

We Want to Hear About Your Experiences!

Gift Card Drawing Entry Upon Completion

What?

Access to Healthy Opportunities for College Students with Disabilities—a survey of your experiences

Who?

YOU!

If you are a student with a visible or invisible disability, we want to hear from you!

When & Where?

Online! When Convenient! (all of our test students have taken approximately 30 minutes to complete).

Why?

College students with disabilities face barriers greater than their non-disabled peers in an overwhelming number of ways, including (but not limited to) higher rates of sexual assault¹, lower employment rates post college², and greater risk for mental health issues³. To improve the lives and health of students with disabilities, we need to make sure you are included in the narrative of inquiry around your basic needs and student support experience.

To start the study and contribute to understanding students in college with disabilities, or learn more, please follow the link below or scan the Qwerty code.
