 Yes

Please list the 4-digit MSFT sequence and Title

Career Development Services MSFT allocation 2014-2015

Please attach a copy of report

[2014-2015 MSFT Award Letter.JPG](#)

[MSFT Budget Request 2014-2015.pdf](#)

Please describe how the use of MSFT funds for this project or activity will benefit the CI student body.

Please provide the following in your application. You may attach additional files as needed (applicants may be requested to meet with the committee to discuss proposals)

1. Brief Project Description

Describe the project and its benefits to the educational or co-curricular experience of students at CI. Please provide specific information about how MSFT funds will be used and their impact on the campus. Please describe how this project benefits CI students? Please describe items and provide justification if your request includes the purchase of computers, equipment, furniture or other materials. Please provide a timeline for implementation of the proposed project. If physical improvements are requested please describe need, scope and impact of work to be completed. If the project includes provision of services please indicate the type of service, personnel costs and level or quantity of service to be provided with project funds.

2. Project/Activity Budget

Please enclose a complete detailed budget of the entire project. Indicate specific items of requested MSFT funding including (where applicable) a schedule and priority of project items to be considered if the project is funded at a reduced level. Were other, less costly, approaches considered when preparing the budget for the project? Are there elements that could be eliminated or deferred if funding is not available for the entire project?

3. Project Assessment

Describe how the effectiveness of the project will be assessed and measures that will be used to determine if it has attained its objectives. Please note a report will be due at the end of the semester (or fiscal year for annual projects). If funded, how will the project acknowledge the use of student funds so that students are aware that their student fees made (or helped to make) it possible? If appropriate, indicate how the project or activity promotes sustainability at CI.

4. Sources of Project Support

Please list the other sources of funding, and additional support for the activity. If this project or activity has been conducted previously please indicate how it was funded. Please explain if MSFT is the only source of support for the project.

Brief Project Description

Brief Project Description:

The following proposed projects will benefit CSUCI students by providing access to advanced technology which prepares students with knowledge to meet the growing demands of a skilled workforce. Additionally, the technology will aid Career Development and Alumni Engagement to accurately track student engagement and more specifically student learning through real-time feedback on counseling appointments, internships, mock interviews, leadership retreats, and career fairs.

Career Development and Alumni Engagement (CDAE) establishes a Dolphin network by cultivating a distinctive community of students, alumni, and industry to develop meaningful connections fostering lifelong learning and affinity between CSUCI and our graduates.

We are engaging in the academic curriculum at an increasing rate. For example, in 2017-2018, we conducted 75+ presentations to over 1,853 students, not including students who visit our center and attend our events. Use of advanced

technology will help us to facilitate career education through use of computers in our center including our reception area, and workshop area.

Proposed Project- Refresh Existing MSFT Funded Dell Desktop Computers (Part 1)

Eight desktop computers are out of warranty in the Career Development Center. These computers need to be fully functional and accessible for students to utilize (e.g., job applications, career assessments, resume/cover letters). These computers will also be utilized for virtual mock interviews including interview video and audio recording.

Proposed Project- Upgrade AV Equipment in Career Center (Part 2)

The presentation equipment in the Career Center is outdated and has not been updated in 8 + years. A total of 1,504 students attended our workshops and events in 2017-2018 and facilitating those programs in an accessible technology location is essential for Career Counselors. We are proposing a similar setup compared to our HLI space which includes a large projector screen incorporated with the computer unit in the screen instead of utilizing a separate desktop computer to operate. This will alleviate the need to have one desktop in the Career Center to be stationed for workshops/seminar usage and allow increased student access to the additional desktop. This will also allow presenters including employers to utilize a technologically relevant screen that is compatible with other new technologies.

Timeline

If funded, these projects will be implemented in 19-20AY. No additional cost associated with completing the project will be necessary to implement beyond the costs listed below.

Brief Project Description Additional Documents

Project/Activity Budget

see attachment

Project/Activity Budget Additional Documents

[MSFT Funding Request 19-20.xlsx](#)

[20180924 TV and Cables.pdf](#)

[csuci career purchase quote dell desktop 11419.pdf](#)

[20180924 7060 Micro.pdf](#)

Project Assessment

With access to computers and an adequate presentation area, each student who engages with our programming and utilizes the equipment will be accurately tracked in our sign-in kiosk providing us with an opportunity to identify the total number of students who utilized the devices. Additionally, this project promotes sustainability since the increase in technology will allow more students to access resources in lieu of printing employment materials.

Lastly, providing students access to advanced technology prepares students with knowledge to the growing demands for a skilled workforce with experience to new technologies. Students need to gain knowledge of the online resources and tools to connect them to the employers such as LinkedIn, bls.gov, Dolphin CareerLink Recruitment portal and a variety of other career related research tools only available in an online format.

Project Assessment Additional Documents

Sources of Project Support

Currently, MSFT is the only projected source of support for the project. We do not have allocated funding in the general operating budget for technology.

Accounting String to Fund Any Overage Above MSFT Award

XXXXX-GD901-240101

Fiscal Management:

Project sponsor's unit or department may be responsible for incurred over and above what is funded through the MSFT. If support is requested for costs beyond initial award, or for use on activities or materials not included in approved proposals, the project sponsor must seek approval from the MSFT committee. The project sponsor will be responsible for managing purchases, transfers of funds, and all transactions related to approved projects

Please review MSFT web page for information about the fund and its objectives before submitting your application.

Project or Activity Title: Technological Instructional Equipment

Name of organization requesting funds: Career Development Services Date: 1/13/14

Requestor: Amanda Carpenter Contact Phone Number: (805) 437-3565
E-mail: Amanda.carpenter@csuci.edu

Amount of MSFT Funding Requested: \$12872.71

Date Funding Needed by: as soon as available for the 2014-2015 FY

Will you receive funds from any other source(s)? YES **NO**

If yes, please detail amount requesting from other source(s) as well as your total request for fiscal year 2013-2014 (including request from MSFT).

Has this project or activity previously received MSFT funding? **No**

If yes, please attach copy of report

Please describe how the use of MSFT funds for this project or activity will benefit the CI student body.

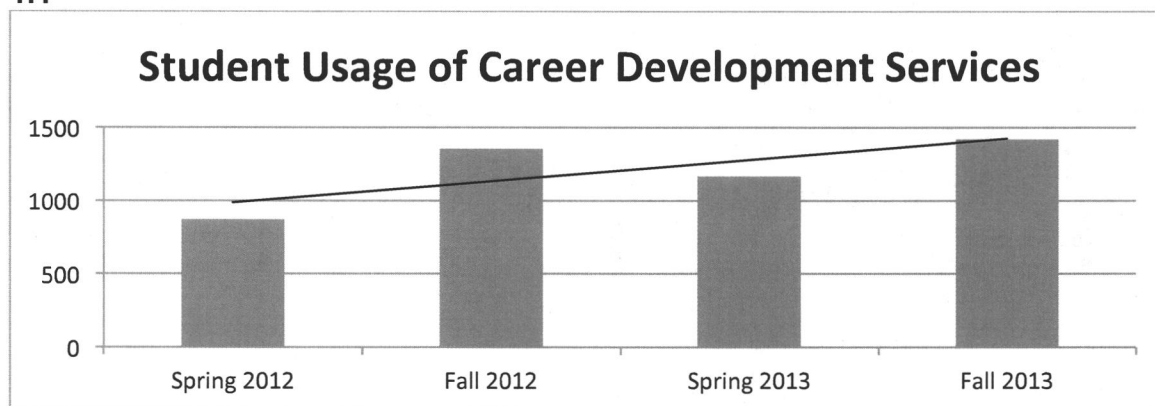

Please provide the following in your application. You may attach additional pages and materials (applicants may be requested to meet with the committee to discuss proposals):

- Brief Project Description.** Describe the project and its benefits to the educational or co-curricular experience of students at CI. Please provide specific information about how MSFT funds will be used and their impact on the campus. Please describe how this project benefits CI students? Please describe items and provide justification if your request includes the purchase of computers, equipment, furniture or other materials. Please provide a timeline for implementation of the proposed project. If physical improvements are requested please describe need, scope and impact of work to be completed. If the project includes provision of services please indicate the type of service, personnel costs and level or quantity of service to be provided with project funds.

Background:

Career Development Services delivers programs and services designed to enrich the whole development of CI students. In collaboration with our employers, community, and campus partners, we apply our career expertise to identify students' passions and full potential in the journey toward career fulfillment. In the 2012-2013 AY we have recognized a 48% increase in students accessing our online job/internship database, Dolphin CareerLink (see chart 1.3). Additionally, given the current state of the economy and changing employment trends, students and alumni are now utilizing CDS more than ever in our 11-year history. Our data indicates a significant growth in student participation among all areas of programs, services, and events hosted by the Career Development Center (see chart 1.1 below).

1.1

Proposed Project- Technological Instructional Equipment:

Currently, we lack the functionality of students need to access adequate computers with appropriate technology resources. We need new adequate working computers for CI students to work on resumes, access online career-related resources, etc. For example, we have a virtual mock interviews kiosk module and have only one computer in the center that will function for the purposes of interview video and audio recording. Additionally, we need printers to assist students in printing resumes, resources, and job applications to be qualified and competitive candidates in a challenging employment market. We also need iPads for our kiosk sign-in system and to utilize for career fairs and networking events. Currently, we are utilizing our iPads during Drop-in Career Counseling for check-in management, to provide instant electronic resources, provide Dolphin CareerLink information, and track the counseling appointment for program access and effectiveness. During the majority of Drop-In Career Counseling there are approximately 3-7 students working with a CDS team member simultaneously in a one-on-one session. Without additional iPads, we are limited in our tracking system to accurately detail the purpose and effectiveness of the meeting, as there are more sessions occurring than access to available iPads to track the session. Our system is accurately tracking the number of visitors, but not the specific needs and interests of each student during these one-on-one encounters. The result will directly impact the ability to track the needs of students effectively and accurately for reporting and program evaluation. The proposed timeline for implementation would be in the 2014-2015 FY.

Campus Implications:

The campus impact of *not* being able to provide critical services with appropriate technology resources staffing will have detrimental effects on the entire campus and local community. One of

the CI Strategic Initiatives is to “develop support for the university with the community and public.” Career Development Services **directly** impacts this initiative through establishing partnerships with local employers who recruit CI students and participate in our annual career fairs, networking panels, and internship programs. Ultimately, if our CI alumni are well-prepared for gainful employment, our local and regional employers are also more likely to partner with the University. Therefore, it is essential to provide adequate access to technology resources to support the career development of our CI students in their preparation for the 21st century workforce.

2. **Project/Activity Budget.** Please enclose a complete detailed budget of the entire project. Indicate (in **bold**) specific items of requested MSFT funding including (where applicable) a schedule and priority of project items to be considered if the project is funded at a reduced level. Were other, less costly, approaches considered when preparing the budget for the project? Are there elements that could be eliminated or deferred if funding is not available for the entire project?

The Career Center has 8 desk areas for both student assistants and students who will be able to access a computer to work on a variety of career related projects. Since the university supports only a limited amount of technology, the least expensive option was chosen for the budget and therefore the pricing for the computers do not have any further reduced cost options. However, there are approximately 3 computers in the center that although they are slow and less efficient they are still in semi-working condition. Therefore, a reduced budget to include 5 new desktop computers is mentioned in the budget if funding is not available to cover all 8 computers. Additionally, the printer selection was based on what is available to the campus and there options were only limited to the only multi-use color printer and multi-use black and white printer. A single printer (that prints only in black and white) was also considered should funds not be available. However, our center severely needs a new color printer as the current printer is now no longer supported by IT Support Services and cannot be connected to the server. Not having a printer that is supported by Campus IT has been a considerable strain for both students and staff who utilize the printer to function on a daily basis. The need for a color printer is critical to print marketing materials to announce information and services to students throughout the academic year.

Proposed Technology Budget

PC Desktop Computer	8	1101.23	8809.84
Printer	2	894.03	1788.06
iPad Air	3	638.43	1915.29
iPad Case	3	81.74	245.22
iPad Screen Protector	3	38.10	114.3
Total			12872.71

Reduced Technology Budget

PC Desktop Computer	5	1101.23	5506.15
Color Printer	1	894.03	894.03
Alternative Printer	1	697.12	697.12
iPad Air	2	645.85	1291.70
iPad Screen Protector	2	38.10	76.20
Total			8465.20

3. **Project Assessment.** Describe how the effectiveness of the project will be assessed and measures that will be used to determine if it has attained its objectives. Please note a report will be due at the end of the semester (or fiscal year for annual projects). If funded, how will the

project acknowledge the use of student funds so that students are aware that their student fees made (or helped to make) it possible? If appropriate, indicate how the project or activity promotes sustainability at CI.

With appropriate access to new iPads, every student who utilizes services in the Career Center can be accurately tracked to provide accurate reports of student access and needs. The new reports will be able to show the increase of student need and usage to not only the Career Center but the resources the center provides to the students. If funded, each computer, ipad, and printer will have digital signage and labels on all technology that the items were funded by MSFT. Additionally, this project promotes sustainability since the increase in technology will allow more students access to computer workspace to handle the increase of student attendance and population on campus, as our university continues to grow. Lastly, providing students access to advanced technology prepares students with knowledge to the growing demands for a skilled workforce with experience to new technologies. Students need to gain knowledge of the online resources and tools to connect them to the employers such as LinkedIn, bls.gov, Dolphin CareerLink Recruitment portal and a variety of other career related research tools only available in an online format.

4. **Sources of Project Support.** Please list the other sources of funding, and additional support for the activity. Please explain if MSFT is the only source of support for the project.

Currently, MSFT is the only projected source of support for the project.

Fiscal Management: Project sponsor's unit or department may be responsible for incurred over and above what is funded through the MSFT. If support is requested for costs beyond initial award, or for use on activities or materials not included in approved proposals, the project sponsor must seek approval from the MSFT committee. The project sponsor will be responsible for managing purchases and transfers of funds related to approved projects.

Please review MSFT web page for information about the fund and its objectives before submitting your application.

Subject: Career Development Services MSFT allocation

Amanda

I am writing to inform you about the funding recommendations of the Materials Services Facilities and Technology (MSFT) committee which were recently approved by President Rush for the coming year. Career Development Services submitted a proposal for \$12,872 in MSFT funding to support purchase of technological instructional equipment. The committee faced difficult choices this year since it received a total of more than \$1.6 million in requests for funding for the 2014-2015 fiscal year and was able to recommend allocations of just over \$645,000.

The committee agreed that this project will improve the resources and experiences for students at CI and recommended funding for a portion of the project. President Rush approved the committee's recommendation for \$6,399 to Career Development Services to support specific activities identified in your proposal. The committee allocation is to support the purchase of five desktop computers and a color printer. The committee was not able to support other elements of your proposal at this time.

Please provide Gina with the appropriate account so funds can be transferred into a GD925 account for your use on this project. Please note that funds provided by the MSFT committee may only be used for the purposes described in your proposal. Any expenditures in excess of the funds allocated through the MSFT committee become the responsibility of the program or department. Substantial changes in the use of MSFT funds require the prior approval of the committee. Any expenditures in excess of the amount allocated are the responsibility of your unit. Unused fund balances will be returned to the MSFT account at the end of the fiscal year.

The MSFT committee requests a report detailing the use of funds and results achieved as a result of this activity at the end of the fiscal year.

Please let me know if you have questions about the MSFT process or about this award.

Thanks
Dan

Ultrabook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, Xeon Phi, Xeon Inside, and Intel Optane are trademarks of Intel Corporation or its subsidiaries in the U.S. and/or other countries.

Same day shipment subject to order size limitations, Dell standard shipping methods and payment via credit card, gift card or Dell Business Credit. Notification will be provided if there are payment delays which could impact shipping date. Electronics and accessories may ship separately.

Smart Selection. Limited quantities. Only available for orders placed by 5:59 p.m. CT Mon.–Thurs. Systems shipped the next business day after an order is placed. Subject to order approval. Software and accessories not part of the configuration will be shipped separately and may arrive after your system. Please note that Smart Selection Configuration pricing cannot be combined with other pricing offers or discounts provided or agreed to by Dell. ** Orders with Custom Factory Integration might require additional processing time.

***Dell Business Credit:** Offered to business customers by WebBank, Member FDIC, who determines qualifications for and terms of credit. Taxes, shipping and other charges are extra and vary. Minimum monthly payments are the greater of \$15 or 3% of the new balance shown on the monthly billing statement. Dell and the Dell logo are trademarks of Dell Inc.

**Payment solutions provided and serviced by Dell Financial Services L.L.C. or its affiliate or designee ("DFS") for qualified customers. Offers may not be available or may vary in certain countries. Where available, offers may be changed without notice and are subject to product availability, credit approval, execution of documentation provided by and acceptable to DFS, and may be subject to minimum transaction size. Offers not available for personal, family or household use. Dell and the Dell logo are trademarks of Dell Inc. Restrictions and additional requirements may apply to transactions with governmental or public entities.

¹Subject to applicable law and regulations.

ALL ORDERS ARE SUBJECT TO APPROVAL AND ACCEPTANCE BY DELL. Pricing, availability and other terms of offer may be withdrawn or changed without notice. Dell cannot be held responsible for errors in typography or photography.
