POLICY REVIEW
Recommendation (2nd Reading)
FA.32.003 - Policy on Strategic Risk Management
Katharine Hullinger stated this updated version of the policy corrected titles and definitions. President Beck asked for a motion to recommend approval. Policy was approved.

Discussion (1st Reading)
Scott Perez presented this policy that provides guidance on administering policy associated with externally funded grants and contracts. Most of the updates reference Federal and CSU regulations that govern how we process costs on externally funded grants and contracts. Cooperative agreements were defined as more involved with the granting agency.
Genevieve Evans Taylor inquired about the title and how other costs might be interpreted in this policy. Ysabel Trinidad suggested adding ‘for Externally Funded Grants” to the title of the policy. Any comments and questions, please contact Scott.

Consent
FA.40.004 – Policy on Access Management and Facility Security
Tom Hunt stated the term and definition of ‘cards’ was added to the policy. Other names and titles were updated. Genevieve proposed inserting Provost with the Vice Presidents in the text section.
With that insertion, President Beck asked for a motion to recommend approval. Policy was approved.

UPDATES

**Strategic Initiatives Implementation Team (SIIT)**

Genevieve Evans Taylor, co-chair of the SIIT, indicated the webpages have been updated. They are aligning the work of Provost and Vice President for Business and Financial Affairs with the Strategic Resource Planning Committee (SRPC) to ensure additional bureaucracy is not being created. They have finalized the process for proposals and have created one form for proposals. Seven proposals have been approved for funding.

**Strategic Resources Planning Committee (SRPC)**

Ysabel Trinidad discussed the context for the 2019/20 budget and California’s economic conditions. The Governor’s Proposed Request for CSU includes $300M increase in ongoing state funds and $265M increase in one-time funds; this is the single largest proposed investment by any governor in the history of the CSU. It focuses on increasing access, preserving affordability and improving student success and timely degree completion.

President Beck stated our campus receives Associate Degree Transfer (ADT) students. These are transfer students who are not accepted at their CSU of choice and are redirected to another CSU. President Beck noted changes in redirect policy may allow freshman to be redirected to campuses that are available. CSUCI and CSUSM are the two campuses that have the capacity to take these students. We are hopeful this enrollment growth will benefit CI.

The goal of the SPRC is to align budget development and funding of the strategic initiatives. The SPRC will issue instructions for the Strategic Initiatives Proposals in February; proposals should be submitted to respective Cabinet member by May.
