

CSU IP VIRTUAL OFFICE HOURS & INFORMATION SESSIONS

CSU IP offers various virtual options for students to learn about studying abroad. Students who are just beginning to research study abroad opportunities can join a general information session to learn about who CSU IP is and the programs and services we have to offer. For students who know which country or countries they are interested in, they are welcome to join one of our targeted country-specific sessions. Finally, if students have questions that are specific to their application or situation, they may opt to visit their advisor via their virtual office hours.

VIRTUAL OFFICE HOURS

Applicants can find the zoom link to their advisor's office hours in the CSU IP Portal. If you do not have an application with CSU IP at this time, email csuip@calstate.edu to request the zoom link.
