Accounts for Travel Costs

TRAVEL COSTS DEPEND ON WHERE YOU TRAVEL:

606001: Travel In State. Used for in-state travel expenses incurred by employees.

606002: Travel Out of State. Travel expenses incurred by employees outside of California.

Travel expense accounts should only be used for CSU employees (campus or CO) and students working for the CSU in some capacity outside of being a student. All other travel related expenses should go into the same account as the account used to pay the vendor/consultant services.

For example, if the services were charged to 613001 or 660009, then the associated travel costs would also go in those same accounts. For guest travel (**non CSU employee**) expenses where no services are being compensated, please use **660975: Office Guest Travel Reimbursement.**

MISCELLANEOUS

660915: License, Permits, Filing Fees. Used to record payments for license and registration. *Not for software or training fees*

660816: Memberships. Costs associated with memberships to outside associations.

How Chart of Accounts are Designed:

Assets: A resource from which future benefits are expected.
 Example: Cash, Accounts Receivable, Fixed Assets
Accounts beginning with a '1' (101901-Cash)

Liability: An obligation arising from past events that is owed to others.
 Example: Accounts Payable and Use Tax Payable
Accounts beginning with a '2' (201001-AP)

Equity: The residual interest in the assets after deducting all liabilities.
 Example: Fund Balance
Accounts beginning with a '3' (305022-Fund Balance Clearing)

Revenue: Increases in economic benefit during an accounting period in the form of inflows of an asset.
 Example: Student Fees, Contributions, and Investment Interest
Accounts beginning with a '5' (508001-Investment Earnings)

Expenses: Decrease in economic benefits during an accounting period in the form of outflows.
 Example: Salaries, Travel, Supplies and Services
Accounts beginning with a '6' (606001-Travel)

Debits & Credits

In PeopleSoft (CFS) and the Data Warehouse (FDW)

PeopleSoft is an accounting information system that collects and processes transaction data and then disseminates the financial information to interested parties.

Accounting is a double entry system, every transaction requires debits equal to credits.

Debits: Debits are positive amounts
Credits: Credits are negative amounts

COCSU - CSU Office of the Chancellor	2016 MDE - Manual Journal Entry	014840798PPA OCT-JUN	65,795.46	101901 - CO CASH/INVESTMENT POOL	48501 - CSU OPERATING-GENERAL SUPPORT

Assets: Normal balance is a debit (positive number)
Liabilities: Normal balance is a credit (negative number)
Expenses: Typically a debit (positive) when paying. Negative side is cash being reduced.
Revenue: Typically a credit (negative) when receiving. Positive side is cash being increased.

PeopleSoft uses a Chart of Accounts (COA)

A COA is designed to:

- Comply with external financial reporting requirements (GAAP, State, Federal Government, etc.)
- Allow for consistency and data integrity within the CO and CSU system.
- Provide information needed for analysis, benchmarking and decision making (IPEDS, budget. Surveys, etc).
- Provide a common language for classifying and grouping business transactions.
- Required for accurate data collection and reporting when defined.

The Chart of Accounts (COA) provides info regarding the nature of the transaction to help segregate and categorize financial transactions. Each information field is called a **Chartfield**. Combining a series of Chartfields makes up a **Chartfield String**. A **Chartfield String is used to define, identify, categorize, and sort transactions.**
