Conditions and Considerations	—
Brief Activity Description	<p>Trumpery means worthless nonsense, something that is, simultaneously, deceitful and showy. When Alberto Cairo learned about this splendid and timely word, he immediately thought that it could be the right title for a two-hour presentation—and a subsequent book—that he had been entertaining for a while. This tour/book will describe strategies to fight back against the deluge of baloney coming from left and right (sleaziness is quite bipartisan), and is targeted not only at data designers and journalists, but to everyone from school teachers to citizens in general.</p> <p>Dr. Cairo is planning on presenting in New York, Atlanta, Portland, Barcelona, Paris, and a wide variety of points in between. Those locations are still evolving, but can be seen here: https://www.dropbox.com/s/jzqsb9u6z46z6/1Trumperydates.xlsx?dl=0. As of this writing, we are the only planned stop in the greater Los Angeles area.</p> <p>Dr. Cairo is the Knight Chair in Visual Journalism at the School of Communication and Director of the Visualization Program at the Center for Computational Science at the University of Miami. You can see his work here: http://www.thefunctionalart.com</p>
Learning Outcomes and Relation to IRA to Course Offerings	This presentation will be a benefit to all out campus community, but specific examples include students just beginning their college arc (e.g. 100) and those about to graduate (e.g. 499). Current programs supporting this proposal include Psychology, Communication, ESRM, English, Political Science, and Chicana/o Studies. Teaching & Learning Innovations and the Center for Multicultural Engagement are also supporting this event.
Description of Assessment Process	Students attending the seminar will be surveyed and reported in our final report.
