California State University
Channel Islands History

Located only minutes from the Pacific Ocean at the northern end of the Santa Monica Mountains, CSU Channel Islands is truly breathtaking. The entrance to the campus winds alongside lush agricultural fields, orchards, and picturesque foothills. Equally compelling is the campus architecture. Built in the early part of the twentieth century, the sprawling 1930’s Mission Revival and Spanish Colonial Revival buildings house a state-of-the-art, 21st century university.

Planning for a public, four-year university began in 1965 when State Senator Robert J. Lagomarsino co-authored Senate Bill 288 with Assemblyman Burt Hansen, calling for establishment of a four year college in Ventura County. Later that year, Governor Pat Brown signed a bill authorizing a study for a state college in Ventura County. In 1974, Dr. Joyce Kennedy established in Ventura the UC/CSU Ventura Learning Center and went on to serve as director of the CSUN Ventura Campus for more than 15 years.

In 1996, J. Handel Evans began as Planning President charged with beginning development of a public, fouryear university in the region. In September 1997, on the recommendation of the chancellor and a community task force appointed by the Governor, the CSU Board of Trustees voted unanimously to accept the former Camarillo State Hospital site for the purpose of transforming it into the CSU’s 23rd campus. In July 1996, the CSU Board of Trustees formally adopted the name Channel Islands for the new University. In September 1997, Governor Wilson signed into law S.B. 623 (O’Connell) providing for the financing and support of the transition of the site for use as a university campus. Shortly thereafter, the state legislature and the CSU Board of Trustees provided funds to begin the conversion of the facility from a state hospital into a college campus. In 1999, the Ventura Campus moved to the Channel Islands campus and began a four-year phase out of its academic programs.

The CSU Board of Trustees appointed Richard R. Rush Founding President of CSU Channel Islands and he assumed his duties in June 2001. Dr. Rush’s formal inauguration was held in April 2002. During the course of establishing the initial structures of the University, Dr. Rush has overseen and been directly involved in the hiring of faculty and the University’s senior staff. In addition, he has directed the development of the University’s strategic, academic and physical master plans, infrastructure and road improvements, the acquisition of adjacent land, as well as successfully leading the University’s efforts to achieve initial accreditation from the Western Association of Schools and Colleges (WASC).

The Student Union’s central location within the campus supports the University’s mission, which seeks to place students at the center of the educational experience. With the support of the campus, students at CI have worked to obtain, fund, create, implement and operate a new Student Union.
The formal opening of the University was held on August 16, 2002. The public ceremony included participation by Governor Gray Davis, as well as educational and community leaders from throughout the state. Classes began on August 24 with approximately 1,320 full-time transfer students enrolled for the first year. The first freshmen class arrived in fall 2003. At full capacity, the University will serve more than 15,000 full-time equivalent students.

To accommodate the rapidly growing numbers of students, in 2004 the University completed the first phase of student housing, Anacapa Village, which provides on campus housing for 350 students. Phase two housing, Santa Cruz Village, opened in August 2007 providing space for an additional 460 students.

The physical campus continues to grow at a steady pace to keep up with student and academic needs. The first major University construction project on the campus was the Science Building completed in 2003. This structure provides much needed lab and auditorium space for students. The prestigious John Spoor Broome Library designed by world-renowned architect, Foster+Partners, opened in spring 2008 and provides a state-of-the-art teaching and learning library for students, faculty, staff, and the community. The Martin V. Smith Center for Integrative Decision-Making opened in spring 2009 and includes a case-study classroom equipped with advanced audio/visual equipment to show in real-time the indices of the major world financial markets. A new Student Union was completed in spring 2010 that provides a large programmable area for student events and live entertainment; a dining center including a coffee house, pizzeria, sandwich deli and salad bar; lounges for informal gatherings; a game room with HD TVs, pool tables, and computer gaming systems; and ASI offices for Student Government, Student Programming Board, The Nautical Yearbook, and the CI View campus newspaper.

CSU Channel Islands is a student-centered University, committed to academic excellence, civic engagement, environmental responsibility, and leadership for the 21st century.
The first Chumash people were created on Santa Cruz Island. They were made from seeds of a magic plant by the Earth Goddess, whose name was Hutash. Hutash was married to the Sky Snake (the Milky Way). He could make lightning bolts with his tongue. One day, he decided to make a gift to the Chumash people. He sent down a bolt of lightning, and this started a fire. After this, people kept fires burning so that they could keep warm, and so that they could cook their food.

In those days, the condor was a white bird. But the condor was very curious about the fire he saw burning in the Chumash village. He wanted to find out what it was. So he flew very low over the fire to get a better look. But he flew too close; he got his feathers scorched and they turned black. So now the condor is a black bird, with just a little white left under the wings where they didn’t get burned.

After Sky Snake gave them fire, the Chumash people lived more comfortably. More people were born each year, and their villages got bigger and bigger. Santa Cruz Island was getting crowded. And the noise the people made was starting to annoy Hutash. It kept her awake at night. So, finally, she decided that some of the Chumash would have to move off the island. They would have to go to the mainland, which was less populated. But how were the people going to get across the water to the mainland? Finally, Hutash had the idea of making a bridge out of a rainbow. She made a very long, very high rainbow, which stretched from the tallest peak on Santa Cruz Island all the way to the tall mountains near Carpinteria.

Hutash told the people to go across the Rainbow Bridge and fill the whole world with people. So the Chumash people started to go across the bridge. Some of them got across safely, but some of them made the mistake of looking down. It was a long way down to the water, and the fog was swirling around. They got so dizzy that some of them fell off the Rainbow Bridge, down, down, through the fog, into the ocean. Hutash felt very badly about this, because she had told them to cross the bridge. She didn’t want them to drown. Instead, she turned them into dolphins. So the Chumash have always said that dolphins were their brothers and sisters.
SAFE On Campus
SAFE (Students, Administrators and Faculty for Equality) is a program sponsored by the Center for Multicultural Engagement.

Mission. The SAFE On Campus program seeks to reduce homophobia and heterosexism at CI. Through education, advocacy, and promoting awareness, the program contributes to building a campus climate that is safe and accepting of all members of the University community.

Purpose. SAFE On Campus provides an avenue through which all members of the campus community can actively show their support of lesbian, gay, bisexual and transgender people. SAFE On Campus members identify themselves by displaying the SAFE On Campus sign at their office. Members attend an orientation session, following which they receive the SAFE On Campus logo. By displaying the logo, members signal to students and employees that they can be “out” or reveal their sexual orientation or gender identity. In addition, members can serve as a valuable source to help locate resources on campus, or help report harassment or discrimination.

Definition of an Ally. Someone who, regardless of their gender identity and/or sexual orientation, is supportive of LGBT people and who wants to foster a campus climate that is safe for everyone.

For additional information regarding SAFE On Campus, please contact Renny Christopher, Associate Vice President for Faculty Affairs (805) 437-8994.
