#### A. ADDRESS THE FOLLOWING QUESTIONS:

#### (1) PROVIDE A DESCRIPTION OF THE ACTIVITY;

This activity funded an Early Childhood Studies (ECS) Seminar for California State University Channel Islands (CI) students and early childhood educators, infant/ toddler, preschool, and kindergarten-3<sup>rd</sup>, teachers, and early childhood professionals in Ventura and Santa Barbara Counties. Attendees gained knowledge from attending a co-sponsored full day Learning Stories conference which featured lectures provided by international leading experts on Learning Stories. The New Zealand (NZ) seminar presentations topics were on Learning Stories which is NZ national early childhood assessment practice. Learning Stories are a formative assessment in which teachers document children's learning and development through written narrative observations. The seminar lectures provided information for teachers on the application of learning stories for children with disabilities and/or special needs, and infants and toddlers.

On April 28, 2018 NZ Educational Leadership Project (ELP) consultants, Tania Bullick and Lorraine Sands. provided seminar presentations at the Learning Stories Conference held at Ventura County Office of Education (VCOE). The Learning Stories conference was cohosted by CSUCI, VCOE, Child Development Resources (CDR), Resource and Referral (R & R), and Family Childcare Home Education Network (FCHEN), Continuing Development Incorporated (CDI), Ventura County First Five, UC Santa Barbara, Santa Barbara County Office of Education, Santa Barbara Foundation, Santa Barbara First Five, Easy Lift, and Childfolio.

At the Learning Stories conference, Lorraine Sands provided a seminar workshop titled, "Connection: The Beating Heart that Drives Infants' and Toddlers' Learning. Ms. Sands presented on the way children seek connection and how, when they continually find it, they thrive as learners. The seminar examined the critical role of Learning Stories in bringing valued learning to life, as teachers write about infants' and toddlers' growing identities as social learners-in-action. Also, Tania Bullick provided a seminar workshop titled, "A New Zealand Perspective on Learning Stories for Children with Special Rights (SPED) that explored the writing of Learning Stories for children with disabilities referred to as, "children with special rights". It focused on the bicultural nature of NZ early childhood education that underpins the

curriculum, Te Whāriki, and consistent with sociocultural theories of teaching and learning and a rights' based model of special education.

Due to the strong community partnerships, additional funding was obtained by a community partner to sponsor Wendy Lee, the renowned coauthor of Learning Stories and Director of NZ ELP, who provided the Learning Stories conference key note address, "Relationships are at the Heart of Learning" which addressed NZ Te Whāriki which is bicultural, bilingual national early childhood curriculum and how it drives assessment practice with practical examples of international application of the Learning Stories method. Also, additional community partnership funds from Santa Barbara were obtained to sponsor Catalina Thompson, a NZ Teacher to provide the afternoon keynote presentation titled, "Forest/Farm Adventures: A Vertical Learning Experience!"

At the Learning Stories conference, in addition to the NZ seminar and keynote speakers, local early childhood educators provided workshop presentations which were offered by family childcare providers, home visitors, consultants, managers, directors, specialist, community college professors, and CSUCI faculty and students (Please see attached Learning Stories program brochure for list of presenters and bios).

Local early education programs and CI students, faculty and staff benefited from hearing about the Learning Stories approach which has impacted local, state, national, and international children's assessment practices.

Please see attached Program and brochure.

(2) HOW DID THE ACTIVITY RELATE TO A COURSE(S) AND/OR LEARNING OBJECTIVES? The ECS Learning Stories Seminar activity supported the learning objective for the following ECS courses:

ECS 460- Infant/Toddler Educaring

ECS 461- Infant/Toddler Student Teaching

ECS 456- Family & Community Engagement

ECS 470- Teaching and Learning Preschool/Primary

ECS 471- Preschool/Primary Student Teaching

ECS 462- Supporting Dual Language Learners

ECS 463- Creating and Supporting Reciprocal Family Community Networks

The Learning Stories conference and NZ ELP workshop seminars helped increase ECS students understanding of the benefits of the Learning Stories formative child assessment approach. Attendees learned about NZ historical shift from checklist model of assessment to a formative assessment approach. In addition, attendees learned how Learning Stories assessment method includes child, parent, family, and community voices. Students gained increased awareness of diverse, cultural and linguistic representation through Learning Stories, as a way to support children who are dual language learners. The seminars presentations supported CI mission of

multicultural and international learning. The seminars supported deeper understanding and increased knowledge for ECS students who develop learning stories as part of their CI student teaching course work with infants and toddlers, preschool, and school age children.

#### **Description of Assessment Process**

#### (3) WHAT DO YOU SEE AS THE STRENGTHS OF THE ACTIVITY?

The strength of the activity was the incredible collaboration between so many partners in Ventura and Santa Barbara County. Due to the commitment and extensive amount of time partners gave to plan, organize and provide the first ever offered full day Learning Stories conference in the United States, there was incredible interest and participation by attendees. In addition, the Learning Stories was offered the following week in San Francisco at SF State in partnership with the So CA conference presenters and the SF Bay Area local community partners. At the southern CA conference at VCOE, there was close to 400 attendees, including volunteers and presenters. At the northern CA conference at SF State, there was 500 attendees, including volunteers and presenters.

The Learning Stories conference was a powerful, transformative experience for CI students and early childhood education community members. Attendees gained knowledge to understand NZ historical move away from deficit based assessment practices to the Learning Stories narrative formative assessment approach. Students and the early childhood community was inspired by the seminar presentations and gained new knowledge to implement the Learning Stories approach in early childhood settings throughout Ventura and Santa Barbara Counties and throughout California.

Another strength of the activity was the collaboration that occurred between CI and multiple Ventura and Santa Barbara County community partners (see list above). IRA provided funding to rent VCOE facility, which included IT and custodial services. CDR provided Spanish translation equipment. Printing costs for program and brochures were covered by VC and SB County First Five. VCOE provided staff to help with planning, marketing, program brochure, and staffed registration, sign in and evaluation of the seminar. Prior to the seminar, collaborative planning occurred monthly with all partners for six months.

Easy Lift Transportation company provided free bus transportation for teachers from Santa Barbara to attend the Learning Stories conference at VCOE.

In addition, a CI ECS student presented their course work using Learning Stories as part of the final panel presentation. Also, in collaboration with VCOE and UCSB, student from CI and community member from Ventura County and Santa Barbara presented Learning Stories posters, sample Learning Stories, children's portfolios, "My Story" booklets made during fall 2016-2018 IRA funded trip to Santa Rosa Island, and Learning Stories from CI service learning STEM events and an interdisciplinary Library course co taught between faculty at CI. A huge success of this seminar was because of all the planning and collaboration with so many dedicated Ventura and Santa Barbara County early childhood community partners!

#### (3) WHAT WOULD YOU SAY ARE/WERE THE ACTIVITY'S WEAKNESSES?

Due to conflict with competing schedules, the SOE Dean and ECS Chair were not able to attend the Learning Stories conference and were not able to attend the NZ ELP seminar presentations. It would have been good to have had SOE and ECS leadership representation at the conference. In the future, there is another Learning Stories conference, I plan to request our CI president to provide the welcome address.

Based on attendee evaluation, feedback indicated participants would have liked more handouts. As a result of the feedback from the evaluations and student responses, plans are being considered for a full day Learning Stories conference, rotated yearly between northern and southern California. Also, a national Learning Stories conference is being considered.

- (4) HOW WOULD YOU IMPROVE THIS ACTIVITY FOR NEXT TIME?
- Next time, I would like to have more SOE and ECS faculty participation. Also, I would like to have CI students host workshops and not just present on the final panel presentation. Lastly, I would add to the Learning Stories display table area, a separate table with Learning Stories specifically from CI students with samples of how CI course assignments use Learning Stories and not have the CI samples merged together with community sample Learning Stories.
- (5) WHAT DID YOU LEARN FROM THE PROCESS?
- I learned how much work it takes to plan a Learning Stories conference with multiple community partners! It takes incredible organization, a lot of time, communication, and commitment to work with so many different organizations in Ventura and Santa Barbara County. However, because of the incredible collaboration, this event was so amazing and well received, I am glad that the Learning Stories was not solely hosted by CI. Instead, this activity was strengthened and it deepened community partnerships and engagement with early childhood educators across Ventura and Santa Barbara Counties and beyond. Also, we were able to collaborate with SF State and replicate a northern California conference with additional partners from the SF Bay Area the following week.
  - (6) WHAT ARE STUDENT RESPONSES TO THE ACTIVITY? ATTACH STUDENT EVALUATIONS OR ASSESSMENTS (IN ACCORDANCE WITH FERPA RESTRICTIONS YOU MUST REMOVE ALL PERSONALLY IDENTIFIABLE STUDENT INFORMATION)

There was very positive feedback from the students and early childhood community. Evaluations were distributed to elicit feedback. Here are some comments from the evaluations:

"I am excited to use learning stories to help children and strengthen their self-worth. I will continue the love of what I do and build children up to know how unique & special they are"

I journale is more joi in mals in our program, 1st time in a long time!"

"It was amazing to learn about Learning Stories origins and who we can engage more w/children lives and include family"

"This was my first exposure to Learning Stories so it opened me up to a whole new philosophy of assessment. I plan to implement Learning Stories and be more open to letting my class guide our curriculum instead of just me."

"As a faculty member I plan to change my way of presenting, observing, and asking. Focus back on relationships"

"I found it useful that the workshop provided live footage of the kids as well as the parents thoughts of the Learning Stories. I was able to see how they are so grateful that there are teachers who was willing to change people's lives through the Learning Stories"

"Ifeel like I have a better understanding of Learning Stories and I have a new found excitement about them."

"I have had a shift in thinking, to focus on what children CAN do rather than on what they can't do yet!"

"Thank you for being real, honest & relatable - knowing the struggle, seeing a need, making a change, helping the field - Amazing - Thank you:)"

"I love all of strategies: I know they will be very effective tools to help me dig deeper, go "vertical" and develop more meaningful Learning Stories"

"The presentation truly changed my aspect on handling children with behavioral issues. Learning Stories can change these issues by focusing on [their]strengths"

"Well done, very organized! Loved the passion from all the presenters. Very positive experience"

"After this presentation, I'm going to write more [learning] stories and engage more relationship with the parents so we together can help their kids to be successful in their school years. And to work more with the teacher as a team. Thank you for all the information - I really loved it."
