CERTIFICATION OF HEALTH CARE PROVIDER

IMPORTANT NOTE: The California Genetic Information Nondiscrimination Act of 2011 (CalGINA) prohibits employers and other covered entities from requesting, or requiring, genetic information of an individual or family member of the individual except as specifically allowed by law. *To comply with CalGINA, we are asking that you not provide any genetic information when responding to this request for medical information.* "Genetic Information," as defined by CalGINA, includes information about the individual's or the individual's family member's genetic tests, information regarding the manifestation of a disease or disorder in a family member of the individual, and includes information from genetic services or participation in clinical research that includes genetic services by an individual or any family member of the individual. "Genetic Information" does not include information about an individual's sex or age.

1.	Employee Name:		
2.	Patient's Name (if other than employee):		
	Is patient the employee's family member (i.e., child, parent, parent-in-law, grandparent, grandchild domestic partner, or designated person)?	l, sibling, sp	ouse,

of	Intermittent Leave: Is it medically necessary for the employee to be ff work on an intermittent basis due to the serious health condition f the employee or family member?	Yes	() N			
	ease answer the following questions only if the employee is asking for intermittent leave or a reduce					

SERIOUS HEALTH CONDITION

"Serious health condition" means an illness, injury (including, but not limited to, on-the-job injuries), impairment, or physical or mental condition of the employee or a child, parent, parent-in-law, grandparent, grandchild, sibling, spouse, domestic partner, or designated person of the employee that involves either inpatient care or continuing treatment, including, but not limited to, treatment for substance abuse. A serious health condition may involve one or more of the following:

HOSPITAL CARE

Inpatient care in a hospital, hospice, or residential medical care facility, including any period of incapacity or subsequent treatment in connection with or consequent to such inpatient care. A person is considered an "inpatient" when a heath care facility formally admits the person to the facility with the expectation that the person will remain at least overnight and occupy a bed, even if it later develops that such person can be discharged or transferred to another facility and does not actually remain overnight.

ABSENCE PLUS TREATMENT

- (a) A period of incapacity of more than three consecutive calendar days (including any subsequent treatment or period of incapacity relating to the same condition), that also involves:
- 1. Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; or
- 2. Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.

PREGNANCY

[NOTE: An employee's own incapacity due to pregnancy is covered as a serious health condition under FMLA but not under CFRA]

Any period of incapacity due to pregnancy or for prenatal care.

CHRONIC CONDITIONS REQUIRING TREATMENT

A chronic condition, which:

- 1. Requires periodic visits for treatment by a health care provider, or by a nurse of physician's assistant under direct supervision of a health care provider;
- 2. Continues over an extended period of time (including recurring episodes of a single underlying condition); and
- 3. May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

PERMANENT/LONG-TERM CONDITIONS REQUIRING SUPERVISION

A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's, a severe stroke, or the terminal stages of a disease.

MULTIPLE TREATMENTS (NON-CHRONIC CONDITIONS)

Any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), or kidney disease (dialysis).
