Annual Staff Awards and Faculty Commemoration

Thursday, April 4th marked the annual Staff Awards and Faculty Commemoration. Staff and Faculty joined together to recognize those who have reached milestone years of service in their careers at CSUCI. A number of staff and faculty celebrated their five, ten, or fifteen year anniversaries, while a handful are going on 20+ years! A few friendly faces below, and a list of all those celebrating can be found [here](#).

In addition to the awards for years of service, the third annual Staff Award for Excellence was awarded to a staff member who has gone above and beyond the normal scope of their work duties and serves as a role model for other staff.

2019 - Staff Excellence Award Recipient

RICKY MEDRANO

Mechatronics/Computer Science Lab Technician

A few words from Ricky's colleagues:

Ricky cares deeply for our students and the university. He is friendly, approachable, and is always willing to help with a ready smile. He's quick to jump in and help even when requests come from faculty outside of his designated programs. He serves as an example of hard work and perseverance to all staff and students. He is consistently on top of his duties, anticipating student and faculty needs ahead of time.

The labs are clean, the equipment is well cared for, categorized, inventoried, and stored until students need them. Instructors can now concentrate on teaching and research, instead of organizing the labs and ordering the equipment. In addition to maintaining the Computer Science labs, he also takes time to tutor students between their classes. This is just the tip of the iceberg in terms of how much Ricky has done for the department, which is why I am deeply grateful to have Ricky as the technician and to nominate him for this award.

The CI Staff Council would like to share a big **THANKYOU** to the following folks for taking the time out of their busy day to make this year's Staff Awards and Faculty Commemoration an event to enjoy!
