Signature of Principal Investigator

\_\_\_\_\_  
Date

**NIH Notice Number: NOT-OD-06-054:** *The signature of the Principal Investigator is no longer required as a part of a submitted application. Instead, a new compliance requirement is now implemented whereby the applicant organization agrees to secure and retain at the organization a written assurance from the Principal Investigator (PI)\* prior to submitting an application to the PHS. While this assurance is no longer required as part of the submitted application, it remains a compliance requirement. Therefore, organizations must retain a unique signature and date for each submitted application. This assurance must be available to the sponsoring agency or other authorized HHS or Federal officials upon request. This change is effective with competing applications submitted for submission/receipt dates May 10, 2006 and thereafter.*

**NIH Notice Number: NOT-OD-06-058:** *Effective with PHS2590 progress reports submitted for due dates on/after June 1, 2006, the signature of the Principal Investigator is no longer required as a part of a submitted progress report. Instead, a new compliance requirement is now implemented whereby the grantee organization agrees to secure and retain at the organization a written assurance from the Principal Investigator (PI)\* prior to submitting a progress report to the PHS. While this assurance is no longer required as part of the submitted progress report, it remains a compliance requirement. Therefore, organizations must retain a unique signature and date for each submitted progress report. This assurance must be available to the sponsoring agency or other authorized HHS or Federal officials upon request.*

**\*When multiple PIs are proposed in an application, these assurances must be retained for all named PIs.**
