The experiences I had at CSUCI helped prepare me for the career of my dreams. From traveling to Japan to do tsunami restoration at the Fukushima Nuclear Power Plant, to the philanthropy projects as President of the Zeta Phi Omega (philanthropic) sorority, I had many things that made me stand out from other applicants to medical school.

Noelle Boudro, B.S. Biology ’12
Doctor of Physical Therapy (DPT) at Glendale Adventist Medical Center

While studying at CSUCI, one of my professors told me ‘When you know better, you do better.’ In my job today, I know that I am called to give back and lead others to end youth homelessness. I pursue becoming a better person today for tomorrow’s pursuits.

Jevon Wilkes, B.A. Communication ’12
Executive Director, California Coalition for Youth

I started my Android development through a one-on-one directed study with a great professor. After graduation, I worked locally in Ventura County for tech companies, honing my skills. My education and experience prepared me for a great job as a Software Engineer at Google.

Daniel Vournazos, B.S. Computer Science & Mathematics ’14
Android Software Engineer, Google

The CSU has temporarily suspended the use of ACT/SAT examinations in determining admission eligibility for Fall 2022. Students are encouraged to take the exams for Math and English placement. Please check for dates and deadlines go.csuci.edu/AdmittedFreshmen

Note: If you have taken coursework from an institution outside the United States, your transcript must be evaluated by a credentials evaluation service, such as the International Education Research Foundation (www.ierf.org). A detailed report by the credentials evaluation service is required in order for us to determine admissibility.
Applying to CSUCI

What are CSUCI's admission requirements?
