

Join Us for this See Yourself in Cyber Webinar!  
**Your Journey as a Cybersecurity Worker:  
Starting Places, First Steps, Waypoints, and Milestones**  
Tuesday, October 25, 2022

**Presenter: James Stanger, PhD**

If you're interested in seeing yourself in cyber, then join CompTIA's Chief Technology Evangelist, Dr. James Stanger, to learn more. He will be your guide as he discusses the steps to become a qualified cybersecurity worker. James will share the many cybersecurity job roles that might interest you. He will also relate stories about other individuals worldwide who have taken steps to become security professionals. Along the way, you'll obtain a clear vista of the many opportunities for you. James will also talk about some of the "mythconceptions" people tend to have about cybersecurity, as well as how you can address some of the rough spots that you might encounter along your cybersecurity pathway.

**Attendees will learn about:**

- Cybersecurity job roles that you might find intriguing as you embark on a cybersecurity career
- How to get the right practical skills
- How to overcome "mythconceptions" and typical challenges along your journey
- Resources to consult as you learn along the way
- How to convince that hiring manager that you've taken the right steps along the pathway

*If you're interested in learning more about what a cybersecurity career means to you, register today!*

**Bonus:** Attendees will have the chance to win a Security+ CertMaster Learn + Labs and an exam voucher.

**CertMaster Learn + Labs**

You'll experience a comprehensive personalized learning plan that includes study tasks like hands-on labs, practice and performance-based questions and more, so that you'll gain the knowledge and practical skills necessary to be successful on your CompTIA certification exam.
