Have a qualifying eligibility index:

The eligibility index is the combination of your high school grade point average and your test score on either the Scholastic Assessment Test (SAT Reasoning Test) or the American College Test (ACT). If you are a California high school graduate (or a resident of California for tuition purposes), you need a minimum eligibility index of 2900 using the SAT combined score for critical reading and math sections or 694 using the ACT. Non-residents of California are required to have a minimum eligibility index of 3502 (SAT) or 842 (ACT).

You can calculate your eligibility index by multiplying your CSU grade point average by 800 and adding your combined critical reading and math scores on the SAT Reasoning Test. Or, if you took the ACT, multiply your grade point average by 200 and add 10 times the composite score from the ACT.

\[
\text{CSU GPA} \times 800 + \text{SAT Reasoning Score} = \text{Eligibility Index}
\]

\[
\text{CSU GPA} \times 200 + (10 \times \text{ACT Score}) = \text{Eligibility Index}
\]
