

Major Fair Guide

Welcome to the Major Fair! Choosing a major is an exciting part of your college journey. This fair is your chance to explore different academic paths, meet faculty, and find the right fit for you.

Tips for Making the Most of the Major Fair

- ☐ Visit at least 3 tables, even ones you're not sure about.
 - ☐ Ask open-ended questions to learn about each major. See our suggested questions below.
 - ☐ Take notes to help you remember what you learn.
 - ☐ Be curious. The Major Fair is about exploring. You don't necessarily have to decide today.
-

Suggested Questions

Talking with professors in majors you're curious about is a great way to discover what each field is really like and figure out which ones match your interests, strengths, and goals.

Conversation Starters

- Introduce yourself! Share if you are currently undeclared or have a major, but are exploring other options.
- I'm exploring majors related to _____. How does this major fit?
- What do you like most about teaching this subject area?

About the Major

- What will I study and learn in this major?
- How many units are required for this major?
- What are some of the required core courses about?
- Which introductory courses would you recommend for an interested but undecided student?

Student Experience

- What types of coursework and projects can I expect?
- What clubs, internships, or research opportunities are available?
- Which courses do students find the most challenging?
- What are some of the most popular courses in this major?

Career Outlook and Next Steps

- What kinds of jobs or careers do graduates from this major pursue?
- Will I need graduate school or additional certification to find work in this field?
- What professional organizations or networks should I consider?
- What key skills do students develop through this major?
- What advice do you have for students who are new to this field?

Conversation Wrap-Ups

- I'm really interested in this major. Is there anything else you recommend that I explore next to continue to learn more?

- Can I connect with a current student in the major or sit in on a class?
 - Don't forget to thank the faculty for their time!
-

Reflection Questions for After the Major Fair

- Which majors stood out to me and why?
 - Did I learn anything surprising?
 - What majors do I want to explore further?
-

Notes:

Major	What I Learned	Interest Level (1-5)
