

Crossing the Channel, over the years

BWET-CTC

NOAA funded, Bay Watershed Education & Training grant, gives students insights into science

This program develops & implements experiential Santa Barbara Channel watershed programs for local students across academic levels

The ultimate goal of CTC is to cultivate a new community of Santa Barbara Channel Watershed stewards and transform the learning experiences of local students by building a collaborative professional network of local resources

Crossing the Channel, over the years

This project builds on the strong interdisciplinary and collaborative culture at CSUCI and applies it across academic levels to achieve excellence in STEM education by integrating real-world, project-based learning into a meaningful watershed educational experience.
