analysis, integrated approaches and collaboration. Lecture and laboratory will explore the computational and engineering tools for analyzing genomic data. The relationships between sequence, structure, and function in complex biological networks will be studied using quantitative modeling.

**BINF 512 ALGORITHMS FOR BIOINFORMATICS (3)**
Three hours lecture per week
Prerequisite: BINF 500 or consent of the instructor
This course will cover advanced theory in the area of biological informatics and will build on concepts introduced in BINF 500. Topics include: methods to support construction and application of combinatorial biochemical libraries, applications of algorithmic information theory, string matching, dynamic programming, prediction of three-dimensional protein structure from peptide sequence.

**BINF 513 PROGRAMMING FOR BIOINFORMATICS (3)**
Three hours lecture per week
Prerequisite: BINF 501 and COMP 462 or equivalent, or consent of the instructor
This course will provide theory and practical training in the development of programming tools and data processing systems for use in genomic/sequence analysis. There will be a strong emphasis on the development of fully-functional web-based applications under the client/server model. Students will be required to complete a term project which will involve the development of a complete client/server application directed toward a relevant bioinformatics task.

**BINF 514 STATISTICAL METHODS IN COMPUTATIONAL BIOLOGY (3)**
Three hours lecture per week
Prerequisite: BIOL 202, MATH 151 or consent of the instructor
Techniques in statistical inference and stochastic modeling required for the interpretation and utilization of genomic data, including biological sequence alignment and analysis, sequence structure and function prediction, database searching, gene expression profiling, statistical genetics, phylogenetic inference and genetic epidemiology.
BIOL 100 EXPLORING THE LIVING WORLD (4)
Three hours lecture and three hours laboratory per week
An overview of biology from the molecular to the ecosystem level. Topics include the origin, diversity and evolution of life, ecology of populations and communities, the structure and function of plant and animal organ systems, biological molecules, cellular structure/function, genetics and cell division. No credit given toward the major in Biology. A lab fee is required.
GenEd: B2

BIOL 170 FOUNDATIONS OF LIFE SCIENCE (4)
Three hours lecture and three hours laboratory per week
This course meets the needs of prospective elementary school teachers. The course will cover a broad spectrum of topics including introduction to scientific inquiry with living organisms, physiology, cell biology, genetics, evolution and ecology. Current issues in biology will also be considered. The laboratories will focus on hands-on activities particularly relevant to elementary school students. No credit given toward the major in Biology. A lab fee is required.
GenEd: B2

BIOL 200 PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY (4)
Three hours lecture and three hours laboratory per week
An introduction to organismal biology including the diversity, comparative structure, organ system function, development, phylogeny, taxonomy and systematics of prokaryotes, protists, fungi, plants and animals. Discussion of the principles of evolution including speciation and natural selection, the environmental impact and ecosystem interaction of plants and animals, the behavior of animals, population genetics and population biology. A lab fee is required.
GenEd: B2

BIOL 201 PRINCIPLES OF CELL AND MOLECULAR BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 105 or CHEM 121
This course will cover principles of basic chemistry, biological macromolecules, prokaryotic and eukaryotic cell structure and function, homeostasis, metabolism including both respiration and photosynthesis, cell division, signal transduction, Mendelian genetics, molecular genetics including transcription and translation, and a brief introduction to virology and immunology. The philosophy of science, scientific method and experimental design are foundational to the course. A lab fee is required.
GenEd: B2

BIOL 202 BIOSTATISTICS (3)
Three hours lecture/laboratory per week
Prerequisite: A passing score on the Entry Level Mathematics Exam (ELM) or MATH 105 or equivalent
Critical reasoning using a quantitative and statistical problem-solving approach to solve real-world problems. Uses probability and statistics to describe and analyze biological data collected from laboratory or field experiments. Course will cover descriptions of sample data, probability and empirical data distributions, sampling techniques, estimation and hypothesis testing, ANOVA, and correlation and regression analysis. Students will use standard statistical software to analyze real world and simulated data.
Same as MATH 202, PSY 202
GenEd: B3

BIOL 203 QUANTITATIVE METHODS FOR BIOLOGY (3)
Three hours lecture per week
Prerequisites: A passing score on the Entry Level Mathematics Exam (ELM) or MATH 105 or equivalent.
This course introduces students in the biological sciences to the quantitative skills and technological tools necessary to evaluate the literature and carry out original research in the discipline. Topics include the principles of biological sampling design, hypothesis generation for biological experiments, collection of observational and experimental data, statistical analysis and interpretation of biological data, and the presentation of results. Laboratories will emphasize microcomputer technology and software applications likely to be encountered in the biological sciences.
GenEd: B3

BIOL 210 HUMAN ANATOMY AND PHYSIOLOGY I (4)
Three hours lecture and three hours laboratory per week
Study of gross and microscopic anatomy and physiology of the human body. Topics include homeostasis, cell structure/function, histology, the skeletal system, the muscular system, the digestive system and the nervous and sensory systems. A lab fee is required.

BIOL 211 HUMAN ANATOMY AND PHYSIOLOGY II (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 210
Study of gross and microscopic anatomy and physiology of the human body. Topics include the integumentary system, the endocrine system, the circulatory system, the immune system, the respiratory system, the urinary system and the reproductive system. A lab fee is required.

BIOL 212 NEUROBIOLOGY & COGNITIVE SCIENCE (3)
Three hours lecture per week
Prerequisite: BIOL 100 or BIOL 200 or BIOL 201
Principles of brain organization and function underlying behavior. Topics include neuroanatomy and physiology of language, vision, sexual behavior, memory and abnormal behavior.
Same as PSY 212
GenEd: B2, E
BIOL 213 SEX, GERMS AND DISEASES (3)
Three hours lecture/discussion per week
This is a course to introduce biology of sexually transmitted diseases and their impact on society. It covers reproductive system, factors in the spread of diseases, biology and pathogenesis of infectious agents and sexually transmitted diseases caused by bacteria, viruses, fungi and protozoa. Topics also include impact of current biotechnology in relation to vaccine development, treatment and improved diagnostics of these diseases as well as challenges of these diseases to economy, public health system, individuals, and society at large.
GenEd: B2, E

BIOL 214 FROM EGG TO ORGANISM (3)
Three hours lecture per week
How does a single cell give rise to a complex organism? How are stem cells produced and what are possible uses of stem cell lines? How are clones produced and what are the ethical considerations for cloning human beings? How are test tube babies produced? This course will explore answers to these questions by presenting an overview of developmental biology and then focusing on the impact of biotechnology on humankind. No credit given toward the major in biology.
GenEd: B2

BIOL 215 ANIMAL DIVERSITY (4)
Three hours lecture and three hours laboratory per week
This course will survey the animal kingdom emphasizing the continuity of animal life from simple to more complex body forms and life histories. The diversity of animal life is projected on a framework of basic ecological and evolutionary concepts. Human interactions with animals are explored through management and conservation issues as well as historical examples from the sciences of zoology, classification and evolution. Field trips to selected sites will allow direct examination of local animal diversity. A lab fee is required.
GenEd: B2

BIOL 217 MEDICAL MICROBIOLOGY (4)
Three hours of lecture and three hours of laboratory per week
Study of disease-causing microorganisms such as bacteria, viruses, fungi, protozoa and parasites, emphasizing microbial structure, genetics, physiology and pathogenesis of microorganisms. Topics also include interaction between pathogens and their hosts, animal and human diseases, diagnosis, treatment, disease prevention as well as impact of infectious diseases on psychology, society, economy and global affairs. Microbial culturing, identification, differentiation and clinical diagnostic assays will be studied in the laboratory. No credit given toward the biology major.
A lab fee is required.
GenEd: B2

BIOL 300 CELL BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 201 with a grade of C or better and CHEM 122
Detailed study of the organization and functioning of cells and cellular organelles at the cellular and molecular levels, emphasizing experimental approaches and structural and functional relationships and their regulation and control. Topics include macromolecules, membrane phenomena, metabolism, enzyme kinetics, and cellular events associated with excitable cells and tissues. A lab fee is required.

BIOL 301 MICROBIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 201 with a grade of C or better and CHEM 122
Study of microorganisms of the environment, including disease-causing organisms, their structures and functions and their interactions to their host animals and the environment. A lab fee is required.

BIOL 302 GENETICS (4)
Three hours lecture and one hour recitation per week
Prerequisite: BIOL 201 with a grade of C or better and CHEM 122
Principles of classical transmission genetics, population genetics, with an introduction to modern molecular genetics.

BIOL 303 EVOLUTIONARY BIOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 200 and 201
This course will examine principles of biological evolution. Topics include evolutionary genetics, adaptation and natural selection, the fossil record, speciation and macroevolution.

BIOL 304 COMPARATIVE ANIMAL PHYSIOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 200 and BIOL 201
This course will use a comparative approach to examine physiological principles in a variety of vertebrate and invertebrate animals. Topics include homeostasis, respiration, excretion and physiological adaptations to environmental conditions.

BIOL 310 ANIMAL BIOLOGY AND ECOLOGY (4)
Three hours lecture and three hours laboratory per week
Animal adaptation and diversity and their relationship to the development of evolutionary theory and the environment. Identification of the common invertebrates and vertebrate animals. Field trips to local ecosystems will be taken. A lab fee is required.

BIOL 311 PLANT BIOLOGY AND ECOLOGY (4)
Three hours lecture and three hours laboratory per week
A general introduction to diverse structures and functions of plants and their relationship to the environment. Identification of local native plants and plant communities, uses of native plants by Native Americans, and human and environmental impacts on native plant communities. Field trips to local sites will be taken. A lab fee is required.
BIOL 312 MARINE BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
Overview of the complexity of marine life including marine plants and animals and the processes that underlie their distribution and abundance in open oceans, coastal regions, estuaries and wetlands. Topics included diverse interactions of organisms in the intertidal zone, over the continental shelves and in the open oceans. Field trips to local marine environments will be taken. A lab fee is required.

BIOL 313 CONSERVATION BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
This course explores issues surrounding the conservation of biodiversity. Topics to be covered include: species-, population-, and ecosystem-level issues, biodiversity, extinction, sustained yield, exotic species, and reserve design. Management implications and the ecology of issues are integrated throughout the course. Lab fee required.
Same as ESRM 313

BIOL 315 INTRODUCTION TO BIOPHYSICS (4)
Three hours lecture and two hours activity per week
Prerequisite: PHYS 200
Co-requisite: BIOL 300
This course applies physical methods to the study of biological systems, including transport processes and membrane phenomena, bioelectric phenomena, photosynthetic systems and visual systems. Biophysical methods will include the techniques of patch clamping and optical tweezers, and the measurement of action potentials and evoked responses. There will be an emphasis on modeling and on problem solving, with appropriate mathematics when necessary. The practical activity session will include computer modeling and simulation, and laboratory demonstrations and exercises.
Same as PHYS 315

BIOL 316 INVERTEBRATE ZOOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
This course will survey invertebrates from simple, single-celled protozoa to the most complex of invertebrate animals. Over ninety-five percent of the animals on earth are invertebrates -- animals without backbones. Aspects of the ecology, physiology and evolutionary history of this diverse array of animals will be examined. Human interactions with invertebrates and conservation issues will also be highlighted. Field trips will be required. A lab fee is required.

BIOL 317 PARASITOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
This course surveys the diversity of parasitic animals and protists. The parasitic life mode is found in a broad range of animal and protistan phyla, as well as some plant groups. Parasite-host relationships are often tightly co-evolved. Parasites have remarkable and complex adaptations to allow survival and successful reproduction and dispersal. Topics examined will include evolution and life histories of representative parasites, along with medical and epidemiological factors of those that affect humans or domestic animals. A lab fee is required.

BIOL 326 SCIENTIFIC & PROFESSIONAL ETHICS (3)
Three hours lecture per week
Discussion of ethical issues and societal challenges derived from scientific research and professional activities. Examines the sources, fundamental principles, and applications of ethical behavior; the relationship between personal ethics and social responsibility of organizations; and the stakeholder management concept. Applies ethical principles to different types of organizations: business, non-profits, government, health care, science/technology, and other professional groups. Topics also include integrity of scientific research and literature and responsibilities of scientists to society, intellectual property, ethical practices in professional fields, ethical dilemmas in using animal or human subjects in experimentation, gene cloning, animal cloning, gene manipulation, genetic engineering, genetic counseling, and ethical issues of applying biotechnology in agricultural fields.
Same as MGT 326
GenEd: D

BIOL 331 BIOTECHNOLOGY IN THE TWENTY-FIRST CENTURY (3)
Three hours lecture per week
Presentation of recent advances in biotechnology and discussion of societal implications. Topics include the processes and methods used to manipulate living organisms, or the substances and products from them, for use in medicine, agriculture, food production, gene therapy, forensics and warfare. The social, ethical and political issues raised by modern biotechnology will be discussed. No credit given toward the biology major.
Same as BUS 331
GenEd: B2,D,Interdisciplinary

BIOL 332 CANCER AND SOCIETY (3)
Three hours lecture per week
The underlying molecular causes of cancer, the impact of environmental and genetic factors on cancer causation and prevention, recent advances in diagnosis and treatment of the disease, and the impact that this disease, which will affect one in three adults, has on society. No credit given toward the biology major.
GenEd: B2,D,Interdisciplinary
BIOL 333 EMERGING PUBLIC HEALTH ISSUES (3)
Three hours lecture per week
Discussion of emerging infectious diseases and other health related issues with global concerns such as AIDS, tuberculosis, sexually transmitted diseases, cardiovascular diseases, animal and bird diseases which may be transmitted to people, food and blood safety issues, environmental public health hazards, immigration and public health issues, potential biological weapons and their impact on human and animal populations in the world and the ecosystem.
GenEd: B2,E,Interdisciplinary

BIOL 334 NATURAL HISTORY OF VENTURA COUNTY (3)
Two hours lecture and three hours laboratory per week
This course will explore the biota and ecosystems of Ventura County. Local ecosystems include chaparral, marine, stream, desert, mountain and island. Topics covered will be classification and diversity of conspicuous regional flora and fauna in the field and laboratory, basic ecological and evolutionary principles of botanical and zoological classification, ecosystem diversity and function. Indigenous cultural and colonial era use of biotic resources, history of scientific exploration of the region, conservation and preservation issues, restoration of natural habitats, adaptation, life history and physiology of resident organisms will also be covered. Field trips will be required.
GenEd: B2,Interdisciplinary

BIOL 335 THE BIOSPHERE (3)
Three hours of lecture per week
The biosphere, the region of the planet where life exists, extends up into the atmosphere as well as down into the deepest ocean trenches. This course will examine the origin, workings, and human influence on earth’s biosphere. Topics include evolution of life on earth, atmosphere and climate changes, earth’s resources and human impacts.
GenEd: B2,Interdisciplinary

BIOL 342 THE ZOO: CONSERVATION, EDUCATION, AND RECREATION (3)
Three hours lecture per week
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
Same as BUS 342, ECON 342, EDUC 342
GenEd: D,Interdisciplinary

BIOL 345 SCIENCE AND PUBLIC POLICY (3)
Three hours lecture per week
Examines the relationship between science, politics, and public policy and prepares students to make informed decisions concerning the societal implications of many rapidly advancing avenues of scientific research.
Same as POLS 345
GenEd: D,Interdisciplinary

BIOL 400 MOLECULAR BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 300 or BIOL 302 with a grade of C or better
Study of informational macromolecules and how they direct molecular processes in both eukaryotic and prokaryotic cells. Topics include structure, function and regulation of the genetic material at the molecular level, gene organization, structures and functions of DNA, RNA and proteins, gene transcription and expression, RNA processing, genomics and proteomics. A lab fee is required.

BIOL 401 BIOTECHNOLOGY AND RECOMBINANT DNA TECHNIQUES (5)
Three hours lecture and six hours laboratory per week
Prerequisite: BIOL 400 with a grade of C or better
Theory and application of molecular biotechnology to problems in medicine, agriculture, forensics, and the environment. This is a laboratory-intensive course emphasizing technical skills in DNA and RNA manipulation, trouble-shooting, experimental design, and data interpretation. Lab fee required.

BIOL 402 TOXICOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 201 with a grade of C or better and CHEM 122
An in depth study of toxic chemicals and their interactions within the ecosystems. Topics include the origin, fate, chemical and biological detection, and quantification of pollutants and toxins and their impact on organisms at the molecular, biochemical, cellular, physiological, organismal, and community levels of organization. Basic toxicology, genetic toxicology, environmental mutagenesis and the molecular basis of mutation induction will be covered.

BIOL 403 FOUNDATIONS OF STRUCTURAL BIOLOGY (4)
Three hours lecture per week
Prerequisite: BIOL 300
Three hours lecture and three hours laboratory per week.
Study of structure and function of biological macromolecules. Topics include basic structures and properties of macromolecules in biological systems, molecular evolution, conformational changes of macromolecules and their biological implications and techniques used to determine molecular structure of biological macromolecules. Special emphasis will be placed on the role of structural biology in the design and understanding of both biological and chemical pharmaceautics. A lab fee is required.

BIOL 416 RADIOBIOLOGY AND RADIONUCLIDES (3)
Three hours lecture per week
Prerequisite: BIOL 300 and PHYS 201
Topics include: nature and effects of ionizing radiation on biomolecular structures and living cells; applied radiobiology and radionuclides; genetic effects of ionizing radiation and methods of protection and dosimetry.
Same as PHYS 416
BIOL 420 CELLULAR AND MOLECULAR IMMUNOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
Study of cellular and molecular aspects of the immune system and its responses against infectious agents and/or environmental insults. Included are development of the organs and cells of the immune system, genetics of the molecules of the immune system and their functions and interactions during an immune response, immunological disorders such as immunodeficiencies, autoimmune diseases, transplantation, and contemporary immunological techniques used in clinical diagnosis and other modern research and development applications. A lab fee is required.

BIOL 421 VIROLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 301 with a grade of C or better and CHEM 122
Study of aspects of molecular structure, genetics, and replication of viruses and other sub-viral agents such as prions and viroids, virus-host interactions, pathogenesis of viral infections, diagnostic virology, and antiviral vaccines and drugs; emphasis on human pathogens.

BIOL 422 MOLECULAR PLANT PHYSIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 300 with a grade of C or better
Study of principles and methods of plant physiology at the molecular level combined with modern plant technology. Topics include plant tissue and cell culture, genetic engineering and transformation, plant defense, genomics and applications of DNA technology. A lab fee is required.

BIOL 423 CELLULAR AND MOLECULAR NEUROBIOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
Study of the nervous system at cellular and molecular levels including cellular structure of neurons and their function and interactions, neurotransmitters and their function and regulation, chemical agents and their effects on neuronal cells and normal responses by the cells and the molecules of the nervous system and their responses under adverse conditions.

BIOL 424 HUMAN PHYSIOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
Study of human physiology at both the cellular and organ system levels including neurophysiology, muscle physiology, cardiovascular physiology, respiration, kidney function, hormone function and reproduction.

BIOL 425 HUMAN GENETICS (3)
Three hours lecture per week
Prerequisite: BIOL 300 and BIOL 302 with grades of C or better and CHEM 122
Basic principles of human inheritance, including the transmission of genetic traits, chromosomal abnormalities and their effects, gene structure and function, pedigree analysis, gene mapping, cytogenetics, mutations and mutagenic agents, cancer genetics, molecular analysis of inherited diseases and genetically controlled phenomena in humans.

BIOL 427 DEVELOPMENTAL BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
This course will use descriptive, experimental and comparative approaches in the study of animal development. Developmental stages including gametogenesis, fertilization, cleavage, gastrulation and organogenesis will be discussed in a variety of animal phyla. The molecular and cellular mechanisms underlying morphogenesis and the evolutionary conservation of developmental mechanisms in various animal phyla will be examined. A lab fee is required.

BIOL 428 BIOLOGY OF CANCER (3)
Three hours lecture per week
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
Principles of oncology are examined. Included are mechanisms of oncogenesis at cellular and molecular levels, characteristics of cancer, advantages and disadvantages of various therapies of cancer treatment.

BIOL 431 BIOINFORMATICS (4)
Four hours lecture in the lab per week
Prerequisite: BIOL 302 with a grade of C or better
Navigation and manipulation of biological databases. Topics include: multiple sequence alignment, phylogeny estimation, gene expression profiling, protein structure prediction, and functional genomics. Lab fee is required. GenEd: B2,B4,Interdisciplinary

BIOL 432 PRINCIPLES OF EPIDEMIOLOGY AND ENVIRONMENTAL HEALTH (3)
Three hours lecture per week
Prerequisite: BIOL 201 with a grade of C or better and CHEM 122
Distribution and dynamics of human health problems and principles and procedures used to determine circumstances under which disease occurs or health prevails and to aid in managing and planning health and environmental systems. The broadened scope of epidemiology is examined through case studies and community and environmental health approach. GenEd: B2,D,Interdisciplinary
BIOL 433 ECOLOGY AND THE ENVIRONMENT (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
Ecological characteristics of natural ecosystems and basic effects of human society upon those systems. Plant and animal distribution patterns in relation to past and present physical and biotic factors. Issues of resource management, population, food production, global environmental problems will also be emphasized to explore future directions. Field trips to local ecosystems will be taken. A lab fee is required.
GenEd: B2, Interdisciplinary

BIOL 434 INTRODUCTION TO BIOMEDICAL IMAGING (4)
Three hours lecture and two hours lab activity per week
Prerequisite: BIOL 210 or PHYS 200
The course will present an overview of biomedical images and imaging systems. The fundamental concepts used in several imaging modalities (such as projection radiography, mammography, DEXA, computed tomography, ultrasonography and magnetic resonance imaging) will be examined: the emphasis will be on an intuitive and descriptive presentation of the main components of these systems. Image formation and reconstruction will be addressed. The resulting clinical images will be correlated with the underlying structure and function of the organs, and the diagnostic utility and limitations of the images will be considered.
Same as PHYS 434, HLTH 434
GenEd: B1, E, Interdisciplinary

BIOL 450 ICHTHYOLOGY: THE BIOLOGY OF FISHES (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
This course will survey the diversity of living and fossil fishes. Fishes are the largest and most diverse group of vertebrate animals. Aspects of the ecology, physiology and evolutionary history of these animals will be examined. Extensive human interactions with fishes and particularly conservation issues will be highlighted. Emphasis will be placed on the identification and biology of California coastal and inland species. Field trips will be required. A lab fee is required.

BIOL 464 MEDICAL INSTRUMENTATION (4)
Three hours lecture and two hours lab activity per week
Prerequisite: PHYS/BIOL/HLTH 434
The detection, acquisition, processing and display of diagnostic clinical images. The course will concentrate on the fundamentals of the design of the instruments and the use of appropriate reconstruction algorithms in (computed) radiography, (digital) fluoroscopy, computed tomography, ultrasound, magnetic resonance imaging and radionuclide imaging. Activities will include image reconstruction examples, investigation of recent innovations, and two trips to local Radiology departments.
Same as PHYS 464

BIOL 490 SPECIAL TOPICS (1-3)
Three hours seminar per week
Prerequisite: consent of the instructor
In-depth analysis of current topics in biology. Topics vary each semester. Repeatable by topic.

BIOL 491 SPECIAL LABORATORY TOPICS (1-3)
Prerequisite: BIOL 300 with a grade of C or better and CHEM 122
Laboratory study of a selected topic, the title of which is to be specified in advance. Repeatable by topic. A lab fee is required.

BIOL 492 INTERNSHIP (2-3)
Prerequisite: Consent of the instructor and program approval
Supervised work and study in work situations involving biological research and technical skills. May involve service learning. All students are required to attend the Biology Program Senior Capstone Colloquium to present their projects.
Graded Credit/No Credit

BIOL 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Consent of the instructor and program approval
Laboratory and/or library research that may involve service learning in selected areas of biology conducted under the direction of a faculty member. All students are required to attend the Biology Program Senior Capstone Colloquium to present their projects.
Graded Credit/No Credit

BIOL 497 DIRECTED STUDY (1-3)
Prerequisite: Consent of the instructor and program approval
Reading and library research that may involve service learning in selected areas of biology conducted under the direction of a faculty member. All students are required to attend the Biology Program Senior Capstone Colloquium to present their projects.
Graded Credit/No Credit

BIOL 499 SENIOR CAPSTONE IN BIOLOGY (3)
Three hours lecture per week
Prerequisite: Consent of instructor
Integration of previous coursework, knowledge and skills as they apply to specific topics in Biology and the impact of biological science on society. Emphasis will be placed on analysis of scientific literature, problem solving and oral and written communication skills.
BIOL 502 TECHNIQUES IN GENOMICS/PROTEOMICS (2)
Six hours laboratory per week
Prerequisite: BIOL 401 or consent of the instructor
This laboratory course introduces students to the current techniques and methodologies in the fields of comparative and functional genomics and proteomics. Topics and techniques covered include genome sequencing, microarrays, mutagenesis, transgenic plants and animals, single nucleotide polymorphism (SNP) discovery and analysis. Students will gain hands-on lab bench experience and will make on-site visits to high volume regional biotechnology facilities.

BIOL 503 BIOTECHNOLOGY LAW & REGULATION (3)
Three hours lecture per week
Individual and organizational responsibility in R&D and commercial aspects of biotechnology. Topics include: intellectual property, privacy, government and industrial regulation, liability, ethics, and policy responses to societal concerns in the U.S. and abroad. Case studies involving gene therapy, cloning, and biomaterials in the medical and health sector, and farming and crop modification in the agricultural sector will be explored in detail.

BIOL 504 MOLECULAR CELL BIOLOGY (3)
Three hours lecture per week
Prerequisite: BIOL 300 or consent of the instructor
This course will examine molecular and mechanistic aspects of cell biology. Topics include: cell biochemistry and biosynthesis, cell signaling, regulation of the cell cycle and membrane trafficking.

BIOL 505 MOLECULAR STRUCTURE (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 400 or consent of the instructor
This course will examine the structural biology of proteins. Topics include general principles of protein structure, the biochemical function of proteins, the relationship of protein structure to its function and experimental approaches to determining and predicting protein structure and function.

BIOL 506 MOLECULAR EVOLUTION (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 400 or BIOL 401 or consent of the instructor
This course will examine evolutionary change at the molecular level. Topics include: The driving forces behind the evolutionary process, the effects of the various molecular mechanisms on the structure of genes, proteins, and genomes, the methodology for dealing with molecular data from an evolutionary perspective and the logic of molecular hypothesis testing.

BIOL 507 PHARMACOGENOMICS AND PHARMACOPROTEOMICS (3)
Three hours lecture per week
Prerequisite: BINF 500, BIOL 504 or consent of the instructor
Structural and functional genomics with an emphasis on how these fields operate in drug discovery and optimization. Topics include: genetics of the human response to prophylactic and therapeutic agent, impact of genetic variation on therapeutic efficacy, disease mechanisms, proteomics of genetic and communicable disease, drug action and toxicity, structure encoding, lead discovery and optimization, parallel synthesis, screening virtual libraries.

BIOL 508 ADVANCED IMMUNOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 300 or consent of the instructor
Structural and functional genomics with an emphasis on how these fields operate in drug discovery and optimization. Topics include: genetics of the human response to prophylactic and therapeutic agent, impact of genetic variation on therapeutic efficacy, disease mechanisms, proteomics of genetic and communicable disease, drug action and toxicity, structure encoding, lead discovery and optimization, parallel synthesis, screening virtual libraries.

BIOL 509 PLANT BIOTECHNOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 400 and BIOL 422 or consent of the instructor
This course will examine the scientific and technical advances which underlie the production of genetically modified crops. Topics include: plant genome organization and gene expression, plant tissue culture and genetic transformation, genetic manipulation to confer resistance to herbicides, pests and disease and strategies for engineering stress tolerance and the improvement of crop yield and quality.

BIOL 600 TEAM PROJECT (4)
Prerequisite: Program approval
In this course, students will work individually and in teams to analyze, research, discuss and report on subjects relevant to the biotechnology industry.

BIOL 601 SEMINAR IN BIOTECHNOLOGY AND BIOINFORMATICS (1)
One hour seminar per week
Discussion of up-to-date research and development findings with guest speakers, visiting scientists and industry professionals.
BUSINESS

BUS 110 BUSINESS LAW (3)
Three hours lecture per week
Introduction to the legal and regulatory environment of business, emphasizing the USA legal system. Topics include contracts, personal property, litigation, antitrust, labor agreements, discrimination, environmental protection and international trade and law.

BUS 320 BUSINESS OPERATIONS (3)
Three hours lecture per week
Prerequisite: MATH 140 or MATH 150
Exploration and application of quantitative techniques, systems analysis and operations analysis of business functions, with an emphasis on the optimization of process and operational efficiencies. A variety of management science methodologies will be applied to theoretical and real-world situations.

BUS 331 BIOTECHNOLOGY IN THE TWENTY-FIRST CENTURY (3)
Three hours lecture per week
Presentation of recent advances in biotechnology and discussion of societal implications. Topics include the processes and methods used to manipulate living organisms, or the substances and products from them, for use in medicine, agriculture, food production, gene therapy, forensics and warfare. The social, ethical and political issues raised by modern biotechnology will be discussed. No credit given toward the biology major.
Same as BIOL 331
GenEd: B2, D, Interdisciplinary

BUS 334 THE BUSINESS OF ART (3)
Three hours lecture per week
Exploration into aspects of art world business including the financial activities of art consultants, private dealers, commercial galleries, corporate art collections, public museums and international auction houses. Case studies in art marketing, gallery and museum management, contracts and commissions, as well as public image and career development will be investigated.
Same as ART 334
GenEd: C1, D, Interdisciplinary

BUS 335 BUSINESS & THE PERFORMING ARTS (3)
Three hours lecture per week
Exploration of the business elements in the performing arts, including planning, management and financial activities. Uses an interdisciplinary approach to focus on performing arts as a creative activity and as a business activity. Uses case studies to analyze a comprehensive view of performing arts organizations.
Same as PA 335
GenEd: Interdisciplinary

BUS 340 BUSINESS AND ECONOMICS IN AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Explores the ways in which business and economics have been represented in American literature. Employ critical methodologies from the fields of Business, Economics, and Literary studies.
Same as ECON 340, ENGL 340
GenEd: C2, D, Interdisciplinary

BUS 341 DRUG DISCOVERY AND DEVELOPMENT (3)
Three hours lecture per week
How are drugs discovered? What determines the price for a drug? What is the difference between a generic and non-generic drug? These questions will be examined with an interdisciplinary approach. Topics include the isolation of compounds from natural sources, the screening of compounds for biological activity, structure-activity relationships of drugs, computer-assisted drug design, combinatorial chemistry, bioinformatics, the FDA approval process for new drugs, and the economic and business aspects of pharmaceutical investment and development.
Same as ECON 341, CHEM 341
GenEd: B1, D, Interdisciplinary

BUS 342 THE ZOO: CONSERVATION, EDUCATION AND RECREATION (3)
Three hours lecture per week
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
Same as BIOL 342, ECON 342, EDUC 342
GenEd: D, Interdisciplinary

BUS 349 HISTORY OF BUSINESS AND ECONOMICS IN NORTH AMERICA (3)
Three hours of lecture per week
Examines the growth and development of the economies of North America since colonial times. Addresses social, ethical, economic and management issues during the development of Canada, the United States, and Mexico. Analyzes the business principles underlying the growth and development of the economies.
Same as ECON 349, HIST 349
GenEd: D, Interdisciplinary

BUS 420 CASES IN STRATEGY (3)
Three hours seminar/discussion per week
Prerequisite: Senior standing or consent of the instructor
A case study seminar that integrates functional areas of business into the development and analysis of strategy and strategic planning. Emphasizes practical strategic solutions that could reasonably lead to success in the marketplace. Topics include: Competitive Analysis, Value Chain Analysis, Globalization Strategies and Strategies for Chaotic Environments. Topics include: Competitive Analysis, Value Chain Analysis, Globalization Strategies and Strategies for Chaotic Environments.
BUS 424 BUSINESS, GOVERNMENT, AND SOCIETY (3)
Three hours lecture per week
Prerequisite: MGT 307
Discussions of the history and interactions of American business, government, and society. Topics include the history of business power, social responsibility and ethical theories, governmental regulation, managing environmental quality, and consumerism.
GenEd: D

BUS 434 THE MUSEUM: CULTURE, BUSINESS AND EDUCATION (3)
Three hours lecture per week
This course is an interdisciplinary, in-depth study of a museum from the perspective of art, business, and education. Analyzes how artistic values, business and management issues and educational projects are linked within museum practices. Each term this course is offered it will focus on a specific museum in the area.
Same as ART 434, EDUC 434
GenEd: C1,D,Interdisciplinary

BUS 499 CAPSTONE (3)
Three hours lecture per week
Prerequisite: All Lower Division (24 units) and other Upper Division (33 units) required courses in the Business Major or consent of instructor
An integration of all prior business core subject matter via two major components: 1) Teams of students participate in a PC-based simulation of an ongoing (fictitious) international business. Requires decision-making under uncertainty but within strict deadlines, competitor analysis, and formal oral/written reporting of results. 2) Individually and in teams, students analyze, research, discuss and report on complex written business cases - which provides interdisciplinary exposure.

BUS 500 ECONOMICS FOR MANAGERS (3)
Three hours lecture per week
A course in economics for MBA students covering material from both microeconomics and macroeconomics. Topics include market structure, demand analysis, consumer behavior, nature of the firm, measuring economic activity, inflation, unemployment, money and banking, and the role of the government.
May be offered with an extensive online component.

BUS 504 INTRODUCTION TO ACCOUNTING AND FINANCE (4)
Four hours lecture per week
Presents an overview of the role of accounting and finance in business. The first part of the course focuses on accounting as the language of business. Topics include basic assumptions and principles of accounting, the content and purpose of financial statements, and uses and limitations of the financial statements. The second part of the course focuses on the role of finance in supporting the functional areas of a business. Topics include time value of money, risk, and capital structure.
May be offered with an extensive online component.

BUS 506 PRINCIPLES OF MANAGEMENT AND MARKETING (3)
Three hours lecture per week
Presents an overview of the disciplines of management and marketing. Explains the basic elements of good management practices. Describes the key aspects of effective marketing. Combines management and marketing disciplines through cases, role-play simulations, and computer based simulations that are used to model managers' planning and decision-making processes.
May be offered with an extensive online component.

BUS 508 BUSINESS ETHICS AND LAW (3)
Three hour seminar per week
An overview of the ethical environment for business operations, with a special emphasis on the legal environment. Explores decision-making frameworks for managers in addressing ethical and legal issues that confront modern business organizations.
May be offered with an extensive online component.

BUS 510 HIGH PERFORMANCE MANAGEMENT (3)
Three hours seminar per week
Co-requisite: BUS 520
Develops the managerial skills that affect individual and group performance in organizations. Topics include managerial communication, team-building, negotiation, conflict resolution, and intercultural management.

BUS 520 STRATEGY AND LEADERSHIP (3)
Three hours seminar per week
Co-requisite: BUS 510
An integrated overview of strategy, strategic planning and strategic management for business leaders. Through the use of complex business cases, the course analyzes the major elements of strategic management and the interactions among major participants. Special emphasis is given to the role of leadership in the strategic management process.

BUS 521 SPECIAL TOPICS IN MANAGEMENT (3)
Three hours seminar per week
Prerequisite: Consent of instructor
In-depth analysis of current topics in management. Topics vary each semester. Repeatable by topic.
BUS 530 MANAGING BUSINESS OPERATIONS (3)
Three hours seminar per week
Prerequisite: BUS 520
Co-requisite: BUS 540
Building on previous business courses this course develops skills required for managers to operate a business organization. Topics include change management, product design, process selection, quality management, supply chain design, strategy and control. Managing a firm's business operations involves the design, operation and improvement of systems that create and deliver an organization's product and services to customers.

BUS 540 FINANCIAL REPORTING AND ANALYSIS (3)
Three hours seminar per week
Prerequisite: BUS 520
Co-requisite: BUS 530
Provides an understanding of the use of financial information in managing an organization. The course focuses on analyzing and interpreting financial statements, applying analytical tools and techniques to financial statements in order to make sound investment and operating decisions, and applying standard corporate funding models in corporate financial management.

BUS 541 SPECIAL TOPICS IN FINANCE (3)
Three hours lecture per week
Prerequisite: Consent of instructor
In-depth analysis of current topics in finance. Topics vary each semester. Repeatable by topic.

BUS 550 THE CONTEMPORARY FIRM (3)
Three hours seminar per week
Prerequisite: BUS 540
This course emphasizes the strategic and management issues associated with the effective use of information technology. Topics include information systems & control, databases and data mining, systems development, IT infrastructure and strategy.

BUS 560 THE ENTREPRENEURIAL MANAGER (3)
Three hours seminar per week
Prerequisite: BUS 540
A course that focuses on aspects of starting a new business, with an emphasis on recognizing and creating opportunities. Also develops the managerial skills and perspectives that contribute to innovative and entrepreneurial management in growing and established organizations. Topics include attributes of entrepreneurs and entrepreneurial careers, evaluating opportunities, writing business plans, consumer and market analysis, new product design and development, creativity, innovation, forecasting, resource requirements, financing, and managing new ventures.

BUS 570 COMPETING IN A GLOBAL ENVIRONMENT (6)
Three hours seminar and six hours activity per week
Prerequisite: Completion of all other MBA Core courses
Acknowledging the global environment in which business operates, this course addresses management concerns for maximum organizational effectiveness in international business. Topics include international market identification, trade practices and policy, legal issues in business, international currency markets, joint ventures, international business strategy, and global management. Intercultural management issues, negotiation, and cross-cultural differences will also be addressed.

BUS 572 GRADUATE INTERNATIONAL EXPERIENCE IN BUSINESS (3)
Three hours lecture per week.
Analysis of international business environments, including site visits to appropriate locations. Repeatable up to 6 units.
CHEMISTRY

CHEM 100 CHEMISTRY AND SOCIETY (4)
Three hours lecture and three hours laboratory per week
An introduction to the basic principles of chemistry and a consideration of the benefits and problems arising from applications of chemistry. Discussions of foods and food additives, drugs, plastics and other materials of everyday life, fuel sources, the atmosphere, and fresh water. Lab fee required.
GenEd: B1

CHEM 105 INTRODUCTION TO CHEMISTRY (3)
Three hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics Examination
Introduces the basic principles and concepts in Chemistry. Topics covered include: measurements, units and unit conversion, scientific notation, stoichiometry, atomic structure, the concept of the mole, types of compounds, and problem solving.
GenEd: B1

CHEM 110 CHEMISTRY OF LIFE (4)
Three hours lecture/laboratory twice per week
Prerequisites: Satisfy the Entry Level Mathematics (ELM) requirement
Fundamentals of chemistry including the composition of atoms and molecules, mass balance, energy, properties of gases and solutions, solubility, diffusion, ionic strength, acid-base chemistry, and basic nuclear chemistry. Structure and reactivity of inorganic, organic, and biological molecules. Enzyme catalysis, including the metabolism of sugars, lipids, and proteins. Hazards of chemicals and their interactions with the human body. Integrated lecture and laboratory. No credit given towards the Chemistry major.
Lab fee required.

CHEM 121 GENERAL CHEMISTRY I (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 105 or 1 year high school chemistry
An introductory chemistry course which provides an overview of the chemical and physical behavior of matter with a focus on qualitative and quantitative general inorganic, physical, and analytical chemistry. Lab fee required.
GenEd: B1

CHEM 122 GENERAL CHEMISTRY II (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 121 with a grade of C or better
An introductory chemistry course which provides an overview of the chemical and physical behavior of matter with a focus on quantitative general inorganic, physical, and analytical chemistry including kinetics and thermodynamics of reactions, gas phase and solution equilibria, and qualitative aspects of radiochemistry, organic chemistry, and polymer chemistry. Lab fee required.
GenEd: B1

CHEM 123 GENERAL CHEMISTRY I PROBLEM-SOLVING (1)
One hour activity per week
Co-requisite: Must be taken concurrently with CHEM 121
An instructor/peer-supervised interactive problem-solving session for students in CHEM 121 where students work in small groups on problems related to the content in CHEM 121.

CHEM 124 GENERAL CHEMISTRY II PROBLEM-SOLVING (1)
One hour activity per week.
Co-requisite: CHEM 122
An instructor/peer-supervised interactive problem-solving session for students in CHEM 122 where students work in small groups on problems related to the content in CHEM 122.

CHEM 250 QUANTITATIVE ANALYSIS (2)
Two hours lecture per week
Prerequisite: CHEM 122 with a grade of C or better
Co-requisite: CHEM 251
An examination of the theory and techniques involved in the quantification of inorganic, organic, and biological species from samples with an emphasis on the environmental, biological, and medical applications of the analysis techniques.

CHEM 251 QUANTITATIVE ANALYSIS LABORATORY (2)
Six hours of laboratory per week
Prerequisite: CHEM 122 with a grade of C or better
Co-requisite: CHEM 250
A laboratory course designed to provide students with an exposure to the techniques used in the quantification of inorganic, organic, and biological species from samples using gravimetric and volumetric analyses, potentiometric titrations, atomic absorption spectrometry, UV-visible spectroscopy, GC, and GC/MS. Lab fee required.

CHEM 301 ENVIRONMENTAL CHEMISTRY (3)
Three hours lecture per week
Prerequisite: CHEM 122 with a grade of C or better
An introductory course to the chemistry of the environment. The goal of this course is to teach the fundamental natural chemical processes of the atmosphere, oceans and soil of the Earth, as well as the anthropogenic effects on this system. Current topics of environmental interest will be discussed. The sciences behind these processes will be the focus of this course.
**CHEM 305 COMPUTER APPLICATIONS IN CHEMISTRY (1)**
One hour of activity per week.
Prerequisite: CHEM 122 with a grade of C or better
This course will introduce the use of computer applications to solve chemical problems and present scientific information. Topics include: on-line journals and literature searches, reading and understanding the scientific literature, computer modeling of molecules, and website development. Lab fee required.
GenEd: B4

**CHEM 311 ORGANIC CHEMISTRY I (3)**
Three hours lecture per week
Prerequisite: CHEM 122 with a grade of C or better
The structure and reactions of simple organic molecules and spectroscopic techniques (NMR, GC-MS, IR, and UV-visible) used to characterize molecules.

**CHEM 312 ORGANIC CHEMISTRY I LABORATORY (1)**
Three hours laboratory per week
Prerequisite: CHEM 311 (or taken concurrently) with a grade of C or better
A laboratory course designed to provide students with an exposure to the techniques and instrumentation (NMR, GC, GC-MS, LC, IR, and UV-visible) used to purify and characterize organic molecules resulting from organic reactions. Lab fee required.

**CHEM 313 ORGANIC CHEMISTRY I LEARNING COMMUNITY (1)**
One hour recitation per week
Co-requisite: CHEM 311
Interactive problem-solving session for students in CHEM 311 where students work in small groups on problems related to the content in CHEM 311.

**CHEM 314 ORGANIC CHEMISTRY II (3)**
Three hours lecture per week
Prerequisite: CHEM 311 with a grade of C or better
An examination of the structure, reactions, and spectroscopy of organic compounds containing one or more functional groups, and the structures and reactions of biologically relevant molecules.

**CHEM 315 ORGANIC CHEMISTRY II LABORATORY (1)**
Three hours laboratory per week
Prerequisite: CHEM 311, CHEM 312, and CHEM 314 (or taken concurrently) with grades of C or better
A laboratory course designed to provide students with experience in single-step and multi-step syntheses and characterization of organic molecules with hands-on access to instrumentation (NMR, GC, GC-MS, LC, IR, and UV-visible). Lab fee required.

**CHEM 316 ORGANIC CHEMISTRY II LEARNING COMMUNITY (1)**
One hour recitation per week
Co-requisite: CHEM 314
Interactive problem-solving session for students enrolled in CHEM 314 where students work in small groups on problems related to the content in CHEM 314.

**CHEM 318 BIOLOGICAL CHEMISTRY (3)**
Three hours lecture per week
Prerequisite: CHEM 311 with a grade of C or better
An integrated Organic Chemistry II and Biochemistry. The topics covered include the structure and synthesis of sugars, amino acids, DNA, RNA, proteins; enzyme catalysis and inhibition; and the reactions involved in biosynthetic and metabolic pathways.

**CHEM 341 DRUG DISCOVERY & DEVELOPMENT (3)**
Three hours lecture per week
How are drugs discovered? What determines the price for a drug? What is the difference between a generic and non-generic drug? These questions will be examined with an interdisciplinary approach. Topics include the isolation of compounds from natural sources, the screening of compounds for biological activity, structure-activity relationships of drugs, computer-assisted drug design, combinatorial chemistry, bioinformatics, the FDA approval process for new drugs, and the economic and business aspects of pharmaceutical investment and development.
Same as ECON 341, BUS 341
GenEd: B1, D, Interdisciplinary

**CHEM 343 FORENSIC SCIENCE (3)**
Two hours lecture and three hours laboratory per week
A survey of the various chemical and biological techniques used in obtaining and evaluating criminal evidence. Topics include: chromatography; mass spectrometry (LC-MS, GC-MS); atomic absorption spectrometry; IR, UV, fluorescence, and X-ray spectroscopies; fiber comparisons; drug analysis; arson/explosive residue analysis; toxicological studies; blood typing; DNA analysis; population genetics; firearm identification; and fingerprint analysis.
GenEd: B1, Interdisciplinary

**CHEM 344 ENERGY AND SOCIETY (3)**
Three hours lecture per week
Survey of the physical, chemical, and engineering principles involved in the production of energy from current and potential sources and the economical, environmental, and political issues surrounding energy production. The course will also examine factors that influence worldwide energy policy. Examples of topics included: energy conservation, efficient usage and transportation of energy, energy resources, fossil fuels, active and passive solar energy, biomass, fuel cells, nuclear (fission and fusion) processes, and hydroelectric, tidal, geothermal, and wind power.
Same as PHYS 344
GenEd: B1, Interdisciplinary

**CHEM 371 PHYSICAL CHEMISTRY I (3)**
Three hours lecture per week
Prerequisite: CHEM 311 with a grade of C or better
An integrated Organic Chemistry II and Biochemistry. The topics covered include the structure and synthesis of sugars, amino acids, DNA, RNA, proteins; enzyme catalysis and inhibition; and the reactions involved in biosynthetic and metabolic pathways.

**CHEM 372 PHYSICAL CHEMISTRY II (3)**
Three hours lecture per week
Prerequisite: CHEM 371 with a grade of C or better
An integrated Organic Chemistry II and Biochemistry. The topics covered include the structure and synthesis of sugars, amino acids, DNA, RNA, proteins; enzyme catalysis and inhibition; and the reactions involved in biosynthetic and metabolic pathways.
CHEM 372 PHYSICAL CHEMISTRY LABORATORY (1)
Three hours laboratory per week
Prerequisite: CHEM 371 (or concurrent registration)
This course is designed to introduce experimental physical chemistry including measurement of thermodynamic and kinetic properties. Lab fee required.

CHEM 373 PHYSICAL CHEMISTRY II (3)
Three hours lecture per week
Prerequisite: CHEM 122 with a grade of C or better, PHYS 101 or PHYS 201, and MATH 150
Introduction to quantum mechanics, atomic and molecular structure, spectroscopy, and statistical mechanics.

CHEM 410 ADVANCED ORGANIC SYNTHESIS (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 305 (or concurrent enrollment), CHEM 314, and CHEM 315 or consent of instructor
This course will examine modern synthetic reactions and approaches in the design of complex organic molecules. The laboratory introduces students to advanced synthetic reactions and techniques, including inert-atmosphere techniques. Lab fee required.

CHEM 415 MOLECULAR STRUCTURE DETERMINATION (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 305 (or concurrent enrollment), CHEM 314, CHEM 315 or consent of instructor
This course will examine modern techniques for the determination of organic, inorganic, and biological molecular structure. Topics include X-ray crystallography, nuclear magnetic resonance spectroscopy, mass spectrometry, infrared spectroscopy, ultraviolet spectroscopy, and molecular modeling. Lab fee required.

CHEM 450 INSTRUMENTAL ANALYSIS AND LABORATORY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 250, CHEM 251, CHEM 305 (or concurrent enrollment or consent of instructor), and CHEM 315 with a grade of C or better
This course is designed to introduce chemical analysis using instrumental methods. Areas covered will include atomic and molecular spectroscopy, chromatography, and mass spectroscopy. Lectures will focus on theory and application of these techniques to organic, inorganic, and biochemical analysis. Experimental design, materials used in scientific apparatus, vacuum science and electronic circuits will also be examined. Lab fee required.

CHEM 460 BIOCHEMISTRY I (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 314 with a grade of C or better
This course will examine the physical and chemical properties of biological molecules. Topics include: the structure and function of nucleic acids, proteins, lipids, and carbohydrates. Lab fee required.

CHEM 461 BIOCHEMISTRY II (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 305 (or concurrent enrollment), CHEM 460 with a grade of C or better or consent of instructor.
This course will focus on the biochemical reactions that occur in cells. Topics include biosynthesis of proteins, lipids and nucleic acids, photosynthesis, cellular metabolism, and gene expression. Lab fee required.

CHEM 465 BIOINORGANIC CHEMISTRY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: CHEM 305 (or concurrent enrollment), CHEM 314 with a grade of C or better or consent of instructor
This course will examine the inorganic chemistry of biological systems including the role of metals such as zinc, iron, copper, manganese, and molybdenum in protein/enzyme function. The course will discuss principles of coordination chemistry, protein and DNA functional groups and their metal-binding ability, and the role of metal ions in the reaction mechanisms of metalloenzymes.

CHEM 490 SPECIAL TOPICS IN CHEMISTRY (1-3)
Prerequisite: Consent of instructor
Specialized topics from the fields of Chemistry and Biochemistry. Repeatable by topic.

CHEM 492 INTERNSHIP/ SERVICE LEARNING (1-3)
Prerequisite: Consent of instructor
Provides student credit for internship work and/or service learning in the community that culminates in a written and oral report. Repeatable.

CHEM 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Consent of instructor
Provides student credit for independent research (laboratory or library) that culminates in a written and oral report. Repeatable.

CHEM 497 DIRECTED STUDIES (1-3)
Prerequisite: Consent of instructor
Provides student credit for curricular activities under the direction of a Chemistry faculty member. Repeatable.

CHEM 499 CHEMISTRY CAPSTONE COLLOQUIUM (1)
Prerequisite: CHEM 305, CHEM 371 and CHEM 492 or CHEM 494 (or concurrent enrollment)
Oral and written presentation of work completed or work-in progress projects of CHEM 492 or 494 courses. Graded Credit/No Credit.
CHICANO/A STUDIES

CHS 100 CHICANOS IN CONTEMPORARY SOCIETY (3)
Three hours lecture per week
This course offers an introductory study of Chicanos in contemporary society in the United States. It focuses on areas such as culture, history, fine arts, family, language, education, politics, economics, and social issues as they relate to the Mexican American experience in relationship to other groups in American society.
GenEd: C3B,D

COMMUNICATION

COMM 101 PUBLIC SPEAKING (3)
Three hours lecture per week
Introduction to communication theory and the study of the human communication process with an emphasis on effective public communication. Includes intensive practice in public speaking, reasoning, and critical listening.
GenEd: A1

COMM 210 INTERPERSONAL COMMUNICATION (3)
Three hours lecture per week
Analysis of the role communication plays in interpersonal relationships with special emphasis on intercultural communication. Oral interpersonal communication skills will be stressed.
GenEd: A1

COMM 220 GROUP COMMUNICATION (3)
Three hours lecture per week
This course examines communication in the small group context. It will investigate the important theoretical foundations and practical applications of group communication as well as apply those theories and skills to actual group interactions.
GenEd: A1

COMM 335 POLITICS AND FILM (3)
Four hours lecture/activity per week
Explores the themes, issues and processes of politics through an in depth study of selected films. Area of focus varies by semester.
GenEd: Interdisciplinary
Same as POLS 335
GenEd: Interdisciplinary

COMM 336 MULTICULTURAL LITERATURE AND COMMUNICATION (3)
Three hours lecture per week
Examines issues of cross-cultural communication in interpersonal and intergroup settings. Works of literature which take cross-cultural communication as a theme will be examined.
Same as ENGL 336
GenEd: A1,C2,Interdisciplinary

COMM 345 MEDIA LITERACY & YOUTH CULTURE (3)
Three hours lecture per week
This interdisciplinary course examines the relationship between mass communication, mass media, and youth culture. Topics include the theories and effects of mass communication, in particular the effects of mass media on children and adolescents. To develop media literacy, students will apply these concepts to their own experiences with popular media, including television, print, and film.
Same as EDUC 345
GenEd: A1,D,Interdisciplinary

COMM 430 POLITICAL COMMUNICATION (3)
Three hours lecture per week
An analysis of the relationship between mass media and political decision-making. Topics covered include: political communication theories and trends, the relationship between political institutions and the press in the US and in other countries, elections, debates, political campaigning and advertising, new media and politics, political socialization, education, politics and popular culture.
GenEd: Interdisciplinary
Same as POLS 430
COMPUTER INFORMATION SYSTEMS

See Management Information Systems

COMPUTER SCIENCE

COMP 100 COMPUTERS: THEIR IMPACT & USE (3)
Three hours lecture in the lab per week
An introduction to the uses, concepts, techniques, and terminology of computing. Places the possibilities and problems of computer use in historical, economic, and social contexts. Shows how computers can assist in a wide range of personal, commercial, and organizational activities. Typical computer applications, including word processing, spreadsheets, and databases. Not open to Computer Science majors.
GenEd: B4

COMP 101 COMPUTER LITERACY (3)
Three hours lecture in the lab per week
An introduction to computer applications, including web applications, word processing, spreadsheets, databases and programming. Includes service learning component. Not open to Computer Science majors.
GenEd: B4

COMP 102 WEB DEVELOPMENT (3)
Three hours lecture in the lab per week
Prerequisite: COMP 101 or consent of the instructor
Introduction to the design and development of web pages. Use of HTML and scripting languages. Use of multimedia content. Current web development tools. Including web site database applications.
GenEd: B4

COMP 105 COMPUTER PROGRAMMING INTRODUCTION (3)
Three hours lecture in the lab per week
Provides a balanced view of computing and provides an introduction to the world of computer science. In depth coverage of the design, development, and expression of algorithms. Covers a variety of concepts relevant to the beginning student, including computer organization and design. Not open to students who have completed COMP 150.
GenEd: B4

COMP 150 OBJECT-ORIENTED PROGRAMMING (4)
Four hours lecture in the lab per week
Prerequisite: Programming experience
Introduction to algorithms, their representation, design, structuring, analysis and optimization. The course introduces the concept of object paradigm, design and implementation of algorithms as structured programs in a high level language.
GenEd: B4

COMP 151 DATA STRUCTURES AND PROGRAM DESIGN (4)
Four hours lecture in the lab per week
Prerequisite: COMP 150
Introduction to data structures and the algorithms that use them. Review of composite data types such as arrays, records, strings, and sets. Topics include: the role of the abstract data type in program design.; definition, implementation and application of data structures such as stacks, queues, linked lists, trees and graphs; recursion; use of time-complexity expressions in evaluating algorithms.; comparative study of sorting and searching algorithms.

COMP 162 COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE (3)
Three hours lecture per week
Prerequisite: COMP 150
An introduction to computer architecture, assembly language programming, system software and computer applications. Topics include: number systems and data representation; internal organization of a computer; primitive instructions and operations; Assembly language; language translation principles; overview of operating systems.

COMP 232 PROGRAMMING LANGUAGES (3)
Three hours lecture in the lab per week
Prerequisite: COMP 151 and COMP 162
Discussion of issues in the design, implementation, and use of high-level programming languages. Topics include: historical background; how languages reflect different design philosophies and user requirements; technical issues in the design of major imperative (procedural) programming languages; other approaches to programming: functional programming, logic programming, and object-oriented programming.

COMP 262 COMPUTER ORGANIZATION AND ARCHITECTURE (3)
Three hours lecture per week
Prerequisite: COMP 151 and COMP 162
Extension of basic addressing concepts to more advanced addressability such as base register and self relative addressing. Topics include: comparative computer architecture focusing on such organizations as multiple register processors and stack machines; basics of virtual memory, input/output; introduction to the concept of microprogrammable systems; low-level language translation process associated with assemblers; system functions such as relocatable loading and memory management; application of data structure and hashing techniques to the above.
COMP 337 SURVEY OF COMPUTER GAMING (3)
Three hours lecture per week
This course provides the student with a broad understanding of the world of computer gaming. This includes the evaluation and analysis of the cultural, historical, literary, psychological, and technological impact of computer gaming on society. The course will survey the different types of computer games such as educational, sports, first person shooter, adventure, and strategy, along with an overview of the design, implementation, and testing issues that confront game developers. The student will construct, submit and evaluate several written reports during the semester.
GenEd: B4, Interdisciplinary

COMP 345 DIGITAL IMAGE PROCESSING (3)
Three hours lecture in the lab per week
Prerequisite: Consent of the instructor
An introduction to the basic concepts and techniques for digital image restoration and enhancement, analysis, coding and compression. The emphasis is on processes which analyze primarily two-dimensional discrete images represented at the pixel level, including filtering, noise reduction and segmentation. Fourier analysis techniques will be explored. Programming exercises will be used to implement the various processes, and their performance on synthetic and real images will be studied.
Same as PHYS 345, MATH 345
GenEd: B1, B4, Interdisciplinary

COMP 350 INTRODUCTION TO SOFTWARE ENGINEERING (3)
Three hours lecture in the lab per week
Prerequisite: COMP 232 and COMP 262
Concepts and techniques for systems engineering, requirements analysis, design, implementation and testing of large scale computer systems. Principles of software engineering for production of reliable, maintainable and portable software products. Emphasis on functional analysis and structured design techniques. Topics include unit, integration and systems testing, configuration management, and software quality assurance practices. Participation in group activities involving analysis, design and implementation of a software intensive system. Introduction to Computer Aided Software Engineering (CASE).

COMP 351 DISTRIBUTED COMPUTING (3)
Three hours lecture per week
Prerequisites: COMP 151
Learn effective use of remote objects and component technologies in computer programs. Study of fundamentals of distributed programming technologies. Build expertise in using modern tools and services to transparently integrate local and remote resources to solve problems.

COMP 362 OPERATING SYSTEMS (3)
Three hours lecture in the lab per week
Prerequisite: COMP 262
Examination of the principal types of systems including batch, multi-programming, and time-sharing. Networked systems are also discussed. The salient problems associated with implementing systems are considered including interrupt or event driven systems, multitasking, storage and data base management, and input-output. Emphasis will be placed on some of the simple algorithms used to solve common problems encountered such as deadlocks, queue service, and multiple accesses to data. Projects will be implemented to reinforce the lectures.

COMP 364 COMPUTER APPLICATIONS IN BIOMEDICAL FIELDS (3)
Three hours lecture in the lab per week
Prerequisite: BIOL 201 or consent of the instructor
Current applications of computers and data processing technology to the understanding and solving of specific problems in biomedical fields.

COMP 410 DATABASE THEORY AND DESIGN (3)
Three hours lecture in the lab per week
Prerequisite: COMP 350
Topics include: database structure including: structure definition, data models, semantics of relations, and operation on data models; database schemas: element definition, use and manipulation of the schema; elements of implementation.; algebra of relations on a database; hierarchical data bases. Discussion of information retrieval, reliability, protection and integrity of databases.

COMP 420 UNIX FOR PROGRAMMERS (3)
Three hours lecture per week
Prerequisite: COMP 151 and COMP 362
In this course students will become proficient in the use of Unix operating environment including command line Unix utilities, vi and emacs editors, regular expressions, text processors and Unix shells. Discover fundamental Perl and its application in programming CGI. Learn how to write in C utilities that control the operating environment through the use of system calls. Find out how to develop programs using Unix facilities.

COMP 421 DESIGN OF COMPILERS (3)
Three hours lecture in the lab per week
Prerequisite: COMP 232
Organization of compilers including lexical and syntax analysis, symbol tables, object code generation, code optimization techniques, and overall design. Compilation techniques and run-time structures.

COMP 424 COMPUTER SYSTEM SECURITY (3)
Three hours lecture in the lab per week
Prerequisite: COMP 350
COMP 425 COMPUTER GAME PROGRAMMING (3)
Three hours lecture per week
Prerequisite: COMP 151
This course focuses on exploring software techniques for
development of computer-controlled games. The topics include: principles of game design, integrating graphics, animation and audio in games, game control including methods based on artificial intelligence, networking for multi-player games, game optimization and deployment, and game development cycles.

COMP 429 COMPUTER NETWORKS (3)
Three hours lecture in the lab per week
Prerequisite: COMP 232 and COMP 362
Basic software design and analysis considerations in networking computers into coherent, cooperating systems capable of processing computational tasks in a distributed manner. Network topology, routing procedures, message multiplexing and process scheduling techniques will be discussed.

COMP 437 FOUNDATIONS OF COMPUTER GAME DEVELOPMENT (3)
Three hours lecture per week
Prerequisites: COMP 105, MATH 137, ART 205, ART 206 or instructor permission
This course lays down the foundation for a multi-disciplinary approach to computer game development. The students study game design principles followed by implementation methodologies and technologies. Management issues in the gaming industry are also examined. The students develop an understanding of how various perspectives from art, technology and business come together in the creation of compelling and profitable game entertainment.
GenEd: B4, Interdisciplinary

COMP 447 SOCIETAL ISSUES IN COMPUTING (3)
Three hours lecture in the lab per week
Prerequisite: Senior standing
A survey course on the role of the digital computer in modern society. Topics include: dangers of the misuse of computers, privacy, copyright, computer crime, legal and social issues, as well as the proper and intelligent use of the machines.
GenEd: B4, D, Interdisciplinary

COMP 449 HUMAN-COMPUTER INTERACTION (3)
Three hours lecture in the lab per week
Prerequisite: Programming experience or consent of the instructor
The information exchange between humans and computer systems will be examined. Aspects of input/output devices, software engineering, and human factors will be discussed with respect to human-computer interactions. Topics include: text and graphic display; user modeling; program design, debugging, complexity and comprehension; and current research studies and methodologies.
Same as PSY 449
GenEd: B4, E, Interdisciplinary

COMP 451 ADVANCED OBJECT-ORIENTED PROGRAMMING (3)
Three hours lecture in the lab per week
Prerequisite: COMP 350
Principles of object-oriented design and programming based on languages such as JAVA, C++ and Smalltalk will be presented. Understanding of the role of objects, methods, message passing, encapsulation, and inheritance for effective programming will be stressed. Language structure versus particular engineering objectives will be analyzed. Design Patterns techniques will be an unifying theme.

COMP 452 COMPUTATIONAL BIOINFORMATICS (4)
Four hours lecture in the lab per week
Prerequisite: Programming experience and Statistics, or consent of the instructor
Basic computational models used in molecular biology will be introduced. Topics include algorithms for string alignments, dynamic programming, structural superposition algorithms, computing with differential information, 3D motifs, Hidden Markov Models, phylogenetic trees, statistical/information techniques for pattern recognition, genetic algorithms.
Same as MATH 452
COMP 454 AUTOMATA, LANGUAGES, AND COMPUTATION (3)
Three hours lecture in the lab per week
Prerequisite: MATH 300
Study of the relation of languages (i.e. sets of strings) and machines for processing these languages, with emphasis on classes of languages and corresponding classes of machines. Phrase structure languages and grammar. Types of grammars and classes of languages. Regular languages and finite state automata. Context-free languages and pushdown automata. Unrestricted languages and Turing Machines. Computability models of Turing, Church, Markov, and McCarthy. Applications to programming languages, compiler design, and program design and testing.

COMP 464 COMPUTER GRAPHIC I (3)
Three hours lecture in the lab per week
Prerequisite: COMP 350 and MATH 240
Topics include: fundamental concepts of computer graphics; graphics devices; graphics languages; interactive systems; applications to art, science, engineering and business; trade-offs between hardware devices and software support.

COMP 466 COMPUTER GRAPHIC II (3)
Three hours lecture in the lab per week
Prerequisite: COMP 464
Advanced concepts of computer graphics. Topics include computer graphics software and hardware, mathematical basis of geometric modeling, data base management in manufacturing environments, imagining and visualization.

COMP 469 ARTIFICIAL INTELLIGENCE/NEURAL NETS (3)
Three hours lecture in the lab per week
Prerequisite: COMP 350 and COMP 362
An exploration of the use of computers to perform computations normally associated with intelligence, pattern formation and recognition using various backpro iterations. Stacks, decision trees and other modern mining tools and computational models for knowledge representation will be covered. Other topics may include natural language and imagining.

COMP 490 TOPICS IN COMPUTER SCIENCE (3)
Three hours lecture per week
Prerequisite: Upper-division standing
Current issues in computer science.

COMP 492 INTERNSHIP (1-3)
Prerequisite: Upper-division standing and program approval of written proposal
Supervised work and study in an industrial or scientific setting involving development of degree-related skills. All students are required to present their projects at the Senior Colloquium.

COMP 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Upper-division standing and program approval of written proposal
Supervised project involving theoretical research in the field of computer science and its applications. All students are required to present their projects at the Senior Colloquium.

COMP 497 DIRECTED STUDIES (3)
Prerequisite: Program approval of written proposal
Supervised project involving library research in the field of computer science or its applications. All students are required to present their projects at the Senior Colloquium.

COMP 499 SENIOR COLLOQUIUM (1)
One hour seminar per week
Prerequisite: Senior standing
Oral presentations of current advancements in the field, and reports on students’ projects. Repeatable.

COMP 510 ALGORITHMS (3)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Design strategies for algorithms and data structures. Theoretical limits to space and time requirements. Time/space trade-offs. Categories of problems and algorithms. Applications to business, bioinformatics, engineering, telecommunications and other disciplines. Open problems in the field.

COMP 520 ADVANCED DATABASE SYSTEMS (3)
Three hours lecture in the lab per week.
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
This graduate course covers advanced analysis of Relational Database Management Systems including their design and implementation. Topics include relational algebras, Entity Relation Diagrams, first, second, and third Normal Forms, data integrity constraints, triggers, query optimization, indexing, stored procedures, distributed databases, database administration issues, transaction processing and scheduling, object oriented database modeling, and data security.
COMP 524 SECURITY (3)
Three hours lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
A survey of security issues and techniques for stand-alone and networked computer systems including databases. Techniques such as auditing, risk analysis, cost-benefit analysis. Security standards. Application in various fields.

COMP 529 NETWORK COMPUTING (3)
Three hours of lecture in the lab per week.
Prerequisites: Prerequisite: Admission to the Computer Science or Mathematics Graduate Program and Consent of the Instructor
Design and programming in Java of distributed systems that use telecommunication networks as their computing platform.

COMP 532 COMPUTATIONAL BIOINFORMATICS (3)
Three hours of lecture in the lab per week.
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program and consent of the instructor
Contemporary computational models used in molecular biology and structures simulations will be introduced. Topics include dynamic programming, statistical/information techniques for pattern recognition, algorithms for string alignments, structural superposition algorithms, computing with differential information, 3D motifs, Hidden Markov Models, phylogenetic trees, genetic algorithms.

COMP 549 HUMAN-COMPUTER INTERACTION (3)
Three hours lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
The design, development and analysis of effective interfaces to computer systems. Trends in graphical user interfaces.

COMP 550 OBJECT-ORIENTED SOFTWARE ENGINEERING (3)
Three hours lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program and consent of the instructor
Fundamentals of Object-Oriented Design and Analysis. Designing systems with Unified Modeling Language (UML) and patterns. Applications to other fields.

COMP 566 GEOMETRY & COMPUTER GRAPHIC (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Algorithms for geometric analysis and retrieval of 3D shapes from large 3D databases common in several fields, including computer graphics, computer-aided design, molecular biology, paleontology, and medicine. The focus of study will be recent methods for matching, registering, recognizing, classifying, clustering, segmenting, and understanding 3D data.

COMP 569 ARTIFICIAL INTELLIGENCE (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
The course covers the many aspects of how human intelligence might be encoded in computer programs and mechanisms such as robots. This includes topics in Natural Language Processing, Computer Vision, Expert Systems, and Automated Problem Solving.

COMP 571 BIOLOGICALLY INSPIRED COMPUTING (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Study of computing paradigms that have roots in Biology including Neuromorphic Systems, Evolutionary Systems, Genetic Programming, Swarm Intelligence and Artificial Immune Systems.

COMP 572 NEURAL NETWORKS (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Covers the basic ideas of distributed computation with many simple processing units, similar to the neurons of the brain. Topics include: Hopfield style networks applied to optimization problems, and the backpropagation method applied to pattern classification problems. Additional topics include associate memory, binary vs. analog networks, simulated annealing.

COMP 575 MULTI-AGENT SYSTEMS (3)
Three hours lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Analysis of design issues that currently confront software engineers as they define the electronic ecosystem that will be housed in the computer networks of the future. The course focuses on state-of-the-art agent technology. In this course the student will build an agent development framework and then implement several intelligent agents.

COMP 578 DATA MINING (3)
Three hours lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
This graduate course covers the fundamentals of Data Mining. Topics include: the analysis of patterns of data in large databases and data warehouses, the application of statistical pattern recognition, and data modeling and knowledge representation. Applications in large databases and gene hunting.
COMP 581 MATHEMATICAL METHODS IN ARTIFICIAL INTELLIGENCE (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Same as MATH 581

COMP 597 MASTER THESIS (1-9)
Supervised research in the field of computer science or its applications. Required to present their research at Graduate Seminar.

COMP 598 MASTER PROJECT (1-9)
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Supervised industrial or scientific project involving design of new solutions in various applications. Required to present projects at the Graduate Seminar.

COMP 599 GRADUATE SEMINAR (1)
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Oral presentations of current advancements in the field, reports on students’ research, master thesis, and projects. Repeatable.

DANCE
See Performing Arts - Dance

ECONOMICS

ECON 110 PRINCIPLES OF MICROECONOMICS (3)
Three hours lecture per week
The application of economic reasoning to the decisions of consumers and producers. Topics include opportunity cost, resource allocation, the price system, the organization of industry, market failures, distribution of income, public sector economics.
GenEd: D

ECON 111 PRINCIPLES OF MACROECONOMICS (3)
Three hours lecture per week
Study of the workings of the economy. Topics include national income accounting, business cycles, employment and unemployment, inflation, economic growth, financial institutions, fiscal and monetary policy, and international trade.
GenEd: D

ECON 300 FUNDAMENTALS OF ECONOMICS (3)
Three hours lecture per week
Basic economic training for citizens who wish to exercise a reasoned judgment about economic issues in public affairs. Content generally same as ECON 110, ECON 111 in condensed form. Not open to students with credit in ECON 110 or ECON 111.
GenEd: D

ECON 310 INTERMEDIATE MICROECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 110, ECON 111 and MATH 140 or MATH 150
Economic analysis of the decisions of consumers and producers. Emphasis on the theory of consumer behavior, the theory of the firm, price and output determination in various market structures, factor markets and externalities.

ECON 311 INTERMEDIATE MACROECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 110, ECON 111 and MATH 140 or MATH 150
Determinants of levels of national income, employment, and price levels. Analysis of secular and cyclical changes in economic activity, and the effects of monetary and fiscal policies on these changes.

ECON 320 MONEY AND BANKING (3)
Three hours lecture per week
Prerequisite: ECON 110, ECON 111 and MATH 140 or MATH 150
Nature and functions of money and its relation to prices; the monetary system of the United States; the functions of banks, bank credit, foreign exchange and monetary control. The impact of monetary policy on economic activity.
ECON 329 MANAGERIAL ECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 110, ECON 111 and MATH 140 or MATH 150
Development of the tools of marginal analysis and their application to managerial decisions and planning. Topics include demand analysis, production and cost, pricing and output decisions under different market structures. Product and factor markets will be analyzed.

ECON 331 NARRATIVES OF THE WORKING CLASS (3)
Three hours lecture per week
Examines the lives of working people using various thematic approaches and disciplinary methodologies. Materials include literature, film, and case studies. Same as ENGL 331, SOC 331, HIST 331, POLS 331
GenEd: C2,D,Interdisciplinary

ECON 340 BUSINESS AND ECONOMICS IN AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Explores the ways in which business and economics have been represented in American literature. Employs critical methodologies from the fields of Business, Economics, and Literary studies. Same as BUS 340, ENGL 340
GenEd: C2,D,Interdisciplinary

ECON 341 DRUG DISCOVERY & DEVELOPMENT (3)
Three hours lecture per week
How are drugs discovered? What determines the price for a drug? What is the difference between a generic and non-generic drug? These questions will be examined with an interdisciplinary approach. Topics include the isolation of compounds from natural sources, the screening of compounds for biological activity, structure-activity relationships of drugs, computer-assisted drug design, combinatorial chemistry, bioinformatics, the FDA approval process for new drugs, and the economic and business aspects of pharmaceutical investment and development. Same as CHEM 341, BUS 341
GenEd: B1,D,Interdisciplinary

ECON 342 THE ZOO: CONSERVATION, EDUCATION AND RECREATION (3)
Three hours lecture per week
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required. Same as BIOL 342, BUS 342, EDUC 342
GenEd: D,Interdisciplinary

ECON 343 CAPITAL THEORY (3)
Three hours lecture per week
Intertemporal choice and decision-making under uncertainty in our financial lives. Topics include: multi-period consumption, multi-period production, capital budgeting, modern portfolio theory and financial management. Same as FIN 343
GenEd: D,Interdisciplinary

ECON 349 HISTORY OF BUSINESS AND ECONOMICS IN NORTH AMERICA (3)
Three hours lecture per week
Examines the growth and development of the economies of North America since colonial times. Addresses social, ethical, economic and management issues during the development of Canada, the United States, and Mexico. Analyzes the business principles underlying the growth and development of the economies. Same as HIST 349, BUS 349
GenEd: D,Interdisciplinary

ECON 362 ENVIRONMENTAL ECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 110 and ECON 111, or ECON 300
Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources are examined. Private (market) and public (government) solutions to environmental problems are examined.

ECON 370 THE WORLD ECONOMY (3)
Three hours lecture per week
Prerequisite: ECON 110 or ECON 300
Theory, practice, and institutions of the international economy. Topics include international trade and investment, balance of payments, foreign exchange rates, international institutions in the global economy, and international economic policy.

ECON 411 ECONOMICS OF ENTREPRENEURSHIP (3)
Three hours lecture per week
Prerequisite: ECON 110 and ECON 111
Application of economic concepts to entrepreneurial strategies and decisions. Analysis of entrepreneurial activities as related to production, markets, innovation, risk, and the macroeconomy.

ECON 415 INDUSTRIAL ORGANIZATION (3)
Three hours of lecture per week
Prerequisite: ECON 310 or ECON 329
A theoretical and empirical examination of the structure, conduct and performance of industries. Topics include market structures, games and strategy, and pricing strategy.

ECON 425 LABOR ECONOMICS (3)
Three hours of lecture per week
Prerequisite: ECON 310 or ECON 329
An examination of the employment of labor as a factor of production. Topics include employment, wage rates, unions and collective bargaining, and labor legislation.
ECON 450 PUBLIC SECTOR ECONOMICS (3)
Three hours of lecture per week
Prerequisite: ECON 310 or ECON 329
The economic role of government with an emphasis on the allocation and distribution effects of government expenditures and taxation.

ECON 455 URBAN AND REGIONAL ECONOMICS (3)
Three hours of lecture per week
Prerequisite: ECON 310 or ECON 329
Economic analysis of urban and regional problems including the formation of cities, urban finance and services, growth, land use, transportation, income distribution, pollution, congestion, and law enforcement.

ECON 464 NATURAL RESOURCE ECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 310 or ECON 329
Microeconomics and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fishery, energy, water and mineral economics.

ECON 471 INTERNATIONAL TRADE (3)
Three hours lecture per week
Prerequisite: ECON 310 or ECON 329
The theory of international trade, effects of tariff and non-tariff barriers, and conduct of commercial policy. Topics include theories of comparative advantage, gains from trade, distribution effects of trade, international factor movements and trade restrictions, the political economy of trade and industrial policy.

ECON 472 INTERNATIONAL MACROECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 311 or ECON 320
Macroeconomic analysis of the open economy, the impact of stabilization policies in a global economy, the role of the balance of payments, and the international monetary system. Topics include balance of payments accounts, spot-forward exchange rates, interest rate arbitrage, purchasing-power parity, exchange rate determination and macroeconomic policy in an open economy.

ECON 473 DEVELOPMENT ECONOMICS (3)
Three hours lecture per week
Prerequisites: ECON 310 or ECON 329
Economic underdevelopment and its causes from historical, institutional and structural perspectives. Theories and patterns of growth and development, and the role of government, trade, education. Regional focus may vary by semester.

ECON 480 TOPICS IN ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3)
Three hours lecture per week
Prerequisite: ECON 362 or ECON 464 or consent of the instructor
Application of economic analysis to topics in environmental and natural resource economics. Representative topics include: energy problems and policies, the measurement of market and non-market benefits and costs, endangered species management. Repeatable by topic.

ECON 488 APPLIED MANAGERIAL ECONOMETRICS (4)
Three hours lecture and two hour lab per week
Prerequisite: BIOL/MATH/PSY 202 or MATH 329 or MATH 352, ECON 310 or ECON 329 and MATH 150
Emphasis on the collection and manipulation of economic data, and the application of econometric methods to business and resource management issues. Development of testable hypotheses, applications of estimation techniques and interpretation of regression results. Use of econometric software applications to estimate statistical relations.

ECON 490 SPECIAL TOPICS (3)
Three hours per week
Prerequisite: Consent of the instructor
In-depth analysis of current topics in economics. Topics vary each semester. Repeatable by topic.

ECON 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Individual internship through service learning.
Graded Credit/No Credit

ECON 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study on topics or research selected by the student and faculty mentor. Repeatable for up to nine units.
Graded Credit/No Credit

ECON 499 CAPSTONE (3)
Three hours of seminar per week
Prerequisites: Required upper division courses in economics major (may be taken concurrently) and senior standing.
In the capstone course, economics majors will analyze an economic issue stemming from their emphasis using the theoretical and empirical tools developed in the required major courses. The economic issue may be drawn from an internship or service learning placement. The course will culminate with a senior paper that is presented in class.
EDMC 550 THEORY AND METHODS OF BILINGUAL EDUCATION (2)
Two hours lecture per week
Prerequisite: Admission to the Education Specialist: Mild/ Moderate Disabilities Credential Program or Holder of Valid Teaching Credential
This course increases the ability of participants to work and communicate cross-culturally and effectively with students and parents from diverse cultural and socio-economic backgrounds. To identify and apply basic cross-cultural, language and academic development competencies, to participate in culturally and linguistically effective programs, and to develop and use appropriate and responsive teaching strategies for multilingual/multicultural populations. This course addresses the needs of teachers faced with the growing diversity that exists in today’s classrooms.

EDMC 560 APPLICATION OF MAINSTREAM AND ENGLISH LANGUAGE DEVELOPMENT (2)
Two hours lecture per week
Prerequisite: Admission to the Education Specialist: Mild/ Moderate Disabilities Credential Program or Holder of Valid Teaching Credential
Application of content and teaching methods for second language learners. Design of curricular and instructional programs for Language Minority/Limited English Proficient/English Language Development student, methods of language and content assessment, role and utilization of primary language, the use of SDAIE (Specially Designed Academic Instruction in English) in content instruction.

EDMS 522 LITERACY 1: MULTICULTURAL/MULTILINGUAL (3)
Three hours of lecture/discussion per week
Prerequisite: Admission to the Multiple Subject Teacher Credential Program
Co-requisite: EDMS 562 (1-2 units) or EDMS 565
Topics include developmental theory and practice of the reading and writing process across the grade levels; study skills; foundations of reading and writing theory and practice for students who speak English as a first or second language; teaching reading and writing to native English speakers and English Language Learners in English-only, Multilingual and Bilingual contexts; literacy and language needs of English Language Learners and exceptional children; technology for teaching and learning is integrated.

EDMS 523 LITERACY 2: MULTICULTURAL/MULTILINGUAL (4)
Four hours lecture/discussion per week
Prerequisite: Admission to the Multiple Subject Teacher Credential Program
Co-requisite: EDMS 562 (1-2 units) or EDMS 575
Differentiated instruction and scaffolding for English language learners, special education (including gifted) and English only students. Topics include reading and writing skills across the content areas and literature-based instruction for native English speakers and English Language Learners in English-only, Multilingual and Bilingual contexts. Needs of English Language Learners and exceptional children, technology for teaching and learning are integrated.

EDMS 526 MODERN METHODS IN MATHEMATICS TEACHING (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Multiple Subject Teacher Credential Program
Co-requisite: EDMS 562 (1-2 units) or EDMS 565
Students learn to apply techniques and materials to teaching mathematics in elementary and middle schools. Special attention will be given to mathematical reasoning, problem solving skills, multiple representations and approaches including verbal, symbolic, graphic. Modern methods, including mathematical modeling, use of new technology and modern educational software will be stressed. Needs of English Language Learners and exceptional children, technology for teaching and learning are integrated.

EDMS 527 HISTORY, SOCIAL STUDIES AND INTEGRATED ARTS (4)
Four hours of lecture/discussion per week
Prerequisite: Admission to the Multiple Subject Teacher Credential Program
Co-requisite: EDMS 562 (1-2 units) or EDMS 565
Focuses on curriculum for History, Social Sciences and Arts as delineated by the California Content Area Standards and the Curriculum Frameworks. Includes curriculum development, methods, techniques, planning and assessment in history, social studies and integrated arts. Needs of English Language Learners and exceptional children, technology for teaching and learning are integrated.

EDMS 529 SCIENCE, HEALTH AND PHYSICAL EDUCATION (4)
Four hours lecture/discussion per week
Prerequisite: Admission to the Multiple Subject Teacher Credential Program
Co-requisite: EDMS 562 (1-2 units) or EDMS 575
Study of the application of recommended methods for teaching physical, life and earth science, health and physical education to students (K-8) based on
research and theory. Students reflect upon their personal development and abilities to integrate theory and practice in science, health and physical education with other subject areas. Needs of English Language Learners and exceptional children, technology for teaching and learning are integrated.

EDMS 562 FIELD EXPERIENCE MULTIPLE SUBJECT (PART-TIME PROGRAM) (2)
One full school day per week in local public schools
Prerequisite: Admission to the Multiple Subject Credential Program
Co-requisite: Any of the following two: EDMS 522, 523, 526, 527, or 529
Participatory observation in selected schools under the supervision of classroom teacher and university supervisor.
Graded Credit/No Credit

EDMS 565 INITIAL STUDENT TEACHING MULTIPLE SUBJECT (7)
Equivalent of eight weeks of full-time student teaching
Prerequisite: Admission to the Multiple Subject Credential Program
Co-requisite: EDMS 566
Participatory observation and teaching in selected schools under the supervision of classroom teacher and university supervisor, with a student teaching seminar.
Graded Credit/No Credit

EDMS 566 INITIAL STUDENT TEACHING SEMINAR MULTIPLE SUBJECT (1)
Bi-weekly two hour discussion
Prerequisite: Admission to the Multiple Subject Credential Program
Co-requisite: EDMS 565
Discussion and seminar with University Supervisor to discuss practical issues relevant to the student teaching experience.
Graded Credit/No Credit

EDMS 575 ADVANCED STUDENT TEACHING MULTIPLE SUBJECT (7)
Equivalent of eight weeks of full-time student teaching
Prerequisite: Admission to the Multiple Subject Credential Program
Co-requisite: EDMS 576
Participatory observation and teaching in selected schools under the supervision of classroom teacher and university supervisor, with a student teaching seminar.
Graded Credit/No Credit

EDMS 576 ADVANCED STUDENT TEACHING SEMINAR MULTIPLE SUBJECT (1)
Bi-weekly two hour discussion
Prerequisite: Admission to the Multiple Subject Credential Program
Co-requisite: EDMS 575
Discussion and seminar with University Supervisor to discuss practical issues relevant to the student teaching experience.
Graded Credit/No Credit

EDUCATION – PRINCIPALS LEADERSHIP

EDPL 610 FOUNDATIONS OF CURRICULUM, INSTRUCTION, AND ASSESSMENT (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Theories for design of curriculum, instruction and assessment in an inclusive school environment will be addressed. Topics include standards based curriculum, differentiated instruction, using assessment data to design on-going instruction at the classroom level, dynamics of the curriculum change process. Course results in the development of a deep and internalized understanding of effective teaching, learning and assessment for all students including English Language Learners and students with special needs.

EDPL 620 INSTRUCTIONAL LEADERSHIP OF THE COLLABORATIVE INCLUSIVE SCHOOL (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Leadership skills needed for implementation and evaluation of instructional programs that meet the needs of all learners. Focus on skills needed to involve teachers in reform and renewal of educational practice, shared instructional decision making and systematic improvement processes. Topics include skills needed for effective instructional supervision at the program and individual level, development of instructional staff, mentoring, coaching, direct instructional supervision integrated with the personnel decision making process involving hiring, renewal of contracts and granting of tenure.

EDPL 621 LAW AND SCHOOL MANAGEMENT (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Application of federal, state and local law to school government and management. Topics include legal principles of statutes and case law related to conduct of students, contracts, liabilities, torts, and individual rights; legal framework for the governance of public education; the role of the legislative process in the governance of schools; legal requirements of ”due process” as it relates to students, parents, and school personnel; and special education law and procedures.
EDPL 622 SCHOOL FINANCE AND PRINCIPLES OF APPLIED LEADERSHIP (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Application of the principles of leadership and management as found in the research literature to school and finance and management issues. Topics include public school finance, effective management of fiscal resources and business services at the site, budget development and implementation at the site level to support instructional program priorities and needs of instructional staff in meeting the needs of all students. Communication, human relations, power and authority, decision-making, managing conflict, facilitating change in the context of student management, health, safety, security, school community relations, and school support services (food services, custodial services, facilities maintenance.)

EDPL 623 UNDERSTANDING AND INFLUENCING ORGANIZATIONS IN DIVERSE COMMUNITIES (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Organizational theory and leadership skills required to understand and implement change. Topics include organizational structures and the cultural context of schooling, moral and ethical leadership skills needed to guide, build consensus, resolve conflict, support risk-taking, and lead an entire school community in pursuit of a shared vision of educational excellence for all students.

EDPL 624 HUMAN RESOURCE MANAGEMENT IN EDUCATION SETTINGS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Leadership knowledge and skills needed to manage a Human Resource Program including personnel administration, supervision, assignment monitoring, negotiation and administration of contracts, supervision of risk management programs and all legal aspects of Human Resources administration.

EDPL 625 BUILDING COLLABORATIVE, INCLUSIVE LEARNING COMMUNITIES (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Principals Leadership Program
Understanding and applying the skills needed to build an inclusive learning community. Topics include roles and relationships among students, staff, adults and families, professional development, shared decision making, teacher leadership, supporting special populations within the school, designing and implementing strategic plans focused on improved student achievement for all learners.

EDPL 631 PROFESSIONAL DEVELOPMENT/FIELDWORK I (1)
Three three-hour seminars per semester and 20 hours of field experience
Prerequisite: Admission to the Principals Leadership Program
Collaborative assessment (student, university instructor, and mentor) of each candidate’s competence for meeting CCTC standards and development of professional induction plan. Integration of fieldwork and application of knowledge and skills of entry level administrative position in local school or program settings. May be repeated for a maximum of two units. Graded Credit/No Credit

EDPL 632 PROFESSIONAL DEVELOPMENT/FIELDWORK II (1-2)
Six three-hour seminars per semester and 40 hours of field experience
Prerequisite: Admission to the Principals Leadership Program
Continuing assessment of candidate competence for meeting CCTC standards integration of fieldwork, and application of knowledge and skills of entry level administrative position in local school or program settings. May be repeated for a maximum of four units. Graded Credit/No Credit
EDUCATION – SINGLE SUBJECT

EDSS 530 GENERAL SECONDARY SCHOOL METHODS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 570 (1-2 units) or EDSS 575
Students learn and apply teaching strategies, assessment practices, lesson planning, and universal instructional design as appropriate for secondary classrooms. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms. Places special emphasis on middle school teaching and the middle school concept. Students will be placed in middle schools for the field placement/student teaching.

EDSS 531 TEACHING MATHEMATICS IN MIDDLE SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 570 (1-2 units) or EDSS 575
A study of content, methodology, materials and current research in teaching middle school mathematics. Focuses on the state curricular mathematics frameworks appropriate for middle school classrooms. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 532 TEACHING SCIENCE IN MIDDLE SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 570 (1-2 units) or EDSS 575
A study of content, methodology, materials and current research in middle school science teaching. Focuses on developing science process skills in middle school students. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 533 TEACHING WRITING AND LITERATURE IN SECONDARY SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 570 (1-2 units) or EDSS 575
A study of content and methods in teaching critical expository writing, including methods of research and documentation and content and methods in teaching literature to secondary students. Focuses on the teaching of major literary genres. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 540 LITERACY IN SECONDARY SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 570 (1-2 units) or EDSS 575
Secondary students will learn methods and techniques for reading, writing, language and literacy across the secondary curriculum including students with varied language backgrounds. Emphasis on how language and literacy issues and processes are crucial to successful student learning and successful teaching across contexts and content areas. This course addresses the special needs of proficient readers and adolescents who struggle as readers. Includes approaches and methods that are consistent with a comprehensive, systematic program, and are aligned with the state adopted academic content standards for students in English language arts and the reading/language arts framework. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.
EDSS 541 TEACHING MATHEMATICS IN SECONDARY SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 580 (1-2 units) or EDSS 585
A study of content, methodology, materials and current research in teaching secondary mathematics courses. Focuses on the curricular framework of mathematics as appropriate for high school courses. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 542 TEACHING LIFE/PHYSICAL/GEO-SCIENCE IN SECONDARY SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 580 (1-2 units) or EDSS 585
A study of the content, methodology, materials and current research in teaching high school science courses. Focuses on methods, curriculum design, and technology use specific to teaching science courses in grades 9-12. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 543 TEACHING LANGUAGE SKILLS IN SECONDARY SCHOOLS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 580 (1-2 units) or EDSS 585
A study of content and methods in teaching the essentials of English language study, including the history of the English language, key models of English grammar, and a variety of applied topics ranging from semantics and dialect study to current research in the teaching of English. Emphasizes reflective practice based on California Standards for the Teaching Profession and the use and alignment of curricula to the Academic Content Standards for California Public Schools. Includes an emphasis on teaching in multicultural, multilingual and inclusive classrooms.

EDSS 550 ACCESS TO LEARNING: ENGLISH LANGUAGE LEARNERS (2)
Two hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
Various curricula and instructional programs designed for English language learners, including placement, grouping, methods of language and content assessment, English language development and specially designed academic instruction in English. Examination and application of theoretical and methodological issues in designing instruction for ELLs in classroom settings through reflective and critical practice.

EDSS 560 ACCESS TO LEARNING: SPECIAL NEEDS LEARNERS (2)
Two hours lecture/discussion per week
Prerequisite: Admission to the Single Subject Credential Program
This course focuses on methods and techniques for identifying and teaching students with special needs, culturally diverse, and gifted and talented students, and the unique issues associated with integrating students with special needs in secondary settings.

EDSS 570 FIELD EXPERIENCE MIDDLE SCHOOL (PART-TIME PROGRAM) (1)
Four hours per week in a middle school setting
Prerequisite: Admission to the Single Subject Credential Program.
Co-requisite: One of the following: EDSS 530, 531, 532, 533, or 540
Participatory observation in selected middle schools under the supervision of a classroom teacher and University supervisor. May be repeated for to a maximum of four units.
Graded Credit/No Credit

EDSS 571 STUDENT TEACHING SEMINAR-MIDDLE SCHOOL (1)
Bi-weekly two hours of discussion
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 575
Bi-Weekly meetings to discuss observations and teaching practice during student teaching. Discussion and seminar with University supervisor to discuss practical issues relevant to the student teaching experience.
Graded Credit/No Credit
EDSS 575 STUDENT TEACHING MIDDLE SCHOOL (6)
Equivalent of eight weeks of full-time student teaching
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 571
Participatory observation and teaching in selected middle level secondary schools under the supervision of a classroom teacher and University supervisor, with a student teaching seminar.
Graded Credit/No Credit

EDSS 580 FIELD EXPERIENCE HIGH SCHOOL (PART-TIME PROGRAM) (1)
Four hours per week in a high school setting
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 540, 541, 542, or 543
Participatory observation in selected high schools under the supervision of a classroom teacher and University supervisor. May be repeated to a maximum of three units.
Graded Credit/No Credit

EDSS 581 STUDENT TEACHING SEMINAR-HIGH SCHOOL (1)
Bi-weekly two hour discussions
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 585
Discussion and seminar with University supervisor to discuss practical issues relevant to the student teaching experience.
Graded Credit/No Credit

EDSS 585 STUDENT TEACHING HIGH SCHOOL (6)
Equivalent of eight weeks of full-time student teaching
Prerequisite: Admission to the Single Subject Credential Program
Co-requisite: EDSS 581
Participatory observation and teaching in selected high school level secondary schools under the supervision of classroom teacher and University supervisor, with a student teaching seminar.
Graded Credit/No Credit

EDUCATION

EDUC 101 INTRODUCTION TO ELEMENTARY SCHOOLING (3)
Two hours lecture and two hours activity per week
This service learning course provides structured observation and tutoring experiences which reflect a rich array of student diversity in local schools. Emphasis is placed on gaining awareness of connections between discipline knowledge and teaching and learning. This course will help students decide if a career in the elementary teaching profession is the right choice for them. Thirty hours of field experience in elementary schools is required.
GenEd: D

EDUC 320 EDUCATION IN MODERN SOCIETY (3)
Three hours lecture per week
Survey of educational institutions and practices used in different sectors of society. Includes historical and philosophical foundations of American education.
GenEd: D

EDUC 330 INTRODUCTION TO SECONDARY SCHOOLING (3)
Two hours lecture/discussion and two hours field observations per week
Through this course students are introduced to secondary school concepts and issues. Topics include middle school and high school organization and structures, the roles of school personnel, and teaching in specific content areas. Students will be placed in local middle and high schools classrooms in their content major and have seminars with university educators and content specialists to discuss subject matter coverage and teaching at various grade levels. It is recommended that students be concurrently enrolled in a core content course in their major. Field experience in secondary schools required.
GenEd: D, Interdisciplinary

EDUC 342 THE ZOO: CONSERVATION, EDUCATION AND RECREATION (3)
Three hours lecture per week
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
Same as BIOL 342, BUS 342, ECON 342
GenEd: D, Interdisciplinary
EDUC 345 MEDIA LITERACY & YOUTH CULTURE (3)
Three hours lecture per week
This interdisciplinary course examines the relationship between mass communication, mass media, and youth culture. Topics include the theories and effects of mass communication, in particular the effects of mass media on children and adolescents. To develop media literacy, students will apply these concepts to their own experiences with popular media, including television, print, and film.
Same as COMM 345
GenEd: A1,D,Interdisciplinary

EDUC 434 THE MUSEUM: CULTURE, BUSINESS AND EDUCATION (3)
Three hours lecture per week
This course is an interdisciplinary, in-depth study of a museum from the perspective of art, business, and education. Analyzes how artistic values, business and management issues and educational projects are linked within museum practices. Each term this course is offered it will focus on a specific museum in the area.
Same as ART 434, BUS 434
GenEd: C1,D,Interdisciplinary

EDUC 451 THE CHICANO/MEXICANO CHILD & ADOLESCENT (4)
Three hours lecture and two hours community service per week
Examines the socio-cultural experiences and political/economic realities pertinent to the daily lives of Chicano and Mexican-origin children and adolescents. Emphasis will be on contemporary issues and effective educational and cultural practices for working with children and their families within Chicano/Mexican communities. Field study requirement involves making connections and working in a child-centered setting or related service project.
GenEd: C3B,D

EDUC 490 SPECIAL TOPICS IN EDUCATION (1-3)
Prerequisite: Consent of the instructor
In-depth analysis of current topics in Education. Topics vary each semester. Repeatable by topic.
Student Option: Graded or CR/NC

EDUC 494 INDEPENDENT RESEARCH (1-3)
Students design and implement a study project in conjunction with a faculty member. Repeatable.
Student Option: Graded or CR/NC

EDUC 497 DIRECTED STUDIES (1-3)
Provides student credit for curricular activities under the direction of an Education faculty member. Repeatable.
Graded Credit/No Credit

EDUC 499 SENIOR CAPSTONE PROJECT/SEMINAR IN EDUCATION (1-3)
Prerequisite: Upper division standing and consent of the instructor
Students work on research or community-based projects in the field of education. A written report of the project is required.
Student Option: Graded or CR/NC

EDUC 510 LEARNING THEORY AND DEVELOPMENT APPLIED IN MULTICULTURAL CONTEXTS (3)
Three hours lecture/discussion per week and participation/observation in the public schools
Introduction to psychology of learning and instruction. Major concepts, principles, theories and research related to child and adolescent development; human learning; the cognitive, linguistic, social, emotional and physical development. Students begin to use this knowledge to create learning opportunities that support student development, motivation and learning in a social, cultural, and historical context. Includes learning theories and their application to educational practice in multicultural and multilingual classroom settings.
GenEd: C3B

EDUC 512 EQUITY, DIVERSITY AND FOUNDATIONS OF SCHOOLING (3)
Three hours lecture/discussion per week
Principles of effectively teaching students from diverse language, historical, and cultural backgrounds. Includes skills and abilities and community values. Focus on the major cultural and ethnic groups. Attention to ways of recognizing and minimizing bias in the classroom and ways to create equitable classroom community that emphasize the physical, social, emotional and intellectual safety of all students. Includes study of gender bias, diverse students, families, schools and communities and the student’s self-examination of his/her stated and implied beliefs, attitudes and expectations related to these areas of diversity and implications for daily classroom practice.
GenEd: C3B

EDUC 520 OBSERVING AND GUIDING BEHAVIOR IN MULTILINGUAL/MULTICULTURAL AND INCLUSIVE CLASSROOMS (3)
Three hours lecture/discussion per week
Co-requisite: EDUC 521
Through this course students observe children’s behavior in multilingual/multicultural and inclusive classrooms, learn and apply assessment principles and tools, learn how to guide children’s social behavior, and communicate with families. Students learn how to organize and write lesson plans for instruction.

EDUC 521 FIELD EXPERIENCE (1)
Three hours per week in local public schools
Co-requisite: EDUC 520
Participatory observation in selected schools under the supervision of classroom teacher and university supervisor. Fingerprint clearance is required.
Graded Credit/No Credit
EDUC 605 EDUCATION IN A DIVERSE SOCIETY (3)
Three hours lecture/discussion per week
Prerequisite: Completion of Baccalaureate Degree
This course focuses on effective leadership in working with diverse communities of teachers, students, and families and strategies for effectively involving families of diverse cultures in support of their child's educational achievement. Issues of gender, ethnicity, race, language, culture and disability are addressed in the context of promoting equity and excellence in learning opportunities and social interaction.

EDUC 615 PRINCIPLES OF EDUCATIONAL RESEARCH (3)
Three hours lecture/discussion per week
Prerequisite: Completion of Baccalaureate Degree
This course provides foundational knowledge about the principles of educational research in order to prepare students to conduct independent, disciplined inquiry and applied research in education.

EDUC 616 MASTERS RESEARCH THESIS/PROJECT (1)
Prerequisite: Admission to Masters of Education Program
Independent research on topic of choice with advisor approval. Repeatable.

ENGL

ENGL 102 STRETCH COMPOSITION I (3)
Three hours lecture per week
Focuses not on finished products but rather on helping students develop strategies for using writing to construct meaning, which in turn assists in generating thought-provoking discourse for the intended reader. Upon completing this course, students will have learned that all writing involves a recursive process of thinking and writing strategies often referred to as peer review, invention, prewriting, drafting, revising, and editing. This is the first in a two-course sequence of ENGL 102 and ENGL 103.

ENGL 103 STRETCH COMPOSITION II (3)
Three hours lecture per week
Prerequisite: ENGL 102
Focuses not on finished products but rather on helping students to develop strategies for using writing to construct meaning, which in turn assists in generating thought-provoking discourse for the intended reader. Students/Writers will become well-versed in a variety of approaches to constructing the types of genres required in their college courses and in the workplace. Completion of ENGL 103 fulfills the general education requirement for undergraduate writing and prepares students for success in their courses across the curriculum.
GenEd: A2

ENGL 105 COMPOSITION AND RHETORIC I (3)
Three hours lecture per week
Instruction and practice in writing university-level expository and persuasive prose. The subject matter of the course will be thematic and variable. The focus of the course is the development of proficiency in conceptualizing, analyzing and writing academic papers. Substantial writing is required. This course may be linked with another lower division course, in which case the student will enroll in both courses.
GenEd: A2

ENGL 106 COMPOSITION AND RHETORIC II--SERVICE LEARNING (3)
Two hours lecture and two hour activity per week
This course is designed to help students develop sophisticated, situation-sensitive reading and writing strategies. Students make arguments in formal and informal settings. Special attention is given to evidence discovery, claim support, argument response, and their applications to academic debate, public decision making, and written argument. Requires significant elements of service learning, including producing written work for not-for-profit organizations. A substantial amount of writing is required.
GenEd: A1,A2
ENGL 107 ADVANCED COMPOSITION AND RHETORIC (3)
Three hours lecture per week
Prerequisite: A grade of C or better in ENGL 103 or ENGL 105 or ENGL 106
An intensive, one-semester writing course that emphasizes research as a heuristic for learning, writing as an intellectual dialogue with the authorities represented in the evidence found, and which engages students in judging the merit and appropriateness of discovered evidence. A substantial amount of writing is required.
GenEd: A1,A2

ENGL 110 THEMES IN MULTICULTURAL LITERATURE FOR NON-MAJORS (3)
Three hours lecture per week
Exploration of broad themes in literature across multiple genres and cultures, American and international.
Repeatable by topic.
GenEd: C2,C3B

ENGL 120 AMERICAN LITERATURE I (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
Study of major works of American Literature from colonial times through 1850, with special attention to literary movements. Major writers will be addressed, as well as lesser-known writers from various cultural and regional backgrounds.
GenEd: C2

ENGL 150 BRITISH & EUROPEAN LITERATURE I (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
Survey of major authors in British and European literature from Beowulf to approximately 1650, with special emphasis on the intellectual backgrounds of the Medieval and Renaissance periods.
GenEd: C2

ENGL 210 THEMES IN WORLD LITERATURE (3)
Three hours lecture per week
A survey of world literature, focusing primarily on texts by non-Western authors, organized around one or more themes.
GenEd: C2

ENGL 220 AMERICAN LITERATURE II (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 120 or equivalent or consent of instructor
Study of major works of American literature from 1850 to the present, with special attention to literary movements. Major writers will be addressed, as well as lesser known writers from various cultural and regional backgrounds.
GenEd: C2

ENGL 230 THE ART OF CREATING JOURNALISM (3)
Three hours lecture per week
Prerequisites: ENGL 103 or ENGL 105
This course will integrate concepts from English/journalism, Education and Art. It is designed for students interested in producing print and photo journalism for local community publications. Topics will include journalistic writing styles and techniques, research strategies, interviewing methods, appropriate layout and design techniques. Projects will culminate in a product suitable for publication. No credit given toward the Art major.
GenEd: A2
Same as ART 230, LS 230

ENGL 250 BRITISH & EUROPEAN LITERATURE II (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 150 or equivalent or consent of instructor
Study of major works of British and European literature from approximately 1650 to the present, with special attention to various literary movements.
GenEd: C2

ENGL 310 RESEARCH METHODS (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
Comprehensive investigation of research modalities, including the various forms of electronic research.
Writing intensive.

ENGL 311 BILINGUAL LITERARY STUDIES/ESTUDIOS LITERARIOS BILINGUES (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
This course explores the literatures of the Americas written in two languages: English and Spanish. Course texts will include works written by bilingual U.S. authors and Latin American authors writing primarily in Spanish; genres may include novels, with a special focus on Magical Realism/el realismo magico, short stories/ cuentas, and poetry. Readings will be in the original language; class discussions will be bilingual.
Same as SPAN 311

ENGL 312 INTRODUCTION TO CHILDREN’S LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
An inquiry into children's literature. Students analyze works representative of several cultures and genres, including fiction, poetry, picture books, non-fiction, and traditional literature. Focus will be on critical reading of materials appropriate for grades K-6 as well as analysis of literary elements and structural features. The course will foster appreciation for and understanding of the author's craft through analytical papers, investigatory projects, and creative responses to children's literature.
ENGL 315 INTRODUCTION TO LANGUAGE, STRUCTURE AND LINGUISTICS (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
An examination of the basic components of human language, including phonology, morphology, syntax and semantics, and the differences/similarities among languages. Students will identify examples of speech parts and their functions, morphologies, and syntax.

ENGL 325 MAJOR NON-WESTERN AUTHORS (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 and either ENGL 220 or ENGL 250 (or the equivalent.
A concentrated study of selected non-Western authors. Authors selected change from term to term; therefore, students may take the course for credit more than once. Repeatable by topic.

ENGL 326 MAJOR BRITISH AND EUROPEAN AUTHORS (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 250 or equivalent
Concentrated study of selected British and/or European authors. Authors selected change from term to term; therefore, students may take the course for credit more than once.

ENGL 327 MAJOR AMERICAN AUTHORS (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 220 or equivalent
Concentrated study of selected American authors. Authors selected change from term to term; therefore, students may take the course for credit more than once. Repeatable by topic.

ENGL 328 MYTHOLOGY (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one literature course
Study of mythology and the influence it has had on literature, art, music, and the development of cultures. Course topics may include Classical Mythology, Eastern Mythology, Mythology of the Americas, Egyptian Mythology, and others. Repeatable by topic.

ENGL 330 WRITING IN THE DISCIPLINES (3)
Three hours lecture/discussion per week
Individual and collaborative writing in a variety of styles and forms. Students will learn a variety of writing and research techniques, with special emphasis on writing for their chosen majors. Oral presentations form a portion of the course.
GenEd: A1,A2,Interdisciplinary

ENGL 331 NARRATIVES OF THE WORKING CLASS (3)
Three hours lecture per week
Examines the lives of working people using various thematic approaches and disiplinary methodologies. Materials included literature, film, and case studies.
Same as ECON 331, SOC 331, HIST 331, POLS 331
GenEd: C2,D,Interdisciplinary

ENGL 332 TEACHING DRAMATIC LITERATURE (3)
Three hours lecture per week
Prerequisite: ENGL 102 or ENGL 105 or equivalent plus one upper division literature course
This course will explore methods and approaches to teaching dramatic literature in secondary schools and colleges. The focus will be on elements of textual exploration and using heuristics from theatre to teach dramatic literature, including but not exclusively Shakespeare’s plays.
Same as PATH 332
GenEd: C2,Interdisciplinary

ENGL 333 MULTICULTURAL DRAMA IN PERFORMANCE/PRODUCTION (3)
Three hours lecture/discussion per week
America is a country of many cultures, and each of these has brought legacies of its roots to the American stage. In this course we will read plays written by Native Americans, Hispanic Americans, Asian Americans, African Americans and others. We will also stage mini-productions of one or more of those plays.
Same as PATH 333
GenEd: C2,C3B,Interdisciplinary

ENGL 334 NARRATIVES OF SOUTHERN CALIFORNIA (3)
Three hours lecture/discussion per week
Ours is a region made up of many cultures which produce the one we call Southern California.” In this class we will take a historical approach to study of the narratives – oral, written and filmed – of Southern California. Course work may also include obtaining oral histories and compiling them.
Same as HIS 334
GenEd: C2, D, Interdisciplinary

ENGL 335 AMERICAN ETHNIC IMAGES IN NOVELS, FILM AND ART (3)
Three hours lecture/discussion per week
Examines the portrayal of ethnic groups from an interdisciplinary perspective that includes, but is not limited to, the literary, historical, and anthropological modes of analysis. The course highlights the ways in which artistic works have shaped the intellectual landscape of the United States as they relate to ethnic peoples.
Same as ART 335, HIST 335
GenEd: C2,C3B,Interdisciplinary

ENGL 336 MULTICULTURAL LITERATURE AND COMMUNICATION (3)
Three hours lecture per week
Examines issues of cross-cultural communication in interpersonal and intergroup settings. Works of literature which take cross-cultural communication as a theme will be examined.
Same as COMM 336
GenEd: A1,C2,Interdisciplinary
ENGL 337 LITERATURE OF THE ENVIRONMENT (3)
Three hours lecture/discussion per week
Involves the student in many forms of dialogue on issues pertinent to humanity's relationship with Earth. By reading works by writers from diverse fields and by writing in response, the student will gain a better understanding of our planet and its needs. Emphasis will be placed on writing in modes appropriate to the interdisciplinary field of Environmental Science and Resource Management.
GenEd: C2,D,Interdisciplinary

ENGL 338 SCIENCE AND CONSCIENCE (3)
Three hours lecture/discussion per week
This course is a team-taught, interdisciplinary course that examines various ethical issues within the sciences using case studies. The scientific, historical and social aspects of each case study will be examined from different perspectives. Students will learn scientific concepts which will facilitate an informed understanding of the ethical issues involved.
Same as PHYS 338
GenEd: B1,C2,Interdisciplinary

ENGL 339 PSYCHOLOGY AND LITERATURE (3)
Three hours lecture per week
This course looks at the ways in which human psychology manifests in literature and the ways literature instructs us about human psychology. Through reading, writing about, and discussing texts with particularly rich psychological content, issues related to mental health and the human condition will be explored. The course will also cover some theoretical and technical aspects of psychology relevant to the readings.
Same as PSY 339
GenEd: C2,D,Interdisciplinary

ENGL 340 BUSINESS AND ECONOMICS IN AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Explores the ways in which business and economics have been represented in American literature. Employs critical methodologies from the fields of Business, Economics, and Literary studies.
Same as ECON 340, BUS 340
GenEd: C2,D,Interdisciplinary

ENGL 378 CONTEMPORARY NATIVE AMERICAN AUTHORS: TELECOURSE (3)
An introduction to the fiction and poetry produced by contemporary Native Americans. Authors of the works studied join the discussion of their work and concepts important to their work. Modes of discourse and the impact of Native American cultures, concerns and philosophy on the fiction and poetry of these authors are the primary foci of the course. Students will meet with the course instructor three times during the semester; otherwise, students will view the telecourse tapes, read the assigned books, read the essays in the workbook, and do the assigned activities explained in the workbook on their own.

ENGL 400 CONTEMPORARY LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course
Survey of world trends in literature, possibly including fiction, non-fiction, poetry and/or drama. Specific topics vary from term to term. Repeatable by topic.

ENGL 410 SHAKESPEARE'S PLAYS (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course
Study of the many aspects of Shakespeare's plays as literature--language, context, form and style--as well as the ways in which these elements work as parts of a whole, which includes spoken speech and other sounds as well as physical form and movement.
Same as PATH 410

ENGL 412 DRAMA OF ANCIENT GREECE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course
A survey of ancient Greek drama and the culture/society that produced it. The course will examine a representative sample of the major plays. Among the topics considered will be: the tragic and comic festivals, tragedy's relationship with Athenian democracy, the nature of Greek theaters and ancient theatrical production techniques, religion and drama, women and tragedy, tragic and comic heroism, myth and tragedy, and the legacy of Greek tragedy in the modern world.
Same as PATH 412

ENGL 420 LITERARY THEORY (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course
Survey of literary theory and critical study which investigates various approaches, perspectives, and modes of inquiry. Literary criticism extends beyond literature to intersect with anthropology, philosophy, psychology, linguistics, political science, and other disciplines, critical analysis by literary scholars encompasses all forms of cultural production, literary and non-literary.

ENGL 430 TRADITION AND TRANSFORMATION: LITERATURE, HISTORY, AND CULTURAL CHANGE (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 or HIST 280 or consent of the instructor
Bringing literature and history together, this course exposes students to a diverse range of work in art, literature, films, and history. It cultivates the students' intellectual understanding of the topic from both a cross-disciplinary and a cross-cultural perspective. It emphasizes reading, writing, analytical skills, and communication skills. Topics and themes may vary under the same title. Repeatable.
Same as HIST 430
GenEd: C3B,D,Interdisciplinary
ENGL 431 EUROPEAN RENAISSANCE LITERATURE AND ART (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
Examination of the literature and art of the Renaissance of the 15th and 16th centuries in Europe and England, focusing on the re-birth of the human spirit and the legacies of the Renaissance artists and writers.
Same as ART 431
GenEd: C1,C2,Interdisciplinary

ENGL 432 ARTS OF THE HARLEM RENAISSANCE (3)
Three hours lecture per week
Prerequisite: Upper division standing
Study focusing on the dramatic upsurge of creativity in art, music and literature resulting from social and political undercurrents in the African American cultural revolution in New York during the 1920s. Historical geneses and subsequent artistic legacies will also be explored.
Same as ART 432, PAMU 432
GenEd: C1,C2,Interdisciplinary

ENGL 433 GAY/LESBIAN/BISEXUAL/TRANSGENDER STUDIES (3)
Three hours lecture per week
Prerequisite: English 103 or ENGL 105 or equivalent
Introduction to the field of gay/lesbian/bisexual/transgender studies through the reading of literature and theory.
Same as GEND 433
GenEd: C2,D,Interdisciplinary

ENGL 444 ORIGINAL PRACTICE IN RENAISSANCE DRAMA (3)
Three hours lecture per week
In this class, students will learn about the theaters of the Renaissance, the playwrights whose plays were performed in them, and explore the differences that occur when the plays are performed in a venue resembling those of the original Rose, Blackfriars and Globe theaters.
Same as PATH 444
GenEd: C2,Interdisciplinary

ENGL 449 PERSPECTIVES ON MULTICULTURAL LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 220
Each of the cultures present in America today has its own set of qualities which make it different from that of other cultures. In this class, we will study some of those, but the focus of the class will be on issues and/or ideas which affect each of these literatures and discover ways in which they inform each other.
GenEd: C2,C3B,Interdisciplinary

ENGL 450 NATIVE AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 449
Study of the novels and poetry written by Native American authors. In order to understand the development of the literature, we will also read essays relevant to the events, issues and concerns attending the historical interactions between Native Americans and Euro-Americans in North America.

ENGL 451 AFRICAN/AFRICAN AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 449
Study of the novels and poetry written by African American authors. In order to understand the development of the literature, we will also read essays relevant to the events, issues and concerns attending the historical interactions between African Americans and other peoples in North America. Authors writing in African countries may also be included in order to gain a more global perspective on the literature.

ENGL 452 ASIAN/ASIAN AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 449
Study of the novels and poetry written by Asian American authors. In order to understand the development of the literature, we will also read essays relevant to the events, issues and concerns attending the historical interactions between Asian Americans and other peoples in North America. Authors writing in Asian countries may also be included in order to gain a more global perspective on the literature.

ENGL 453 HISPANIC/HISPANIC AMERICAN LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 449
Study of the novels and poetry written by Hispanic American authors. In order to understand the development of the literature, we will also read essays relevant to the events, issues and concerns attending the historical interactions between Hispanic/Chicana(o)/Latina(o) Americans and other peoples in North America. Authors writing in Spain, Mexico, Central America or South American countries may also be included in order to gain a more global perspective on the literature.
ENGL 454 MULTICULTURAL LITERATURE PROJECT/SEMINAR (3)
Three hours lecture/discussion per week
Prerequisite: Consent of the instructor and completion of ENGL 449 and 9 units drawn from ENGL 450, ENGL 451, ENGL 452, ENGL 453
As the culmination of the Multicultural Literature Emphasis, the purpose of this independent study course is to produce a significant work in the genre of the student's choice, chosen in consultation with his or her instructor.

ENGL 456 WOMEN'S FICTION (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 220 or ENGL 250
This course examines the development of contemporary fiction by women and its relationship to men's fiction by men. It compares style and theme across social class and ethnicities, analyzing the historical context of each novel or short story. The course will raise critical questions about a female literary tradition.

ENGL 460 PERSPECTIVES IN CREATIVE WRITING (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 330 or consent of the instructor
Writing intensive with a focus on reading and discussing what others have written about the processes involved in the creative writing endeavor. Guest lectures by published writers, publishers and other experts may be part of the course.

ENGL 461 FICTION WRITING (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 460
The writing of fiction is the focus of this class. The seminar format allows students the opportunity to talk about their writing and to receive critiques from their peers as well as the instructor.

ENGL 462 POETRY WRITING (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 460 or consent of the instructor
The writing of poetry is the focus of this class. The seminar format allows students the opportunity to talk about their poetry and to receive critiques from their peers as well as the instructor.

ENGL 463 WRITING FOR THE STAGE & SCREEN (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 460 or consent of the instructor
The writing of stage plays and/or screenplays is the focus of this class. The seminar format allows students the opportunity to talk about their writing and to receive critiques from their peers as well as the instructor.

ENGL 464 CREATIVE NON-FICTION (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 460 or consent of the instructor
The writing of creative non-fiction is the focus of this class. The seminar format allows students the opportunity to talk about their writing and to receive critiques from their peers as well as the instructor.

ENGL 465 CREATIVE WRITING PROJECT (3)
Three hours activity per week
Prerequisite: Consent of the instructor and completion of ENGL 449 and 9 units drawn from ENGL 461, ENGL 462, ENGL 463, ENGL 464
As the culmination of the Creative Writing Emphasis, the purpose of this independent study course is to produce a significant work in the genre of the student's choice, chosen in consultation with his or her instructor.

ENGL 474 APPROACHES TO ENGLISH GRAMMAR (3)
Three hours lecture per week
Prerequisite: ENGL 315
This course uses various approaches to analyze the form, function, and meaning of English grammar, including alternative ways to understand grammar in the context of real language tasks. Particular attention is paid to cultural and social assumptions about grammar and how they have shaped our attitudes toward language use.

ENGL 475 LANGUAGE IN SOCIAL CONTEXT (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent or consent of the instructor
Focus is on the nature of literacy, with emphasis on literacy development for English Only (EO) and English Language Learners (ELLs), investigation and knowledge of the development and acquisition of English literacy, and understanding the role of concepts and contexts in word meanings, vocabulary development, and multiple meanings. Also stressed will be differences between English and other languages that impact the acquisition of English literacy by ELLs, the role of primary language in the development of English language among ELLs, and the impact of disabilities on oral and written English language development.

ENGL 477 ADOLESCENT LITERATURE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 and one upper-division literature course
A survey of young adult literature in which students analyze young adult literature taught at the secondary level (grades 6-12). Works studied are selected for their diversity of subject matter, genre, cultural focus, and grade level. Students will engage in literary discussions of the works, analyze them in relation to the genre, and consider implications for adolescents in school and the larger society.

ENGL 478 WRITING AS REFLECTIVE PRACTICE (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 and ENGL 330 or Consent of the instructor
This course will develop awareness of the thinking and learning processes that occur during writing. The focus will be on identifying, planning, and monitoring the thinking processes that develop while writing. This knowledge of process will be used to select and develop strategies that will improve the writing product. Writing will be extensive and will include expository, creative, and reflective genres.
ENGL 482 TECHNICAL WRITING (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 330
This course is an overview of the field of technical writing. Research, interviewing, and the various forms of technical writing are addressed. Students will produce work in a variety of forms of technical writing.

ENGL 483 TECHNICAL VISUAL COMMUNICATION (3)
Three hours lecture/discussion per week
Prerequisite: For Technical Writing Certificate students only, ENGL 482
The focus of this course is two-fold. First, the student will research and write a presentation on a topic of his or her choice, suitable for a specific application (conference, meeting, etc.) and receive critiques from his or her peers and the professor. Second, the student will use that paper to form the basis of a visual presentation using up-to-date technology of various forms.

ENGL 484 TECHNICAL WRITING FOR THE SCIENCES (3)
Three hours lecture/discussion per week
Prerequisite: For Technical Writing Certificate students only, ENGL 482
Writing for the Sciences requires a specialized understanding of the process of writing as well as the content of the final essay or article. Students will learn to do research in specialized fields and to write for a variety of scientific journals and other publications.

ENGL 485 TECHNICAL WRITING PROJECT/SEMINAR (3)
Three hours activity per week
Prerequisite: ENGL 310, ENGL 330, ENGL 482, ENGL 483, and ENGL 484, and a passing evaluation on the portfolio of work from the prerequisite courses. As the culmination of the Technical Writing certificate program, this course may be an internship, independent study, seminar or a project course. Projects will be devised in consultation with an advisor.

ENGL 494 INDEPENDENT STUDY/SENIOR RESEARCH (3)
Three hours activity per week
Prerequisite: Senior standing and consent of the instructor
Students may do an independent study to further coursework begun in other courses, obtain an internship which utilizes knowledge gained thus far, or do research in preparation for the senior project.

ENGL 499 CAPSTONE PROJECT/SENIOR SEMINAR (3)
Three hours lecture/discussion per week
Prerequisite: Senior standing, a passing evaluation of the cumulative portfolio, and Consent of the Instructor
This course may be an interdisciplinary experience in which students work may teams, contributing their expertise to a community-based group project.

ENVIRONMENTAL SCIENCE AND RESOURCE MANAGEMENT

ESRM 100 INTRODUCTION TO ENVIRONMENTAL SCIENCE AND RESOURCE MANAGEMENT (3)
Three hours lecture per week
This course covers a broad spectrum of environmental science topics including: biogeochemical cycles, biological diversity, world food supply, effects of agricultural production on the environment, energy, water and air environments, and societies’ impacts on the environment. Current environmental issues such as loss of biological diversity, global climate change, ozone depletion, and natural resource management will be discussed. GenEd: B2,D

ESRM 313 CONSERVATION BIOLOGY (4)
Three hours lecture and three hours laboratory per week
Prerequisite: BIOL 200
This course explores issues surrounding the conservation of biodiversity. Topics to be covered include: species-, population-, and ecosystem-level issues, biodiversity, extinction, sustained yield, exotic species, and reserve design. Management implications and the ecology of issues are integrated throughout the course. Lab fee required.
Same as BIOL 313

ESRM 328 INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS (3)
Two hours lecture and three hour laboratory per week
Prerequisite: ESRM 100 or consent of the instructor
Introduction to fundamental concepts and techniques of geographic information systems, including the collection, manipulation, analysis, interpretation, display, and communication of spatial information for environmental decision making.
ESRM 329 ENVIRONMENTAL LAW AND POLICY (3)
Three hours lecture per week
Prerequisite: ESRM 100 or consent of the instructor
The purpose of this course is to introduce the fundamental concepts of environmental law and policy and familiarize students with the various types of mechanisms used to protect the environment. A practical grounding in the basic legal concepts central to environmental law and how laws have been applied at the local, state, national, and international level will be gained. Students will also explore the purpose and function of some of the larger environmental institutions and their relationships with the public, business, and the environmental community.

ESRM 332 HUMAN ECOLOGY (3)
Three hours lecture per week
This human ecology course places humans into the environment in historical and global contexts. Discusses systems theory as it applies to human adaptation to the environment. Studies the relations among political power, ideology, and resources, integrating concepts from ecology with those from social sciences. Theories and forecasts of human population growth and migration among regions and cultures. Social and environmental impacts of population and age distribution. Natural resource constraints on growth. Topics from land development, resource planning, environmental quality, politics, economic growth, conflicts and wars. Same as ANTH 332
GenEd: D, Interdisciplinary

ESRM 340 POLITICS AND THE ENVIRONMENT (3)
Three hours lecture per week
Exploration of environmental politics in both the international and domestic contexts.
GenEd: Interdisciplinary
Same as POLS 340
GenEd: Interdisciplinary

ESRM 410 ENVIRONMENTAL IMPACT ASSESSMENT (3)
Three hours lecture per week
Prerequisite: BIOL 433, ECON 362, ESRM 328 and ESRM 329
This course will introduce students to methods and procedures designed to assess and minimize human impacts on natural systems. Topics to be covered include the components of environmental impact reports and assessments, and the processes involved in preparation and approval. Also addressed will be the issues related to mitigating environmental impacts.

ESRM 440 POPULATION STUDIES (3)
Three hours lecture per week
Prerequisites: SOC 100 and MATH 202
This course focuses on the basic concepts, skills and issues in demography and population studies. It will apply concepts to contemporary population issues such as family demography, urban transition, environmental degradation, and economic development.
Same as SOC 440
GenEd: D, Interdisciplinary

ESRM 462 COASTAL & MARINE MANAGEMENT (3)
Three hours lecture per week
Prerequisite: BIOL 433, ECON 362 and ESRM 329
This course provides an introduction to physical and biological oceanography, threats to the marine environment, and various policies and programs which have been or are being developed to establish how humans manage coastal and marine environments.

ESRM 463 WATER RESOURCES MANAGEMENT (3)
Three hours lecture per week
Prerequisite: BIOL 433, ECON 362 and ESRM 329
Water management principles focusing on irrigation and drainage, soil and water conservation, and watershed development. Topics to be covered include the hydrologic cycle; runoff; erosion control; soil-water-plant relationships; surface and subsurface drainage; surface, sprinkler, and micro irrigation; vegetated waterways and open channel flow; impoundments; wetlands; water quality and supply; water rights.

ESRM 464 LAND USE PLANNING AND AGRICULTURAL MANAGEMENT (3)
Three hours lecture per week
Prerequisite: BIOL 433, ECON 362 and ESRM 329
This course will examine various approaches to land use planning at the municipal, county, state, national, and international level focusing on the role of land use planning in managing agricultural lands within and adjacent to urban areas. Students will use case studies from Ventura County and related areas.

ESRM 481 TOPICS IN ENVIRONMENTAL POLLUTION (3)
Three hours seminar per week
Prerequisite: BIOL 433 and BIOL 432, CHEM 250 and CHEM 251
Topics may include: analysis of pollution transformation and transport; impacts on human and natural systems; and examples from tropospheric air pollution, water pollution, soil pollution, climate change.

ESRM 482 ISSUES IN ENVIRONMENTAL PLANNING AND RESOURCE MANAGEMENT (3)
Three hours seminar per week
Prerequisite: BIOL 433, ECON 362 and ESRM 329
This course focuses on selected issues in resource development derived from current resource policy changes, or other emerging topics of interest.
ESRM 483 ISSUES IN GLOBAL RESOURCE MANAGEMENT (3)
Three hours seminar per week
Prerequisite: BIOL 433, ECON 362 and ESRM 329
Selected issues in global resource management. Topics may include climate change, ocean management, desertification, air pollution, ozone depletion, patterns of consumption, water pollution, water allocation, international policy or legislative instruments, or other topics as appropriate.

ESRM 490 SPECIAL TOPICS (3)
Three hours seminar per week
Prerequisite: Consent of the instructor
In-depth analysis of current topics in environmental science and resource management. Topics vary each semester.

ESRM 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Individual internship through service learning.
Graded Credit/No Credit

ESRM 494 INDEPENDENT RESEARCH (1-3)
Variable hours per week
Prerequisite: Consent of instructor
Individual research on topic selected by the student and faculty mentor.
Graded Credit/No Credit

ESRM 499 CAPSTONE (3)
Three hours of lecture / discussion per week
Prerequisite: Upper division required courses in ESRM major (may be completed concurrently)
This course consists of an interdisciplinary evaluation of the physical, biological, social, economic, and legal dimensions of environmental decision-making. The instructor will select from Southern California ecosystems - and decisions with associated environmental impacts - for evaluation and analysis. Topics include decisions to reduce, control, or treat surface water run-off, establishing or changing the management of marine protected areas, dredging in harbors, and permits for coastal development. Students will provide results to appropriate national, state, or local agencies for consideration and deliberation in administrative decisions.

FINANCE

FIN 300 BUSINESS FINANCE (3)
Three hours lecture per week
Prerequisite: ACCT 220, MATH 140 or MATH 150
Principles of planning, procuring, controlling short term and long-term financial resources of business organizations. Topics include cash and capital budgeting, debt and equity markets, security evaluations, cost and structure of capital.

FIN 321 PUBLIC BUDGETING (3)
Three hours lecture per week
Examines the major concepts of public budgeting and finance in the United States. Key topics of study include: expenditure estimation, revenue forecasting, capital budgeting, budget reform and financial management. The politics that characterizes the budgetary process will be emphasized throughout.
Same as POLS 321

FIN 343 CAPITAL THEORY (3)
Three hours lecture per week
Intertemporal choice and decision-making under uncertainty in our financial lives. Topics include: multi-period consumption, multi-period production, capital budgeting, modern portfolio theory and financial management.
Same as ECON 343
GenEd: D,Interdisciplinary

FIN 421 PUBLIC FINANCIAL MANAGEMENT (3)
Three hours lecture per week
Examines principles, methods and concepts of financial management used in non-profit sector. Disciplines of accounting, budgeting, operations control, auditing and management are integrated into comprehensive financial systems. Theoretical design and practical implementation issues are explored.

FIN 490 SPECIAL TOPICS (3)
Three hours seminar per week
Prerequisite: Consent of instructor
In-depth analysis of current topics in finance. Topics vary each semester

FIN 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Individual internship through service learning.
Graded Credit/No Credit

FIN 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study on topics or research selected by the student and faculty mentor.
Graded Credit/No Credit
GENDER STUDIES

GEND 433 GAY/LESBIAN/BISEXUAL/TRANSGENDER STUDIES (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent
Introduction to the field of gay/lesbian/bisexual/transgender studies through the reading of literature and theory.
Same as ENGL 433
GenEd: C2,D,Interdisciplinary

GEOLOGY

GEOL 121 PHYSICAL GEOLOGY (4)
Three hours lecture per week and three hours laboratory per week
This course examines the basic composition of the Earth and the dynamic forces which have altered the Earth’s surface through time, including sedimentation, erosion, volcanism, earthquakes, plate tectonics, and mountain-building. Students will understand the immense processes affecting their environment.
GenEd: B1

GEOL 122 HISTORICAL GEOLOGY (3)
Three hours lecture per week
This course focuses upon the geological history of the Earth and the Solar System from the origin of the cosmos to the present, tracing the evolution of the continents and ocean basins, and the evolution of plants and animals through time. Surveys events in Earth’s past of relevance to present environmental issues.
GenEd: B1

GEOL 300 FOUNDATIONS OF EARTH SCIENCE (4)
Three hours lecture and three hours laboratory per week
Prerequisite: PHSC 170
Principles of geology, hydrology, oceanography, meteorology, and astronomy for the elementary school teacher.

GEOL 321 ENVIRONMENTAL GEOLOGY (4)
Three hours lecture and three hours laboratory per week
Interrelationships between human and natural geologic hazards: tsunami, earthquakes, landslides, subsidence, volcanoes. Explores environmental impact of resource extraction and usage, the importance of understanding the geologic processes and landscape in land use planning, and the means of using geology to minimize conflicts in resource management and disaster preparation.
GenEd: B1

HISTORY

HIST 211 WORLD CIVILIZATIONS: ORIGINS TO 1500 (3)
Three hours lecture per week
This survey examines world civilizations from the Neolithic era to the European colonization of the Western Hemisphere. Topics may include, but are not limited to, the development and growth of religions, commerce, and other cultural institutions.
GenEd: D

HIST 212 WORLD CIVILIZATIONS: SINCE 1500 (3)
Three hours lecture per week
This survey examines world civilizations from both regional and global perspectives. Topics may include, but are not limited to, the development and growth of religions, commerce, and other cultural institutions.
GenEd: D

HIST 270 THE UNITED STATES TO 1877 (3)
Three hours lecture per week
Survey of the political, social, economic as well as cultural institutions of the United States from the pre-colonial era to reconstruction. Meets Title V U.S. History and Constitution requirement.

HIST 271 THE UNITED STATES SINCE 1877 (3)
Three hours lecture per week
Survey of the political, social, economic as well as cultural institutions of the United States from reconstruction to the present. Meets Title V U.S. History and Constitution requirement.

HIST 272 CONSTITUTIONAL HISTORY OF THE U.S. (3)
Three hours lecture per week
Examines the origins of American constitutional thought and practice, the framing and adoption of the Constitution and the Bill of Rights, the establishment of the U.S. Supreme Court and of its power of judicial review. Topics include: major decisions by the Supreme Court in history and their impacts on society, and California state constitution and government. Meets Title V U.S. History and Constitution Requirement.

HIST 275 THE UNITED STATES TO 1900 (3)
Three hours lecture per week
This course is specially designed for students in the Teaching and Learning Option of the Liberal Studies Program. Examines the history of the United States from the colonial origins to the emergence of a modern industrial system. Emphasis is given to the major social, political, and cultural events during the period from the early 1600s to 1900, such as the encounters between Native Americans and European explorers, the growth of English colonies, the American Revolution, the transformation of American society after Independence, slavery, abolition, the Civil War, and the development of mass immigration and industrialization. Meets Title V U.S. History and Constitution Requirement.
HIST 280 THE HISTORIAN’S CRAFT (3)
Three hours lecture per week
Prerequisite: Sophomore Standing or consent of the instructor
This is a survey course on the writing of history. Utilizes and analyzes library resources, oral interviews, and other material in the writing of history.
GenEd: D

HIST 310 HISTORY OF THE MEDITERRANEAN (3)
Three hours lecture per week
Examines the history of the Mediterranean over the last 3000 years. Special attention will be paid to the Greco-Roman heritage, the impact of Christianity and Islam, the rise of Italian merchants, and the tangle between Spain and the Ottoman Empire over the control of the sea.

HIST 319 EUROPEAN HISTORY, 1871-1945 (3)
Three hours lecture per week
Examines the development of European history from the unification of Germany to the end of the Second World War. Special attention will be paid to the development of powerful ideologies (e.g., communism, fascism), socio-economic change, and imperial expansion.

HIST 320 EUROPEAN HISTORY, 1945-PRESENT (3)
Three hours lecture per week
Examines the development of European history to the present day. Special attention will be paid to the reconstruction of the continent following the war, the implications of the cold war and the collapse of the Soviet Union, and the emergence of the European Union.

HIST 331 NARRATIVES OF THE WORKING CLASS (3)
Three hours lecture per week
Examines the lives of working people using various thematic approaches and disciplinary methodologies. Material includes literature, film, and case studies.
Same as ECON 331, ENGL 331, SOC 331, POLS 331
GenEd: C2,D,Interdisciplinary

HIST 333 HISTORY OF SOUTHERN CALIFORNIA CHICANA/O ART (3)
Three hours lecture per week
An exploration of the Southern California Chicana/o culture focusing on the genesis, vitality and diversity represented in the painting, sculpture and artistic traditions of Mexican American artists. Historical movements, politics, cultural trends and Mexican folklore underlying the development of this dynamic style of art will be investigated within a variety of contexts.
Same as ART 333
GenEd: C3B,D,Interdisciplinary

HIST 334 NARRATIVES OF SOUTHERN CALIFORNIA (3)
Three hours lecture/discussion per week
Ours is a region made up of many cultures which produce the one we call “Southern California.” In this class we will take a historical approach to study of the narratives – oral, written, and filmed – of Southern California. Course work may also include obtaining oral histories and compiling them.
Same as ENGL 334
GenEd: C2, D, Interdisciplinary

HIST 335 AMERICAN ETHNIC IMAGES IN NOVELS, FILM AND ART (3)
Three hours lecture/discussion per week
Examines the portrayal of ethnic groups from an interdisciplinary perspective that includes, but is not limited to, the literary, historical, and anthropological modes of analysis. The course highlights the ways in which artistic works have shaped the intellectual landscape of the United States as they relate to ethnic peoples.
Same as ART 335, ENGL 335
GenEd: C2,C3B,Interdisciplinary

HIST 338 THEATRE IN HISTORY (3)
Three hours lecture per week
A survey of the history of theatrical productions. Includes formal productions and performances as well as other types of theatre or dramatization such as political posturing, i.e. Caesar’s entrance into Rome in historical reality as well as performed or recorded later in theatre, music, and history.
Same as PA 338
GenEd: C1,D,Interdisciplinary

HIST 340 HISTORY AND PSYCHOLOGY OF NAZI GERMANY (3)
Three hours lecture per week
Prerequisite: Upper Division standing
Examines the historical and psychological roots of the Nazi movement in Germany. Areas covered will include the mass psychology of fascism, the psychopathology of Nazi leaders, and the psychological impact of the Holocaust.
Same as PSY 340
GenEd: D,E,Interdisciplinary

HIST 349 HISTORY OF BUSINESS AND ECONOMICS IN NORTH AMERICA (3)
Three hours of lecture per week
Examines the growth and development of the economies of North America since colonial times. Addresses social, ethical, economic and management issues during the development of Canada, the United States, and Mexico. Analyzes the business principles underlying the growth and development of the economies.
Same as ECON 349, BUS 349
GenEd: D,Interdisciplinary
HIST 350 CHICANO HISTORY AND CULTURE (3)
Three hours lecture per week
Examines the settlement and culture of Mexicanos in the United States to the present. Particular attention is given to the relationship of Mexicanos to the political and economic institutions of the United States.

HIST 365 THEMES IN WORLD HISTORY (3)
Three hours lecture per week
Explores the major trends in global approaches to history. These include anthropological, diaspora, environmental, and world systems approaches.
GenEd: D

HIST 366 OCEANS OF WORLD HISTORY (3)
Three hours lecture per week
Discusses the main approaches to world history through the lens of the earth's three major oceans: Atlantic, Indian, and Pacific.

HIST 367 ENVIRONMENTAL HISTORY (3)
Three hours lecture per week
Examines the historical interaction between humans and their environment. Special attention will be paid to the transformations of environments in the Americas and Europe.

HIST 369 CALIFORNIA HISTORY AND CULTURE (3)
Three hours lecture per week
Examines the cultural and institutional development of California prior to the 16th century and since.

HIST 372 UNITED STATES INDUSTRIALIZATION AND PROGRESSIVISM (3)
Three hours lecture per week
Examines the nation's geographic and industrial expansion. Social and political problems up to the end of WWI will also be examined.

HIST 373 AMERICAN LABOR HISTORY (3)
Three hours lecture per week
This is an in-depth study of the individual, group, and organized experience of the American working people from colonial time to the twentieth century.

HIST 374 UNITED STATES SINCE 1945 (3)
Three hours lecture per week
Examines the cultural, social, and political transformation of the nation after World War II. Among the various topics of the course, specific attention is given to how international affairs influenced domestic life and society.

HIST 380 HISTORY OF THE PACIFIC ISLANDS (3)
Three hours lecture per week
Examines the history of the Pacific from human settlement to the present. Special attention will be paid to cross-cultural encounters, religious conversion, imperialism, and post-colonial realities in the region. The course employs interdisciplinary methods borrowed from anthropology, archaeology, and linguistics.

HIST 391 TRADITIONAL CHINA (3)
Three hours lecture per week
This course studies the social, political, economic, and cultural traditions in China from ancient times to the end of the Ming Dynasty.

HIST 392 MODERN CHINA (3)
Three hours lecture per week
This course explores the social, political, economic, and cultural changes in China from the rise of the Ch'ing Dynasty to 1949.

HIST 393 CONTEMPORARY CHINA (3)
Three hours lecture per week
This course examines the social, political, economic, and cultural developments in China since 1949.

HIST 394 TRADITIONAL JAPAN (3)
Three hours lecture per week
This course studies the social, political, economic, and cultural traditions in Japan from ancient times to the fall of the Tokugawa regime.

HIST 395 MODERN JAPAN (3)
Three hours lecture per week
This course studies the social, political, economic, and cultural changes in Japan from the Meiji Restoration to the present.

HIST 396 EAST ASIA: THEN AND NOW (3)
Three hours lecture per week
This course examines the social, political, economic, and cultural foundations in China, Korea, and Japan. Emphasis is given to the profound political, economic, and other transformations taking place in these countries in the twentieth century.

HIST 401 UNITED STATES IMMIGRATION HISTORY, 1840-1945 (3)
Three hours lecture per week
Examines the experiences and contributions of immigrant groups in the United States. Constitutional, political, and social considerations of United States immigration history frame the content study of this course.

HIST 402 SOUTHERN CALIFORNIA CHICANO/A HISTORY AND CULTURE (3)
Three hours lecture per week
Examines the cultural, economic, political, and social experience of Mexicanos of the region from the U.S conquest to the 1990s. Particular attention is given to the interactions of this community with other ethnic and racial groups. Although designed within the disciplinary framework of history, the course utilizes literature, film, and art as mediums of learning about the culture and history of Chicano/as.
GenEd: D
HIST 403 THE AMERICAN INTELLECTUAL TRADITION (3)
Three hours lecture per week
This course explores American thought from Puritanism, transcendentalism, and pragmatism to contemporary trends represented in thinkers from Richard Mather, Jonathan Edwards, Ralph Emerson, William James, and John Dewey to Reinhold Hiebuhr. It also addresses those dissenting voices resonantly expressed in American life from Ann Hutchinson, Roger Williams, Henry David Thoreau, Frederick Douglass, Susan B. Anthony, and W. E. B. Du Bois to Martin Luther King, Jr.

HIST 412 LAW AND SOCIETY (3)
Three hours lecture per week
Prerequisite: ENGL 330
This course investigates a wide range of issues including, but not limited to, the origins of the law in classical civilizations, the interplays between/among law, religion, government, and morality, evolutions of diverse legal systems in different societies and traditions, legal and ethical challenges of modern sciences, the rule of law in an international environment, and the debate over the extent and limits of the laws in coping with social and technological problems of modern life.
GenEd: D

HIST 413 WORLD RELIGIONS AND CLASSICAL PHILOSOPHY (3)
Three hours lecture per week
Prerequisite: ENGL 330
This course studies and compares some major religions and philosophical schools in the ancient world. It examines how different societies and peoples have formed their basic assumptions concerning the universe, faith, human nature and society, and how those fundamental assumptions have affected their chosen modes of thinking, ways of life, organizations of society, forms of government, and approaches to knowledge.
GenEd: D

HIST 414 WOMEN IN HISTORY (3)
Three hours lecture per week
This course examines the role of women and gender in human experience. Topics may vary. They include, but are not limited to, gender and work, gender and religion, gender in literature, gender and race, gender and sexuality, gender and family, and gender and social change.

HIST 415 SOCIETY AND RADICALISM (3)
Three hours lecture per week
This course studies the emergence of different styles of protests and radicalism in the modern world. Topics include, but are not limited to, radical thinkers, theories, philosophies, organizations, strategies, movements, as well as the roles and influences they had in society.

HIST 420 HISTORY OF MEXICO (3)
Three hours lecture per week
Examines the social and political history of Mexico from the period of European contact to the present. The modern phase of Mexico's history is examined in relation to the overall development of North America.

HIST 421 REVOLUTIONARY MEXICO, 1876-1930 (3)
Three hours lecture per week
Evaluates the social and political causes and consequences of the Mexican Revolution. Particular attention is also given to the influence and intervention of the United States of America in Mexico's economic and domestic affairs.

HIST 430 TRADITION AND TRANSFORMATION: LITERATURE, HISTORY, AND CULTURAL CHANGE (3)
Three hours lecture per week
Prerequisite: ENGL 103 or ENGL 105 or HIST 280 or consent of the instructor
Bringing literature and history together, this course exposes students to a diverse range of work in art, literature, films, and history. It cultivates the students' intellectual understanding of the topic from both a cross-disciplinary and a cross-cultural perspective. It emphasizes reading, writing, analytical skills, and communication skills. Topics and themes may vary under the same title. Repeatable.
Same as ENGL 430
GenEd: C3B,D,Interdisciplinary

HIST 436 PSYCHOLOGY AND HISTORY OF EAST ASIAN WARRIOR CULTURES (3)
Three hours lecture per week
Prerequisite: Upper division standing or consent of the instructor
Examines the psychological and historical roots of warrior cultures in East Asia. Characteristics such as duty, enlightenment, honor, loyalty, and discipline will be examined in the context of the individual and group psychology of warrior cultures throughout history. Psychological and historical conceptions of violence, aggression, and strategy will also be explored. Students will be encouraged to relate values derived from Asian warrior cultures to their own lives, while reflecting on the applicability of these ideas to modern life.
Same as PSY 436
GenEd: D,E,Interdisciplinary

HIST 442 THE AFRICAN DIASPORA (3)
Three hours lecture per week
Examines the dispersal of Africans to other continents over the last two thousand years. Special attention will be paid to the African slave trade, identity formation, and nationalism. The course employs interdisciplinary methods borrowed from anthropology, art history, linguistics, and literature.
Same as ANTH 442
GenEd: D,Interdisciplinary
HIST 470 PEOPLE AND EVERYDAY LIFE IN EARLY AMERICA (3)
Three hours lecture per week
The course focuses on those ordinary men and women whose daily works and activities made what American society was. It covers the time span from the 1600s to the early 1800s; topics include, but not limited to, popular religion, work ethics and labor systems, family and marriage, festivities, leisure, and games, law and order, mass-control policies on crime and punishment, trades and craftsmanship, farming and industries, issues of gender, race, and ethnicities, early popular unrest, collective actions, and protests.

HIST 490 SPECIAL TOPICS (3)
Three hours lecture per week
Investigates a prominent topic of historical interest. Topics vary by semester. Repeatable by topic.

HIST 491 HISTORIOGRAPHY (3)
Three hours lecture per week
Prerequisite: HIST 280, Senior Standing, or consent of the instructor
This course surveys major historians and their theoretical and methodological approaches to the discipline from the nineteenth century to the present day. The course is designed to update students to the most influential theories in the study of history. Included in this survey are theoretical approaches based on the writings of Braudel, Foucault, Freud, and Marx.

HIST 492 INTERNSHIP/SERVICE LEARNING (1-3)
Provides students with ‘hands-on’ experience and/or Service Learning opportunities in the historical field. Student Option: Graded or CR/NC

HIST 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Junior Standing and Consent of the Instructor
Independent reading and/or research project under the direction of a faculty member. Repeatable. Student Option: Graded or CR/NC

HIST 497 DIRECTED STUDIES (1-3)
Prerequisite: Junior Standing and consent of the instructor
Exploring an important historical topic under the direction of a faculty member. Significant written reports expected. Topics vary and repeatable. Student Option: Graded or CR/NC

HIST 499 CAPSTONE IN HISTORY (1-3)
Under the supervision of a faculty advisor, students complete a project approved by the faculty advisor which will integrate prior course work with the general expectations of the Program. Completed projects may be disseminated to the campus community. Student Option: Graded or CR/NC

HEALTH

HLTH 322 HEALTH ISSUES IN EDUCATION (2)
Two hours lecture per week
Survey of school health programs with in-depth study of selected health education curricula and topic areas, including alcohol, tobacco, drugs, communicable diseases and nutrition. Development of strategies and methods for teaching controversial areas. GenEd: E

HLTH 434 INTRODUCTION TO BIOMEDICAL IMAGING (4)
Three hours lecture and two hours lab activity per week
Prerequisite: BIOL 210 or PHYS 200
The course will present an overview of biomedical images and imaging systems. The fundamental concepts used in several imaging modalities (such as projection radiography, mammography, DEXA, computed tomography, ultrasonography and magnetic resonance imaging) will be examined: the emphasis will be on an intuitive and descriptive presentation of the main components of these systems. Image formation and reconstruction will be addressed. The resulting clinical images will be correlated with the underlying structure and function of the organs, and the diagnostic utility and limitations of the images will be considered. Same as PHYS 434, BIOL 434 GenEd: B1,E,Interdisciplinary
INFORMATION TECHNOLOGY

IT 151 DATA STRUCTURES FOR IT (3)
Three hours of lecture in the lab per week
Prerequisites: COMP 150 or equivalent
Introduction to data structures and the algorithms that use them. Review of composite data types such as arrays, records, strings and sets. Topics include: abstract data types, stacks, queues, linked lists, trees and graphs, recursion, and time complexity. No credit given towards Computer Science Degree.

IT 262 COMPUTER ORGANIZATION AND ARCHITECTURE FOR IT (3)
Three hours of lecture per week
Prerequisites: COMP 162

IT 280 WEB PROGRAMMING (3)
Three hours lecture in the lab per week
Prerequisites: IT 151 and MATH 300
This course provides an overview of the many languages and techniques used in web programming. This includes Java, JavaScript, PHP, Python, Perl, JSP and ASP, as well as database query languages and XML. Sample applications are built for dynamic web pages and web sites. No credit given towards Computer Science degree.

IT 362 OPERATING SYSTEMS FOR IT (3)
Three hours of lecture per week
Prerequisites: IT 262
Examination of the principal types of operating systems including batch, multi-programming, and time-sharing. Networked systems are also discussed. The salient problems associated with implementing systems are considered including interrupt or event driven systems, multi-tasking, storage and data base management, and input-output. Role and tasks of system administrator. System management tools. Case analysis of systems such as DOS/Windows, Linux/Unix, VMS. Projects will be implemented to reinforce the lectures.

IT 401 WEB INTELLIGENCE (3)
Three hours of lecture in the lab per week
Prerequisites: IT 402
Using web programming to extract information, using intelligent search engines, artificial intelligence techniques (expert systems, agents). Topics include: data mining, data warehousing, natural language processing, decision support systems, and intelligent agents.

IT 402 ADVANCED IT PROGRAMMING (3)
Three hours of lecture in the lab per week
Prerequisites: IT 280
Covers a variety of programming languages, including java, c, c++, perl, asp, and php. This course focuses on building applications that are useful to IT professionals, such as applications for network security, maintenance and surveillance.

IT 420 DATABASE THEORY AND DESIGN FOR IT (3)
Three hours of lecture in the lab per week
Prerequisites: MATH 300
Database structure including: structure definition, data models, semantics of relations, and operation on data models. Database schemas: element definition, use and manipulation of the schema. Elements of implementation. Algebra of relations on a database. Hierarchical data bases. Discussion of information retrieval, reliability, protection and integrity of databases.

IT 424 COMPUTER SYSTEM SECURITY FOR IT (3)
Three hours of lecture per week
Prerequisites: IT 429

IT 429 COMPUTER NETWORKS FOR IT (3)
Three hours of lecture per week
Prerequisites: IT 362
Basic software design and analysis considerations in networking computers into coherent, cooperating systems capable of processing computational tasks in a distributed manner. Network topology, routing procedures, message multiplexing and process scheduling techniques.

IT 464 COMPUTER GRAPHICS FOR IT (3)
Three hours of lecture in the lab per week
Prerequisites: IT 151 and MATH 300
Fundamental concepts of computer graphics. Graphics devices; graphics languages; interactive systems. Applications to art, science, engineering and business. Trade-offs between hardware devices and software support.
**IT 469 ARTIFICIAL INTELLIGENCE/NEURAL NETWORKS FOR IT (3)**
Three hours of lecture in the lab per week.
Prerequisites: IT 151 and MATH 300
An exploration of the use of computers to perform computations normally associated with intelligence, pattern formation and recognition using various computer algorithms and data structures. Including distributed processing models found in massively parallel systems such as the brain. Stacks, decision trees and other modern mining tools and computational models for knowledge representation will be covered. Other topics may include natural language and imaging.

**IT 490 SPECIAL TOPICS FOR IT (3)**
Three hours of lecture per week
Prerequisites: Senior standing in the BSIT program
The course addresses current issues in Information Technology. Specialized topics will be studied. Repeatable by topic.

**IT 499 BSIT CAPSTONE (2)**
Prerequisite: MGT 471 and Senior standing in the BSIT program
Implement a realistic Information Technology project. Identify project goals in consultation with an industry representative. Produce the project requirements, design and complete documentation. Implement the project design, test and debug the system. Present the project results to the class and the industry representative. Work in teams.

**LIBRARY**

**LIB 101 INTRODUCTION TO INFORMATION RESOURCES (2)**
Two hours lecture per week
Overview of information resources and services provided by the University Library for undergraduate students. Students will learn how to find, evaluate, and apply information to scholarly research and everyday life situations. Use of online catalogs, databases, and web search engines to find print and non-print resources. Properly citing information to prevent plagiarism.

**LIB 490 SPECIAL TOPICS (1-3)**
Topics include: finding, evaluating, and applying information within a specific discipline or related group of disciplines; use of online and print sources to find books, articles, web sites, government publications, and non-print sources relevant to a discipline(s); use of appropriate discipline style manual; use of appropriate applications.
LIBERAL STUDIES

LS 230 THE ART OF CREATING JOURNALISM (3)
Three hours lecture per week
Prerequisites: ENGL 103 or ENGL 105
This course will integrate concepts from English/journalism, Education and Art. It is designed for students interested in producing print and photo journalism for local community publications. Topics will include journalistic writing styles and techniques, research strategies, interviewing methods, appropriate layout and design techniques. Projects will culminate in a product suitable for publication. No credit given toward the Art major.
GenEd: A2
Same as ART 230, ENGL 230

LS 492 INTERNSHIP/ SERVICE LEARNING (1-3)
Prerequisite: Upper-division standing
Students design a community project, individually or in a small group, related to the areas studied in the Liberal Studies major. The project must respond to a community need, involve participants in reciprocal activities, provide opportunities for student’s on-going reflection, and evaluate the activity.

LS 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Upper-division standing
Students design and implement a study project in conjunction with a faculty member.

LS 497 DIRECTED STUDIES (1-3)
Prerequisite: Upper-division standing
Provides student credit for curricular activities under the direction of a Liberal Studies faculty member.

LS 499 CAPSTONE PROJECT (1-3)
Prerequisite: Senior standing
In conjunction with a faculty advisor, students design and complete a project that integrates prior course work and disseminate the project to the campus community. Repeatable for credit.

MATH 94 INTRODUCTION TO ALGEBRA (5)
Four hours lecture and one hour activity per week
A review of fundamental concepts of arithmetic, geometry and elementary algebra. Students who earn Credit in this course and in MATH 095 satisfy the Entry Level Mathematics (ELM) requirement. This course is offered Credit/No Credit only. Credit will not apply toward the baccalaureate degree but will apply as 5 units of University Credit.

MATH 95 INTERMEDIATE ALGEBRA (5)
Four hours lecture and one hour activity per week
Prerequisite: MATH 94 or an appropriate Entry Level Mathematics (ELM) Score
A review of concepts of geometry and intermediate algebra with applications. Students who earn Credit in this course satisfy the ELM requirement. This course is offered Credit/No Credit only. Credit will not apply toward the baccalaureate degree but will apply as 5 units of University Credit.

MATH 101 COLLEGE ALGEBRA (3)
Three hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics Examination
Topic include: basic set theory, number systems and their algebraic properties; systems of equations and inequalities; basic analytic geometry, matrix algebra and elementary functions; and problem solving.

MATH 105 PRE-CALCULUS (4)
Four hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics Examination
Topics include: number systems and their algebraic properties; systems of equations and inequalities; basic analytic geometry of lines and conic sections; elementary functions including polynomial, rational, exponential, and logarithmic, with emphasis on trigonometric functions, fundamental theorem of algebra and theory of equations; polar equations and curves.

MATH 108 MATHEMATICAL THINKING (3)
Three hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics examination or MATH 95
Presents the diversity of mathematics and the spirit, in which it is employed in various situations, including different problem solving strategies, inductive- deductive reasoning, paradoxes, puzzles and mathematical modeling. The contributions of various cultures and influences of other disciplines to mathematical thinking are studied.
GenEd: B3
MATH 137 STRATEGIES AND GAME DESIGN (3)
Three hours lecture per week
Prerequisites: A passing score on the Entry Level Mathematics Examination
This course introduces mathematics to the analysis of games. The principles of game theory including graphs, logic, algebra, geometry and probability are connected to game design, computer graphics and game strategies in various contexts. Applicable algorithms and techniques are demonstrated through appropriate computer gaming examples.
GenEd: B3

MATH 140 CALCULUS FOR BUSINESS APPLICATIONS (3)
Three hours lecture per week
Prerequisite: A passing score on the Calculus Placement Examination or MATH 101 or MATH 105
An integrated course in analytic geometry and calculus in the context of business and economics applications. Functions, limits, derivatives, integrals and mathematical modeling are used in problem solving in decision making context.
GenEd: B3

MATH 150 CALCULUS I (4)
Four hours lecture per week
Prerequisite: Passing scores on the Calculus Placement Examination or MATH 105
A course in analytic geometry and calculus. Topics include: elementary and transcendental functions, their properties, limits, derivatives, integrals and mathematical modeling.
GenEd: B3

MATH 151 CALCULUS II (4)
Four hours lecture per week
Prerequisite: MATH 150
Topics include: differentiation, integration, sequences, infinite series, and power series.

MATH 201 ELEMENTARY STATISTICS (3)
Three-hour lecture/laboratory per week
Prerequisite: A passing score on the Entry Level Mathematics Exam (ELM) or Math 105 or equivalent
Critical reasoning using a quantitative and statistical problem-solving approach to solve real-world problems. Topics include: probability and statistics, sample data, probability and empirical data distributions, sampling techniques, estimation and hypothesis testing, ANOVA, and correlation and regression analysis. Students will use standard statistical software to analyze real world and simulated data.
GenEd: A3,B3

MATH 202 BIOSTATISTICS (3)
Three hours lecture/laboratory per week
Prerequisite: A passing score on the Entry Level Mathematics Exam (ELM) or MATH 105 or equivalent
Critical reasoning using a quantitative and statistical problem-solving approach to solve real-world problems. Uses probability and statistics to describe and analyze biological data collected from laboratory or field experiments. Course will cover descriptions of sample data, probability and empirical data distributions, sampling techniques, estimation and hypothesis testing, ANOVA, and correlation and regression analysis. Students will use standard statistical software to analyze real world and simulated data.
Same as BIOL 202, PSY 202
GenEd: B3

MATH 208 MODERN MATHEMATICS FOR ELEMENTARY TEACHING I-NUMBERS AND PROBLEM SOLVING (3)
Three hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics Examination or Math 95
Current issues of modern math curriculum including abstract thinking and problem solving approaches to teaching. Content covers systems of numeration, nature of numbers and fundamental operations, relations and functions, properties of integers, rational and real numbers, and mathematical modeling. Problem solving strategies and geometric interpretations are stressed. Designed for students intending to teach in K-8. This course is not open to students who have credit for Calculus.
GenEd: B3

MATH 230 LOGIC & MATHEMATICAL REASONING (3)
Three hours lecture per week
Introduction to modern deductive logic. Critical thinking and abstract approaches to common language. Includes abstract sets and number sets, relations, prepositional logic, common language cases, and theory of quantification.
GenEd: A3,B3

MATH 240 LINEAR ALGEBRA (3)
Three hours lecture per week
Prerequisite: MATH 151
Topics include: matrices, linear systems of equations, determinants, vectors in 2 and 3 dimensions, eigenvalues, the vector space Rn , linear transformations, introduction to general vector spaces and applications.

MATH 250 CALCULUS III (3)
Three hours lecture per week
Prerequisite: MATH 151 with a grade of C or better
Topics include: functions of several variables, solid analytic geometry, partial differentiation, multiple integrals with applications; vector analysis, and line and surface integrals.
MATH 300 DISCRETE MATHEMATICS (3)
Three hours lecture per week
Prerequisite: MATH 151 and MATH 230
Topics include: Sets, algebraic systems, axioms, definitions, propositions and proofs. Combinatorics, graph theory, moduli calculus. Coding, coding errors and Hamming codes. Students are expected to write mathematical proofs, and communicate mathematical ideas clearly in written and oral form.

MATH 308 MODERN MATHEMATICS FOR ELEMENTARY SCHOOL TEACHING II-GEOMETRY, PROBABILITY AND STATISTICS (3)
Three hours lecture per week
Prerequisite: MATH 208 or consent of the instructor
Current issues of modern math curriculum including abstract thinking and problem solving approaches to teaching. Content covers systems of geometry and geometric interpretation of real numbers, geometric constructions, mathematical modeling, basic probability and statistics. Problem solving strategies are stressed. Designed for students intending to become elementary school teachers.

MATH 318 MATHEMATICS FOR SECONDARY SCHOOL TEACHERS (3)
Three hours lecture in the computer lab per week
Prerequisite: MATH 150
Current issues of modern secondary school math curriculum including abstract thinking, technology use and problem solving approaches to teaching. Content is geometry based, but selected topics from algebra, precalculus, and calculus will be discussed. Designed for students intending to teach. Service learning project required.

MATH 329 STATISTICS FOR BUSINESS AND ECONOMICS (3)
Three hours lecture in the lab per week
Introduction to modern statistical methods used in business and economic analysis. Topics include: sampling, probability, various distributions, correlation and regression, statistical inferences, hypothesis testing, problem solving and the consequences to underlying economical systems.
GenEd: B3

MATH 330 MATHEMATICS AND FINE ARTS (3)
Three hours lecture per week
Prerequisite: A passing score on the Entry Level Mathematics examination, or MATH 95
The course is specially designed for students interested in fine arts, with the emphasis on understanding geometric patterns and concepts by self-explorations. The course creates a vast reservoir of art-related examples and hands-on experiences, and will give an innovative mathematical background for future artistic endeavors of students.
GenEd: B3, Interdisciplinary

MATH 331 HISTORY OF MATHEMATICS (3)
Three hours lecture per week
Study of breakthrough mathematical ideas and their creators, including historical and scientific context. Important concepts of current mathematics are studied: invention, development, difficulties, significance and various viewpoints will be presented. Lecture-discussion. At least one significant writing assignment is required.
GenEd: B3, D, Interdisciplinary

MATH 345 DIGITAL IMAGE PROCESSING (3)
Three hours lecture in the lab per week
Prerequisite: Consent of the instructor
An introduction to the basic concepts and techniques for digital image restoration and enhancement, analysis, coding and compression. The emphasis is on processes which analyze primarily two-dimensional discrete images represented at the pixel level, including filtering, noise reduction and segmentation. Fourier analysis techniques will be explored. Programming exercises will be used to implement the various processes, and their performance on synthetic and real images will be studied.
Same as PHYS 345, COMP 345
GenEd: B1, B4, Interdisciplinary

MATH 350 DIFFERENTIAL EQUATIONS AND DYNAMICAL SYSTEMS (3)
Three hours lecture per week
Prerequisite: MATH 250 (may be taken concurrently)

MATH 351 REAL ANALYSIS (3)
Three hours lecture per week
Prerequisite: MATH 250
Topics include: real number system, metric spaces, norms, function spaces, continuity, differentiability, integrability of functions, sequences and series.

MATH 352 PROBABILITY AND STATISTICS (3)
Three hours lecture per week
Prerequisite: MATH 151
Topic include: data gathering, analysis and display. Validity of sampling methods and statistical conclusions. Probability, conditional probability, Bayes’ Theorem, discrete and continuous random variables and their distribution (e.g., binomial, Poisson, hypergeometric, negative binomial, normal, exponential, gamma), moments, bivariate distributions, transformations of random variables, central and other limit theorems. Bayesian estimates, tests of hypotheses, nonparametric tests, decision theory. Modern computer software applications in statistics.
MATH 354 ANALYSIS OF ALGORITHMS (3)
Three hours lecture per week
Prerequisite: MATH 300 and some computer programming experience
Computer-oriented study of seminumerical and non-numerical algorithms. Topics include: sorting, tree searching, generation of combinatorial structures, algorithm proof techniques, best algorithms, programming complexity, and string matching.

MATH 393 ABSTRACT ALGEBRA (3)
Three hours lecture per week
Prerequisite: MATH 300
Topics include: groups, rings, modules, fields and their extensions, Galois Theory.

MATH 429 OPERATIONS RESEARCH (3)
Three hours lecture per week
Prerequisite: MATH 329 or MATH 352 or equivalent
Introduction to applied mathematical methods in management sciences. Topics include: linear programming, managerial optimization methods, duality and equilibrium theorems, the simplex method, development of tools and methods required to make decisions and to solve operational problems in economy, decision and risk analysis, modeling and game theory. Topics of parametric programming, large-scale methods, generalized programming.

MATH 430 RESEARCH DESIGN AND DATA ANALYSIS (3)
Three hours laboratory per week
Prerequisite: BIOL 202 with a grade of C or better or MATH 352
Discussion of experimental design, sampling methods, data collection, and methods of data analysis related to scientific fields.
GenEd: B2,B3,Interdisciplinary

MATH 437 MATHEMATICS FOR GAME DEVELOPMENT (3)
Three hours lecture per week
Prequisites: MATH 137 or MATH 300
This course covers the application of basic algebra, Newtonian physics, computational mechanics, linear algebra, probability, and differential equations to game development and computer graphics. Applicable algorithms and techniques are demonstrated through appropriate computer gaming examples.
GenEd: B3,Interdisciplinary

MATH 445 IMAGE ANALYSIS AND PATTERN RECOGNITION (3)
Three hours lecture in the lab per week
Prerequisite: PHYS/COMP/MATH 345 or consent of the instructor
The course addresses the issue of analyzing the pattern content within an image. Pattern recognition consists of image segmentation, feature extraction and classification. The principles and concepts underpinning pattern recognition, and the evolution, utility and limitations of various techniques (including neural networks) will be studied. Programming exercises will be used to implement examples and applications of pattern recognition processes, and their performance on a variety of diverse synthetic and real images will be studied.
Same as PHYS 445, COMP 445
GenEd: B1,B4,Interdisciplinary

MATH 448 SCIENTIFIC COMPUTING (3)
Three hours lecture in the lab per week
Prerequisite: MATH 151 and MATH 350 or COMP 151
Topics include: techniques of applied mathematics, solution of equations, finite differences, and wavelets.
GenEd: B3,B4,Interdisciplinary

MATH 450 PARTIAL DIFFERENTIAL EQUATIONS AND MATHEMATICAL PHYSICS (3)
Three hours lecture per week
Prerequisite: MATH 350 or consent of instructor
Topics include: vector field theory and Fourier analysis.

MATH 451 COMPLEX ANALYSIS (3)
Three hours lecture per week
Prerequisite: MATH 250
Complex variable, analytic functions, complex integration, power series and conformal mappings. Topics include: complex variable, analytic functions, complex integration, power series and conformal mappings.

MATH 452 COMPUTATIONAL BIOINFORMATICS (4)
Four hours lecture in the lab per week
Prerequisite: Programming experience and Statistics, or consent of the instructor
Basic computational models used in molecular biology will be introduced. Topics include algorithms for string alignments, dynamic programming, structural superposition algorithms, computing with differential information, 3D motifs, Hidden Markov Models, phylogenetic trees, statistical/information techniques for pattern recognition, genetic algorithms.
Same as COMP 452

MATH 480 DIFFERENTIAL AND RIEMANNIAN GEOMETRY (3)
Three hours lecture per week
Prerequisite: MATH 351
Topics include: Implicit Function theorem. Differentials, Riemannian manifolds, curvature, local isometries. Gauss-Bonnet Theorem.
MATH 482 NUMBER THEORY & CRYPTOGRAPHY (3)  
Three hours lecture per week  
Prerequisite: MATH 300  
Topics include: divisibility, prime numbers, unique factorization theorem, congruences, solutions of linear congruences, solutions of quadratic congruences, Fermat’s Little Theorem, Wilson’s Theorem, and Euler’s phi function. Cryptography.  

MATH 484 ALGEBRAIC GEOMETRY AND CODING THEORY (3)  
Three hours lecture per week  
Prerequisite: MATH 393  
Study of algebraic varieties over algebraically closed fields. Modern application to coding theory.  

MATH 490 TOPICS IN MODERN MATHEMATICS (3)  
Three hours lecture per week  
Prerequisite: Upper-division standing  
New developments in mathematics. Repeatable by topic.  

MATH 492 INTERNSHIP (1-3)  
Variable hours per week  
Prerequisite: Upper division standing and Program approval of written proposal  
Supervised work and study in educational, industrial or scientific setting involving development of degree related skills. All students are required to present their projects at the Senior Colloquium.  

MATH 494 INDEPENDENT RESEARCH (1-3)  
Variable hours per week  
Prerequisite: Senior standing and Program approval of written proposal  
Supervised project involving theoretical research in the field of mathematics or its applications. All students are required to present their projects at the Senior Colloquium.  

MATH 497 DIRECTED STUDIES (3)  
Prerequisite: Program approval of written proposal  
Supervised project involving library research in the field of mathematics or its applications. All students are required to present their projects at the Senior Colloquium.  

MATH 499 SENIOR COLLOQUIUM (1)  
One hour of seminar per week  
Prerequisite: Senior standing  
Oral presentations of current advancement in the field, and reports on students’ projects. Repeatable.  

MATH 510 PROBABILISTIC METHODS AND MEASURE THEORY (3)  
Three hours lecture per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
Introduction to probabilistic methods. Topic include: sigma algebras, measures, integrals, Lebesgue measure, main convergence results and the change of variable results for integrals. Probabilistic methods in computational sciences are studied.  

MATH 511 FUNCTIONAL ANALYSIS (3)  
Three hours of lecture per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
Topics include: metric spaces, function spaces, normed vector spaces, linear operators. Banach spaces, Hilbert space, Spectral theory, and fundamental theorems in functional analysis. Applications in various fields including computer science, bioinformatics, statistical analysis.  

MATH 513 ADVANCED ALGEBRA (3)  
Three hours of lecture per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
Topics include: Techniques of Group Theory, Rings, Fields, Modules, Galois Theory, Algebraic Number Theory, Algebraic Geometry, Techniques of Linear Algebra, Noncommutative Algebra, and Homological Algebra.  

MATH 555 ACTUARIAL SCIENCES (3)  
Three hours lecture per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
The course provides a sound grounding in the mathematical, statistical and financial concepts needed for actuarial work, including technical and communication skills. Topics include: probability, statistics, data analysis, mathematical modeling, risk analysis, pension plans, financial economics, and time series. Various software packages are used.  

MATH 565 RESEARCH IN MATHEMATICS EDUCATION (3)  
Three hours lecture per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
Mathematical research methods in education. Current issues of college level curriculum including systems of geometry, algebra, precalculus, calculus, probability and statistics, linear algebra, differential equations, and discrete mathematics.  

MATH 581 MATHEMATICAL METHODS IN ARTIFICIAL INTELLIGENCE (3)  
Three hours of lecture in the lab per week  
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program  
This course presents several branches of mathematics that provide computational basis for Artificial Intelligence. The course covers Trees and Search, The Concepts of Predicate Logic, The Theory of Resolution, Nonmonotonic Reasoning, Probability Theory, Bayesian Networks, Fuzziness and Belief Theory, Classifier Systems, Math for Neural Networks, Elements of Statistics, Decision Trees and Optimization. Same as COMP 581
MATH 582 NUMBER THEORY & CRYPTOGRAPHY (3)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Topics include: Number theory, finite fields, polynomial rings, elliptic curves, public-key cryptography, zero-knowledge protocols, primality testing, factorization algorithms and applications.

MATH 587 MARKOV CHAINS AND MARKOV PROCESSES (3)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Topics include: Central Limit Theorem, Law of Large Numbers, Convergence Theorems, Markov Chains and Markov Processes. Applications in other fields, such as bioinformatics and computer science.

MATH 588 STOCHASTIC ANALYSIS (3)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Topics include: Brownian motion, stochastic integrals, conditional expectation, Kolmogorov’s Theorem, applications of Lebesgue Dominated Convergence Theorem. Introduction to Stochastic Differential Equations will be given.

MATH 588 MASTER THESIS (1-9)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Supervised research in mathematical sciences or applications. Required to present research at Graduate Seminar.

MATH 590 GRADUATE TOPICS IN MATHEMATICS (3)
Three hours lecture per week
Prerequisites: Graduate standing/Undergraduate seniors
New developments in mathematics. Repeatable by topic.

MATH 598 MASTER PROJECT (1-9)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Supervised industrial, educational or scientific project involving use of advanced mathematical methods. Required to present projects at the Graduate Seminar.

MATH 599 GRADUATE SEMINAR (1)
Three hours lecture per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Oral presentations of current advancements in the field, reports on students’ research, master thesis, and projects. Repeatable.

MANAGEMENT

MGT 307 MANAGEMENT OF ORGANIZATIONS (3)
Three hours lecture per week
Principles, methods and procedures planning, organizing, leading, and controlling people within organizations. Topics include the history of management thought, organizational culture and design, decision-making, managerial communication, and strategic management

MGT 310 MANAGEMENT OF INTERNATIONAL BUSINESS (3)
Three hours lecture per week
Identification and analysis of management systems in cross-border environments. Explores the impact of economic, social, cultural, and political variables on the conduct of profit-making business. Extensive use of case analysis, and performance of a ‘country study’ project.

MGT 325 ENTREPRENEURIAL MANAGEMENT (3)
Three hours lecture per week
Explores the management of start-up and small businesses. Concentrates on initial strategy, location, financing, staffing, daily activities, controls and taxes. Students develop a business plan for a small business.

MGT 326 SCIENTIFIC & PROFESSIONAL ETHICS (3)
Three hours lecture per week
Discussion of ethical issues and societal challenges derived from scientific research and professional activities. Examines the sources, fundamental principles, and applications of ethical behavior; the relationship between personal ethics and social responsibility of organizations; and the stakeholder management concept. Applies ethical principles to different types of organizations: business, non-profits, government, health care, science/technology, and other professional groups. Topics also include integrity of scientific research and literature and responsibilities of scientists to society, intellectual property, ethical practices in professional fields, ethical dilemmas in using animal or human subjects in experimentation, gene cloning, animal cloning, gene manipulation, genetic engineering, genetic counseling, and ethical issues of applying biotechnology in agricultural fields.
Same as BIOL 326
GenEd: D

MGT 421 HUMAN RESOURCE MANAGEMENT (3)
Three hours lecture per week
Prerequisite: MGT 307
Examines principles, methods and procedures in the management of human resources. Topics include developing planning objectives for HR management, legal compliance, job analysis, recruiting, selection, training, compensation and employee relations.
MGT 422 STRATEGIC PLANNING (3)
Three hours lecture per week
Prerequisite: MGT 307
Examines principles, methods and procedures for strategic planning for all types of organizations. Topics include developing missions, strategies, tactics, goals/objectives, strategic divisions, internal and external environmental analysis, strategic implementation and monitoring/control mechanisms. Strategic planning is explored for both non-profit and for-profit organizations. Special emphasis will be given to the development of realistic strategic plans that can be implemented, measured and controlled in a real world environment.

MGT 426 MANAGEMENT OF HEALTHCARE ORGANIZATIONS (3)
Three hours lecture per week
Prerequisite: MGT 307
Explores the principles of management of organizations and applies them to the unique environment of healthcare organizations. Topics include volatile environment, escalating costs, identification of stakeholders, organizational design, use of technology, quality control, and special issues in healthcare management (bio-ethics, chemical dependency, stress, workforce diversity).

MGT 428 CONTRACT MANAGEMENT (3)
Three hours lecture per week
Prerequisite: MGT 307
Explores the study of procurement planning, negotiation, and contract administration, including the determination of need, basic contract law, methods of procurement and fundamentals of management techniques. Topics include procurement organizations, acquisition planning, source selection, pricing, types of contracts, negotiating techniques, structuring incentives, the terms and conditions of contracts, and managing contract progress.

MGT 429 PROGRAM MANAGEMENT (3)
Three hours lecture per week
Prerequisite: MGT 307
Examines principles, methods, and procedures in the management of programs in public organizations. Topics include government acquisition policies, strategies, plans, and procedures, risk management, program planning, scheduling, managing, and monitoring, cost and performance evaluation, and program policy development and implementation.

MGT 471 PROJECT MANAGEMENT (3)
Three hours lecture per week
Prerequisite: MGT 307
Presents the principles of project management, which is a special form of work organization that focuses on a one-time objective. Discusses all aspects of project management: definition of objectives, selection of team and other resources, establishing of timing and sequences, creation of monitoring and control processes, and development of analysis and reporting mechanisms.

MGT 490 SPECIAL TOPICS (3)
Three hours seminar per week
Prerequisite: Consent of instructor
In-depth analysis of current topics in management. Topics vary each semester. Repeatable by topic.

MGT 492 SERVICE LEARNING/INTERNSHIP (1-3)
Six hours per week
Prerequisite: Consent of the Instructor
Individual internship through service learning. Graded Credit/No Credit

MGT 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of instructor
Individual contracted study on topics or research selected by the student and faculty mentor. Repeatable for up to nine units. Graded Credit/No Credit
MANAGEMENT INFORMATION SYSTEMS

MIS 310 MANAGEMENT INFORMATION SYSTEMS (3)
Three hours lecture per week
Prerequisite: COMP 101 or equivalent
Examines application of computer-based information systems to the management of organizations. Topics include use of information to further the organization's mission and strategy, the role of users, the architecture of information, and development of decision-support processes for managers.

MIS 490 SPECIAL TOPICS (3)
Three hours per week
In-depth analysis of current topics in computer information systems. Topics vary each semester. Repeatable by topic.

MIS 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Enrollment in this course is with permission of faculty member in charge. Individual internship through service learning.
Graded Credit/No Credit

MIS 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study on topics or research selected by the student and faculty mentor. Repeatable for up to nine units.
Graded Credit/No Credit

MARKETING

MKT 310 PRINCIPLES OF MARKETING (3)
Three hours lecture per week
Presents and analyzes the fundamental principles, methods and procedures in modern marketing: planning, pricing, distribution, and promotion. Topics include creating customer value and satisfaction, strategic planning, marketing process and environment, research and information systems, consumer markets and consumer buyer behavior, business markets and business buyer behavior, segmentation, product and services strategy, new-product development and product life cycle strategies, pricing, communications, direct and on-line marketing, and social responsibility and marketing ethics.

MKT 311 CONSUMER BEHAVIOR (3)
Three hours lecture per week
Prerequisites: MKT 310
A comprehensive study of behavioral models and concepts designed to help understand, evaluate, and predict consumer behavior. Deepens a student's knowledge about consumer psychology and applies the knowledge from the perspective of a marketing manager. Stresses analytical thinking about consumer psychology and prediction of how marketing tactics may influence demand for products and services.

MKT 409 MARKETING RESEARCH (3)
Three hours lecture per week
Prerequisites: MKT 310
Fundamentals of marketing research including design, implementation, analysis, interpretation, and reporting. Develop skills in defining research problems, designing surveys, experiments and observational studies, managing data collection, performing data analysis, and communicating results. Emphasis is on the use of marketing research as a component of marketing strategy (making extensive use of statistical techniques).

MKT 410 INTERNATIONAL MARKETING MANAGEMENT (3)
Three hours seminar per week
Prerequisites: MKT 310
Develops a knowledge of culture, environment, and world market potential. The focus is developing an environmental/cultural approach to global marketing. Topics covered include: cultural and social forces, political and regulatory climate, global buyer behavior, and global marketing strategies. Cases, research, and marketing plans are used to apply marketing concepts to global opportunities and environments.
MKT 411 NEW PRODUCT DEVELOPMENT AND MANAGEMENT (3)
Three hours seminar per week
Prerequisite: MKT 310
Develops the managerial skills and perspectives that contribute to innovative and entrepreneurial new product development and management. Topics include analysis of consumer needs, market analysis, paradigmatic limits to thinking, new product design and development, creativity, innovation, forecasting, resource requirements, product liability issues, and managing new ventures. Managerial roles, team building, team facilitation will also be emphasized.

MKT 490 SPECIAL TOPICS (3)
Three hours seminar per week
Prerequisite: Consent of the instructor
In-depth analysis of current topics in marketing. Topics vary each semester. Repeatable by topic.

MKT 492 SERVICE LEARNING/INTERNSHIP (3)
Six hours per week
Prerequisite: Consent of the instructor
Individual internship through service learning. Graded Credit/No Credit

MKT 497 DIRECTED STUDY (1-3)
Variable hours per week
Prerequisite: Consent of the instructor
Individual contracted study on topics or research selected by the student and faculty mentor. Repeatable for up to nine units. Graded Credit/No Credit

MUSIC
See Performing Arts - Music

PERFORMING ARTS

PA 101 INTRODUCTION TO THE PERFORMING ARTS (3)
Three hours lecture per week
Overview of the history of performance, cultural traditions, and artistic assumptions in theatre, history and dance. Requires some involvement in local or campus productions.

PA 202 INTEGRATING DANCE, MUSIC & THEATRE (3)
Four hours lecture/activity per week
Investigation of methods and philosophies of performance integrating dance, music and theatre.

PA 335 BUSINESS AND THE PERFORMING ARTS (3)
Three hours lecture per week
Exploration of the business elements in the performing arts, including planning, management and financial activities. Uses an interdisciplinary approach to focus on performing arts as a creative activity and as a business activity. Uses case studies to analyze a comprehensive view of performing arts organizations. Same as BUS 335
GenEd: Interdisciplinary

PA 338 THEATRE IN HISTORY (3)
Three hours lecture per week
A survey of the history of theatrical productions. Includes formal productions and performances as well as other types of theatre or dramatization such as political posturing, i.e. Caesar's entrance into Rome in historical reality as well as performed or recorded later in theatre, music, and history. Same as HIST 338
GenEd: C1,D,Interdisciplinary

PA 350 AUDIENCE & PERFORMANCE STUDIES (3)
Four hours lecture/activity per week
Prerequisites: PA 101 and PA 202
Interdisciplinary exploration of performance as an art form, with particular attention to how audience response shapes live performances. History, development, and theory of performance will be integrated with new research on audience-performer interaction to provide the student with a comprehensive and interdisciplinary vision of performance. Students will both study performance and design community-based projects in which they will perform.

PA 360 MUSICAL THEATRE (3)
Four hours lecture/activity per week
Practice of musical theatre performance, including survey of musical theatre as an art form and practical work in acting, singing and dancing in musicals.
PA 383 SCENIC DESIGN (3)
Six hours activity per week
A studio/activities course utilizing artistic techniques involved in the development of scenic design for theatrical, musical and dance productions. Script analysis, scenery sketching, drafting ground plans, elements of set construction and scenic painting will be covered in a series of studio projects.
Same as ART 383

PA 436 PHYSICS OF THE PERFORMING ARTS (3)
Three hours lecture per week
Prerequisites: PA 202
Introduction to the physics of movement, lighting, sound and visual/aural perception. The course emphasizes factors that permit the performance artists to understand and more fully control their performance, with special attention to the study of audience perception. Demonstrations, experiments and video/computer simulations are used to analyze signals received by the performer and the audience.
Same as PHYS 436
GenEd: B1, Interdisciplinary

PERFORMING ARTS - DANCE

PADA 151 CONDITIONING FOR DANCERS (3)
Six hours activity per week
This course utilizes techniques (stretching, yoga, pilates) and principles of conditioning (strength, flexibility, and endurance) to prevent injuries stemming from muscular imbalances, structural problems, postural deviations, improper mechanics or movements. Students will develop individualized conditioning programs to prevent injuries.

PADA 253 JAZZ DANCE I (3)
Six hours activity per week
Prerequisite: Consent of instructor
Activities designed to develop basic jazz dance technique accompanied by historical information relevant to the dance form.

PADA 254 MODERN DANCE I (3)
Six hours activity per week
Prerequisite: Consent of instructor
Beginning modern dance techniques based on movement vocabularies of pioneers: Duncan, Wigman, St. Denis, Graham, Weidman, Humphrey and Cunningham.

PADA 458 DANCE ENSEMBLE (3)
Six hours activity per week
Prerequisites: PADA 353 or PADA 354
A dance repertory and performance class with emphasis in developing skills for performing ballet, modern, jazz, historic and/or other forms of theatrical dance.
PERFORMING ARTS - MUSIC

PAMU 100 MUSIC APPRECIATION (3)
Three hours lecture per week
A survey of musical masterpieces of the Western Tradition from the Middle Ages to the present. Emphasis on composers from Bach to Bartok. Includes units on jazz and the music of other cultures.
GenEd: C1

PAMU 109 PRIVATE LESSONS (1)
One half-hour lesson per week
Private music lessons in voice or on an instrument. Repeatable for up to a total of 8 units

PAMU 200 HISTORY OF ROCK (3)
Three hours lecture per week
A survey of the evolution of rock music from the 1950's to the present. Includes discussions of predecessor styles such as rhythm and blues and country music.
GenEd: C1

PAMU 261 MUSIC THEORY (3)
Three hours lecture per week
Basic music theory and music fundamentals, set in the context of the Western European common-practice period, for the beginning university-level music student. Special emphasis on the role of popular and commercial music in society, including jazz and musical theatre.

PAMU 307 UNIVERSITY CHORUS (1)
Three hours of rehearsal per week
Prerequisite: Consent of the Instructor
Rehearsal and performance of the masterworks of choral literature from the Renaissance through the Modern period. Repeatable for up to 8 units.
GenEd: C1

PAMU 308 UNIVERSITY ORCHESTRA (1)
Three hours rehearsal per week
Rehearsal and performance of the masterworks of orchestral literature from the Baroque through the Modern period. Repeatable for up to 8 units.
GenEd: C1

PAMU 309 PRIVATE LESSONS (1)
One half-hour lesson per week
Private music lessons in voice or on an instrument. Study of more advanced techniques. Repeatable for up to 8 units.

PAMU 330 JAZZ IN AMERICA (3)
Three hours lecture per week
The study of jazz as a uniquely American musical art form, principally through the development of jazz styles. From its roots in Africa and later in New Orleans, jazz will be studied as both a musical and a social phenomenon that originated and was nurtured in the African-American community. The course will explore issues of community, ethnicity, class, and gender in relationship to jazz as a vehicle for both personal and cultural expression. Through recordings, videos, lectures, demonstrations and live performances, students will study jazz and its forerunners, ragtime and blues, from their beginnings to the present day.
GenEd: C1,C3B,Interdisciplinary

PAMU 333 THE VARIETIES OF MUSICAL EXPERIENCE (3)
Three hours lecture per week
The study of music in its cultural and historical contexts, with an emphasis on the role of music as a form of human expression. A broad range of musical styles will be studied, including, but not limited to, European, Asian, and Middle Eastern classical music; American jazz and popular music; and folk music of western and non-western cultures. Students will study the unifying and authenticating nature of music within groups of people, as well as study the experience of music on a personal level.
GenEd: C1,Interdisciplinary

PAMU 335 THE PHYSICS OF MUSIC (3)
Two hours lecture and two hours lab activity per week
Provides an understanding of music and sound for students interested in music, speech, and language. Extensive use of demonstrations and sound analysis computer programs will be used. The format will include lectures, demonstrations, and hands-on use of the computer programs.
Same as PHYS 335
GenEd: B1,C1,Interdisciplinary

PAMU 336 ART AND MUSIC: DISSONANCE, DIVERSITY AND CONTINUITY (3)
Three hours lecture per week
An interdisciplinary analysis of the essential elements defining modern and contemporary art and music. Discusses how artistic characteristics and music issues of the period are connected and intertwined within specific historic and cultural environments.
Same as ART 336
GenEd: C1,D,Interdisciplinary
**PAMU 343 TEACHING MUSIC TO CHILDREN (3)**  
Three hours lecture per week  
An introduction to musical experiences appropriate for children in grades K-6. Consisting of instruction in music fundamentals, general music, vocal music and instrumental music for the classroom teacher, the course also incorporates movement and improvisation in the form of dance and theater. Kodaly, Orff and Dalcroze techniques will be emphasized. Includes music technology in the classroom.

**PAMU 363 MUSIC HISTORY (3)**  
Three hours lecture per week  
Prerequisite: PAMU 261  
An in-depth study of Western European music in its historical context, with special emphasis on the role of music in culture. From the music of the Medieval church to American musical theatre, the course will examine the societal forces that helped to shape classical and popular musical styles, and how music can and has influenced culture.

**PAMU 432 ARTS OF THE HARLEM RENAISSANCE (3)**  
Three hours lecture per week  
Prerequisite: Upper division standing  
Study focusing on the dramatic upsurge of creativity in art, music and literature resulting from social and political undercurrents in the African American cultural revolution in New York during the 1920s. Historical geneses and subsequent artistic legacies will also be explored.  
Same as ENGL 432, ART 432  
GenEd: C1,C2,Interdisciplinary

**PERFORMING ARTS - THEATRE**

**PATH 280 ACTING I (3)**  
Four hours lecture/activity per week  
Exercises and activities that emphasize voice, movement, and relaxation techniques. Includes improvisation, monologues, and two-character scenes.

**PATH 281 PLAY ANALYSIS (3)**  
Three hours lecture/discussion per week  
Introduces students to the analytical tools used by theatre professionals and provides practice in applying those tools to a variety of scripts. Studies in dramatic structure and its relationship to performance and production.

**PATH 332 TEACHING DRAMATIC LITERATURE (3)**  
Three hours lecture per week  
Prerequisite: ENGL 102 or ENGL 105 or equivalent plus one upper division literature course  
This course will explore methods and approaches to teaching dramatic literature in secondary schools and colleges. The focus will be on elements of textual exploration and using heuristics from theatre to teach dramatic literature, including but not exclusively Shakespeare's plays.  
Same as ENGL 332  
GenEd: C2,Interdisciplinary

**PATH 333 MULTICULTURAL DRAMA IN PERFORMANCE/PRODUCTION (3)**  
Three hours lecture/discussion per week  
America is a country of many cultures, and each of these has brought legacies of its roots to the American stage. In this course we will read plays written by Native Americans, Hispanic Americans, Asian Americans, African Americans and others. We will also stage mini-productions of one or more of those plays.  
Same as ENGL 333  
GenEd: C2,C3B,Interdisciplinary

**PATH 380 ACTING II (3)**  
Four hours lecture/activity per week  
Prerequisite: PATH 280  
Emphasizes character work and contemporary acting theories. Includes performance of scenes from contemporary multicultural plays.

**PATH 382 DIRECTING (3)**  
Four hours lecture/activity per week  
Prerequisites: PA 101, PA 202, PATH 281  
Introduction to techniques and practice of directing stage plays. Students direct scenes and one-acts.

**PATH 410 SHAKESPEARE'S PLAYS (3)**  
Three hours lecture per week  
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course  
Study of the many aspects of Shakespeare's plays as literature--language, context, form and style--as well as the ways in which these elements work as parts of a whole, which includes spoken speech and other sounds as well as physical form and movement.  
Same as ENGL 410
PATH 412 DRAMA OF ANCIENT GREECE (3)
Three hours lecture/discussion per week
Prerequisite: ENGL 103 or ENGL 105 or equivalent and one upper division literature course
A survey of ancient Greek drama and the culture/society that produced it. The course will examine a representative sample of the major plays. Among the topics considered will be: the tragic and comic festivals, tragedy’s relationship with Athenian democracy, the nature of Greek theaters and ancient theatrical production techniques, religion and drama, women and tragedy, tragic and comic heroism, myth and tragedy, and the legacy of Greek tragedy in the modern world.
Same as ENGL 412

PATH 444 ORIGINAL PRACTICE IN RENAISSANCE DRAMA (3)
Three hours lecture per week
In this class, students will learn about the theaters of the Renaissance, the playwrights whose plays were performed in them, and explore the differences that occur when the plays are performed in a venue resembling those of the original Rose, Blackfriars and Globe theaters.
Same as ENGL 444
GenEd: C2, Interdisciplinary

PHED 102 SEMINAR IN TRADITIONAL MARTIAL ARTS: TAI JI (1)
Two hours activity per week
This course provides instruction in the traditional Chinese art of Tai Ji. In addition to learning to perform the movements, students will learn about Daoist philosophy, and history of Chinese martial arts. Traditional Chinese health principles will also be covered.
Repeatable.
GenEd: E

PHED 105 ZEN OF SURFING (1)
Three hours activity per week
Exploration of the physiological and psychological benefits that result from human interaction with forces of nature. Students develop an increased understanding of the ocean and complex dynamics that underlie the sport of surfing. The interrelationship between physical activity and personal aesthetics is explored through weekly surfing activities.
GenEd: E

PHED 110 WELLNESS (2)
Two hours lecture per week
Examines the interrelationship of the mind and body as it relates to the concept of Wellness. Covers physical fitness, sport selection, and differing types of exercise. This is not an activity/performance course.
GenEd: E

PHED 208 INTRODUCTION TO KINESIOLOGY (3)
Three hours lecture per week
Examines the field of human movement, introduces biomechanics, anatomy, exercise physiology, and motor learning. Basic anatomy, function of the musculoskeletal system, laws of motion, principles of force, equilibrium concepts, and laws governing projectiles will be introduced and applied to various sports activities. The student will develop the ability to analyze skill movements in specific sport activities. This is not an activity/performance course.
GenEd: E

PHED 302 MOTOR LEARNING, FITNESS, AND DEVELOPMENT IN CHILDREN (2)
Two hours lecture per week
Physical education for children, fundamentals of motor learning, health, fitness and age-appropriate activities for elementary school age children. Teaching, planning and implementing an effective physical education program. May be taken concurrently with PHED 303. This is not an activity/performance course.
GenEd: E

PHED 310 ADAPTED PHYSICAL EDUCATION (3)
Three hours lecture per week
Basic concepts of Adapted Physical Education and an examination of trends in schools and communities. Particular attention given to inclusion as a teaching model. This is not an activity/performance course.
GenEd: E
PHYSICAL SCIENCE

PHSC 170 FOUNDATIONS IN PHYSICAL SCIENCE (4)
Three hours lecture and three hours laboratory per week
The areas covered include the physical properties of solids, liquids, and gases; physical and chemical changes in matter; atomic theory and the periodic table; the principles of motion and energy; forces and the motion of particles; sources and transformations of energy including heat, electricity, magnetism, light, and sound; renewable and non-renewable energy sources; and the conservation of energy resources.
GenEd: B1

PHYSICS

PHYS 100 INTRODUCTION TO PHYSICS I (4)
Three hours lecture and three hours laboratory per week
A non-calculus based introduction to the concepts and principles of physics. The areas covered include classical mechanics, wave motion and thermal physics. Practical examples will be used to illustrate the relationship between physics and other disciplines, especially the life sciences, and to develop problem-solving skills. Laboratory sessions will include computer-simulated experiments.
GenEd: B1

PHYS 101 INTRODUCTION TO PHYSICS II (4)
Three hours lecture and three hours laboratory per week
Prerequisite: PHYS 100
A non-calculus based introduction to the concepts and principles of physics. The areas covered include electromagnetic theory, light, and atomic and nuclear physics. Practical examples will be used to illustrate the relationship between physics and other disciplines, especially the life sciences, and to develop problem-solving skills. Laboratory sessions will include computer-simulated experiments.
GenEd: B1

PHYS 105 INTRODUCTION TO THE SOLAR SYSTEM (4)
Three hours lecture and two hours activities per week
Descriptive introduction to the astronomical properties of the Solar System. Topics include: the historical development of astronomy, the laws that govern the behavior of the Universe, the properties of the stars and galaxies, including their origin and evolution and the Big Bang theory. Activity sessions will include computer-simulated exercises, and two field trips.
Same as ASTR 105
GenEd: B1

PHYS 107 THE STARS AND BEYOND (3)
Three hours lecture per week
A tour through the stars and galaxies will uncover some major mysteries of the Universe. Topics include: the historical development of astronomy; the laws that govern the behavior of the Universe; the birth, life and death of stars; the collision of galaxies; and evidence for the birth and end of the entire Universe.
GenEd: B1

PHYS 200 GENERAL PHYSICS I (4)
Three hours lecture and three hours laboratory per week
Prerequisite: MATH 150
A calculus-based introduction to the concepts and principles of physics. The areas covered include classical mechanics, wave motion and thermal physics. Practical examples will be used to illustrate the relationship between physics and other disciplines, including the life sciences, and to develop problem-solving skills. Laboratory sessions will focus on computer-simulated experiments.
GenEd: B1

PHYS 201 GENERAL PHYSICS II (4)
Three hours lecture and three hours laboratory per week
Prerequisite: PHYS 200
A calculus-based introduction to the concepts and principles of physics. The areas covered include electromagnetic theory, light, and atomic and nuclear physics. Practical examples will be used to illustrate the relationship between physics and other disciplines, including the life sciences, and to develop problem-solving skills. Laboratory sessions will focus on computer-simulated experiments.
GenEd: B1

PHYS 208 THE PHYSICS OF ART AND VISUAL PERCEPTION (3)
Two hours lecture and two hours lab per week
A course on the physics of light, color, art and visual perception. The course will cover the nature of light and optical phenomena, the perception and psychology of color, the reproduction of color in different media, and the analysis of art from a science perspective. The emphasis is on factors which permit the artist and observer to understand and more fully control the design and interpretation of images of all kinds. Demonstrations, experiments, and video/computer simulations are used to analyze signals received by the eyes or instruments.
Same as ART 208
GenEd: B1,C1

PHYS 304 ELECTROMAGNETISM (4)
Four hours lecture per week
Prerequisite: PHYS 101 or PHYS 201, MATH 151
A calculus-based introduction to the concepts and principles of electricity and magnetism. Topics include: electrostatics, magnetism, electromagnetic theory, fields, electromagnetic waves, Maxwell's equations, and the Special Theory of Relativity. A strong emphasis will be on analytical problem-solving skills and applications.
PHYS 310 ELECTRONICS (4)
Three hours lecture and two hours activity per week
Prerequisite: PHYS 101 or PHYS 201
This course covers the basic analog and digital electronic circuits used in a scientific laboratory. Students will be introduced to the operation of simple electronic devices, the basic underlying theory of their operation, and the applications of a few analog and digital ICs. The emphasis is on applications rather than theory. Consequently there is a strong hands-on component to the subject to enable students to gain practical experience. Experiments will include the testing of actual and virtual circuits, and data acquisition.

PHYS 315 INTRODUCTION TO BIOPHYSICS (4)
Three hours lecture and two hours activity per week
Prerequisite: PHYS 200
Co-requisite: BIOL 300
This course applies physical methods to the study of biological systems, including transport processes and membrane phenomena, bioelectric phenomena, photosynthetic systems and visual systems. Biophysical methods will include the techniques of patch clamping and optical tweezers, and the measurement of action potentials and evoked responses. There will be an emphasis on modeling and on problem solving, with appropriate mathematics when necessary. The practical activity session will include computer modeling and simulation, and laboratory demonstrations and exercises.
Same as BIOL 315

PHYS 335 THE PHYSICS OF MUSIC (3)
Two hours lecture and two hours lab activity per week
Provides an understanding of music and sound for students interested in music, speech, and language. Extensive use of demonstrations and sound analysis computer programs will be used. The format will include lectures, demonstrations, and hands-on use of the computer programs.
Same as PAMU 335
GenEd: B1,C1,Interdisciplinary

PHYS 338 SCIENCE AND CONSCIENCE (3)
Three hours lecture/discussion per week
This course is a team-taught, interdisciplinary course that examines various ethical issues within the sciences using case studies. The scientific, historical and social aspects of each case study will be examined from different perspectives. Students will learn scientific concepts which will facilitate an informed understanding of the ethical issues involved.
Same as ENGL 338
GenEd: B1,C2,Interdisciplinary

PHYS 344 ENERGY AND SOCIETY (3)
Three hours lecture per week
Survey of the physical, chemical, and engineering principles involved in the production of energy from current and potential sources and the economical, environmental, and political issues surrounding energy production. The course will also examine factors that influence worldwide energy policy. Examples of topics included: energy conservation, efficient usage and transportation of energy, energy resources, fossil fuels, active and passive solar energy, biomass, fuel cells, nuclear (fission and fusion) processes, and hydroelectric, tidal, geothermal, and wind power.
Same as CHEM 344
GenEd: B1,Interdisciplinary

PHYS 345 DIGITAL IMAGE PROCESSING (3)
Three hours lecture in the lab per week
Prerequisite: Consent of the instructor
An introduction to the basic concepts and techniques for digital image restoration and enhancement, analysis, coding and compression. The emphasis is on processes which analyze primarily two-dimensional discrete images represented at the pixel level, including filtering, noise reduction and segmentation. Fourier analysis techniques will be explored. Programming exercises will be used to implement the various processes, and their performance on synthetic and real images will be studied.
Same as MATH 345, COMP 345
GenEd: B1,B4,Interdisciplinary

PHYS 416 RADIOBIOLOGY & RADIONUCLIDES (3)
Three hours lecture per week
Prerequisite: BIOL 300 and PHYS 201
Topics include: nature and effects of ionizing radiation on biomolecular structures and living cells; applied radiobiology and radionuclides; genetic effects of ionizing radiation and methods of protection and dosimetry.
Same as BIOL 416

PHYS 434 INTRODUCTION TO BIOMEDICAL IMAGING (4)
Three hours lecture and two hours lab activity per week
Prerequisite: BIOL 210 or PHYS 200
The course will present an overview of biomedical images and imaging systems. The fundamental concepts used in several imaging modalities (such as projection radiography, mammography, DEXA, computed tomography, ultrasonography and magnetic resonance imaging) will be examined: the emphasis will be on an intuitive and descriptive presentation of the main components of these systems. Image formation and reconstruction will be addressed. The resulting clinical images will be correlated with the underlying structure and function of the organs, and the diagnostic utility and limitations of the images will be considered.
Same as BIOL 434, HLTH 434
GenEd: B1,E,Interdisciplinary
PHYS 436 PHYSICS OF THE PERFORMING ARTS (3)
Three hours lecture per week
Prerequisites: PA 202
Introduction to the physics of movement, lighting, sound and visual/aural perception. The course emphasizes factors that permit the performance artists to understand and more fully control their performance, with special attention to the study of audience perception. Demonstrations, experiments and video/computer simulations are used to analyze signals received by the performer and the audience.
Same as PA 436
GenEd: B1, Interdisciplinary

PHYS 445 IMAGE ANALYSIS AND PATTERN RECOGNITION (3)
Three hours lecture in the lab per week
Prerequisite: PHYS/COMP/MATH 345 or consent of the instructor
The course addresses the issue of analyzing the pattern content within an image. Pattern recognition consists of image segmentation, feature extraction and classification. The principles and concepts underpinning pattern recognition, and the evolution, utility and limitations of various techniques (including neural networks) will be studied. Programming exercises will be used to implement examples and applications of pattern recognition processes, and their performance on a variety of diverse synthetic and real images will be studied.
Same as COMP 445, MATH 445
GenEd: B1, B4, Interdisciplinary

PHYS 464 MEDICAL INSTRUMENTATION (4)
Three hours lecture and two hours lab activity per week
Prerequisite: PHYS/BIOL/HLTH 434
The detection, acquisition, processing and display of diagnostic clinical images. The course will concentrate on the fundamentals of the design of the instruments and the use of appropriate reconstruction algorithms in (computed) radiography, (digital) fluoroscopy, computed tomography, ultrasound, magnetic resonance imaging and radionuclide imaging. Activities will include image reconstruction examples, investigation of recent innovations, and two trips to local Radiology departments.
Same as BIOL 464

PHYS 490 TOPICS IN PHYSICS (3)
Three hours seminar per week
Prerequisite: Upper division standing and consent of the instructor
In-depth analysis of topics in physics. Topics vary each semester.

PHYS 492 INTERNSHIP (3)
Six hours activity per week
Prerequisite: Upper division standing and consent of the instructor
Supervised work and study in industrial or scientific setting involving development of skills related to applied physics. All students are required to present their projects at the Senior Colloquium.
Student Option: Graded or CR/NC

PHYS 494 INDEPENDENT RESEARCH (1-3)
Variable hours per week
Prerequisite: Senior standing and consent of the instructor
Contracted laboratory and/or library research in selected areas within physics conducted under the supervision of a faculty member. All students are required to present their projects at the Senior Colloquium.

PHYS 497 DIRECTED STUDIES (1-3)
Variable hours per week
Prerequisite: Senior standing and program approval
Supervised project involving reading and library research in the field of physics. All students are required to present their projects at the Senior Colloquium.

PHYS 499 SENIOR COLLOQUIUM (1)
One hour seminar per week
Prerequisite: Senior standing
Oral presentations of current advances in the field, reports on students’ projects in PHYS 492, PHYS 494 or PHYS 497 courses, and invited lectures.

PHYS 510 ADVANCED IMAGE ANALYSIS TECHNIQUES (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
Image processing course in the fundamentals of 2-D digital signal processing with emphasis in image processing techniques, image filtering design and applications. Programming exercises in Matlab (or Octave) will be used to implement the various processes, and their performance on synthetic and real images will be studied. Applications in medicine, robotics, consumer electronics and communications.

PHYS 546 PATTERN RECOGNITION (3)
Three hours of lecture in the lab per week
Prerequisite: Admission to the Computer Science or Mathematics Graduate Program
New and emerging applications of pattern recognition - such as data mining, web searching, multimedia data retrieval, face recognition, and cursive handwriting recognition - require robust and efficient pattern recognition techniques. Statistical decision making and estimation are regarded as fundamental to the study of pattern recognition. The course addresses the issue of analyzing pattern content by feature extraction and classification. The principles and concepts underpinning pattern recognition, and the evolution, utility and limitations of various techniques (including neural networks) will be studied. Programming exercises will be used to implement examples and applications of pattern recognition processes, and their performance on a variety of diverse examples will be studied.
POLITICAL SCIENCE

POLS 102 COMPARATIVE GOVERNMENT (3)
Three hours lecture/discussion per week
This course introduces the student to the contemporary study of comparative politics. The theme for the course will be democratization and democracy. Topics will include political institutions (constitutions, executives, legislatures, courts, and political parties), political behavior (voting, group activism, and other modes of political participation), and political ideas (political culture, socialization, status of women, and political economy).
GenEd: D

POLS 103 INTRODUCTION TO INTERNATIONAL POLITICS (3)
Three hours lecture/discussion per week
This course offers an overview of current theory, topics, and research in the Political Science subfield of International Relations. Emphasis will be placed on the role of power in international affairs, the structure of the international system, the meaning of security, and the importance of economic relations between nations and regions.
GenEd: D

POLS 140 CALIFORNIA GOVERNMENT AND POLITICS (1)
One hour of lecture per week
Introduction to the structure and function of California state government. Satisfies California state and local government requirement for students who have taken American Government without a California component or who receive Advanced Placement credit for American Government.

POLS 150 AMERICAN POLITICAL INSTITUTIONS (3)
Three hours lecture per week
Examines the major American national and state political institutions and processes, including the presidency, congress, the federal court system, political parties, the electoral system, and major institutions of state government. This course emphasizes how these institutions and processes function within changing American Constitutional principles of the role of law, federalism, shared power, and individual and civil rights. Meets Title V national and state government requirement.

POLS 300 POLITICAL SCIENCE RESEARCH METHODS (3)
Three hours lecture per week
Prerequisite: SOC/PSY 203
Introduction to research methods commonly used in political science. Topics include: research design, literature reviews, measurement and observation. Covers quantitative as well as qualitative methods of inquiry.

POLS 301 POLITICAL THEORY (3)
Three hours lecture/discussion per week
Political Theory is devoted to assessing the authority, legitimacy, and justification of various kinds of political arrangements. How should people live together in society? Is democracy really the best form of government? Can a society legislate morality? What do individuals owe their government? What does their government owe them? This course will consider these and related questions through an introductory survey of works by major political philosophers such as Plato, Hobbes, Locke, Mill, and Marx. Ramifications for issues such as freedom of speech, religious liberty, affirmative action, women’s rights, economic inequality, criminal punishment, civil disobedience, and revolution will also be explored.

POLS 303 STATISTICAL APPLICATIONS IN THE SOCIAL SCIENCES (3)
Four hours lecture/laboratory per week
Prerequisites: MATH 105 or equivalent
This course introduces students to quantitative methods as used in social science research and prepares them for statistical literacy. Students will learn to use descriptive and inferential statistics to test hypotheses. Basic topics covered in the class include graphical representations, central tendency and variability, chi-squared and other nonparametric techniques, correlation and regression, and mean difference tests as applied to research methods and data commonly used in the social sciences. Measurement and psychometric issues unique to social science data will be covered. Students will use SPSS to analyze data.
Same as SOC 303, PSY 303

POLS 305 GENDER AND POLITICS (3)
Three hours lecture per week
Examines the role of women as political actors in the United States. Also explores the impact of public policies on women in America.

POLS 306 THE POLITICS OF RACE & ETHNICITY (3)
Three hours lecture per week
Examines the politics and policy consequences of racial and ethnic identity in the United States. Special attention will be paid to issues of race and politics in contemporary southern California.
GenEd: C3B

POLS 315 CONGRESS AND THE PRESIDENCY (3)
Three hours lecture/discussion per week
This course will examine the ongoing struggle between the President and Congress to enact public policy. Students will study the two institutions singly and in their interaction. Particular attention will be placed on the electoral incentives of members of each institution and the inherent difficulties of cooperation in a system of separation of powers.
POLS 316 STATE & LOCAL POLITICS & POLICY (3)
Three hours lecture per week
Examines the structures, functions, policies, politics and administration of subnational governments in the United States.

POLS 317 JUDICIAL POWER AND PROCESS (3)
Three hours lecture per week
Study of the American court system, including study of the history, organization, politics and policymaking of the judicial branch.

POLS 318 THE ELECTORAL PROCESS (3)
Three hours lecture per week
Explores political parties, campaigns, elections and voting behavior in the American context.

POLS 320 PUBLIC ADMINISTRATION (3)
Three hours lecture/discussion per week
This course is an introduction to public administration in the United States at the national, state and local levels of government. It will explore the various trends in American public administration, examine the unique circumstances involved in administering public organizations and look at different techniques of public management. Topics of study include: the structure and function of the American system of federalism, organizational theory and behavior, public budgeting and finance, public human resources management and the role of women in public administration.

POLS 321 PUBLIC BUDGETING (3)
Three hours lecture per week
Examines the major concepts of public budgeting and finance in the United States. Key topics of study include: expenditure estimation, revenue forecasting, capital budgeting, budget reform and financial management. The politics that characterizes the budgetary process will be emphasized throughout.
Same as FIN 321

POLS 325 AMERICAN PUBLIC POLICY (3)
Three hours lecture per week
A study of how public policy is formulated and implemented, using several policy areas such as health, transportation, housing, energy, and welfare policy as areas for specific examination. The course will review several contemporary perspectives on policy making.

POLS 326 GOVERNMENT AND POLITICS OF SELECTED NATIONS (3)
Three hours lecture per week
An intensive study of the politics and government of a nation or group of nations. Topics will include study of the government structure, political processes, political behavior and public policies. Areas of focus vary by semester. Repeatable based on topic.

POLS 327 INTERNATIONAL RELATIONS OF SELECTED AREAS (3)
Three hours lecture per week
Examination of the international political and economic relations among nations of a particular area of the world. Area of focus varies by semester. Repeatable by topic.

POLS 328 UNITED STATES FOREIGN POLICY (3)
Three hours lecture per week
Examines the process of foreign policy making by the United States from several theoretical perspectives.
GenEd: B4,D,Interdisciplinary

POLS 330 POLITICAL SOCIOLOGY (3)
Three hours lecture per week
Examines power and power structures at all levels of society. The roles of social classes, movements, and institutions in shaping the political process and social influences on political behavior are explored.
Same as SOC 330
GenEd: C3B,D,Interdisciplinary

POLS 331 NARRATIVES OF THE WORKING CLASS (3)
Three hours lecture per week
Examines the lives of working people using various thematic approaches and disciplinary methodologies. Materials included literature, film, and case studies.
Same as ECON 331, ENGL 331, SOC 331, HIST 331
GenEd: C2,D,Interdisciplinary

POLS 335 POLITICS AND FILM (3)
Four hours lecture/activity per week
Explores the themes, issues and processes of politics through an in depth study of selected films. Area of focus varies by semester.
GenEd: Interdisciplinary
Same as COMM 335
GenEd: Interdisciplinary

POLS 340 POLITICS AND THE ENVIRONMENT (3)
Three hours lecture per week
Exploration of environmental politics in both the international and domestic contexts.
GenEd: Interdisciplinary
Same as ESRM 340
GenEd: Interdisciplinary

POLS 345 SCIENCE AND PUBLIC POLICY (3)
Three hours lecture per week
Examines the relationship between science, politics, and public policy and prepares students to make informed decisions concerning the societal implications of many rapidly advancing avenues of scientific research.
Same as BIOL 345
GenEd: D,Interdisciplinary
POLS 430 POLITICAL COMMUNICATION (3)
Three hours lecture per week
An analysis of the relationship between mass media and political decision-making. Topics covered include: political communication theories and trends, the relationship between political institutions and the press in the US and in other countries, elections, debates, political campaigning and advertising, new media and politics, political socialization, education, politics and popular culture.
GenEd: Interdisciplinary
Same as COMM 430

POLS 490 SPECIAL TOPICS IN POLITICAL SCIENCE (3)
Three hours lecture per week
In depth analysis of current topics in Political Science. Topics vary each semester. Repeatable by topic

POLS 493 INTERNSHIP IN POLITICAL SCIENCE (3)
Three hours lecture per week
Prerequisites: Consent of instructor
Community based internship in political science.

POLS 494 INDEPENDENT RESEARCH (1-3)
Prerequisite: Senior standing or consent of the instructor
Independent research in Political Science conducted under the supervision of a faculty member.

POLS 499 CAPSTONE (3)
Three hours lecture per week
Integrating and culminating experience in which students work in teams to analyze political or policy issues in a community-based setting.

PSYCHOLOGY

PSY 100 INTRODUCTION TO PSYCHOLOGY (3)
Three hours lecture per week
An introduction to the theories, research and applications that constitute the field of psychology. Emerging issues in the field of psychology, what different types of psychologists do, and how to critically evaluate psychological literature will be covered.
GenEd: D,E

PSY 202 BIOSTATISTICS (3)
Three hours lecture/laboratory per week
Prerequisite: A passing score on the Entry Level Mathematics Exam (ELM) or MATH 105 or equivalent
Critical reasoning using a quantitative and statistical problem-solving approach to solve real-world problems. Uses probability and statistics to describe and analyze biological data collected from laboratory or field experiments. Course will cover descriptions of sample data, probability and empirical data distributions, sampling techniques, estimation and hypothesis testing, ANOVA, and correlation and regression analysis.
Students will use standard statistical software to analyze real world and simulated data.
Same as BIOL 202, MATH 202
GenEd: B3

PSY 210 LEARNING, COGNITION AND DEVELOPMENT (3)
Three hours lecture per week
This course presents an overview of the theories of learning, cognition, and human development. Major theories of learning and of psychological, emotional, ethical and physical development will be covered with emphasis on the application of these theories in real life settings such as schools and other organizations.
GenEd: E

PSY 211 COGNITION AND LEARNING (3)
Three hours lecture per week
Examines psychological theories of cognition as they apply to learning. Theories introduced in this course will seek to explain learning phenomenon and provide a conceptual framework for understanding and discussing behavior and cognition. Practical applications and current research in the cognitive sciences will also be discussed.

PSY 212 NEUROBIOLOGY & COGNITIVE SCIENCE (3)
Three hours lecture per week
Prerequisite: BIOL 100 or BIOL 200 or BIOL 201
Principles of brain organization and function underlying behavior. Topics include neuroanatomy and physiology of language, vision, sexual behavior, memory and abnormal behavior.
Same as BIOL 212
GenEd: B2,E
PSY 213 DEVELOPMENTAL PSYCHOLOGY (3)
Three hours lecture per week
Prerequisite: PSY 100
This course represents an in-depth survey of theory and research in developmental psychology throughout the life span. The course introduces students to the biological, cognitive, emotional, social, and linguistic development from the prenatal period to adulthood.
GenEd: D,E

PSY 217 THEORIES OF PERSONALITY (3)
Three hours lecture per week
This course considers the major theoretical, application, research, and assessment issues in the study of personality. Emphasis will be placed on the theoretical aspects of personality and the different ways in which these theories are validated. The course will also explore some of the more commonly used personality assessment measures, cultural influences on personality theory, as well as at least one non-Western theory of personality.

PSY 220 HUMAN SEXUAL BEHAVIOR (3)
Three hours lecture per week
This course covers knowledge about the processes and variations in: sexual functions and reproduction; intimate relationships; sexual and gender role development and behavior; and the social, cultural, historical and moral contexts of sex and love.
GenEd: E

PSY 300 PSYCHOLOGICAL RESEARCH AND STATISTICAL METHODS I (3)
Two hours lecture and two hours laboratory per week
Prerequisite: PSY 202, PSY 212, PSY 213, PSY 217 and Upper Division standing, or consent of the instructor
Introduction to research methodology and a basic framework to evaluate social and behavioral science research. Topics include how to apply the scientific method within the field of psychology and the social sciences, ethical guidelines and issues related to the research in, and practice of, psychology, how to evaluate research and popular claims in psychology with a critical eye, and computer applications related to statistics and research. Coursework on inferential and descriptive statistical methods will build on material from PSY 202.

PSY 301 PSYCHOLOGICAL RESEARCH AND STATISTICAL METHODS II (3)
Two hours lecture and two hours laboratory per week
Prerequisite: PSY 300 with grade C or better
A continuation of PSY 300. Advanced research methodology within the empirical framework in the behavioral sciences. Topics include how to apply the scientific method within the field of psychology and the social sciences, ethical guidelines and issues related to the research in, and practice of, psychology, how to evaluate research and popular claims in psychology with a critical eye, and computer applications related to statistics and research. Coursework on inferential and descriptive statistical methods will build on material from PSY 300.

PSY 303 STATISTICAL APPLICATIONS IN THE SOCIAL SCIENCES (3)
Four hours lecture/laboratory per week
Prerequisites: MATH 105 or equivalent
This course introduces students to quantitative methods as used in social science research and prepares them for statistical literacy. Students will learn to use descriptive and inferential statistics to test hypotheses. Basic topics covered in the class include graphical representations, central tendency and variability, chi-squared and other nonparametric techniques, correlation and regression, and mean difference tests as applied to research methods and data commonly used in the social sciences. Measurement and psychometric issues unique to social science data will be covered. Students will use SPSS to analyze data.
Same as SOC 303, POLS 303

PSY 310 HISTORY & SYSTEMS OF PSYCHOLOGY (3)
Three hours lecture per week
Prerequisite: Upper Division standing or consent of the instructor
This course examines the historical development of psychological thought and methodology, from its origins in philosophy, its attempts to emulate the natural sciences, through the Diaspora of contemporary psychological thought. The major schools of psychology will be explored in context of their philosophical, cultural and ethical influences.

PSY 312 SOCIAL PSYCHOLOGY (3)
Three hours lecture per week
Prerequisite: Upper Division standing or consent of the instructor
This course is an in-depth survey of the major areas of social psychology. Emphasizes an understanding of the important methods, terms, theories, and findings in the field of social psychology.

PSY 313 CLINICAL & ABNORMAL PSYCHOLOGY (3)
Three hours lecture per week
Examines the major diagnostic, etiologic, and treatment options for a variety of psychopathologies and psychological disorders. Areas to be covered include how psychologists diagnose, assess, understand the etiology, and treat psychological illness and problems. Topics include: disorders related to anxiety, stress & trauma, mood, schizophrenia and psychosis, eating and substance abuse, memory & organic dysfunctions, personality; social, cultural, and legal issues related to psychopathology.

PSY 314 BEHAVIORAL NEUROSCIENCE (4)
Three hours lecture and two hours laboratory per week
Neuroanatomy, physiology, pharmacology and their application to cognition, emotion, language, learning, motivation, perception and memory.
PSY 316 SENSATION AND PERCEPTION (3)
Three hours lecture per week
Prerequisite: Upper division standing
This course will examine the psychological and physiological mechanisms underlying sensation and perception. Topics include the measurement of sensation and the physiological basis of sensation and perception.

PSY 333 MEASUREMENT AND TESTING OF GROUPS AND INDIVIDUALS (3)
Three hours lecture per week
Prerequisite: Upper Division standing
Covers the principles of measurement as applied to group standardized measures of achievement, special aptitude, intelligence, personality, and interest for use in educational settings. Survey the administering, scoring, and interpreting of these measures. Language and culture issues related to testing will be explored.
GenEd: D, Interdisciplinary

PSY 337 PSYCHOLOGICAL ETHICS AND MORAL PHILOSOPHY (3)
Three hours lecture per week
Prerequisite: Upper Division standing
Provides students with a broad overview of some of the main philosophical and moral ideas that are used as a basis for resolving debates in psychology, the mental health fields and public health.
GenEd: D, Interdisciplinary

PSY 338 PSYCHOLOGY OF ART AND ARTISTS (3)
Three hours lecture per week
An inquiry into the mind of the artist and the psychological dynamics that underlie the creative process. Emphasis is placed on deciphering personal allegory and universal symbolism hidden within a wide range of visual and conceptual genre in painting, sculpture, film and music. The self-image of the artist will be examined from private and public point of view.
Same as ART 338
GenEd: C1, E, Interdisciplinary

PSY 339 PSYCHOLOGY AND LITERATURE (3)
Three hours lecture per week
This course looks at the ways in which human psychology manifests in literature and the ways literature instructs us about human psychology. Through reading, writing about, and discussing texts with particularly rich psychological content, issues related to mental health and the human condition will be explored. The course will also cover some theoretical and technical aspects of psychology relevant to the readings.
Same as ENGL 339
GenEd: C2, D, Interdisciplinary

PSY 340 HISTORY AND PSYCHOLOGY OF NAZI GERMANY (3)
Three hours lecture per week
Prerequisite: Upper Division standing
Examines the historical and psychological roots of the Nazi movement in Germany. Areas covered will include the mass psychology of fascism, the psychopathology of Nazi leaders, and the psychological impact of the holocaust.
Same as HIST 340
GenEd: D, E, Interdisciplinary

PSY 344 PSYCHOLOGY AND TRADITIONAL ASIAN THOUGHT (3)
Three hours lecture per week
Prerequisite: Upper Division standing or consent of instructor
This course examines the differences and similarities between the Western practice of psychology and traditional Asian systems of philosophy and religion. Topics include: health, well-being and enlightenment, pathology, Buddhism, Daoism, and depth psychologies.
GenEd: C3B, E, Interdisciplinary

PSY 345 INDIVIDUALS WITH DISABILITIES IN SOCIETY (3)
Three hours lecture per week
Major types of disabilities and giftedness, including definitions, causes, characteristics, and educational implications. Topics include: disability perspectives and social, legal, and educational considerations of disability issues.
Same as SPED 345
GenEd: D, E, Interdisciplinary

PSY 346 HUMAN MOTIVATION (3)
Three hours lecture per week
Examines different biological, social, learning and cognitive approaches to the topic of motivation. The key theories of motivation will be reviewed and applied. Topics include: contemporary, psychological, biological and sociocultural principles, issues including drug addiction and gang affiliation.
GenEd: E, Interdisciplinary

PSY 400 CASE STUDIES IN PSYCHOPATHOLOGY AND CLINICAL PSYCHOLOGY (3)
Three hours lecture per week
Prerequisites: PSY 313 or consent of the instructor
An advanced undergraduate course on the etiology, classification, and treatment of human psychopathology.

PSY 410 PSYCHOLOGICAL TESTING (3)
Three hours lecture per week
Prerequisite: PSY/MATH/Biol 202 or consent of the instructor
Surveys the administration and interpretation of objective and projective personality and educational assessment instruments. Basic assessment issues will be discussed as well as ethical and cultural issues related to testing.
PSY 415 ASSESSMENT OF CHILDREN (3)
Three hours lecture per week
Prerequisite: PSY 333 or PSY 410
An intensive study in the cognitive-intellectual, emotional, and developmental assessment of children. Topics include: testing instruments, concepts of intelligence, cognition, emotional development, and specific developmental disorders in children, issues of language and culture related to the assessment of children.

PSY 432 SEMINAR IN LEADERSHIP (3)
Three hours seminar per week
Prerequisite: Consent of the instructor
This course gives students an opportunity to both study and experience communicative, managerial, psychological, and sociological perspectives related to leadership. This includes in-depth study of aggression and dominance, group structure and behavior, decision-making, and the role of personality in leadership. GenEd: D,E,Interdisciplinary

PSY 436 PSYCHOLOGY AND HISTORY OF EAST ASIAN WARRIOR CULTURES (3)
Three hours lecture per week
Prerequisite: Upper division standing or consent of the instructor
Examines the psychological and historical roots of warrior cultures in East Asia. Characteristics such as duty, enlightenment, honor, loyalty, and discipline will be examined in the context of the individual and group psychology of warrior cultures throughout history. Psychological and historical conceptions of violence, aggression, and strategy will also be explored. Students will be encouraged to relate values derived from Asian warrior cultures to their own lives, while reflecting on the applicability of these ideas to modern life. Same as HIST 436 GenEd: D,E,Interdisciplinary

PSY 441 THE PSYCHOLOGY OF SPACE (3)
Three hours lecture per week
Prerequisite: Upper division standing
Examines different psychological views of space and time, including how we define, and organize space and place. The course will examine the idea of psycho-geography as represented in the works of Yi Fu Tuan, Gaston Bachelard’s The Poetics of Space, and Mircea Eliade’s concept of sacred space, and James Hillman’s concept of the anima mundi. The course will also look at how different cultures understand space through an examination of traditional philosophies, religions, myths and rituals. GenEd: D,E,Interdisciplinary

PSY 445 ADOLESCENT DEVELOPMENT (3)
Three hours lecture per week
Prerequisite: Upper Division Standing, PSY 213 or Consent of the Instructor
Psychosocial dynamics of adolescents and young adults. Topics include physical and maturational development, theories of adolescence, family and peer group influences, sexuality, cognitive and vocational development, schooling and youth culture. GenEd: D,E,Interdisciplinary

PSY 449 HUMAN-COMPUTER INTERACTION (3)
Three hours lecture in the lab per week
Prerequisite: Programming experience or consent of the instructor
The information exchange between humans and computer systems will be examined. Aspects of input/output devices, software engineering, and human factors will be discussed with respect to human-computer interactions. Topics include: text and graphic display; user modeling; program design, debugging, complexity and comprehension; and current research studies and methodologies. Same as COMP 449 GenEd: B4,E,Interdisciplinary

PSY 450 ADVANCES IN NEURAL SCIENCE (3)
Three hours lecture per week
Prerequisite: PSY 212 and PSY 314
Surveys current research on the nervous system, its development, and its control of behavior. The course also describes some neurological and behavioral disorders that are both instructive scientifically and important clinically. Includes inferences that can be made about human brain functions from the effects of neurological trauma and clinical tests.

PSY 457 CRIMINAL BEHAVIOR (3)
Three hours lecture per week
Prerequisite: PSY 313 or consent of the instructor
An introduction to the fundamentals of criminal psychology through the study of the psychological factors which relate to or cause criminal behavior in individuals. The practice of forensic psychology, the legal system, law enforcement psychology, prison psychology, and the criminal behavior of groups will also be discussed.

PSY 461 ADVANCED TOPICS IN CHILD AND ADOLESCENT DEVELOPMENT (3)
Three hours lecture per week
Prerequisite: PSY 210 or PSY 313 or consent of instructor
 Represents an in-depth study of aspects of growth and development which influence behavior of school-age children and adolescents. Topics include: research methods in child development, practice of child psychology and cross-cultural perspectives in child development.
PSY 470 SEMINAR IN FREUD AND OBJECT RELATIONS THEORY (3)
Three hours lecture per week
Prerequisite: PSY 313 or consent of the instructor
An overview of the works of Freud and neo-Freudian schools of thought. Emphasis on both structural and developmental models in psychoanalytic thought as applied to the individual and to society at large. Feminist and non-Western cultural interpretations of these theories will also be discussed.

PSY 471 SEMINAR IN JUNGIAN AND ARCHETYPAL PSYCHOLOGY (3)
Three hours lecture per week
Prerequisite: PSY 313 or consent of the instructor
An overview of the works of Jung and neo-Jungian schools of thought. Emphasis on both structural and phenomenological views of Jung’s work as applied to the individual and to society at large. Structural theories of mythology both Eastern and Western will be discussed in context of Jung’s work.

PSY 473 BIZARRE BEHAVIOR AND CULTURE BOUND SYNDROMES (3)
Three hours lecture per week
Prerequisite: PSY 313 or consent of the instructor
This course examines behaviors which seem to be at the extreme edge of the human repertoire. Nevertheless, such behaviors have at different times and cultures been considered normal. Students in this course will examine such behaviors with an open mind, while attempting to understand that so-called normal behaviors in our own culture could be construed as bizarre.”

PSY 483 APPLIED MULTIVARIATE ANALYSIS (4)
Three hours lecture and two hours laboratory per week
Prerequisite: PSY 202 and PSY 301 or consent of the instructor
An applied overview of multivariate data analysis. Topics include multiple regression, discriminant analysis, canonical correlation analysis, factor analysis, cluster analysis, conjoint analysis, multivariate analysis of variance and an introduction to structural equation modeling.

PSY 490 TOPICS IN PSYCHOLOGY (1-3)
Up to Three hours lecture per week
Prerequisite: PSY 301 or consent of the instructor
Provides an in-depth study of some aspect of psychology. Repeatable by topic.

PSY 492 INTERNSHIP OR SERVICE LEARNING (1-3)
Prerequisite: Upper Division standing and consent of the instructor
Supervised work/volunteer experience in an appropriate setting with supervision in the field from an appropriate person with credentials and/or experience in a specialty related to psychology. Students are required to write a report of their experience. Supervised work/volunteer experience in an appropriate setting. Includes supervision in the field from an appropriate person with credentials and/or experience in a specialty related to psychology. Students are required to write a report of their experience.

PSY 494 INDEPENDENT RESEARCH IN PSYCHOLOGY (1-3)
Prerequisite: Upper Division standing and consent of the instructor
An independent research project for undergraduate students supervised by a faculty member. A written report of the research is required.

PSY 497 DIRECTED STUDY IN PSYCHOLOGY (1-3)
Prerequisite: Upper Division standing in Psychology and consent of the instructor
An intensive study of some aspect of psychology, usually via an in-depth review of the literature. Intended for undergraduate students supervised by members of the psychology faculty. A written report summarizing the study is required.

PSY 499 SENIOR CAPSTONE COURSE (1-3)
Prerequisite: Upper Division standing in Psychology and consent of the instructor
This course is an interdisciplinary experience in which students work in teams, contributing their expertise to a community-based project group.
SOCIOLOGY

**SOC 100 INTRODUCTION TO SOCIOLOGY (3)**
Three hours lecture per week
An introductory study of the basic concepts, theoretical approaches, and methods of sociology. Topics include: the analysis and explanation of social structure, social change, group dynamics, socialization and self, social stratification, and cultural diversity.
GenEd: D

**SOC 201 SOCIAL PROBLEMS IN A SERVICE LEARNING CONTEXT (3)**
Three hours lecture per week
Examines social problems in the United States from a sociological perspective. Social problems in the community such as homelessness, poverty, and racism will be explored through integrating classroom discussion, lecture, reading and required community service.
GenEd: D

**SOC 303 STATISTICAL APPLICATIONS IN THE SOCIAL SCIENCES (3)**
Four hours lecture/laboratory per week
Prerequisites: MATH 105 or equivalent
This course introduces students to quantitative methods as used in social science research and prepares them for statistical literacy. Students will learn to use descriptive and inferential statistics to test hypotheses. Basic topics covered in the class include graphical representations, central tendency and variability, chi-squared and other nonparametric techniques, correlation and regression, and mean difference tests as applied to research methods and data commonly used in the social sciences. Measurement and psychometric issues unique to social science data will be covered. Students will use SPSS to analyze data.
Same as PSY 303, POLS 303

**SOC 310 RESEARCH METHODS IN SOCIOLOGY (3)**
Two hours lecture and two hours laboratory per week
Prerequisite: SOC 100; SOC 203 or equivalent; and, upper division standing
An introduction to the quantitative methods sociologists use to study human societies and their members. Topics include: survey research design, hypothesis formulation, questionnaire and interview design, scaling, sampling, data preparation and statistical analysis of quantitative data through SPSS. The political and ethical issues surrounding social research also will be explored.

**SOC 330 POLITICAL SOCIOLOGY (3)**
Three hours lecture per week
Examines power and power structures at all levels of society. The roles of social classes, movements, and institutions in shaping the political process and social influences on political behavior are explored.
Same as POLS 330
GenEd: C3B,D,Interdisciplinary

**SOC 331 NARRATIVES OF THE WORKING CLASS (3)**
Three hours lecture per week
Examines the lives of working people using various thematic approaches and disciplinary methodologies. Materials included literature, film, and case studies.
Same as ECON 331, ENGL 331, HIST 331, POLS 331
GenEd: C2,D,Interdisciplinary

**SOC 350 SOCIAL STRATIFICATION: THEORIES OF SOCIAL CLASS (3)**
Three hours lecture per week
Prerequisite: SOC 100 and SOC 300 or equivalent
Analysis of the distribution of wealth, prestige, and power. Examines various approaches to the study of the causes of poverty, life chances of the poor, lifestyles of the wealthy, upward and downward mobility, and class and group conflict in society.

**SOC 360 RACE & ETHNICITY (3)**
Three hours lecture per week
Prerequisite: SOC 100
This course examines issues of race, religion, ethnic relations and power in the U.S. and elsewhere. Power, prejudice, and discrimination relating to minority status are emphasized.

**SOC 410 SOCIOLOGY OF GENDER & SEXUALITY (3)**
Three hours of lecture per week
Prerequisite: SOC 100 and SOC 203
Analysis of gender and sexuality in human society with special attention to gendered socialization practices, issues in equality from historic as well as contemporary and cross-cultural perspectives, and sexual identities and behaviors.

**SOC 420 INTRODUCTION TO SOCIOLOGICAL THEORY (3)**
Prerequisite: SOC100 and upper division standing
Three hours lecture per week
This course explores the origin and development of classical and contemporary sociological theory from the 19th century to the present. Sociological theory is portrayed as an organized system of accepted knowledge that applies in a variety of circumstances to explain a specific set of phenomena.

**SOC 440 POPULATION STUDIES (3)**
Three hours lecture per week
Prerequisites: SOC 100 and MATH 202
This course focuses on the basic concepts, skills and issues in demography and population studies. It will apply concepts to contemporary population issues such as family demography, urban transition, environmental degradation, and economic development.
Same as ESRM 440
GenEd: D,Interdisciplinary
SOC 490 TOPICS IN SOCIOLOGY (3)
Three hours per week
Prerequisite: Consent of instructor
In-depth analysis of current topics in sociology. Topics vary. Repeatable by topic.

SOC 492 FIELD EXPERIENCE IN SOCIOLOGY (2-3)
Prerequisite: SOC 203, SOC 310, Junior-level standing, GPA 3.0 and above and consent of instructor
Field experience in Sociology offers an internship placement and/or applied research opportunity for advanced students of Sociology.

SOC 494 INDEPENDENT STUDY (1-3)
Prerequisite: Consent of instructor
Independent Study in Sociology. Up to 3 units may be applied to the major. Independent study is for advanced students who wish to propose a course of study not currently offered in the curriculum.

SOC 499 CAPSTONE (3)
Three hours lecture per week
Prerequisite: 15 units of upper-division work in Sociology
Involves review of the discipline of sociology and focuses on key issues, including review of the tools of the discipline and the role of sociology in the student's future roles as individual, employee, and citizen. Incorporates a service learning component.

SPANISH

SPAN 101 ELEMENTARY SPANISH I (4)
Four hours lecture per week
This course addresses the development of basic functional proficiency in the Spanish language. As students develop their listening, speaking, reading and writing skills, they acquire knowledge about cultural similarities and differences between the U.S. and the Spanish-speaking world. Not intended for students with two or more years of high school Spanish taken within the last three years or with credit in college level Spanish.
GenEd: C3A

SPAN 102 ELEMENTARY SPANISH II (4)
Four hours lecture per week
Prerequisite: SPAN 101 or equivalent
Continued development of basic functional proficiency in Spanish. As students continue to develop their listening, speaking, reading and writing skills, they will acquire more basic knowledge about the culture and civilization of the Spanish-speaking world.
GenEd: C3A

SPAN 105 ELEMENTARY SPANISH FOR K-12 TEACHERS (3)
Three hours of lecture per week
Prerequisite: SPAN 101 or equivalent
Fosters the development of basic functional proficiency in the Spanish language, with emphasis on terminology and interactions related to school settings. The course is designed for those interested in learning to better communicate with Spanish-speaking members of the school population. Topics will include: Spanish alphabet, classroom vocabulary, and communication with parents.

SPAN 201 INTERMEDIATE SPANISH I (4)
Four hours lecture per week
Prerequisite: SPAN 102 or equivalent
Through the study of the culture and civilization of the Hispanic world, students continue to develop their listening, speaking, reading and writing skills in Spanish.
GenEd: C3A,C3B

SPAN 202 INTERMEDIATE SPANISH II (4)
Four hours lecture per week
Prerequisite: SPAN 201 or equivalent
Through the study of the culture and civilization of the Hispanic world, students further develop their listening, speaking, reading and writing skills in Spanish.
GenEd: C3A,C3B

SPAN 211 SPANISH FOR HERITAGE SPEAKERS I (4)
Four hours lecture per week
Prerequisite: Consent of the instructor
This course is designed for students accustomed to hearing Spanish and English at home who are able to understand much of what they hear as well as speak some Spanish, and who are interested in further developing their language skills, particularly in speaking, reading and writing. Course content will include the culture and civilization of the Hispanic world, with emphasis on the U.S.
GenEd: C3A,C3B
SPAN 212 SPANISH FOR HERITAGE SPEAKERS II (4)
Four hours lecture per week
Prerequisite: SPAN 211 or equivalent or consent of the instructor
This course is designed for students accustomed to hearing Spanish and English at home who are able to understand much of what they hear as well as speak some Spanish, and who are interested in further developing their language skills, particularly in speaking, reading and writing. Course content will include the culture and civilization of the Hispanic world, with emphasis on the U.S.
GenEd: C3A,C3B

SPAN 301 ADVANCED SPANISH: PART ONE (3)
Three hours lecture per week
Prerequisite: SPAN 202 or SPAN 212 or consent of the instructor
Enhancement of communicative abilities in listening, speaking, reading and writing through the examination of topics of interest in the Hispanic world. Several of the topics include: cultural perspectives, ancestry and roots, and work and leisure. Student projects to include presentations, service activities and cultural portfolio.

SPAN 302 ADVANCED SPANISH: PART TWO (3)
Three hours lecture per week
Prerequisite: SPAN 202 OR SPAN 212 or consent of the instructor
Further enhancement of communicative abilities in listening, speaking, reading and writing through the examination of topics of interest in the Hispanic world. Several of the topics include: tradition and change, cultural and linguistic contrasts, and human rights and equality. Student projects to include presentations, service activities and cultural portfolio.

SPAN 304 SPANISH FOR CAREERS AND PROFESSIONS (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 (may be taken concurrently) or consent of the instructor
Interactive study of Spanish as applied to the fields of business, education, health professions and social services. Students will learn the basic vocabulary and expressions pertaining to these fields.

SPAN 310 INTRODUCTION TO PROSE, POETRY AND DRAMA (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
This is an introductory literature course designed to develop students’ ability to read, discuss and write about literary texts. Selections of poetry, prose, and dramatic works from among Spanish, Latin American and U.S. Latino authors will be explored.

SPAN 311 BILINGUAL LITERARY STUDIES/ESTUDIOS LITERARIOS BILINGUES (3)
Three hours lecture per week
Prerequisite: ENGL 103 or 105 and SPAN 202 or 212 or consent of the instructor
This course explores the literatures of the Americas written in two languages: English and Spanish. Course texts will include works written by bilingual U.S. authors and Latin American authors writing primarily in Spanish; genres may include novels, with a special focus on Magical Realism/el realismo magico, short stories/ cuentas, and poetry. Readings will be in the original language; class discussions will be bilingual.
Same as ENGL 311

SPAN 315 CONTRASTIVE FEATURES OF SPANISH AND ENGLISH (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
Exploration of the linguistic similarities and differences of Spanish and English regarding their sound systems as well as their grammatical systems. Through this exploration of phonology, morphology and syntax, students will gain an understanding of the features of each language implicated in Second Language Acquisition.

SPAN 320 INTRODUCTION TO SPANISH TRANSLATION (3)
Three hours lecture per week
Prerequisite: SPAN 202 or SPAN 212 or consent of the instructor
This course is an introduction to the history, theory, and practice of translation from Spanish to English and from English to Spanish. In the process of translating texts, students will learn strategies, techniques and principles of translation and, at the same time, increase their proficiency in Spanish.

SPAN 410 CIVILIZATIONS & CULTURES OF SPAIN (3)
Three hours lecture per week
Prerequisite: SPAN 301 or 302 or consent of the instructor
Explores the history of Spain, from the formation of Hispania to the present. Major geographical, political, religious and literary aspects of Spain will be discussed. Oral presentations will be required.

SPAN 411 CIVILIZATIONS AND CULTURES OF LATIN AMERICA (3)
Three hours lecture per week
Prerequisite: SPAN 301 or 302 or consent of the instructor
Explores the history of the Spanish-speaking regions of Latin America, from pre-Columbian civilizations to the Spanish conquest to the present. Major geographical, political, religious and literary aspects of Latin American culture will be discussed. Oral presentations will be required.
SPAN 415 SPANISH LANGUAGE VARIATION & DIVERSITY (3)
Three hours lecture per week
Prerequisite: SPAN 315 or consent of the instructor
This course provides a linguistic exploration of Spanish language variation. It explores different types of language variations, including historical change (language evolution from Latin to Spanish), geographical variation (different dialects in the Spanish-speaking world), and sociolinguistic variation (based on economic class, age, gender, etc.). It also analyzes fundamental issues in bilingualism (such as Spanish-English codeswitching) and other sociopolitical topics relating to the use of Spanish in the United States.

SPAN 420 SPECIALIZED SPANISH TRANSLATION (3)
Three hours lecture per week
Prerequisite: SPAN 320 or consent of instructor
Practice and critique of translations of a range of specialized material (legal, literary, business, social science, technical, and audiovisual) both from Spanish to English and from English to Spanish. Review of translation theory, methods, techniques, and problems.

SPAN 421 SPANISH FOR EDUCATORS I (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
Prepares students to function effectively in Spanish within a school setting. Emphasis is placed on developing the Spanish fluency and vocabulary necessary for classroom and school-related community situations. Course content emphasizes the K-6 school setting. The topics include: General school-related vocabulary, Parent-teacher conferences, writing letters, Language arts and reading vocabulary, Examples of Spanish-language children's literature, Social studies and Mathematics. This course does not count toward the Spanish Major.

SPAN 422 SPANISH FOR EDUCATORS II (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
Prepares students to function effectively in Spanish within a school setting. Emphasis is placed on developing the Spanish fluency and vocabulary necessary for classroom and school-related community situations. Course content emphasizes the K-6 school setting. The topics include: 1) General science vocabulary (parts of the body, illnesses, foods and nutrition, animals, plants, minerals, weather, solar system), 2) General art vocabulary and brief introduction to several Hispanic artists and their work, 3) General music vocabulary and brief introduction to several Spanish-language songs, including children's songs. This Course does not count toward the Spanish major.

SPAN 460 MASTERPIECES OF SPANISH LITERATURE (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
This is an advanced literature course designed to develop reading, writing, and literary analysis. The content of the course will focus on selections of poetry, prose, and theater from literary masterpieces of Spanish Literature. Lectures, discussions, and analysis of the texts will be the center of class activities. Student projects will include both individual as well as group oral presentations and reports.

SPAN 461 MASTERPIECES OF LATIN AMERICAN LITERATURE (3)
Three hours lecture per week
Prerequisite: SPAN 301 or SPAN 302 or consent of the instructor
This is an advanced literature course that explores major Latin American Literary works. It will enhance student's knowledge of Latin American Literature, history and culture. It will develop critical thinking and improve student's reading and writings skills while it broadens their Spanish language vocabulary. Class will include lectures, discussions and both oral and written reports.

SPAN 490 SPECIAL TOPICS IN SPANISH (3)
Three hours lecture per week
Prerequisite: Consent of the instructor
Selected topics on Spanish language, linguistics, Hispanic cultures, and literatures. Repeatable for up to 9 units.

SPAN 499 CAPSTONE IN SPANISH (2)
Two hours seminar per week
Prerequisite: Senior standing as a Spanish major or consent of the instructor
In this course, students design and complete a project that integrates prior course work with one or more of the objectives of the University’s mission statement. The project may involve an interdisciplinary activity, a service learning experience, and reflect a multicultural or international perspective.
SPECIAL EDUCATION

SPED 345 INDIVIDUALS WITH DISABILITIES IN SOCIETY (3)
Three hours lecture per week
Major types of disabilities and giftedness, including definitions, causes, characteristics, and educational implications. Topics include: disability perspectives and social, legal, and educational considerations of disability issues.
Same as PSY 345
GenEd: D,E,Interdisciplinary

SPED 490 SPECIAL TOPICS IN SPECIAL EDUCATION (1-3)
Prerequisite: Upper division standing and consent of the instructor
In-depth analysis of current topics in special education.
Topics vary each semester. Repeatable by topic.
Student Option: Graded or CR/NC

SPED 494 INDEPENDENT RESEARCH IN SPECIAL EDUCATION (1-3)
Prerequisite: Upper division standing and consent of the instructor
Students design and implement an independent research project in special education in conjunction with a faculty member. Repeatable.
Student Option: Graded or CR/NC

SPED 497 DIRECTED STUDIES IN SPECIAL EDUCATION (1-3)
Prerequisite: Upper Division standing and consent of the instructor
An intensive directed study of some aspect of field of special education under the direction of a faculty member. Repeatable.
Student Option: Graded or CR/NC

SPED 499 SENIOR CAPSTONE PROJECT/SEMINAR IN SPECIAL EDUCATION (1-3)
Prerequisite: Upper division standing and consent of the instructor
Students work on research or community-based projects in the field of special education. A written report of the project is required.
Student Option: Graded or CR/NC

SPED 541 FOUNDATIONS OF SPECIAL EDUCATION (2)
Two hours lecture/discussion per week
Prerequisite: Admission to Education Specialist Credential Program and SPED 345, ENGL 475, EDUC 510, EDUC 512
Ethical standards, professional practices, laws, regulations and policies related to the provision of services to individuals with disabilities and their families. Models, theories and practices that form the basis for special education practice. History of special education and contributions of culturally diverse groups. Development of professional perspective that reflects status of special education services in society.

SPED 542 MANAGING LEARNING ENVIRONMENTS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to Education Specialist: Mild/Moderate Disabilities Credential Program
Co-requisites: SPED 562 or SPED 570 or SPED 580
Functional assessment of behavior, behavior management strategies, communication styles and their impact on learning; laws, regulations, and strategies for promoting positive and self-regulatory behavior in students. Designing and implementing positive behavioral support plans.

SPED 543 EDUCATING DIVERSE LEARNERS WITH MILD TO MODERATE DISABILITIES (3)
Three hours lecture/discussion per week
Prerequisite: Admission to Education Specialist: Mild/Moderate Disabilities Credential Program
Co-requisites: SPED 580
Characteristics and needs of individuals with mild to moderate disabilities. Use of environmental, curricula and instructional strategies to meet the needs of students with mild to moderate disabilities across a variety of environments. Designing and implementing individual instructional plans that reflect appropriate cultural and linguistic sensitivity.

SPED 544 INCLUSIONARY TEACHING METHODS (2)
Two hours lecture per week
Prerequisite: Admission to Education Specialist: Mild/Moderate Disabilities Credential Program
Co-requisites: SPED 570
This course prepares students to teach collaboratively with general education teachers. Students explore the advantages and disadvantages of inclusion service delivery models used in schools for students with disabilities. Students learn how to modify curriculum, use teaching techniques and design and implement individual instructional plans for students with disabilities in general education settings. They learn models and strategies for collaborating and consulting with general education teachers.

SPED 545 ASSESSMENT OF STUDENTS WITH DISABILITIES (3)
Three hours lecture/discussion per week
Prerequisite: Admission to Education Specialist Credential Program and SPED 541, SPED 542, SPED 543, SPED 570
Basic principles, processes and strategies for assessment. Use of effective assessment techniques, tools and approaches for individuals who are culturally, linguistically, ethnically, socio-economically and ability diverse in general education and special education settings to make educational decisions.
SPED 546 CONSULTATION AND COMMUNICATION WITH FAMILIES AND PROFESSIONALS (3)
Three hours of lecture/discussion per week
Prerequisite: Admission to Education Specialist: Mild/ Moderate Disabilities Credential Program
Co-requisites: SPED 562 or SPED 570
Strategies for effectively collaborating, communicating and working in partnership with individuals with disabilities and their families, other caregivers, school administrators, general and special education teachers, specialists and paraprofessionals and community agency and related service personnel. Planning for transition across the life span for learners with special needs.

SPED 562 FIELD EXPERIENCE (2)
A minimum of one school day in local public schools per week
Prerequisite: Admission to the Education Specialist: Mild/Moderate Disabilities Credential Program
Co-requisites: Any of the following: SPED 542, SPED 545, SPED 546
Participatory observation in school settings under the supervision of a university supervisor and/or classroom teacher for Education Specialist Candidates and Approved Interns.
Graded Credit/No Credit

SPED 570 FIELD EXPERIENCE IN GENERAL EDUCATION (3)
Prerequisite: Admission to Education Specialist Credential Program and SPED 345, ENGL 475, EDUC 510, EDUC 512
Individuals holding valid teaching credentials will complete field experience with a resource teacher in a grade level different from their current teaching credential.
The first field experience providing teaching opportunities with the broad array of age and grade placements appropriate for special education teachers. Experience teaching individuals from a variety of cultural and linguistic groups.
Graded Credit/No Credit

SPED 580 STUDENT TEACHING IN SPECIAL EDUCATION (8)
Prerequisite: Admission to Education Specialist Credential Program and SPED 541, SPED 542, SPED 543, SPED 570
Opportunity to gradually assume the responsibilities of a special education teacher in a public school including teaching, assessing students, IEP development, collaborating with parents, teachers and special services personnel.
Graded Credit/No Credit

SPED 581 STUDENT TEACHING SEMINAR (1)
Two hours seminar bi-weekly
Co-requisite: SPED 580
Guided discussion of experience during student teaching, reflective feedback on student teaching experiences, and preparation for securing a teaching position.
Graded Credit/No Credit

SPED 640 INDUCTION PLANNING & SUPPORT (1)
One hour seminar per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
Development of a Level II Professional Induction Plan in collaboration with a University Supervisor and a District Support Provider. The plan will include university and non-university components. The plan will identify the candidate's professional area of specialization and area of need. The induction plan will build upon the theoretical and practical knowledge gained in the Education Specialist Level I program and guide the candidate in developing a specific emphasis within the field of special education.
Graded Credit/No Credit

SPED 641 ADVANCED PERSPECTIVES IN SPECIAL EDUCATION (3)
3 hours lecture per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
This course prepares teachers and administrators to remain abreast of effective advanced practices in the field of special education. Students will demonstrate knowledge and abilities to interpret apply and disseminate current and emerging research, theory, legislation, policy and practice related to special education.

SPED 642 ADVANCED BEHAVIOR AND ENVIRONMENTAL SUPPORT (3)
Three hours lecture per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
Examination and analysis of theories, research, and best practices of behavior and environmental support for students with disabilities within their own school settings.

SPED 643 ADVANCED ASSESSMENT AND INSTRUCTIONAL PRACTICES FOR DIVERSE LEARNERS (3)
Three hours lecture per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
This field based seminar course builds upon students knowledge and skills of assessment and instructional methodology learned in their level I Education Specialist credential. Students have the opportunity to discuss and review current practices in special education on the local, state and national level. Students review current trends in multicultural and bilingual special education, augmentative communication, data-based decision making, early intervention, outcomes assessments, technology and other areas that effect special education practices for students with mild/moderate disabilities.
SPED 646 ADVANCED COLLABORATIVE PARTNERSHIPS AND EFFECTIVE COMMUNICATION IN SCHOOL SETTINGS (3)
Three hours lecture/discussion per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
Examination and analysis of theories, research, and best practices for collaborative partnerships and effective communication within their own school settings and, professional and family environments.

SPED 647 TRANSITION & CAREER EDUCATION (1)
One hour seminar per week
Prerequisite: Admission to Level II Education Specialist credential program
Co-requisites: Working as a special education teacher
Students in this seminar will gain an understanding of transition planning and career education for students with disabilities. Students will demonstrate the ability to write and implement successful transition plans for students transitioning out of public education. Students will learn about career services for people with disabilities available from educational and community agencies. Graded Credit/No Credit

SPED 649 INDUCTION EVALUATION (1)
One hour seminar per week
Prerequisite: SPED 640, SPED 641, SPED 642, SPED 643, SPED 646, and SPED 647
Co-requisites: Working as a special education teacher
This field based seminar course will evaluate and finalize candidates’ Professional Level II Induction Plan and Professional Development Portfolio. The candidate will work with his/her University Supervisor and District Support Provider to demonstrate and/or document proficiency in the California State Standards for Education Specialists. The candidate will provide evidence for professional development within an area of need and area of specialization as determined in SPED 641. Graded Credit/No Credit

THEATRE
See Performing Arts - Theatre

UNIVERSITY

UNIV 100 UNIVERSITY LIFE & COLLEGE SUCCESS (1)
One hour seminar per week
This course introduces first-year students to university life, the structure and policies of the University and development of strategies and skills to help insure success in college. Through self-evaluation, lecture, activities and class discussion, students will develop an individualized plan for personal, social, academic and professional success.

UNIV 110 CRITICAL THINKING IN AN INTERDISCIPLINARY CONTEXT (3)
Two hours lecture and one hour seminar per week
This course explores the language and logic of academic disciplines and teaches critical thinking skills. The workings of logic, including inductive and deductive reasoning, form a major part of the course content. Professors from each discipline will participate in lectures and discussions to provide exposure to methods and ways of knowing across the curriculum. Through lecture and class discussion, students learn to form various types of argument, apply rhetorical methodologies, and comprehend the relationship of language to logic. Through written assignments, oral presentations, and group work, students learn to express their ideas and accept constructive criticism from peers. The class exercises and lectures will also provide students with means to acquire or improve their academic and professional skills. GenEd: A3

UNIV 392 INTERNATIONAL EXPERIENCE (1-3)
Provides an opportunity for students to earn credit for travel and study in a country outside the US, where the student is immersed in a foreign culture. With faculty advisor approval, students may participate in a university-sponsored trip abroad or a personal trip abroad. Requires an approved plan of study by the faculty advisor prior to the experience. GenEd: C3B
