**Some people should not be vaccinated without first consulting a physician. These people include:**

- Those who have a severe allergy to chicken eggs
- Those who have had a severe reaction to an influenza vaccination in the past
- Those who developed Guillain-Barré Syndrome (GBS) within six weeks of getting an influenza vaccine
- Children less than six months of age (the influenza vaccine is not approved for use in this age group)
- Those who have a moderate to severe illness with a fever should wait to get vaccinated until their symptoms subside.

*Persons who, because of a special need or condition, would like to request an accommodation should contact Disability Resource Programs at 805-437-3331 or email [accommodations@csuci.edu](mailto:accommodations@csuci.edu) as soon as possible, but no later than five business days before the event, so that appropriate arrangements can be made.*
