[1] The North American Industry Classification System (NAICS) is used by government agencies to classify business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy.

[2] Data sources: U.S. Bureau of Labor Statistics' Current Employment Statistics (CES) March 2021 benchmark and Quarterly Census of Employment and Wages (QCEW) industry employment.

[3] Industry detail may not add up to totals due to independent rounding and suppression.

[4] Self-employed persons work for profit or fees in their own business, profession, trade, or farm. Only the unincorporated self-employed are included in this category. The estimated and projected employment numbers include all workers who are primarily self-employed and wage and salary workers who hold a secondary job as a self-employed worker.

[5] Private household workers are employed as domestic workers whose primary activities are to maintain the household. Industry employment is based on

Projections for previous periods are not always comparable to the latest projections, due to changes in industry, occupational, and geographical classifications; historical data revision; and changes in data collection and projections procedures.
