

Dear IRA Committee:

Enclosed is an IRA application for a speaker for the fall semester, 2015. I've appended the IRA report of her last lecture, last fall, as I neglected to send it at that time. In addition to the Report Form, I've added the class list, which includes majors and year. I've also included the Reflections most of the class members did on her lecture. As every year when she has given this lecture, the students were grateful, enlightened, and enthusiastic. I've blanked out their names, as per directions.

Yours Truly,

Joan K. Peters

Professor, English

I learned how eventhough there were many dangerous senarios at Woodstock everything for the most part worked in the end. People were there more than the music they were there living out their utopian socitey, where everyone looked out for each other. I thought it was nice getting Penny's perspective on how the people in charge of putting Woodstock together saw how the people that came to Woodstock were people that lived out thier differences of society in peace.

The story Penny told of President Rush's wife represented the peaceful nature of the festival. When the younger brother went missing, Mrs. Rush and her husband knew that he would be alright. The story ended with the brother making it "back to camp" at the end of the festival, and I realized that it made perfect sense. Being there was about listening to music that promoted peace and enjoying life for what it is. The idea that everyone loved eachother helped reasure people that they would be safe there. It was peace, love and music and when that feeling and mentality is shared by hundreds of thousands of people, there really is nothing to worry about.

I never thought about how much time and effort went into planning a major event like this one. It's simple to just buy a ticket and show up to a music festival, but there's so much more to it. The organizers are the master minds behind the fun and excitement these music fans looked forward to and I view it as the most difficult job to have. Obviously, it's a challenge. Things go wrong and you have to act within seconds to resolve these issues. Although people have been trying to recreate Woodstock, those events will never live up to Woodstock's potential. I want to thank Penny for helping gain a better understanding on how important Woodstock was during the counterculture movement of the sixties.
