## CIRCUMSTANCES:

On 10/15/07 at about 2235 hours the suspect drove up to a female student in a black Ford mustang. The student was attempting to get into her car at the CSU Channel Islands campus parking lot. He approached her asking for directions and grabbed her from behind. He placed a box cutter type knife to her throat and attempted to pull the female victim into his 2005-06 Black Ford Mustang, with hood scoop and trunk lid spoiler. The female student was able to get away from the suspect, enter into her vehicle, and shut the door. When she looked back for the suspect, he and the Black Mustang had left the parking lot.
