▼ 2. Brief Activity Description

Describe the activity and its relationships to the educational objectives of the students' program or major

Brief Activity Description

Every semester that I have taught ESRM 329 Environmental Law and Policy, I have endeavored to bring environmental professionals into the classroom. Examples include: the founder of Lawmaker.io, the founder of Bureo, CI's EHS Compliance Officer, the environmental policy staff of various local non-profits, the lead attorney for the Center for Biological Diversity, and the Wildlife Trafficking Unit from the California Department of Fish and Wildlife. These guests provide an amazing opportunity for the students to learn directly from individuals whose jobs/lives involve implementing the laws and policies we discuss in class. In all previous semesters, these visitors have come to campus on their own dime. But this semester, when two speakers flew down from Sacramento, rented a car, and stayed overnight ALL on their own dime, I realized that to be sustainable, small honoraria for such distinguished guests are essential.

▼ 3. Learning Outcomes and Relation of IRA to Course Offerings

All IRAs must be integrally related to the formal instructional offerings of the University and must be associated with scheduled credit courses.

1. Please list all classes that directly relate to the proposed activity.
2. For each class listed, describe in detail how exactly the IRA activity will be integrated with the class's activities, how often/ on what expected date(s), and to what extent

Learning Outcomes and Relation of IRA to Course Offerings

Objectives for ESRM 329 Environmental Law & Policy include:

- Understand relationships between the environment and its processes, legal and administrative institutions, and humans (individuals and societies).
- Be familiar with the processes by which the environment writ-large is managed and the agencies and actors that are charged with management.
- Be prepared to think critically and write effectively about current and future environmental issues and decisions.

Hearing directly from individuals who work at the intersection of environmental science and policy links with each of these objectives.

▼ 4. Activity Assessment

Describe the assessment process and measures that the program will use to determine if it has attained its educational goals.

Please note that a report will be due at the end of the semester.

Description of Assessment Process

No direct assessment of all speakers will be made. Rather, we will continue with anecdotal assessments and feedback from attending students. All seminars are podcasted on the ESRM website for additional exposure to the broader community and for use in classes where seminar content supplements course curricula.

▼ 5. Activity Budget

Please enclose a complete detailed budget of the entire activity. Indicate specific items that you are requesting IRA to fund.

You should use either the Regular Activity budget (for events on campus) or -- if your event involves any travel-- you MUST use the IRA Travel Budget Form.

You can download both of the IRA Excel Budget sheets at <http://www.csuci.edu/ira/application.htm>.

What is your intended audience and how do you intend to market this to your students?

Any CI undergraduate is welcome to participate, but our primary audience are students currently enrolled in ESRM courses, specifically ESRM 329. Other ESRM courses whose students will be encouraged to participate include: ESRM 100 (Intro to Env Science), ESRM 200 (Intro to Resource Management), ESRM 313 (Conservation Biology), ESRM 328 (Intro toGIS), ESRM 329 Environmental Law & Policy, and ESRM 351 (Restoration Ecology Theory). Non-ESRM students have definitely attended prior guest lectures in this course.

If this is an event that is off campus, how do you plan to bring back the benefit of this event to campus?
