CI 2025 Planning Strategy

DRAFT

CI 2025 Overall Planning Strategy

Planning Groups

CI2025's success depends on the involvement of the communities at CI and University Glen. Use of Planning Groups allows for broad representation and the inclusion of a variety of thinking and ideas. Planning Groups will have different charges depending on the groups focus. For example, the intent of the CI 2025 Academic Planning Group is to review needs, current and future, as enrollment grows and what kind of space will meet those needs.

Overarching Multi-Use Facility Framework

Planning Groups have the responsibility to review how programs' needs interface with physical needs. The concept of a physical structure will emerge within these groups. The Multi-Use Facility Planning Group will look at how one structure could address the multiple needs on campus.
