▼ 2. Brief Activity Description

Describe the activity and its relationships to the educational objectives of the students' program or major

Brief Activity Description

The art department would like to host in October 2018 a Leonardo Art Science Evening Rendezvous symposium. LASER is an international program founded that brings together artists and scientists for informal presentations and conversation.

On that evening, we are planning to bring together:

→ Jane Chang Mi, MFA & MSE, Visiting Professor of Art at Pepperdine University who will be conducting in summer 2018 a study at CI's Santa Rosa Island Research Station.

→ Stacey Switzer, curator and executive director at Fathomers, "a creative research institute in Los Angeles dedicated to producing sites and encounters that challenge us to live and act differently in the world".

→ Aurora Tang, instructor at the Otis College of Art and Design and the Southland Institute, and board member at Common Field, a national network of independent arts organizations.

→ A yet-to-be-chosen scientist recommended by Matt Fratus, director of the University of California Natural Reserve Systems

The purpose of this talk will be to provide students from arts and environmental sciences a casual academic setting that encourages interdisciplinary ideas about art, science, history, culture and politics, and that promotes opportunities for networking.

▼ 3. Learning Outcomes and Relation of IRA to Course Offerings

All IRAs must be integrally related to the formal instructional offerings of the University and must be associated with scheduled credit courses.

1. Please list all classes that directly relate to the proposed activity.
2. For each class listed, describe in detail how exactly the IRA activity will be integrated with the class's activities, how often/ on what expected date(s), and to what extent

Learning Outcomes and Relation of IRA to Course Offerings

1. All studio art, art history and environmental science classes would be affected.

2. The activity will be for students to attend the described symposium. This event will take place in fall 2018 on a week night, most probably from 6 to 8PM. Instructors could have assignments related to this talk. These projects could range from writing papers to creating artworks.

▼ 4. Activity Assessment

Describe the assessment process and measures that the program will use to determine if it has attained its educational goals.

Please note that a report will be due at the end of the semester.

Description of Assessment Process

Students will be assessed based on the quality of the papers and artworks produced as a response to the symposium.

▼ 5. Activity Budget

Please enclose a complete detailed budget of the entire activity. Indicate specific items that you are requesting IRA to fund.

You should use either the Regular Activity budget (for events on campus) or -- if your event involves any travel-- you MUST use the IRA Travel Budget Form.

You can download both of the IRA Excel Budget sheets at <http://www.csuci.edu/ira/application.htm>.

Certification

I certify that students attending this trip are not previous or repeat attendees of a prior International UNIV 392 Trip

▼ 7. Sources of Activity Support

Please list the other sources of funding (including course fees), and exact expected amounts of additional support for the activity. Please indicate if there are no other sources of funding

Other Sources of Funding

No other sources of funding

▼ 8. Promoting Participation

What is your intended audience and how do you intend to market this to your students?

The intended audience for this symposium are studio art, art history and environmental science students, and the public at large. Event will be free and open to all.
For many instructors, this event will be part of their fall 2018 syllabus.

If this is an event that is off campus, how do you plan to bring back the benefit of this event to campus?

▼ 9. Sustainability

If appropriate, indicate how the content or delivery of the project promotes sustainability at CI.

Sustainability

The predominant feature of this project is the rapport between arts, science and the environment. It is directly related to ecology and sustainability.
