**ACCESSIBILITY**

**QUICK TIPS**

**CAPTIONED VIDEOS**
Captioned videos offer equal opportunities to students with disabilities, ensuring institutions comply with the Americans with Disabilities Act (ADA) section 504.

**COLOR CONTRAST**
Color contrast simply helps the readers distinguish objects from each other as well as guide their attention as they navigate content.

**HEADING STRUCTURE**
Heading structure helps the reader grasp the main idea of your post and makes your site look and feel professional.

**ALT ATTRIBUTES**
Alternative Text or Alt Text provides a description of the images on your website, aiding those with visual impairments.

**ACCESSIBLE TABLES**
If incorporating tables within your site, make sure that they are labeled correctly so that assistive tech can accurately read the information displayed.
