DFA Administrative Directive: #70-1

Agreement Approval Process

1.0 PURPOSE

The purpose of this Administrative Directive is to document procedures and time frames related to processing campus and auxiliary contracts and agreements for final execution and to ensure adequate time is available for a comprehensive and thoughtful review materials submitted.

2.0 BACKGROUND

The Procurement and Contracts Services office is responsible for providing technical direction, oversight and management of the purchasing and contracting processes. The Procurement and Contracts staff manage many different kinds of contracts requiring approval by the Vice President of Finance and Administration. Among them are Memoranda of Understanding (MOU), Service Agreements, Public Works Agreements, Extra Services Authorizations (ESA), Task Order Service Agreements (TOSA), Project Architect/Engineer Agreement, Job Order Contracts (JOC), and standard agreements.

Thorough review and response, along with timely approval, requires realistic scheduling and careful planning on the part of the agreement originator. This approval process is designed to eliminate hasty and rushed contracting and will help to ensure fully executed agreements are in place prior to the start of the agreement term. This process will also ensure that legal and California State University contracting standards are met. This approval process is critical to protect the fiscal and reputational integrity of the University, including students, faculty and staff directly affected by the agreement.

3.0 OVERVIEW

We encourage early involvement as the contracting process develops. Procurement and Contract Services will partner with a campus representative to help guide the process and advise to help avoid problems. After all agreements have been fully vetted and reviewed, they must be submitted to the office of the Vice President of Finance and Administration no less than fourteen (14) calendar days prior to the date the effective date of the agreement or when the fully executed document is due. Agreement originators must account for the review time outlined in this guideline when initiating new projects or when proposing new contracts or agreements with non-University entities.
