Policy in the Event of a Student Death

PURPOSE:
The death of a student represents a devastating loss for the family and friends of the deceased as well as for the campus community. In the event of a student death, the University community should respond with compassion, thoroughness, and most importantly, with dignity toward the student and their family.

This policy is intended to assist responsible University personnel in performing necessary University actions following a student’s death, including timely response to the University-related needs of the immediate family, to the extent possible and appropriate.

Notifications and Other Responses
The institutional response to a CSUCI student death necessitates a series of administrative actions to settle accounts and close academic and personnel records. The VPSA (or designee) is responsible for sending out notification to the appropriate University staff and/or administrators (detailed within the Division of Student Affairs Procedure in the Event of a Student Death) in the event of a student death.

In order to remain sensitive to the dignity and memory of the student and their family, areas shall be responsible for ensuring that the action as outlined in the Procedure in the Event of a Student Death is completed within seven (7) business days upon notification. Upon completion of the appropriate action by the areas, confirmation should be sent to the VPSA (or designee), which is documented on the Confirmation of Action Items in the Event of a Student Death form.
